**Minutes
State Board of Investment
June 10, 2009**

The State Board of Investment (SBI) met at 9:00 A.M. Wednesday, June 10, 2009 in Room 123, State Capitol, St. Paul, Minnesota. Governor Tim Pawlenty; State Auditor Rebecca Otto; Secretary of State Mark Ritchie and Attorney General Lori Swanson were present.

The minutes of the March 11, 2009 meeting were approved.

Executive Director's Report

Mr. Bicker, Executive Director, referred members to Tab A of the meeting materials and he reported that the Combined Funds had slightly trailed its Composite Index over the ten year period ending March 31, 2009 (Combined Funds 1.8% vs. Composite 1.9%), and had provided a real rate of return over the latest 20 year period (Combined Funds 7.6% vs. CPI 2.8%). He stated that the Basic Funds had matched its Composite Index (Basic Funds 1.9% vs. Composite 1.9%) over the last ten years and reported that the Post Fund had also matched its composite over the last ten-year period (Post Fund 1.8% vs. Composite 1.8%).

Mr. Bicker reported that the Basic Funds' assets decreased 5.8% for the quarter ending March 31, 2009 due to negative investment returns. He reported that the Basic Funds outperformed its Composite Index for the quarter (Basic Funds -7.9% vs. Composite -8.4%) and matched it for the year (Basic Funds -27.7% vs. Composite -27.7%).

Mr. Bicker reported that the market value of the Post Fund's assets decreased 11.3% for the quarter ending March 31, 2009, due to both negative contributions and negative investment returns. He explained that no new cash flows are going into the Post Fund because it is merging with the Basic Funds on June 30, 2009. He stated that the Post Fund outperformed its Composite Index for the quarter (Post Fund -7.1% vs. Composite -7.5%) and underperformed for the year (Post Fund -27.1% vs. Composite -26.1%).

Mr. Bicker reported that the domestic stock manager group outperformed its target for the quarter (Domestic Stock -10.5% vs. Domestic Equity Asset Class Target -10.8%) and slightly underperformed for the year (Domestic Stocks -38.3% vs. Domestic Equity Asset Class Target -38.2%). He said the International Stock manager group outperformed its Composite Index for the quarter (International Stocks -10.5% vs. International Equity Asset Class Target -10.7%) and for the year (International Stocks -46.0% vs. International Equity Asset Class Target -46.4%). Mr. Bicker stated that the bond segment outperformed its target for the quarter (Bonds 0.9% vs. Fixed Income Asset Class Target 0.1%) and underperformed for the year (Bonds -3.4% vs. Fixed Income Asset Class Target 3.1%). He noted that bond performance suffered due to the managers' underweighting in government securities. He noted that the alternative investments returned -11.3% for the year. He concluded his report with the comment that as of March 31, 2009, the SBI was responsible for over \$43 billion in assets.

Mr. Bicker referred members to Tab B of the meeting materials for an update on the budget and travel for the quarter.

Legislative Update

Mr. Bicker updated members on legislative items of interest to the SBI. He stated that legislation has been passed related to Iran divestment. He noted that the legislation takes effect on August 1, 2009 and that staff will be working to implement the mandates outlined in the bill. He added that staff will update the Board on a quarterly basis, much like it does for the Sudan legislation as reported in Tab B.

Mr. Bicker stated that legislation passed relating to the establishment of a statewide fire relief association plan. He said that the SBI will establish a new investment option in the Supplemental Investment Fund for this plan and that staff will bring a recommendation for Board approval at the September 2009 meeting.

Mr. Bicker reminded members of the upcoming merger of the Basics and Post Funds on June 30, 2009, and he noted that legislation also passed that eliminates references to the Post Retirement Fund in various sections of statute. He reported that legislation passed to create an endowment fund related to the Stillwater Lift Bridge, and he said staff will be working with MnDOT to establish the fund.

Litigation Update

Ms. Heyl reported that the State has amended its claim in the Lehman bankruptcy proceedings, and she noted that the case is proceeding.

SBI Administrative Committee Report

Ms. Kardell referred members to Tab C of the meeting materials and briefly reviewed the four recommendations from the Committee: to approve the Executive Director's proposed Workplan for FY10, to approve the Budget Plan for FY10, to approve the Continuing Fiduciary Education Plan, and to approve the Executive Director's Evaluation Process. She noted that the report also included an informational item that staff had updated the SBI's Disaster Recovery Plan. Mr. Ritchie moved approval of the Committee's four recommendations, as stated in the Committee Report, which reads: **"The Committee recommends that the SBI approve the FY10 Executive Director's Workplan. Further, the Committee recommends that the workplan serve as the basis for the Executive Director's performance evaluation for FY10.**

The Committee recommends that the SBI approve the FY10 Administrative Budget Plan, as presented to the Committee, and that the Executive Director have the flexibility to reallocate funds between budget categories if the Executive Director deems necessary.

The Committee recommends that the SBI adopt the attached Continuing Fiduciary Education Plan.

The Committee recommends that the SBI adopt the following process for the Executive Director's FY09 performance evaluation:

- The evaluation will be completed prior to the September 2009 meeting of the SBI and will be based on the results of the Executive Director's workplan for FY09.
- The SBI deputies/designees will develop an appropriate evaluation form for use by each member, which will reflect the categories in the Executive Director's position description and workplan.
- The Governor's representative (Department of Finance), will coordinate distribution and collection of the evaluation forms and will forward the completed forms to the Executive Director. Board members are encouraged to meet individually with the Executive Director to review their own evaluation." The motion passed.

Investment Advisory Report

Mr. Bailey referred members to Tab D of the meeting materials and stated that staff and the IAC are recommending the termination of UBS as an international equity manager due to concerns about staff turnover, performance issues and asset losses. Ms. Swanson moved approval of the recommendation, as stated in Tab D which reads: **"The SBI staff and the IAC are concerned by the continued amount of turnover on UBS' global equity investment team, the lack of clearly defined roles for the new global sector analysts, the continued asset loss in the product, and the persistent underperformance of the stock selection strategy particularly in Japan. The SBI staff and the IAC recommend that the Board terminate its relationship with UBS for the international equity mandate."** The motion passed.

Mr. Bailey stated that staff and the IAC are also recommending a proposed fixed income investment in the U.S. Treasury Department's Public-Private Investment Program (PPIP). He explained that all the details of the program are not available yet and that staff is requesting contingent approval. He noted that, if time allows, staff will bring a final recommendation back to the Board for its approval, but that, if there is not time, the Administrative Committee would approve the final recommendation. In response to several questions from Governor Pawlenty, a discussion followed with Mr. Bailey providing members with additional information on how the program will potentially be set up. In response to a question from Ms. Swanson, Mr. Bicker reminded members that each Board member has a designee on the Administrative Committee. Mr. Ritchie moved approval of the recommendation, as stated in Tab D, which reads: **"The IAC recommends the Board approve an investment of up to one percent of the Combined Funds assets with one or more managers in the Legacy Securities Program of the U.S. Treasury Public-Private Investment Program. The assets would come from the current fixed income portfolio. After staff has completed its due diligence of the program and has determined if it is an appropriate investment for the SBI, and if time allows, staff will bring a detailed recommendation to the**

Board in September for final approval. If there is not time to bring a recommendation to the Board, a meeting of the Administrative Committee will be called to review and approve staff recommendations.” The motion passed.

Mr. Bicker referred members to a memo he distributed (see **Attachment A**) and stated that staff has been notified by Voyageur Asset Management that they are closing the large cap growth product in which the SBI invests approximately \$30 million. He said that staff is recommending the termination of Voyageur for this portfolio. Ms. Otto moved approval of the recommendation, as stated in Attachment A. The motion passed.

Mr. Bailey referred members to Tab E of the meeting materials and stated that staff and the IAC are recommending a new investment with an existing yield-oriented manager, Merit Capital, and a new investment with an existing private equity manager, Lexington Capital Partners. Ms. Otto moved approval of both recommendations, as stated in Tab E, which states: **“The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI’s legal counsel, to negotiate and execute a commitment of up to \$50 million or 20%, whichever is less, in Merit Mezzanine V, L.P. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Merit upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Merit or reduction or termination of the commitment.**

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI’s legal counsel, to negotiate and execute a commitment of up to \$50 million or 20%, whichever is less, in Lexington Capital Partners VII, L.P. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Lexington Capital Partners upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Lexington Capital Partners or reduction or termination of the commitment.” The motion passed.

The meeting adjourned at 9:35 A.M.

Respectfully submitted,

Howard Bicker
Executive Director

An Equal Opportunity
Employer

DATE: June 10, 2009

TO: Members, State Board of Investment

FROM: Howard Bicker *HJB*
Teresa J. Richardson *TJR*

SUBJECT: Recommendation to terminate the large-cap equity management with Voyageur Asset Management Inc.

Organization

The SBI hired Voyageur Asset Management (Voyageur) in June 2000 to manage a large-cap domestic equity portfolio. Voyageur lifted the large-cap growth team out of Chicago Trust Company in 1999 and the team remained in Chicago. The Voyageur Chicago investment office is a wholly owned division of Voyageur Asset Management Inc.

In July 2008, David Cox, co-portfolio manager and CIO of the Chicago Equity team, abruptly resigned. Nancy Scinto, David's co-portfolio manager, has continued to manage the account with a new co-portfolio manager, Gordon Telfer.

Voyageur notified SBI staff on June 4, 2009 that they are closing the large cap growth product. The product currently has \$850 million in assets under management down from a peak of just under \$7 billion during 2006.

The Chicago office will be open through October 2009 to allow clients time to move their portfolios.

RECOMMENDATION:

Staff recommends that the SBI immediately terminate its relationship with Voyageur Asset Management Inc. for investment management services related to large-cap domestic equities.

SUMMARY OF ACTUARIAL VALUATIONS

All Eight Plans of MSRS, PERA and TRA Including Post Fund July 1, 2008

	Active (Basics)	Retired (Post)	Total (Combined)
Liabilities			
Actuarially Accrued Liabilities	\$28.92 billion	\$28.89 billion	\$57.81 billion
Assets			
Current Actuarial Value	\$24.11 billion	\$22.96 billion	\$47.07 billion
Funding Ratio			
Current Actuarial Value divided by Accrued Liabilities	83.4%	79.5%	81.4%

Notes:

1. Liabilities calculated using entry age normal cost method.
2. Difference between actual returns and actuarially expected returns spread over five years for Basics.

Actuarial Assumptions:

Interest/Discount Rate:

8.5% Basics, 8.5% Post (6% on required reserves, 2.5% on inflation)

Full Funding Target Date:

2020 – MSRS General

2031 – PERA General

2037 – TRA

EXECUTIVE SUMMARY
Basic Retirement Funds (Net of Fees)

Asset Growth

The market value of the Basic Funds increased 109% during the second quarter of 2009. The bulk of the increase was due to the merging of Basics and Post Funds. See Page V for additional information.

Asset Growth
During Second Quarter 2009
(Millions)

Beginning Value	\$ 17,181
Net Contributions	16,956
Investment Return	1,747
Ending Value	\$ 35,884

Asset Mix

The allocation to domestic and international stocks increased due to strong equity markets. The fixed income allocation increased as a result of the merger with the Post Fund. See Page V.

	Policy Targets	Actual Mix 6/30/2009	Actual Market Value (Millions)
Domestic Stocks	45.0%	44.6%	\$15,999
Int'l. Stocks	15.0	16.3	5,857
Bonds	19.0	22.3	7,995
Alternative Assets*	20.0	14.8	5,316
Unallocated Cash	1.0	2.0	717
	100.0%	100.0%	\$35,884

* Any uninvested allocation is held in domestic bonds.

Fund Performance (Net of Fees)

The Basic Funds outperformed its target for the quarter, but underperformed for the year.

	Period Ending 6/30/2009*				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Basics	10.5%	-19.6%	-3.2%	2.6%	2.4%
Composite	10.1	-19.5	-3.0	2.7	2.4

*Note: Performance of Basic through June 29 and performance of merged Fund through June 30.

EXECUTIVE SUMMARY
Post Retirement Fund (Net of Fees)

Asset Growth

The Post merged with the Basic Fund and no longer exists. See Page V for additional information.

Asset Growth
During Second Quarter 2009
(Millions)

Beginning Value	\$15,619
Net Contributions	-17,471
Investment Return	1,852
Ending Value	\$0

Asset Mix

The Post Fund no longer has an asset allocation, due to the merger with the Basic Funds. See Page V.

Fund Performance (Net of Fees)

The Post Fund outperformed its target for the quarter, but underperformed for the year. See Page V.

	Period Ending 6/29/2009*				
		Annualized			
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Post	12.2%	-17.5%	-2.6%	2.7%	2.5%
Composite	11.4	-16.8	-2.0	3.0	2.5

*Note: Performance figures are through June 29, 2009.

EXECUTIVE SUMMARY

Stock and Bond Manager Performance (Net of Fees)

Domestic Stocks

The domestic stock manager group (active, semi-passive and passive combined) outperformed its target for the quarter and underperformed for the year.

Russell 3000: The Russell 3000 measures the performance of the 3,000 largest U.S. companies based on total market capitalization.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Dom. Stocks	17.2%	-26.9%	-8.7%	-2.1%	-2.0%
Asset Class Target*	16.8	-26.6	-8.3	-1.8	-1.8

* The Domestic Equity Asset Class Target is the Russell 3000 effective 10/1/03. From 7/1/99 to 9/30/03, it was the Wilshire 5000 Investable Index.

International Stocks

The international stock manager group (active, semi-passive and passive combined) underperformed its target for the quarter and for the year.

MSCI ACWI Free ex U.S. (net): The Morgan Stanley Capital International All Country World Index is a free float-adjusted market capitalization Index that is designed to measure equity market performance in the global developed and emerging markets. There are 45 countries included in this index. It does not include the United States.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Int'l. Stocks	27.0%	-31.0%	-5.7%	4.5%	2.6%
Asset Class Target*	27.6	-30.9	-5.7	4.5	2.4

* Since 6/1/08 the International Equity Asset Class Target is the Standard MSCI ACWI ex U.S. (net). From 10/1/07 to 5/31/08 the benchmark was the Provisional Standard MSCI ACWI ex U.S. (net). From 10/1/03 to 9/30/07 the target was MSCI ACWI ex U.S. (net). From 1/1/01 to 9/30/03, the target was MSCI EAFE Free (net) + Emerging Markets Free (EMF) (net), and from 7/1/99 to 12/31/00 was MSCI EAFE Free (net) + EMF (gross). From 7/1/99 to 9/30/03, the weight of each index fluctuated with market cap.

Bonds

The bond manager group (active and semi-passive combined) outperformed its target for the quarter and underperformed for the year.

Barclays Capital Aggregate: The Barclays Capital Aggregate Bond Index reflects the performance of the broad bond market for investment grade (Baa or higher) bonds, U.S. treasury and agency securities, and mortgage obligations with maturities greater than one year.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Bonds	5.3%	2.5%	4.3%	4.0%	5.6%
Asset Class Target*	1.8	6.0	6.4	5.0	6.0

* The Fixed Income Asset Class Target is the Barclays Capital Aggregate, effective 7/1/1994.

Alternative Investments

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Alternatives	-7.4%	-18.0%	5.3%	16.4%	12.7%

EXECUTIVE SUMMARY
Funds Under Management

	6/30/2009 Market Value (Billions)
Retirement Funds	
Combined Funds	\$35.9
Supplemental Investment Fund	0.9
State Deferred Compensation Plan Non-SIF Assets	3.1
Minneapolis Employees Retirement Fund (MERF)	0.8
Non-Retirement Funds	
Assigned Risk Plan	0.3
Permanent School Fund	0.6
Environmental Trust Fund	0.4
State Cash Accounts	5.4
Miscellaneous Accounts	0.5
Total	\$47.9

The retirement assets under the authority of the Minnesota State Board of Investment have been managed as two pools of assets, with distinct asset allocation policies. One pool of assets, the Basic Retirement Funds (Basics), is made up of the assets of active employees, and the other pool of assets, the Post Retirement Fund (Post), is made up of assets of retired employees.

The 2008 Legislature enacted legislation that established specific minimum funding levels for the Post Retirement Fund. The legislation mandated that if the funding level of the Post fell below a certain percentage, the Post and Basic Funds would merge at the end of the following fiscal year. This event was triggered, and the Post was acquired by the Basics on June 30, 2009. In order to effect this transaction on June 30th, as required by the legislation, the Post was transferred using a value as of the close of business on June 29, 2009. As a result, the Post has a market value of zero as of the last day of the fiscal year, June 30, 2009. All performance reported for the Post is through June 29, 2009. All performance reported for the Basics is through June 30, 2009. The Combined Funds performance includes the performance of all retirement assets through June 30th.

Going forward, the Combined Funds will have a distinct policy asset allocation, which differs from the historic policy asset allocation of either the Basics or the Post. The new policy asset allocation of the Combined Funds was approved by the Board on December 10, 2008, and is as follows:

Domestic Equity	45%
International Equity	15%
Alternatives	20%
Fixed Income	18%
Cash	2%

FINANCIAL MARKETS REVIEW

DOMESTIC STOCKS

The U.S. stock market, as measured by the Russell 3000 index, posted a 16.8% return during the second quarter of 2009. The second quarter was one of the strongest on record in the equity markets as the federal government's unprecedented effort to revive the economy gained traction. The rally, which started from the market low in early March, continued through most of the second quarter and tapered off in June. Within the Russell 3000, Financial Services was the best performing sector, up 27.5%, and Integrated Oils was the worst performing sector with a 3.2% return for the quarter. Small cap companies outperformed large cap companies within the Russell 3000.

Performance of the Russell Style Indices for the quarter is shown below:

Large Growth	Russell 1000 Growth	16.3%
Large Value	Russell 1000 Value	16.7%
Small Growth	Russell 2000 Growth	23.4%
Small Value	Russell 2000 Value	18.0%

The Russell 3000 index returned -26.6% for the year ending June 30, 2009.

DOMESTIC BONDS

The economy began to show signs of stabilization in the second quarter, and the financial markets responded by putting money to work. The bond market posted a return of 1.8% as measured by the Barclays Capital Aggregate Index. The corporate sector posted a record performance in April, then followed that with near record-breaking performance in May. The CMBS sector was volatile, but was supported by pent up demand spurred by the Treasury's TALF and PPIP programs as well as the creation of Re-REMIC securities which have significantly more credit enhancement than past versions of these bonds. The non-Agency MBS market has also continued to gradually improve as buyers have taken advantage of cheap levels. The Fed has maintained its support of the Agency MBS market as they continue with their plan to purchase a total of \$1.4 trillion in Agency MBS by the end of the year.

The major sector returns for the Barclays Capital Aggregate for the quarter were:

U.S. Treasury	-3.0%
Agency	0.1
Corporates	10.5
Agency MBS	0.7
Commercial Mortgages	12.5
Asset-backed	7.6

PERFORMANCE OF CAPITAL MARKETS
Cumulative returns

FINANCIAL MARKETS REVIEW

INTERNATIONAL STOCKS

In aggregate, developed international stock markets (as measured by the MSCI World ex U.S. index) provided a return of 25.9% for the quarter. The quarterly performance of the six largest stock markets is shown below:

Japan	23.1%
United Kingdom	26.6
France	21.5
Canada	30.5
Germany	23.5
Switzerland	16.3

The World ex U.S. index returned -31.6% during the last year.

The World ex U.S. index is compiled by Morgan Stanley Capital International (MSCI) and is a measure of 22 markets located in Europe, Australasia, Far East, and Canada. The major markets listed above comprise about 73% of the value of the international markets in the index.

EMERGING MARKETS

Emerging markets (as measured by MSCI Emerging Markets Free index) provided a return of 34.8% for the quarter. The quarterly performance of the six largest stock markets in the index is shown below:

China	35.8%
Brazil	41.0
Korea	25.1
Taiwan	25.0
India	59.8
South Africa	31.3

The Emerging Markets Free index returned -27.8% during the last year.

The Emerging Markets Free (EMF) index is compiled by MSCI and measures performance of 22 stock markets in Latin America, Asia, Africa and Eastern Europe. EMF includes only those securities foreign investors are allowed to hold. The markets listed above comprise about 73% of the value of the international markets in the index.

REAL ESTATE

The global real estate market continues to remain extremely weak. Suffering from the sub-prime crisis of 2007, the real estate market continues to be restrained by a lack of newly available debt liquidity. Residential real estate transactions volumes improved in the second quarter; however prices continue to deteriorate primarily due to distressed selling. The commercial real estate market is believed to be well behind the residential market in terms of a correction. Real estate firms with opportunistic or value added strategies performed worse in the second quarter than firms with core or income focused real estate strategies.

PRIVATE EQUITY

During the second quarter, U.S. private equity deal volume totaled \$5 billion, representing 126 deals. This was a significant decrease from the 158 deals totaling \$23 billion in the comparable period during 2008. However, second quarter U.S. buyout activity increased 30% over the first quarter of 2009 activity, offering some hope that deal activity had found a bottom. The first half of 2009 was the slowest six-month private equity investment period since 2002. Capital markets activity rebounded in the second quarter with U.S. IPO and high yield credit issuance volume up from the dismal first quarter. Despite significant capital market improvements, the market for new issues has a long way to go before a real recovery.

RESOURCE FUNDS

During the second quarter of 2009, crude oil averaged \$61 per barrel, up from the average price of \$43 per barrel during the first quarter. Oil prices bottomed around the \$30/bbl level earlier in the year which was primarily due to the global economic slowdown. The rebound has been credited mainly to inflationary concerns and a weak U.S. dollar. Overall, crude oil inventories remain high but are decreasing due to substantial cuts in OPEC supply, which should benefit prices in the longer-term. Natural gas prices remain weak and should have continued downward movement due to oversupply concerns and the overall recessionary environment. While a decreased rig count and natural decline rates in production should eventually help curb supply, these factors have not yet materially impacted the gas supply overhang.

COMBINED FUNDS

The "Combined Funds" represent the assets of both the Basic and Post Retirement Funds. While the Combined Funds do not exist under statute, the Board finds it instructive to review asset mix and performance of all defined benefit pension assets under its control. This more closely parallels the structure of other public and corporate pension plan assets and therefore allows for more meaningful comparison with other pension fund investors.

The comparison universe used by the SBI is the Trust Universe Comparison Service (TUCS). Only funds with assets over \$1 billion are included in the comparisons shown in this section.

Asset Mix Compared to Other Pension Funds

On June 30, 2009, the actual asset mix of the Combined Funds was:

	\$ Millions	%
Domestic Stocks	\$15,999	44.6%
International Stocks	5,857	16.3
Bonds	7,995	22.3
Alternative Assets	5,316	14.8
Unallocated Cash	717	2.0
Total	\$35,884	100.0%

Comparisons of the Combined Funds' asset mix to the median allocation to stocks, bonds and other assets of the public and corporate funds in TUCS over \$1 billion are shown below:

	Dom. Equity	Int'l Equity	Bonds	Alternatives	Cash
Combined Funds	44.6%	16.3%	22.3%	14.8%	2.0%
Median Allocation in TUCS*	34.3	14.6	29.6	11.4**	3.6

* Public and corporate plans over \$1 billion.
 ** May include assets other than alternatives.

**COMBINED FUNDS
Performance Compared to Other Pension Funds**

While the SBI is concerned with how its returns compare to other pension investors, universe comparisons should be used with great care. There are several reasons why such comparisons will provide an “apples to oranges” look at performance:

- **Differing Allocations.** Asset allocation will have a dominant effect on return. The allocation to stocks among the funds in TUCS typically ranges from 20-90%, a very wide range for meaningful comparison. In addition, it appears that many funds do not include alternative asset holdings in their reports to TUCS. This further distorts comparisons among funds.
- **Differing Goals/Liabilities.** Each pension fund structures its portfolio to meet its own liabilities and risk tolerance. This will result in different choices on asset mix. Since asset mix will largely determine investment results, a universe ranking is not relevant to a discussion of how well a plan sponsor is meeting its long-term liabilities.

With these considerations in mind, the performance of the Combined Funds compared to other public and corporate pension funds in Trust Universe Comparison Service (TUCS) are shown below.

The SBI’s returns are ranked against public and corporate plans with over \$1 billion in assets. All funds in TUCS report their returns gross of fees.

Combined Funds	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Percentile Rank in TUCS*	39th	57th	57th	39th	70th

* Compared to public and corporate plans greater than \$1 billion, gross of fees.

**COMBINED FUNDS
Performance Compared to Composite Index**

The Combined Funds' performance is evaluated relative to a composite of market indices. The composite is weighted in a manner that reflects the asset allocation of the Combined Funds:

	Market Index	Combined Funds Composite* 2Q09
Domestic Stocks	Russell 3000	43.8%*
Int'l. Stocks	MSCI ACWI Free ex-U.S.	15.0
Bonds	Barclays Capital Aggregate	21.8
Alternative Investments	Alternative Investments	17.4*
Unallocated Cash	3 Month T-Bills	2.0
		100.0%

* Alternative asset and domestic equity weights are reset in the composite at the start of each month to reflect the amount of unfunded commitments in alternative asset classes. The above Combined Funds Composite weighting was as of the beginning of the quarter.

Period Ending 6/30/2009

	Qtr.	1 Yr.	3 Yr.	Annualized 5 Yr.	10 Yr.
Combined Funds**	11.1%	-18.8%	-3.0%	2.6%	2.4%
Composite Index	10.5	-18.4	-2.6	2.8	2.4

** Actual returns are reported net of fees.

STOCK AND BOND MANAGERS
Performance of Asset Pools (Net of Fees)

Domestic Stocks

Target: Russell 3000

Expectation: If one-third of the pool is actively managed, one-third is semi-passively managed, and one-third is passively managed, the entire pool is expected to exceed the target by .18% - .40% annualized, over time.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Domestic Stocks	17.2%	-26.9%	-8.7%	-2.1%	-2.0%
Asset Class Target*	16.8	-26.6	-8.3	-1.8	-1.8

* The Domestic Equity Asset Class Target is the Russell 3000 effective 10/1/03. From 7/1/99 to 9/30/03, it was the Wilshire 5000 Investable Index.

International Stocks

Target: MSCI ACWI Free ex U.S. (net)

Expectation: If at least one-third of the pool is managed actively, no more than one-third is semi-passively managed, and at least one-quarter is passively managed, the entire pool is expected to exceed the target by .25% - .75% annualized, over time.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Int'l. Stocks	27.0%	-31.0%	-5.7%	4.5%	2.6%
Asset Class Target*	27.6	-30.9	-5.7	4.5	2.4

* The Int'l Equity Asset Class Target is MSCI ACWI Free ex U.S. (net) effective 10/1/03. From 1/1/01 to 9/30/03, the target was MSCI EAFE Free (net) + Emerging Markets Free (EMF) (net), and from 7/1/99 to 12/31/00 was MSCI EAFE Free (net) + EMF (gross). From 7/1/99 to 9/30/03, the weight of each index fluctuated with market cap.

Bonds

Target: Barclays Capital Aggregate Bond Index

Expectation: If half of the pool is actively managed and half is managed semi-passively, the entire pool is expected to exceed the target by .20% - .35% annualized, over time.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Bonds	5.3%	2.5%	4.3%	4.0%	5.6%
Asset Class Target	1.8	6.0	6.4	5.0	6.0

ALTERNATIVE INVESTMENTS

Performance of Asset Categories (Net of Fees)

Alternative Investments

Expectation: The alternative investments are measured against themselves using actual portfolio returns.

	Period Ending 6/30/2009				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Alternatives	-7.4%	-18.0%	5.3%	16.4%	12.7%
Inflation	1.4%	-1.4%	2.1%	2.4%	2.6%

Real Estate Investments (Equity emphasis)

Expectation: Real estate investments are expected to exceed the rate of inflation by 5% annualized, over the life of the investment.

The SBI began its real estate program in the mid-1980's and periodically makes new investments. Some of the existing investments are relatively immature and returns may not be indicative of future results.

	Period Ending 6/30/2009				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Real Estate	-14.7%	-23.8%	1.8%	8.9%	9.1%

Private Equity Investments (Equity emphasis)

Expectation: Private equity investments are expected to exceed the rate of inflation by 10% annualized, over the life of the investment.

The SBI began its private equity program in the mid-1980's and periodically makes new investments. Some of the existing investments are relatively immature and returns may not be indicative of future results.

	Period Ending 6/30/2009				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Private Equity	-5.3%	-21.3%	3.1%	14.7%	11.1%

Resource Investments (Equity emphasis)

Expectation: Resource investments are expected to exceed the rate of inflation by 5% annualized, over the life of the investment.

The SBI began its resource program in the mid-1980's and periodically makes new investments. Some of the existing investments are relatively immature and returns may not be indicative of future results.

	Period Ending 6/30/2009

Resource	-15.7%	-11.2%	15.6%	41.8%	26.6%

Yield Oriented Investments (Debt emphasis)

Expectation: Yield oriented investments are expected to exceed the rate of inflation by 5.5% annualized, over the life of the investment.

The SBI began its yield oriented program in 1994. Some of the existing investments are relatively immature and returns may not be indicative of future returns.

	Period Ending 6/30/2009				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Yield Oriented	-2.3%	-4.7%	12.0%	20.8%	16.3%

SUPPLEMENTAL INVESTMENT FUND

The Minnesota Supplemental Investment Fund is a multi-purpose investment program that offers a range of investment options to state and local public employees. The different participating groups use the Fund for a variety of purposes:

1. It functions as the investment manager for all assets of the Unclassified Employees Retirement Plan, Public Employees Defined Contribution Plan and Hennepin County Supplemental Retirement Plan.
2. It is one investment vehicle offered to employees as part of Minnesota State Colleges and University's Individual Retirement Account Plan and College Supplemental Retirement Plan.
3. It serves as an external money manager for a portion of some local police and firefighter retirement plans.

A wide diversity of investment goals exists among the Fund's participants. In order to meet those needs, the Fund has been structured much like a "family of mutual funds." Participants may allocate their investments among one or more accounts that are appropriate for their needs, within the statutory requirements and rules established by the participating organizations. Participation in the Fund is accomplished through the purchase or sale of shares in each account.

The investment returns shown in this report are calculated using a time-weighted rate of return formula. They are net of investment management fees.

On June 30, 2009 the market value of the entire Fund was \$0.9 billion.

Investment Options

	6/30/2009 Market Value (In Millions)
Income Share Account – a balanced portfolio utilizing both common stocks and bonds.	\$194
Growth Share Account – an actively managed, all common stock portfolio.	\$81
Common Stock Index Account – a passively managed, all common stock portfolio designed to track the performance of the entire U.S. stock market.	\$197
International Share Account – a portfolio of non U.S. stocks that incorporates both active and passive management.	\$90
Bond Market Account – an actively managed, all bond portfolio.	\$96
Money Market Account – a portfolio utilizing short-term, liquid debt securities.	\$174
Fixed Interest Account – a portfolio of guaranteed investment contracts (GIC's) and GIC type investments which offer a fixed rate of return for a specified period of time.	\$95

SUPPLEMENTAL INVESTMENT FUND ACCOUNTS

INCOME SHARE ACCOUNT

Investment Objective

The primary investment objective of the Income Share Account is similar to that of the Combined Funds. The Account seeks to maximize long-term real rates of return, while limiting short-run portfolio return volatility.

Asset Mix

The Income Share Account is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds act as a deflation hedge and provide portfolio diversification.

	Target	Actual
Stocks	60.0%	57.8%
Bonds	35.0	40.9

GROWTH SHARE ACCOUNT

Investment Objective

The Growth Share Account's investment objective is to generate above-average returns from capital appreciation on common stocks.

Asset Mix

The Growth Share Account is invested primarily in the common stocks of US companies. The managers in the account also hold varying levels of cash.

Period Ending 6/30/2009

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	17.3%	-27.1%	-9.0%	-2.4%	-2.3%

* Russell 3000 since 10/1/03. 100% Wilshire 5000 Investable from July 1999 to September 2003.

COMMON STOCK INDEX ACCOUNT

Investment Objective and Asset Mix

The investment objective of the Common Stock Index Account is to generate returns that track those of the U.S. stock market as a whole. The Account is designed to track the performance of the Russell 3000, a broad-based equity market indicator.

The Account is invested 100% in common stock.

Period Ending 6/30/2009

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	16.9%	-26.4%	-8.2%	-1.7%	-1.5%
Benchmark*	16.8	-26.6	-8.3	-1.8	-1.7

* Russell 3000 since 10/1/03. Wilshire 5000 Investable from 7/1/00 to 9/30/03. Wilshire 5000 through 6/30/00.

INTERNATIONAL SHARE ACCOUNT

Investment Objective and Asset Mix

The investment objective of the International Share Account is to earn a high rate of return by investing in the stock of companies outside the U.S. At least twenty-five percent of the Account is "passively managed" and up to 10% of the Account is "semi-passively managed." These portions of the Account are designed to track and modestly outperform, respectively, the return of 22 developed markets included in the Morgan Stanley Capital International World ex U.S. Index. The remainder of the Account is "actively managed" by several international managers and emerging markets specialists who buy and sell stocks in an attempt to maximize market value.

Period Ending 6/30/2009

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	27.2%	-30.8%	-5.5%	4.7%	2.8%
Benchmark*	27.6	-30.9	-5.7	4.5	2.4

* The Int'l Equity Asset Class Target is MSCI ACWI Free ex U.S. (net) since 10/1/03. From 1/1/01 to 9/30/03, the target was MSCI EAFE Free (net) + Emerging Markets Free (EMF) (net), and from 7/1/99 to 12/31/00 was MSCI EAFE Free (net) + EMF (gross). From 7/1/99 to 9/30/03, the weight of each index fluctuated with market cap.

SUPPLEMENTAL INVESTMENT FUND ACCOUNTS

BOND MARKET ACCOUNT**Investment Objective**

The investment objective of the Bond Market Account is to exceed the return of the broad domestic bond market by investing in fixed income securities.

Asset Mix

The Bond Market Account invests primarily in high-quality, government and corporate bonds that have intermediate to long-term maturities, usually 3 to 20 years.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	5.4%	2.4%	4.4%	4.0%	5.7%
Barclays Capital Aggregate	1.8	6.0	6.4	5.0	6.0

MONEY MARKET ACCOUNT**Investment Objective**

The investment objective of the Money Market Account is to purchase short-term, liquid debt securities that pay interest rates that are competitive with those available in the money market.

Asset Mix

The Money Market Account is invested entirely in high quality short-term investments such as U.S. Treasury Bills, bank certificates of deposit, repurchase agreements, and high grade commercial paper. The average maturity of these investments is 30 to 60 days.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	0.1%	1.3%	3.6%	3.4%	3.5%
3 month T-Bills	0.0	0.6	2.9	3.0	3.1

FIXED INTEREST ACCOUNT**Investment Objectives**

The investment objectives of the Fixed Interest Account are to protect investors from loss of their original investment and to provide competitive interest rates using somewhat longer term investments than typically found in a money market account.

Asset Mix

The assets in the Account are **invested primarily in stable value instruments** such as insurance company investment contracts, bank investment contracts, and security backed contracts. These instruments are issued by highly rated U.S. financial institutions, typically have maturities of 3-6 years and are rated "A" or better at the time of purchase. The interest rate credited will change, reflecting the blended interest rate available from all investments in the account including cash reserves which are maintained to provide liquidity. The Fixed Interest Benchmark in the 3 year Constant Maturity Treasury Bill +45 basis points.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	1.2%	4.7%	4.7%	4.5%	5.1%
Benchmark*	0.5	2.1	3.6	3.9	4.1

* The Fixed Interest Benchmark is the 3 year Constant Maturity Treasury Bill +45 basis points.

DEFERRED COMPENSATION PLAN ACCOUNTS

The Deferred Compensation Plan provides public employees with a tax-sheltered retirement savings plan that is a supplement to their primary retirement plan. (In most cases, the primary plan is a defined benefit plan administered by TRA, PERA, or MSRS.)

Participants choose from 6 actively managed mutual funds and 5 passively managed mutual funds.

The SBI also offers a money market option, a fixed interest option, and a fixed fund option. All provide for daily pricing needs of the plan administrator. Participants may also choose from hundreds of funds in a mutual fund window. The current plan structure became effective March 1, 2004. The investment options and objectives are outlined below.

MINNEAPOLIS EMPLOYEES RETIREMENT FUND

Investment Objectives

The Minneapolis Employees Retirement Fund (MERF) seeks to produce investment returns that are commensurate with high levels of liquidity and quality. The fund invests the retirement assets of Minneapolis employees and pays monthly benefits to retirees. SBI began management of MERF assets on October 1, 2008.

Asset Mix

MERF is invested in a portfolio of stocks and bonds. The actual asset mix will fluctuate in response to changes in the market value of the assets and due to any rebalancing activity.

Asset Mix 6/30/09

	\$ Thousands	% Target Allocation	% Actual Allocation
U.S. Equities	383,251	49.0	46.0
Non-U.S. Equities	169,109	21.0	20.3
Bonds	258,923	29.0	31.0
Cash	22,676	1.0	2.7
Total	833,958	100.0	100.0

Investment Management

SBI staff began management of all MERF assets on October 1, 2008. The bond and equity segments are managed to add incremental value through sector and security selection.

Performance

Quarterly performance through June 30, 2009 for MERF was **14.8%**

Market Value

On June 30, 2009, the market value of MERF was \$834 million.

ASSIGNED RISK PLAN

Investment Objectives

The Assigned Risk Plan has two investment objectives: to minimize the mismatch between assets and liabilities and to provide sufficient liquidity for the payment of on-going claims and operating expenses.

Asset Mix

The Assigned Risk Plan is invested in a portfolio of common stocks and bonds. The actual asset mix will fluctuate in response to changes in the Plan's liability stream.

	6/30/2009 Target	6/30/2009 Actual
Stocks	20.0%	16.8%
Bonds	80.0	83.2
Total	100.0%	100.0%

Investment Management

Voyageur Asset Management manages the bond segment of the Fund. GE Investment Management manages the equity segment.

Performance Benchmarks

A custom benchmark has been established for the fixed income portfolio. It reflects the duration of the liability stream and the long-term sector allocation of Voyageur Asset Management. Since July 1, 1994, the equity benchmark has been the S&P 500 index. The total fund benchmark is a combination of the fixed income and equity benchmarks, weighted according to the total fund asset allocation targets.

Market Value

On June 30, 2009 the market value of the Assigned Risk Plan was \$303 million.

Period Ending 6/30/2009

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Fund*	3.6%	-3.4%	1.7%	2.4%	3.6%
Composite	3.1	-0.5	4.0	3.8	4.3
Equity Segment*	18.8	-21.5	-4.5	-0.4	-0.4
Benchmark	15.9	-26.2	-8.2	-2.2	-2.2

Benchmark	-1.0	6.7	7.0	5.2	5.7

* Actual returns are calculated net of fees.

PERMANENT SCHOOL FUND

Investment Objectives

The investment objective of the Permanent School Fund is to produce a growing level of spendable income, within the constraints of maintaining adequate portfolio quality and liquidity. The income from the portfolio is used to offset expenditures on school aid payments to local school districts.

Asset Mix

Effective with FY98, the Permanent School Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds provide portfolio diversification and a more stable stream of current income.

	6/30/2009 Target	6/30/2009 Actual
Stocks	50.0%	49.9%
Bond	48.0	48.2
Cash	2.0	1.9
Total	100.0%	100.0%

Prior to FY98, the Fund was invested entirely in fixed income securities in order to maximize current income. It is understood that the change in asset mix will reduce portfolio income in the short term, but will enhance the value of the fund, over time.

Investment Management

SBI staff manages all assets of the Permanent School Fund. The stock segment is passively managed to track the performance of the S&P 500. The bond segment is actively managed to add incremental value through sector, security and yield curve decisions.

Market Value

On June 30, 2009 the market value of the Permanent School Fund was \$614 million.

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Fund (1) (2)	9.4%	-9.3%	-0.3%	2.1%	2.3%
Composite	8.7	-11.2	-1.0	1.5	2.1
Equity Segment (1) (2)	15.9	-25.9	-8.1	-2.2	-2.1
S&P 500	15.9	-26.2	-8.2	-2.2	-2.2
Bond Segment (1)	3.9	8.5	7.2	5.8	6.5
Barclays Capital Agg.	1.8	6.0	6.4	5.0	6.0

(1) Actual returns are calculated net of fees.
 (2) Equities were added to the asset mix for FY98. Prior to that date the fund was invested entirely in bonds. The composite Index has been weighted accordingly.

ENVIRONMENTAL TRUST FUND

Investment Objective

The objective of the Environmental Trust Fund is to increase the market value of the Fund over time in order to increase the annual amount made available for spending.

Asset Mix

The Environmental Trust Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds act as a deflation hedge and provide portfolio diversification. As of July 1, 1999, the asset

allocation changed from 50% stocks/50% fixed income to 70% stocks /30% fixed income.

Investment Management

SBI staff manage all assets of the Environmental Trust Fund. The bond segment is actively managed to add incremental value through sector, security and yield curve decisions. The stock segment is passively managed to track the performance of the S&P 500.

Market Value

On June 30, 2009 the market value of the Environmental Trust Fund was \$402 million.

	6/30/2009 Target	6/30/2009 Actual
Stocks	70.0%	70.2%
Bonds	28.0	28.0
Cash	2.0	1.8
Total	100.0%	100.0%

	Period Ending 6/30/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Fund*	12.1%	-15.6%	-3.1%	0.6%	0.7%

Bond Segment*	3.9	8.3	7.2	5.8	6.5
Barclays Capital Agg.	1.8	6.0	6.4	5.0	6.0

* Actual returns are calculated net of fees.

CLOSED LANDFILL INVESTMENT FUND

Investment Objectives

The investment objective of the Closed Landfill Investment Fund is to generate high returns from capital appreciation. The Fund will be used by the Commissioner of the PCA (Pollution Control Agency) to pay for the long-term costs of maintaining the integrity of landfills in Minnesota once they are closed. However, by statute, the assets of the Fund are unavailable for expenditure until after fiscal year 2020.

Investment Management

SBI staff manage all assets of the Closed Landfill Investment Fund. The assets are managed to passively track the performance of the S&P 500 index.

Market Value

On June 30, 2009, the market value of the Closed Landfill Investment Fund was \$37.7 million.

Asset Mix

Effective July 1999, the Closed Landfill Investment Fund is invested entirely in common stock. Given the long time horizon of this Fund and the lack of need for any short or mid-term withdrawals, this strategy will maximize the long-term gain of the Fund.

Period Ending 6/30/2009

	Qtr.	1 Yr.	3 Yr.	5 Yr.	Since 7/1/1999
Total Fund (1)	15.9%	-25.8%	-8.0%	-2.1%	-2.2%
S&P 500 (2)	15.9	-26.2	-8.2	-2.2	-2.3

- (1) Actual returns are calculated net of fees.
- (2) The benchmark of the fund is the S&P 500. The portfolio was initially invested in mid July 1999. The benchmark was adjusted to reflect this mid month starting period.

STATE CASH ACCOUNTS

Description

State Cash Accounts represent the cash balances in more than 400 separate accounts that flow through the Minnesota State Treasury. These accounts range in size from \$5,000 to over \$400 million.

Most accounts are invested by SBI staff through two short-term pooled funds:

1. Trust Fund Pool contains the temporary cash balances of certain trusts and retirement-related accounts.
2. Treasurer's Cash Pool contains the cash balances of special or dedicated accounts necessary for the operation of certain State agencies and non dedicated cash in the State Treasury.

In addition, each State of Minnesota bond sale requires two additional pools; one for bond proceeds and one for the debt reserve transfer.

Because of special legal restrictions, a small number of cash accounts cannot be commingled. These accounts are invested separately.

Investment Objectives

Safety of Principal. To preserve capital.

Competitive Rate of Return. To provide a high level of current income.

Liquidity. To meet cash needs without the forced sale of securities at a loss.

Asset Mix

The SBI maximizes current income while preserving capital by investing all cash accounts in high quality, liquid short term investments. These include U.S. Treasury and Agency issues, repurchase agreements, bankers acceptances, commercial paper, and certificates of deposit.

Investment Management

All state cash accounts are managed by the SBI investment staff. As noted above, most of the assets of the cash accounts are invested through two large commingled investment pools.

	Market Value (Millions)	Period Ending 6/30/2009				
		Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.

3 month T-Bills		0.0	0.6	2.9	3.0	3.1

* Actual returns are calculated net of fees.

** Beginning in January 2003, the Treasurer's Cash Pool is measured against the iMoneyNet, All Taxable Money Fund Report Average. From January 1997 to December 2002 the fund was measured against a blended benchmark consisting of the Barclays Capital 1-3 year Government Index and the iMoneyNet, All Taxable Money Fund Report Average. The proportion of each component of the blended benchmark is adjusted periodically as the asset allocation of the Cash Pool is modified.

*** Beginning in January 1997, the Trust Fund Pool is measured against the iMoneyNet, All Taxable Money Fund Report Average.

Tab B

EXECUTIVE DIRECTOR'S ADMINISTRATIVE REPORT

DATE: August 12, 2009

TO: Members, State Board of Investment

FROM: Howard Bicker

1. Reports on Budget and Travel

A report on the SBI's administrative budget for the Fiscal Year 2009 is included as **Attachment A**. A report on the SBI's administrative budget for the Fiscal Year 2010 Year to Date is included as **Attachment B**.

A report on travel for the period from May 5, 2009 – August 4, 2009 is included as **Attachment C**.

2. Update on Sudan

Each quarter, staff provides a report to the Board on steps taken to implement Laws of Minnesota 2007, Chapter 117 that requires SBI actions concerning companies with operations in Sudan.

Staff has received periodic reports from the Sudan Divestment Task Force about the status of companies with operations in Sudan. The Sudan Divestment Task Force was recently reorganized as part of the Conflict Risk Network (CRN). The reports staff has received from the Task Force now come from the Conflict Risk Network in somewhat different form. Until further notice, staff will continue to receive the reports free of charge.

The SBI is restricted from purchasing stock in the companies designated as highest offenders by the CRN. Accordingly, staff updates the list of restricted stocks and notifies investment managers that they may not purchase shares in companies on the restricted list. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the CRN list and writes letters as required by law.

If after 90 days following the SBI's communication with a company which continues to have active business operations, the SBI must divest holdings of the company according to the following schedule:

- at least 50% shall be sold within nine months after the company appeared on the Task Force list; and
- 100% shall be sold within fifteen months after the company appeared on the list.

During 2008, SBI's managers divested all shares of companies required to be divested. Two companies on the divestment list in 2008, Lundin Petroleum and Harbin Power Equipment, have been removed from the restricted list in 2009 due to a change in their business activities. As was reported last quarter, ABB, a Swiss company, was added to the divestment list for 2009, but, due to a change in its business activities, has been removed from the divestment list and restricted list.

Attachment D is a copy of the July 15, 2009 letter sent to each international equity manager and domestic equity manager containing the most recent restricted list and the list of stocks to be divested.

Attachment E is an updated list of companies with operations in Sudan.

3. Litigation Update

SBI legal counsel will give the Board a verbal update on the status of the litigation at the Board meeting on September 29, 2009.

4. Daily Pricing Update

A verbal report will be given on daily pricing at the meeting.

5. Post Fund Update

A verbal report will be given on the Post Fund at the meeting.

ATTACHMENT D

Letter to SBI International Equity Managers

July 15, 2009

Regarding: Sudan Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Sudan. **This new communication applies to all SBI international equity portfolios managed by your organization and replaces all prior communications. This communication also applies to depository receipts of any of the listed companies.**

Laws of Minnesota 2007, Chapter 117 requires the SBI to implement a Sudan restriction.

Attachment 1 is the List of Restricted Sudan Stocks. **These securities may not be purchased for the SBI portfolio that your organization manages.** Please note that the attached List makes changes to the List of Restricted Sudan Stocks that was attached to the April 9, 2009 letter you received. **This new list is effective July 20, 2009.**

- The following companies have been added to the restricted list:
 - AREF Energy Holding Company
 - Daqing Huake Group Co. Ltd.
 - Harbin Dongan Auto Engine Company
 - Jinan Diesel Company, Ltd.

- The following companies have been deleted from the restricted list:
 - Arab Aluminum Company SAE
 - Harbin Power Equipment
 - Kuwait Foods AKA Americana
 - Lundin Petroleum AB
 - Lundin International SA

Attachment 2 is the List of Sudan Stocks Requiring Divestment. There are no changes to the list.

If you own securities of companies on the List of Sudan Stocks Requiring Divestment in the SBI portfolio that your organization manages, then you must divest those holdings according to the schedules provided in the Attachment:

- **At least 50 percent of a company's holdings must be sold by the date indicated, and**
- **At least 100 percent of a company's holdings must be sold by the date indicated.**

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Sudan Stocks (**Attachment 1**) that your organization may use. Please note that the list of security identifiers has information on companies not on the restricted list.

If you have any questions about this matter, please contact Stephanie Gleeson, Manager, International Equities; or James E. Heidelberg, Manager, Public Programs.

Sincerely,

Teresa J. Richardson
Assistant Executive Director

Enclosures

Letter to SBI Domestic Equity Managers

July 15, 2009

Regarding: Sudan Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Sudan. **This new communication applies to all SBI domestic equity portfolios managed by your organization and replaces all prior communications. This communication also applies to ADR's of any of the listed companies.**

Laws of Minnesota 2007, Chapter 117 requires the SBI to implement a Sudan restriction.

Attachment 1 is the List of Restricted Sudan Stocks. **These securities may not be purchased for the SBI portfolio that your organization manages.** Please note that the attached List makes changes to the List of Restricted Sudan Stocks that was attached to the April 9, 2009 letter you received. **This new list is effective July 20, 2009.**

- The following companies have been added to the restricted list:
 - AREF Energy Holding Company
 - Daqing Huake Group Co. Ltd.
 - Harbin Dongan Auto Engine Company
 - Jinan Diesel Company, Ltd.

- The following companies have been deleted from the restricted list:
 - Arab Aluminum Company SAE
 - Harbin Power Equipment
 - Kuwait Foods AKA Americana
 - Lundin Petroleum AB
 - Lundin International SA

Attachment 2 is the List of Sudan Stocks Requiring Divestment. There are no changes to the list.

If you own securities of companies on the List of Sudan Stocks Requiring Divestment in the SBI portfolio that your organization manages, then you must divest those holdings according to the schedules provided in the Attachment:

- **At least 50 percent of a company's holdings must be sold by the date indicated, and**
- **At least 100 percent of a company's holdings must be sold by the date indicated.**

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Sudan Stocks (**Attachment 1**) that your organization may use. Please note that the list of security identifiers has information on companies not on the restricted list.

If you have any questions about this matter, please contact Tammy Brusehaver or Patricia Ammann, Domestic Equities; or James E. Heidelberg, Manager, Public Programs.

Sincerely,

Teresa J. Richardson
Assistant Executive Director

INVESTMENT ADVISORY COUNCIL REPORT

DATE: September 22, 2009

TO: Members, State Board Investment

FROM: Members, Investment Advisory Council

The Investment Advisory Council met on Wednesday, August 19, 2009 to consider the following agenda items:

- Review the manager performance for the period ending June 30, 2009.
- Investment Manager update, Domestic Equity.
- Update on PPIP Program.
- Asset allocation for the Voluntary Statewide Volunteer Firefighter Plan.

Action is required by the SBI on the last item.

INFORMATION ITEMS:

1. Review the manager performance for the period ending June 30, 2009.

- *Domestic Equity Program*

For the period ending June 30, 2009, the **Domestic Equity Program** outperformed for the quarter and underperformed over all other time periods.

Time period	Total Program	Russell 3000
Quarter	17.2%	16.8%
1 Year	-26.9%	-26.6%
3 Years	-8.7%	-8.3%
5 Years	-2.1%	-1.8%

The performance evaluation reports for the domestic equity managers start on the **blue page A-1** of this Tab.

- ***Fixed Income Program***

For the period ending June 30, 2009, the **Fixed Income Program** outperformed for the quarter and underperformed over all other time periods.

Time period	Total Program	Barclays Capital Aggregate
Quarter	5.3%	1.8%
1 Year	2.5%	6.0%
3 Years	4.3%	6.4%
5 Years	4.0%	5.0%

The performance evaluation reports for the fixed income managers start on the **blue page A-91** of this Tab.

- ***International Equity Program***

For the period ending June 30, 2009, the **International Equity Program** underperformed over the quarter and the year, and matched the benchmark over the three and five-year time periods.

Time Period	Total Program	Int'l Equity Asset Class Target*
Quarter	27.0%	27.6%
1 Year	-31.0%	-30.9%
3 Year	-5.7%	-5.7%
5 Year	4.5%	4.5%

* Since 10/1/07 the International Equity asset class target is the Standard MSCI ACWI ex U.S. (net). From 10/1/07 to 5/31/08, the International Equity asset class target was the Provisional Standard MSCI ACWI ex U.S. (net). From 10/1/03 to 9/30/07, the target was the MSCI ACWI Free ex. U.S. (net).

The performance evaluation reports for the international equity managers start on the **blue page A-105** of this Tab.

2. Update on RiverSource Investments/Kenwood Capital Management.

The SBI hired RiverSource Investments/Kenwood Capital Management (Kenwood) in January 2004 to manage a small-cap domestic equity portfolio. Kenwood was a joint venture affiliate with RiverSource Investments and was founded in 1998. Kenwood had six investment professionals and was located in Minneapolis.

Kenwood notified staff on June 25, 2009 that the firm would end business operations on July 31, 2009. Due to Kenwood's decision to close, the Minnesota State Board of Investment (SBI) elected to liquidate this account with Kenwood effective July 7, 2009.

Kenwood's decision to discontinue normal business operations and the liquidation of the account ended the responsibility of Kenwood to provide the SBI with investment management services.

3. Update on PPIP Program.

During the June 10, 2009 Board meeting, the Board granted conditional authority to the SBI Staff to invest up to one percent of the Combined Funds (approximately \$350 million) in the Public-Private Investment Partnership (PPIP.) The authority was conditional because details of the program were not available at that time, and the investment managers to be appointed by the government had not been announced. If staff ultimately decided to recommend investment in one or more PPIP funds, but an IAC and/or Board meeting would not take place in time to meet fund closing deadlines, the SBI Administrative Committee would be called to hear the recommendation.

Since that time, the details of the program were announced and Staff has done extensive research on the managers and the funds available for investment. Based on this research, Staff does not recommend pursuing this opportunity. The following is a review of the PPIP program, along with the information used to reach this conclusion.

Background

The PPIP is designed to draw private capital into the commercial and residential mortgage-backed securities market to help cleanse bank balance sheets of these securities, and to improve the market for these securities. Many of the targeted securities are commercial and residential mortgage-backed securities that are currently valued below what many asset managers have deemed "fair value". This is due to the massive deleveraging during the second half of 2008 which drove down the market value of almost every kind of asset-backed security.

The Federal Government will match each dollar of private capital raised for the PPIP. The asset managers will then have the option to borrow additional funds from the U.S. Treasury Department.

Update

The official announcement of the nine PPIP managers was made July 8 (see **Attachment A.**) The Treasury gave each manager 12 weeks to raise \$1.1 billion for the PPIP. The funds will be structured as limited partnerships with very limited liquidity. Cash distributions to limited partners (SBI) are expected to start in year five with final liquidation in eight to ten years.

Since the announcement, staff has spoken with six of the managers to gather detailed information on the PPIP funds they will offer. A general comment that has been expressed by the managers is the Treasury has announced a number of programs over the past year. After these programs have been implemented, the Government has "changed the rules." This is an ongoing concern.

Availability

Based on discussions with potential managers, staff learned that most of the managers will use the same basic strategy together with similar fund and fee structures (see **Attachment B.**) The maximum amount an investor can commit to a PPIP fund is 19.9% (about \$200 million) of the \$1.1 billion fund. However, some of the asset managers will be launching a retail PPIP investment as well as an institutional investment. Staff spoke with six of the firms about their PPIP and would recommend only two based on numerous factors including investment process, staff, fees, capacity, and current relationship. Since Staff is confident in only two of the PPIP managers, it is unlikely the SBI would be able to make a meaningful commitment of the Combined Funds.

Leverage

Another important detail discovered during the research is that the amount of leverage that will be used in the program is unknown. As mentioned, each PPIP asset manager has the option to lever the combined \$2.2 billion in equity for the program up to one time to create \$4.4 billion of buying power. However, the Treasury has also given the asset managers the option to switch from the 1:1 leverage option to a 0.5:1 leverage option, but then use the Term Asset-Backed Loan Facility (TALF) to further leverage the portfolio up to a 5:1 basis. Once capital has been committed, the investor has no say in how much leverage will be used.

Expected Returns

The PPIP has been advertised as a fixed income investment option with the potential for 15% or greater returns. This estimate is based on the assumption that banks, insurance companies, etc. will sell these discounted securities to PPIP managers at current prices. However, since the announcement of the PPIP in March and the announcement of the managers for the program in July, these asset prices have rallied. There is a risk the holders of these securities might continue to hold them while waiting for the prices to improve further as a result of the PPIP. Staff is skeptical about the ability of the PPIP asset managers to buy securities at prices necessary to produce the kind of returns advertised.

Liquidity

Based on the conversations Staff had with various PPIP managers, the SBI would not begin receiving significant principal repayments until after the Treasury loan for the leverage has been fully amortized, something that could take approximately five years or longer. Therefore, a commitment to the PPIP would lock up capital for six to eight years or longer depending on cash flows.

Summary

After extensive review, staff's recommendation is to not pursue PPIP investment for the following reasons:

- There continues to be some concern that the terms may change over time.
- Staff would recommend working with only two of the managers offering PPIP funds. Therefore, it would be difficult to make a meaningful investment of the Combined Funds.
- The level of leverage is unknown.
- Projected returns may be difficult for managers to achieve if pricing for the securities continues to improve.
- The funds are not liquid.

Based on the factors outlined above, the Investment Advisory Council supports Staff's decision to not pursue PPIP investment.

ACTION ITEM:

4. Asset Allocation for the Voluntary Statewide Volunteer Firefighter Plan.

Legislation was enacted during the 2009 Legislative session to establish a Voluntary Statewide Volunteer Firefighter Plan. The assets of the plan will be managed by the State Board of Investment using a combination of the options in the Supplemental Investment Fund. Asset allocation for the Plan is to be determined by the SBI. Staff considered the following three factors in determining the appropriate asset allocation for the Plan:

- The funding rate for the Plan is 6%
- The Plan distributes benefits in lump sums
- There will not be cost sharing among the townships and cities that participate in this plan.

Staff analyzed expected returns and volatility based on the published expected return/volatility assumptions of several investment management firms and consultants (see **Attachment C.**)

Based on liquidity needs, and volatility, staff believes an asset allocation of 35% to U.S. equity, 15% to international equity, 45% to fixed income and 5% to cash (Scenario D) would be appropriate for the Plan. This information was presented to the Statewide Volunteer Firefighter Retirement Plan Advisory Board on August 6, 2009. The Advisory Board voted to support the proposed asset allocation.

RECOMMENDATION:

The IAC recommends the Board approve the following asset allocation for the Voluntary Statewide Volunteer Firefighter Plan:

U.S. Equity	35%
International Equity	15%
Fixed Income	45%
Cash	<u>5%</u>
Total	100%

MELLON CAPITAL MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Tony Garvin

Assets Under Management: \$297,070,731

Investment Philosophy – Active Style

Mellon believes that rigorous and consistent application of fundamentally based valuation criteria will produce value added investment returns. Mellon builds a portfolio by using a series of more than 30 integrated computer models that value a universe of 3500 stocks. Their models rank each security based on fundamental momentum, relative value, future cash flow, and supplementary models. A composite ranking then provides one ranked list of securities reflecting relative attractiveness. Stocks that fall below the median ranking are sold and proceeds are reinvested in stocks from the top deciles in the ranking system. Mellon uses the BARRA E3 risk model to monitor the portfolio's systematic risk and industry weightings, relative to the selected benchmark, to achieve a residual risk of 4.0 to 4.5 percent for the active portfolio.

Staff Comments

The portfolio trailed its benchmark for the quarter and the year due to weak stock selection. For the quarter, stock selection in the Financial Services and Consumer Discretionary sectors detracted from performance. For the year, stock selection in the Health Care and Technology sectors negatively impacted returns.

The Mellon Capital Boston (Franklin legacy) investment team and process has not changed since their merger with Mellon Capital on January 1, 2009. An integration group has been created within the two investment teams (Franklin legacy and Mellon Capital) to set up a shared investment infrastructure throughout 2009. Paul Healey, COO and President, left Mellon Capital Boston as of May 29, 2009. His client responsibilities have been assumed by David Dirks, Head of Active Equity Client Service. Staff continues to monitor the portfolio closely.

NEW AMSTERDAM PARTNERS
Periods Ending June, 2009

Portfolio Manager: Michelle Clayman

Assets Under Management: \$366,951,834

Investment Philosophy

New Amsterdam Partners believes that investment results are evaluated by actual return, and therefore, investment opportunities should be evaluated by expected return. They believe that all valid techniques depend on forecasts of the amounts and timing of future cash flows. Thus, the firm focuses on forecasted earnings growth, yield, price-to-book ratio, and forecasted return on equity. They believe that the disciplined application of their valuation techniques, in conjunction with sound financial analysis of companies, is the key to understanding and maximizing investment returns.

Staff Comments

The portfolio lagged its benchmark for the quarter and outperformed for the year. The quarterly performance was hurt by weak stock selection in the Consumer Discretionary and Technology sectors. For the year, stock selection in the Consumer Discretionary and Producer Durables sectors added value to the portfolio.

UBS GLOBAL ASSET MANAGEMENT, INC.
Periods Ending June, 2009

Portfolio Manager: John Leonard

Assets Under Management: \$341,006,064

Investment Philosophy

UBS uses a relative value approach to equity investing. They believe that the market price will ultimately reflect the present value of the cash flows the security will generate for the investor. They focus on a bottom-up stock selection process to provide insight into finding opportunistic investments. UBS uses a proprietary discounted free cash flow model as the primary analytical tool for estimating the intrinsic value of a company.

Staff Comments

UBS outperformed the benchmark for the quarter and for the year. The quarterly performance was helped by good stock selection in better performing sectors, particularly stock selection in the Autos and Transportation sector. The one-year return was helped by stock selection in the Technology, Financial Services, and Autos & Transportation sectors.

Recommendation

ALLIANCE CAPITAL MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Stephanie Simon

Assets Under Management: \$207,862,905

Investment Philosophy

Alliance searches for companies likely to experience high rates of earnings growth, on either a cyclical or secular basis. Alliance invests in a range of medium to large growth and cyclically sensitive companies. There is no clear distinction on the part of the firm as to an emphasis on one particular type of growth company over another. However, the firm's decision-making process appears to be much more oriented toward macroeconomic considerations than is the case with most other growth managers. Accordingly, cyclical earnings prospects, rather than secular, appear to play a larger role in terms of stock selection. Alliance is not an active market timer, rarely raising cash above minimal levels.

INTECH INVESTMENT MANAGEMENT LLC
Periods Ending June, 2009

Portfolio Manager: Robert Fernholz

Assets Under Management: \$ 225,024,631

Investment Philosophy

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 Growth benchmark. No specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 2.5% or 10 times maximum index security weight, and 3) beta equal to or less than benchmark beta. Target security positions are established using an optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days, and partial re-optimization occurs weekly.

JACOBS LEVY EQUITY MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Bruce Jacobs and Ken Levy

Assets Under Management: \$199,133,620

Investment Philosophy

The strategy combines human insight and intuition, finance and behavioral theory, and state-of-the-art quantitative and statistical methods. Security expected returns generated from numerous models become inputs for the firm's proprietary portfolio optimizer. The optimizer is run daily with the objective of maximizing the information ratio, while ensuring proper diversification across market inefficiencies, securities, industries, and sectors. Extensive data scrubbing is conducted on a daily basis using both human and technology resources. Liquidity, trading costs, and investor guidelines are incorporated within the optimizing process.

Staff Comments

The portfolio exceeded the quarterly benchmark and trailed for the year. The quarterly performance was helped by stock selection in the Other Energy and Materials & Processing sectors. The one-year return was hurt by weak stock selection in the Consumer Discretionary and Technology sectors.

KNELMAN ASSET MANAGEMENT, LLC
Periods Ending June, 2009

Portfolio Manager: Kip Knelman

Assets Under Management: \$44,031,269

Investment Philosophy

The strategy invests in companies exhibiting substantial growth opportunities, strong business models, solid management teams, and the probability for positive earnings surprises. The approach emphasizes earnings growth as the fundamental driver of stock prices over time. The process combines quantitative, qualitative and valuation criteria. The quantitative component addresses fundamentals and is focused on operating trends. Qualitative analysis involves confirmation of company fundamentals through discussions with company contacts and related parties. Valuation models focus on relative rankings of the fundamentals within the industry, the market overall and the company itself.

WINSLOW CAPITAL MANAGEMENT, INC.

Periods Ending June, 2009

Portfolio Manager: Bart Wear and Justin Kelly

Assets Under Management: \$94,348,384

Investment Philosophy

The strategy identifies companies that can grow earnings above consensus expectations to build portfolios with forward weighted earnings growth in the range of 15-20% annually. A quantitative screen is employed for factors such as revenue and earnings growth, return on invested capital, earnings consistency, earnings revisions, low financial leverage and high free cash flow rates relative to net income. Resulting companies are subjected to a qualitative assessment within the context of industry sectors. Detailed examination of income statements, cash flow and balance sheet projections is conducted, along with a judgment on the quality of management. Attractively valued stocks are chosen based on P/E relative to the benchmark, sector peers, the company's sustainable future growth rate and return on invested capital. Final portfolio construction includes diversification by economic sectors, earnings growth rates, price/earnings ratios and market capitalizations.

ZEVENBERGEN CAPITAL INC.
Periods Ending June, 2009

Portfolio Manager: Nancy Zevenbergen

Assets Under Management: \$207,354,531

Investment Philosophy

Zevenbergen is an equity growth manager. The investment philosophy is based on the belief that earnings drive stock prices while quality provides capital protection. Hence, portfolios are constructed with companies showing above-average earnings growth prospects and strong financial characteristics. They consider diversification for company size, expected growth rates and industry weightings to be important risk control factors. Zevenbergen uses a bottom-up fundamental approach to security analysis. Research efforts focus on finding companies with superior products or services showing consistent profitability. Attractive buy candidates are reviewed for sufficient liquidity and potential diversification. The firm emphasizes that they are not market timers.

Staff Comments

Zevenbergen outperformed for the quarter and for the year. The quarterly performance was helped by stock selection in the Technology and Health Care sectors. Both periods were helped by strong stock selection in the Consumer Discretionary sector. The one-year return also benefited from stock selection in the Financial sector.

BARROW, HANLEY, MEWHINNEY & STRAUSS, INC.
Periods Ending June, 2009

Portfolio Manager: Tim Culler

Assets Under Management: \$310,726,715

Investment Philosophy

The manager's approach is based on the underlying philosophy that markets are inefficient. Inefficiencies can best be exploited through adherence to a value-oriented investment process dedicated to the selection of securities on a bottom-up basis. The team does not attempt to time the market or rotate in and out of broad market sectors.

The manager remains fully invested with a defensive, conservative orientation based on the belief that superior returns can be achieved while taking below average risks. This strategy is implemented by constructing portfolios of individual stocks that exhibit price/earnings and price/book ratios significantly *below* the market and dividend yields significantly *above* the market. Risk control is achieved by limiting sector weights to 35% and industry weights to 15%. In periods of economic recovery and rising equity markets, profitability and earnings growth are rewarded by the expansion of price/earnings ratios and the generation of excess returns.

EARNEST PARTNERS, LLC
Periods Ending June, 2009

Portfolio Manager: Paul Viera

Assets Under Management: \$129,655,176

Investment Philosophy

Earnest Partners utilizes its proprietary Return Pattern Recognition model and rigorous fundamental review to identify stocks with the most attractive relative returns. They have identified six performance drivers – valuation measures, operating trends, market trends, growth measures, profitability measures and macroeconomic measures. Extensive research is conducted to determine which combination of performance drivers, or return patterns, precede out-performance for stocks in each sector. They select stocks whose return patterns suggest favorable performance and control risk using a statistical program designed to measure and control the prospects of substantially under-performing the benchmark. The portfolio is diversified across industry groups.

LORD ABBETT & CO. LLC
Periods Ending June, 2009

Portfolio Manager: Eli Salzmann

Assets Under Management: \$224,463,399

Investment Philosophy

Utilizing a value-based, disciplined investment process that employs both informed judgment and quantitative analysis, Lord Abbett seeks to invest in companies with improving business fundamentals that are attractively valued. This process is implemented via a traditional fundamental active stock selection approach.

As a value manager, Lord Abbett believes that the market systematically misprices stocks. By coupling valuation criteria with thorough research of corporate and industry fundamentals, informed judgments can be made about where the market would price these stocks at fair value. The portfolio is constructed to exploit pricing discrepancies where it is perceived that: 1) these price differences will be closed over a reasonable period of time, or 2) there may be a catalyst for price appreciation. This process is implemented while maintaining sensitivity to both benchmark and macro-economic risk exposures.

LSV ASSET MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Josef Lakonishok

Assets Under Management: \$283,315,624

Investment Philosophy

The fundamental premise on which LSV's investment philosophy is based is that superior long-term results can be achieved by systematically exploiting the judgmental biases and behavioral weaknesses that influence the decisions of many investors. These include: the tendency to extrapolate the past too far into the future, wrongly equating a good company with a good investment irrespective of price, ignoring statistical evidence and developing a "mindset" about a company.

The strategy's primary emphasis is the use of quantitative techniques to select individual securities in what would be considered a bottom-up approach. Value factors and security selection dominate sector/industry factors as explanatory variables of performance. The competitive strength of this strategy is that it avoids introducing to the process any judgmental biases and behavioral weaknesses that often influence investment decisions.

SYSTEMATIC FINANCIAL MANAGEMENT, L.P.
Periods Ending June, 2009

Portfolio Manager: Kevin McCreesh

Assets Under Management: \$205,985,014

Investment Philosophy

Systematic's investment strategy favors companies with low forward P/E multiples and a positive earnings catalyst. Cash flow is analyzed to confirm earnings and to avoid companies that may have employed accounting gimmicks to report earnings in excess of Wall Street expectations. The investment strategy attempts to avoid stocks in the "value trap" by focusing only on companies with confirmed fundamental improvement as evidenced by a genuine positive earnings surprise.

The investment process begins with quantitative screening that ranks the universe based on: 1) low forward P/E, and 2) a positive earnings catalyst, which is determined by a proprietary 16-factor model that is designed to be predictive of future positive earnings surprises. The screening process generates a research focus list of 150 companies, sorted by sector, upon which rigorous fundamental analysis is conducted to confirm each stock's value and catalysts for appreciation.

Staff Comments

Systematic trailed the benchmark for the quarter and for the year. For the quarter, stock selection in the Financial Services and Consumer Discretionary sectors detracted from performance. The one-year return was hurt by an underweight to the Financial and Consumer Staples sectors.

MCKINLEY CAPITAL MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Robert A. Gillam

Assets Under Management: \$137,558,475

Investment Philosophy

The team believes that excess market returns can be achieved through the construction and management of a diversified, fundamentally sound portfolio of inefficiently priced securities whose earnings growth rates are accelerating above market expectations. Using proprietary quantitative models, the team systematically searches for and identifies early signs of accelerating growth. The initial universe consists of growth and value stocks from all capitalization categories.

The primary model includes a linear regression model to identify common stocks that are inefficiently priced relative to the market while adjusting each security for standard deviation. The ratio of alpha to standard deviation is the primary screening value and is used to filter out all but the top 10% of stocks in our initial universe. The remaining candidates are tested for liquidity and strength of earnings. In the final portfolio construction process, qualitative aspects are examined, including economic factors, Wall Street research, and specific industry themes.

NEXT CENTURY GROWTH INVESTORS, LLC
Periods Ending June, 2009

Portfolio Manager: Thomas Press and Don Longlet

Assets Under Management: \$169,530,400

Investment Philosophy

Next Century Growth's (NCG) goal is to invest in the highest quality and fastest growing companies in America. They believe that growth opportunities exist regardless of the economic cycle. NCG uses fundamental analysis to identify companies that will surpass consensus earnings estimates, which they believe to be the number one predictor of future out-performance. Their investment process focuses on growth companies that have superior top line revenue growth (15% or greater), high profitability, and strong balance sheets, and are well poised to outperform the market. NCG believes in broad industry diversification; sector exposures are limited to twice the benchmark weighting and individual positions to five percent.

Investment Philosophy

The team's investment philosophy is based on the belief that earnings expectations drive stock prices. The team adds value primarily through stock selection and pursues a bottom-up strategy. Ideal candidates for investment are growth companies that have above average earnings prospects, reasonable valuations, favorable trading volume, and price patterns. Each security is subjected to three separate evaluation criteria: fundamental analysis (80%), quantitative screening (10%), and technical analysis (10%).

Proprietary computer models enable the team to assess the universe based on multiple earnings growth and valuation factors. The factors are specific to each economic sector. Fundamental analysis is the heart of the stock selection process and helps the team determine if a company will exceed, meet or fall short of consensus earnings expectations. Technical analysis is used to evaluate trends in trading volume and price patterns for individual stocks as the team searches for attractive entry and exit points.

Investment Philosophy

The firm's value equity philosophy is based on the belief that all successful investing begins with fundamental stock selection that should thoughtfully weigh a stock's price and prospects. A company's prospective ability to generate high cash flow returns on capital will strongly influence investment success. The team follows a strong valuation discipline to purchase well-positioned, cash generating businesses run by shareholder-oriented management teams.

Through extensive proprietary research, the team confirms that a candidate company's long-term competitive advantage and earnings power are intact. The team seeks to purchase a stock at a price that encompasses a healthy margin of safety. The investment process involves three steps: 1) prioritizing research, 2) analyzing fundamentals, and 3) portfolio construction. The independent Risk and Performance Analytics Group (RPAG) monitors daily portfolio management risk, adherence to client guidelines and general portfolio strategy.

HOTCHKIS & WILEY CAPITAL MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Jim Miles and David Green

Assets Under Management: \$72,028,035

Investment Philosophy

The firm seeks to exploit mis-priced securities in the small cap market by investing in “undiscovered” or “out of favor” companies. The team invests in stocks where the present value of the company’s future cash flows exceeds the current market price. This approach exploits equity market inefficiencies created by irrational investor behavior and lack of Wall Street research coverage of smaller capitalization stocks. The team employs a disciplined, bottom-up investment process that emphasizes internally generated fundamental research.

The investment process begins with a quantitative screen based on market capitalization, trading liquidity and enterprise value/normalized EBIT, supplemented with ideas generated from the investment team. Internal research is then utilized to identify the most attractive valuation opportunities within this value universe. The primary focus of the research analyst is to determine a company’s “normal” earnings power, which is the basis for security valuation.

Staff Comments

The portfolio exceeded its benchmark for the quarter and trailed for the year. The quarterly return was helped by positive stock selection across all sectors, particularly in the Financial Services and Consumer Discretionary sectors. For the year, the majority of the underperformance came from negative stock selection in the Financial Services sector. The portfolio has an underweight to the Financial Services sector, but several securities with overweight positions had significant double digit losses.

Staff continues to monitor the portfolio closely.

MARTINGALE ASSET MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: William Jacques

Assets Under Management: \$79,749,865

Investment Philosophy

Martingale's investment process seeks to exploit the long-term link between undervalued company fundamentals and current market prices to achieve superior investment returns. Martingale has a long history of employing sound quantitative methods.

The valuation process is comprised of well-researched valuation indicators that have stood the test of time, with improvements made only after careful evaluation, testing and analysis. Multiple characteristics of quality, value and momentum are examined. The quality of company management is assessed by reviewing commitment to R&D, accounting practices with regard to earnings and cash flow from operations, and the ability to manage inventory.

The average holding period of a stock is typically one year. Every holding is approached as an investment in the business, with the intention of holding it until either objectives are reached, or it becomes apparent that there are better opportunities in other stocks.

PEREGRINE CAPITAL MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Doug Pugh and Tasso Coin

Assets Under Management: \$129,026,180

Investment Philosophy

Peregrine's Small Cap Value investment process begins with the style's proprietary valuation analysis, which is designed to identify the small cap value stocks most likely to outperform. The valuation analysis identifies the most under-priced securities on a sector-by-sector basis. Drawing on thirty years of data, the analysis looks at different combinations of sixty fundamental factors most relevant in each independent sector to identify stocks that offer significant value relative to the companies' underlying fundamentals. The focus of the team's fundamental research is to determine if one or more of the style's "Value Buy Criteria" are present. These include short-term problems, unrecognized assets, take-over potential, and catalysts for change. The portfolio is diversified and sector weights are aligned closely with the benchmark. This allows stock selection to drive performance.

Staff Comments

Peregrine exceeded the benchmark for the quarter and for the year. For the quarter, stock selection across all sectors was positive, particularly in the Financial Services, Producer Durables, Technology and Consumer Discretionary sectors. For the year, stock selection in the Other Energy and Consumer Discretionary sectors as well as an overweight to Consumer Discretionary contributed to the outperformance.

RIVERSOURCE INVESTMENTS/KENWOOD CAPITAL MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Jacob Hurwitz and Kent Kelley

Assets Under Management: \$36,242,824

Investment Philosophy

The portfolio management team relies primarily on quantitative appraisal; fundamental analysis supplements the model-based stock selection discipline. The goal is to systematically tilt client portfolios toward stocks that offer a superior return-to-risk tradeoff. In order to achieve consistency of performance, risk management is integrated into all aspects of the investment process. Risk is monitored at the security, sector, and portfolio level.

The centerpiece of the stock selection process is a quantitative model that ranks stocks based upon potential excess return. Key elements of the model include assessments of valuation, earnings, and market reaction. Models are created for twelve sectors using sector-specific criteria. Qualitative analysis assesses liquidity, litigation/regulatory risk, and event risk. The team focuses on bottom up stock selection within a sector neutral framework.

Staff Comments

Kenwood notified staff on June 25, 2009 that they decided to close the firm. Due to Kenwood's decision to close, the Minnesota State Board of Investment (SBI) elected to liquidate its account with Kenwood effective July 7, 2009.

Kenwood's decision to discontinue normal business operations and the liquidation of the account ended the responsibility of Kenwood to provide the SBI with investment management services.

Investment Philosophy – Semi-Passive Style

The Core Alpha Model desegregates individual equity returns for each of the 3500 stocks in their universe into fundamental, expectational, and technical components. The fundamental factors look at measures of underlying company value including earnings, book value, cash flow, and sales. These factors help identify securities that trade at prices below their true economic value. The expectational factors incorporate future earnings and growth rate forecasts made by over 2500 security analysts. The technical factors provide a measure of recent changes in company fundamentals, consensus expectations, and performance. Estimated alphas are then calculated and are used in a portfolio optimization algorithm to identify the optimal portfolio.

J.P. MORGAN INVESTMENT MANAGEMENT, INC.
Periods Ending June, 2009

Portfolio Manager: Ralph Zingone and Terance Chen Assets Under Management: \$2,004,553,805

Investment Philosophy – Semi-Passive Style

J.P. Morgan believes that superior stock selection is necessary to achieve excellent investment results. To accomplish this objective, they use fundamental research and a systematic valuation model. Analysts forecast the earnings and dividends for the 650 stock universe and enter them into a stock valuation model that calculates an expected return for each security. The stocks are ranked according to their expected return within their economic sectors. The most undervalued stocks are placed in the first quintile. The portfolio includes stocks from the first four quintiles, always favoring the highest ranked stocks whenever possible. Stocks in the fifth quintile are sold. In addition, the portfolio closely approximates the sector, style, and security weightings of the index chosen by the plan sponsor. The firm remains fully invested at all times.

Staff Comments

JP Morgan outperformed the benchmark for the quarter and for the year. Stock selection in Financial Services helped the quarterly performance. Stock selection in the Materials & Processing sector contributed to the outperformance in both periods.

MELLON CAPITAL MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Tony Garvin

Assets Under Management: \$1,737,183.255

Investment Philosophy – Semi-Passive Style

Mellon believes that rigorous and consistent application of fundamentally based valuation criteria will produce value added investment returns. Mellon builds a portfolio by using a series of more than 30 integrated computer models that value a universe of 3500 stocks. Their models rank each security based on fundamental momentum, relative value, future cash flow, and supplementary models. A composite ranking then provides one ranked list of securities reflecting their relative attractiveness. Stocks that fall below the median ranking are sold, and proceeds are reinvested in stocks from the top deciles in the ranking system. They use the BARRA risk model to monitor the portfolio's systematic risk and industry weightings relative to the selected benchmark. For this semi-passive mandate, they seek to achieve a residual risk of 1.5% or less. The firm remains fully invested at all times.

Staff Comments

The Mellon Capital Boston (Franklin legacy) investment team and process has not changed since their merger with Mellon Capital on January 1, 2009. An integration group has been created within the two investment teams (Franklin legacy and Mellon Capital) to set up a shared investment infrastructure throughout 2009. Paul Healey, COO and President, left Mellon Capital Boston as of May 29, 2009. His client responsibilities have been assumed by David Dirks, Head of Active Equity Client Service. Staff continues to monitor the portfolio closely.

ABERDEEN ASSET MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Neil Moriarty

Assets Under Management: \$814,774,093

Investment Philosophy

Aberdeen (formerly Deutsche) believes there are significant pricing inefficiencies inherent in bond markets and that diligent credit analysis, security structure evaluation, and relative value assessment can be used to exploit these inefficiencies. The firm avoids interest rate forecasting and sector rotation because they believe these strategies will not deliver consistent out performance versus the benchmark over time. The firm's valued added is derived primarily from individual security selection. Portfolio managers and analysts research bonds within their sector of expertise and construct portfolios from the bottom-up, bond by bond. Sector weightings are a byproduct of the bottom-up security selection. Aberdeen was retained by the SBI in February 2000.

Staff Comments

Aberdeen outperformed the benchmark by 530 bps in 2Q09 but underperformed by 1250 bps over the last 12 months. Quarterly performance was driven by overweights in the corporate sector, the non-Agency mortgage sector, and the CMBS sector. All of these sectors posted very strong outperformance vs. Treasuries during the quarter. Over the last 12 months however, performance was hurt by the CMBS and non-Agency MBS overweights as those sectors underperformed during the second half of 2008.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	7.1%	1.8%
Last 1 year	-6.5	6.0
Last 2 years	-1.9	6.6
Last 3 years	0.8	6.4

DODGE & COX INVESTMENT MANAGERS
Periods Ending June, 2009

Portfolio Manager: Dana Emery

Assets Under Management: \$862,443,953

Investment Philosophy

Dodge & Cox manages a high quality, diversified portfolio of securities that are selected through fundamental analysis. The firm believes that by combining fundamental research with a long-term investment horizon it is possible to uncover inefficiencies in market sectors and individual securities. The firm combines this fundamental research with a disciplined program of risk analysis. To seek superior returns over the long-term, Dodge & Cox emphasizes sector and security selection, strives to build portfolios that have a higher yield than the broad bond market, and analyzes portfolio and individual security risk. Dodge & Cox was retained by the SBI in February 2000.

Staff Comments

Dodge & Cox outperformed the benchmark by 610 bps in 2Q09 and by 100 bps over the last 12 months. During the quarter Dodge & Cox added to its overweight in the corporate bond sector and reaped the benefits of a record-setting quarter in that sector. The portfolio's Agency MBS also boosted performance. Over the last year, security selection in the corporate bond sector detracted from returns, but that was balanced by strong performance of the Agency MBS holdings.

Quantitative Evaluation

PACIFIC INVESTMENT MANAGEMENT CO. LLC (PIMCO)
Periods Ending June, 2009

Portfolio Manager: Bill Gross

Assets Under Management: \$744,817,192

Investment Philosophy

PIMCO's investment approach seeks to outperform a client's benchmark on a consistent basis, while maintaining overall risk similar to the index. PIMCO's approach to investing has three key principles: the utilization of multiple strategies, a long-term orientation and bond selection from a broad universe. PIMCO's investment process starts with an annual Secular Forum. The goal of this Forum is to look beyond the current business cycle and determine how secular forces will play out over the next 3 to 5 years. Quarterly, PIMCO holds Economic Forums to evaluate growth and inflation over the next 6 to 9 months. Following PIMCO's Secular and Economic Forums, the PIMCO Investment Committee (IC) develops key portfolio strategies. They consider both the "top-down" conclusions emanating from PIMCO's Forum, as well as the "bottom-up" market intelligence provided by PIMCO's teams of sector specialist portfolio managers. Through an interactive series of meetings, the IC defines a set of consistent strategies that are then implemented.

Staff Comments

PIMCO outperformed the benchmark by 410 bps in 2Q09 and has outperformed by 20 bps since inception in September 2008. Performance has been driven by the corporate sector as historically cheap valuations have been taken advantage of by investors leading to strong buying in the sector. The portfolio's non-Agency MBS have also added to performance as prices continue to improve off the February lows. PIMCO also maintains a curve-flattening bias—which was a negative contributor to performance—as well as a short duration stance, which added to performance.

RIVERSOURCE INVESTMENTS
Periods Ending June, 2009

Portfolio Manager: Colin Lundgren

Assets Under Management: \$725,718,371

Investment Philosophy

RiverSource (formerly American Express) manages portfolios using a top-down approach culminating with in-depth fundamental research and credit analysis. Five portfolio components are actively managed: duration, maturity structure, sector selection, industry emphasis, and security selection. Duration and maturity structure are determined by the firm's economic analysis and interest rate outlook. This analysis also identifies sectors and industries expected to produce the best risk adjusted return. In-depth fundamental research and credit analysis combined with proprietary valuation disciplines is used to identify attractive individual securities. RiverSource was retained by the SBI in July 1993.

Staff Comments

Riversource outperformed the benchmark by 280 bps in 2Q09 but underperformed by 420 bps over the last 12 months. Quarterly performance was driven by overweights in the corporate bond and CMBS sectors as these sectors outperformed Treasuries. A High Yield corporate bond overweight also contributed to excess returns. Over the last year, performance was hurt by overweights to CMBS and non-Agency MBS as well as security selection in corporate bonds.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	4.6%	1.8%
Last 1 year	1.8	6.0

WESTERN ASSET MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Steve Walsh

Assets Under Management: \$1,101,447,574

Investment Philosophy

Western emphasizes the use of multiple strategies and active sector and issue selection, while constraining interest rate risk. Multiple strategies are proportioned so that results do not depend on one or two opportunities. This approach adds consistent value over time and can reduce volatility. Long term value investing is Western's fundamental approach. In making their sector decision, the firm seeks out the greatest long-term value by analyzing all fixed income market sectors and their economic expectations. Individual issues are identified based on relative credit strength, liquidity, issue structure, event risk, and market valuation. Western believes that successful interest rate forecasting is extremely difficult and consequently keeps portfolio duration within a narrow band around the benchmark. Western was retained by the SBI in July 1984.

Staff Comments

Western outperformed the benchmark by 400 bps in 2Q09 but underperformed by 410 bps over the last 12 months. Performance was driven by an overweight to the corporate sector, which recorded record outperformances in April and May. Western's high yield corporate exposure also added to performance as that sector also set records for outperformance during the quarter. Over the last year, overweights to non-Agency MBS and CMBS were the main detractors of returns.

Quantitative Evaluation

	Actual	Benchmark

WESTERN ASSET MANAGEMENT
Rolling Five Year VAM

BLACKROCK, INC.
Periods Ending June, 2009

Portfolio Manager: Keith Anderson

Assets Under Management: \$1,353,110,909

Investment Philosophy

BlackRock manages an enhanced index portfolio closely tracking the Lehman Aggregate. The firm's enhanced index strategy is a controlled-duration, sector rotation style, which can be described as active management with tighter duration, sector, and quality constraints. BlackRock seeks to add value through: (i) controlling portfolio duration within a narrow band relative to the benchmark, (ii) relative value sector/sub-sector rotation and security selection, (iii) rigorous quantitative analysis to the valuation of each security and of the portfolio as a whole, (iv) intense credit analysis and review, and (v) the judgment of experienced portfolio managers. Advanced risk analytics measure the potential impact of various sector and security strategies to ensure consistent value added and controlled volatility. BlackRock was retained by the SBI in April 1996.

Staff Comments

Blackrock outperformed the benchmark by 130 bps in 2Q09 but underperformed by 410 bps over the last 12 months. CMBS and ABS overweights as well as security selection in the corporate sector added to quarterly performance. Non-Agency mortgages were also a positive contributor as their prices continue to improve. For the year, performance was hurt by the CMBS overweight as well as corporate security selection.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	3.1%	1.8%
Last 1 year	1.9	6.0
Last 2 years	4.2	6.6

 Rolling Five Year VAM

GOLDMAN SACHS ASSET MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Jonathon Beinner

Assets Under Management: \$1,367,236,669

Investment Philosophy

Goldman manages an enhanced index portfolio closely tracking the Lehman Aggregate. Goldman's process can be viewed as active management within a very risk-controlled framework. The firm relies primarily on sector allocation and security selection strategies to generate incremental return. To a lesser degree, term structure strategies are also implemented. Goldman combines long-term strategic investment tilts with short-term tactical trading opportunities. Strategic tilts are based on fundamental and quantitative sector research and seek to optimize the long-term risk/return profile of portfolios. Tactical trades between sectors and securities within sectors are implemented to take advantage of short-term market anomalies. Goldman was retained by the SBI in July 1993.

Staff Comments

Goldman Sachs outperformed the benchmark by 260 bps in 2Q09 and underperformed by 190 bps over the last 12 months. Quarterly performance was driven by a modest overweight to corporate bonds as well as non-Agency MBS and CMBS. Although non-Agency MBS prices have rebounded this year, it has not been sufficient to cover the underperformance of those bonds over the last 12 months. The CMBS overweight also detracted from returns over the last 12 months, and the corporate bond sector overweight added to yearly returns.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	4.4%	1.8%
Last 1 year	4.1	6.0
Last 2 years	5.0	6.6
Last 3 years	5.4	6.4

GOLDMAN SACHS ASSET MANAGEMENT
 Rolling Five Year VAM

NEUBERGER INVESTMENT MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Andrew Johnson

Assets Under Management: \$1,381,142,171

Investment Philosophy

Neuberger (formerly Lincoln) manages an enhanced index portfolio closely tracking the Barclay's Capital Aggregate. Neuberger's process relies on a combination of quantitative tools and active management judgment. Explicit quantification and control of risks are at the heart of their process. Neuberger uses proprietary risk exposure measures to analyze 25 interest rate factors, and over 30 spread-related factors. For each interest rate factor, the portfolio is very closely matched to the index to ensure that the portfolio earns the same return as the index for any change in interest rates. For each spread factor, the portfolio can deviate slightly from the index as a means of seeking value-added. Setting target active risk exposures that must fall within pre-established maximums controls risk. To control credit risk, corporate holdings are diversified across a large number of issues. Neuberger was retained by the SBI in July 1988.

Staff Comments

Neuberger outperformed the benchmark by 360 bps in 2Q09 but underperformed by 190 bps over the last 12 months. Security selection and sector overweights in corporate bonds, RMBS and CMBS generated much of the quarterly outperformance. Over the last 12 months, performance was negatively impacted by sector overweights to RMBS and CMBS, while corporate bond security selection generated positive excess returns which offset some of the underperformance.

Quantitative Evaluation

ACADIAN ASSET MANAGEMENT LLC
Periods Ending June, 2009

Portfolio Manager: John Chisholm

Assets Under Management: \$293,751,614

Investment Philosophy

Acadian believes there are inefficiencies in the global equity markets that can be exploited by a disciplined quantitative investment process. In evaluating markets and stocks, Acadian believes it is most effective to use a range of measures, including valuation, price trends, financial quality and earnings information. Risk control is a critical part of the Acadian approach. Acadian's process seeks to capture value-added at both the stock and the sector/country level. The process is active and bottom-up, but each stock forecast also contains a sector/country forecast. Selection is made from a very broad investment universe using disciplined, factor-driven quantitative models. Portfolios are constructed with an optimizer and are focused on targeting a desired level of active risk relative to a client's chosen benchmark index.

Staff Comments

During the quarter, a market rally led by cheap, poor-quality stocks with poor prospective earnings hurt the portfolio which is invested in value stocks with higher financial quality and positive prospective earnings. The returns for the year were also negatively impacted by a prior period of extreme risk aversion, during which value stocks underperformed.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	24.6%	25.9%

INVESCO GLOBAL ASSET MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Erik Granade

Assets Under Management: \$270,621,170

Investment Philosophy

INVESCO believes they can add value by identifying and investing in companies whose share price does not reflect the proven and sustainable growth of the company's earnings and assets. They also believe that a systematic process that identifies mis-valued companies, combined with a consistently applied portfolio design process, can control the predictability and consistency of returns. Portfolios are constructed on a bottom-up basis; they select individual companies rather than countries, themes, or industry groups. This is the first of four cornerstones of their investment approach. Secondly, they conduct financial analysis on a broad universe of non-U.S. companies whose key financial data is adjusted to be comparable across borders and currencies. Third, Invesco believes that using local investment professionals enhances fundamental company research. Finally, they manage risk and assure broad diversification relative to clients' benchmarks through a statistics-based portfolio construction approach rather than resorting to country or industry constraints.

Staff Comments

The portfolio underperformed during the quarter and outperformed for the year. During both periods, stock selection overall was positive. The portfolio's underweight to financials and industrials detracted from performance during the quarter, but benefitted performance for the year.

J.P. MORGAN INVESTMENT MANAGEMENT INC.
Periods Ending June, 2009

Portfolio Manager: James Fisher

Assets Under Management: \$178,963,384

Investment Philosophy

JP Morgan's international equity strategy seeks to add value through active stock selection, while remaining diversified by both sector and region. The portfolio displays a large capitalization size bias and a slight growth orientation. Stock selection decisions reflect the insights of approximately 150 locally based investors, ranking companies within their respective local markets. The most attractive names in each region are then further validated by a team of Global Sector Specialists who seek to take the regional team rankings and put these into a global context. The team of six senior portfolio managers draws together the insights of both the regional and global specialists, constructing a portfolio of the most attractive names.

Staff Comments

Stock selection in the energy and information technology sectors detracted from returns over the quarter, but added value over the year, together with stock selection in the materials, consumer staples and financials sectors.

Quantitative Evaluation

MARATHON ASSET MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: William Arah

Assets Under Management: \$404,224,693

Investment Philosophy

Marathon uses a blend of flexible, qualitative disciplines to construct portfolios which exhibit a value bias. Style and emphasis will vary over time and by market, depending on Marathon's perception of lowest risk opportunity. Since they believe that competition determines profitability, Marathon is attracted to industries where the level of competition is declining and they will hold a sector position as long as the level of competition does not increase. At the stock level, Marathon tracks a company's competitive position versus the attractiveness of their products or services and attempts to determine whether the company is following an appropriate reinvestment strategy for their current competitive position.

Staff Comments

The portfolio matched the benchmark return for the quarter, helped by stock selection in Europe and hurt by stock selection in Japan. During the year, stock selection in Japan and in the financials, industrials and materials sectors contributed positively.

MCKINLEY CAPITAL MANAGEMENT, INC.
Periods Ending June, 2009

Portfolio Manager: Robert A. Gillam

Assets Under Management: \$174,954,248

Investment Philosophy

At McKinley Capital, investment decisions are based on the philosophy that excess market returns can be achieved through the construction and active management of a diversified, fundamentally sound portfolio of inefficiently priced common stocks whose earnings growth rates are accelerating above market expectations. A disciplined quantitative investment process drives all product strategies. The firm can be described as a bottom-up growth manager. They employ both a systematic screening process and a qualitative overview to construct and manage portfolios. Investment ideas are initially generated by the quantitative investment process. The balance of the qualitative overlay seeks to identify securities with earnings estimates that are reasonable and sustainable. All portfolios managed by McKinley Capital use the same investment process and construction methodology to manage portfolios.

Staff Comments

The portfolio significantly underperformed during the quarter, which contributed heavily to the underperformance for the year. McKinley focuses on buying companies with strong recent risk adjusted returns and relative earnings growth, resulting in a bias to momentum. The momentum risk factor experienced its worst historic performance during the most recent quarter. The market rotated sharply, rewarding the worst performing stocks from the previous quarter as well as stocks with little earnings strength.

Quantitative Evaluation

PYRAMIS GLOBAL ADVISORS TRUST COMPANY
(Formerly Fidelity Management Trust Company)
Periods Ending June, 2009

Portfolio Manager: Michael Strong

Assets Under Management: \$196,792,911

Investment Philosophy

International Growth is a core, growth-oriented strategy that provides diversified exposure to the developed international markets. The investment process combines active stock selection and regional asset allocation. Four portfolio managers in London, Tokyo, Hong Kong, and Boston construct regional sub-portfolios, selecting stocks based on Fidelity analysts' bottom-up research and their own judgment and expertise. Portfolio guidelines seek to ensure risk is commensurate with the performance target and to focus active risk on stock selection. Resulting portfolios typically contain between 200-250 holdings.

Staff Comments

During the quarter the portfolio's overweight position in the healthcare sector, the worst performer, together with stock selection in the materials sector detracted from returns. Over the year, stock selection the energy and financials sectors, two of the worst performers, contributed negatively.

Quantitative Evaluation

RIVERSOURCE INVESTMENTS
Periods Ending June, 2009

Portfolio Manager: Esther Perkins

Assets Under Management: \$199,666,104

Investment Philosophy

RiverSource's philosophy focuses on key forces of change in markets and the companies that will benefit. The firm believes that in a global marketplace, where sustainable competitive advantage is rare, their research should focus on the dynamics of change. A good understanding of the likely impact of these changes at a company level, complemented with an appreciation of the ability of management to exploit these changes, creates significant opportunities to pick winners and avoid losers.

Staff Comments

While stock selection in the financials and materials sectors contributed positively during the year, it detracted from returns during the quarter. Over the year, stock selection in the healthcare sector added value.

ALLIANCEBERNSTEIN L.P.
Periods Ending June, 2009

Portfolio Manager: Steve Beinhacker

Assets Under Management: \$287,148,901

Investment Philosophy

Alliance employs a growth style of investment management. They believe that fundamental research-driven stock selection, structured by industries within regions, will produce superior investment performance. Their strategy emphasizes bottom-up, large capitalization stock selection. Country and industry exposures are a by-product of stock selection. Alliance looks for companies with the best combination of forward-looking growth and valuation attractiveness.

Staff Comments

The portfolio underperformed during the quarter and the year. Over the quarter, stock selection in India, Israel and Russia detracted. Over the year, stock selection in South Africa, China and Korea contributed negatively to returns.

Quantitative Evaluation

CAPITAL INTERNATIONAL, INC.
Periods Ending June, 2009

Portfolio Manager: Victor Kohn

Assets Under Management: \$506,373,757

Investment Philosophy

Capital International's philosophy is value-oriented, as they focus on identifying the difference between the underlying value of a company and the price of its securities in its home market. Capital International's basic, fundamental, bottom-up approach is blended with macroeconomic and political judgments on the outlook for economies, industries, currencies and markets. The team of portfolio managers and analysts each select stocks for the portfolio based on extensive field research and direct company contact.

Staff Comments

Stock selection in China and an underweight position in Korea contributed positively to performance over the quarter and the year.

MORGAN STANLEY INVESTMENT MANAGEMENT
Periods Ending June, 2009

Portfolio Manager: Ruchir Sharma

Assets Under Management: \$474,669,010

Investment Philosophy

Morgan Stanley's style is core with a growth bias. They follow a top-down approach to country allocation and a bottom-up approach to stock selection. Morgan Stanley's macro-economic and stock selection analyses are qualitative as well as quantitative, concentrating on fundamentals. Their top-down analysis highlights countries with improving fundamentals and attractive valuations. Their bottom-up approach to stock selection focuses on purchasing companies with strong operating earnings potential at attractive valuations.

Staff Comments

The portfolio outperformed during the quarter and narrowly underperformed for the year. Overweight positions in the Indian and Turkish markets, which were top performers, added value during the quarter. While for the year, stock selection in Brazil and an overweight to Poland detracted from returns.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	36.4%	34.7%
Last 1 year	-28.4	-28.1

AQR CAPITAL MANAGEMENT, LLC
Periods Ending June, 2009

Portfolio Manager: Cliff Asness

Assets Under Management: \$196,528,440

Investment Philosophy

AQR employs a disciplined quantitative approach emphasizing both top-down country/currency allocation and bottom-up security selection decisions to generate excess returns. AQR's investment philosophy is based on the fundamental concepts of value and momentum. AQR's international equity product incorporates stock selection, country selection, and currency selection models as the primary alpha sources. Dynamic strategy allocation (between the three primary alpha sources) and style weighting are employed as secondary alpha sources.

Staff Comments

The portfolio outperformed the index over the quarter and underperformed over the year. Stock selection in Japan added value during the quarter, while stock selection in the United Kingdom detracted from returns for the year.

PYRAMIS GLOBAL ADVISORS TRUST COMPANY
(Formerly Fidelity Management Trust Company)
Periods Ending June, 2009

Portfolio Manager: Cesar Hernandez

Assets Under Management: \$208,582,538

Investment Philosophy

Select International combines active stock selection with quantitative risk control to provide consistent excess returns above the benchmark while minimizing relative volatility and risk. By combining five regional sub-portfolios in the U.K., Canada, Continental Europe, Japan, and the Pacific Basin ex Japan, the portfolio manager produces a portfolio made up of the best ideas of the firm's research analysts. Each regional portfolio is created so that stock selection is the largest contributor to active return while systematic, sector, and factor risks are minimized. The portfolio manager uses a combination of proprietary and third-party optimization models to monitor and control risk within each regional module. Resulting portfolios typically contain between 275-325 holdings.

Staff Comments

The portfolio underperformed during the quarter and the year. Negative stock selection in Japan detracted from returns over both periods.

Quantitative Evaluation

STATE STREET GLOBAL ADVISORS
Periods Ending June, 2009

Portfolio Manager: Didier Rosenfeld

Assets Under Management: \$193,513,876

Investment Philosophy

SSgA's Alpha strategy is managed using a quantitative process. Stock selection provides the best opportunity to add consistent value. Industry factors have come to dominate country factors and an approach that uses industry weights to add incremental value complements stock selection. Unwanted biases are controlled for through disciplined risk-control techniques. Country and regional allocations are a result of the security selection process but are managed to remain with +/- 5% of the benchmarks allocation. Sector and industry allocations are managed to be within +/- 3% of the benchmarks allocation. The portfolio managers on this team have extensive experience and insight, which is used in conjunction with the models to create core portfolios.

Staff Comments

The portfolio outperformed the index over the quarter and underperformed for the year. Stock selection in the financials sector contributed positively over the quarter, and detracted from returns over the year.

Quantitative Evaluation

Rolling Five Rolling VAM

Note: Shaded area includes performance prior to retention by the SBI.

STATE STREET GLOBAL ADVISORS
Periods Ending June, 2009

Portfolio Manager: Lynn Blake

Assets Under Management: \$2,530,317,055

Investment Philosophy

State Street Global Advisors passively manages the portfolio against the Morgan Stanley Capital International (MSCI) World ex U.S. index of 22 markets located in the developed markets outside of the United States (including Canada). SSgA fully replicates the index whenever possible because it results in lower turnover, higher tracking accuracy and lower market impact costs. The MSCI World ex U.S. (net) index reinvests dividends assuming a withholding tax on dividends, according to the Luxembourg tax rate. Whereas the portfolio reinvests dividends using all available reclaims and tax credits available to a U.S. pension fund, which should result in modest positive tracking error, over time.

Staff Comments

The portfolio's positive tracking error is within expectation over all time periods.

GE ASSET MANAGEMENT - Assigned Risk Plan
Periods Ending June, 2009

Portfolio Manager: Dave Carlson

Assets Under Management: \$50,721,786

Investment Philosophy
Assigned Risk Plan

GE's Multi-Style Equity program attempts to outperform the S&P 500 consistently while controlling overall portfolio risk through a multiple manager approach. A value portfolio, a growth portfolio and a research portfolio are combined to create a well diversified equity portfolio while maintaining low relative volatility and a style-neutral position between growth and value. All GE managers focus on stock selection from a bottom-up perspective.

VOYAGEUR ASSET MANAGEMENT - Assigned Risk Plan
Periods Ending June, 2009

Portfolio Manager: John Huber

Assets Under Management: \$251,941,425

Investment Philosophy
Assigned Risk Plan

Voyageur uses a top-down approach to fixed income investing. Their objective is to obtain superior long-term investment returns over a pre-determined benchmark that reflects the quality constraints and risk tolerance of the Assigned Risk Plan. Due to the specific liability requirement of the plan, return enhancement will focus on sector analysis and security selection. Yield curve and duration analysis are secondary considerations.

Staff Comments

Voyageur outperformed its benchmark for the quarter, but has underperformed over the last 12 months. Outperformance in the quarter can be attributed to the portfolio's securitized sector overweight, as various portions of the residential and commercial mortgage-backed securities market were supported by strong demand during the quarter, helping that sector outperform Treasuries. Over the last 12 months, the same securitized sector overweight was a drag on performance, as investors fled the sector in the second half of 2008 in favor of Treasuries.

Assets Under Management: \$1,163,968,364

Investment Philosophy

Staff Comments

Galliard Capital Management manages the Fixed Interest Account in the Supplemental Investment Fund. The stable value fund is managed to protect principal and provide competitive interest rates using instruments somewhat longer than typically found in money market-type accounts. The manager invests cash flows to optimize yields. The manager invests in high quality instruments diversified among traditional investment contracts and alternative investment contracts with U.S. and non-U.S. financial institutions. To maintain necessary liquidity, the manager invests a portion of the portfolio in its Stable Return Fund and in cash equivalents. The Stable Return Fund is a large, daily priced fund consisting of a wide range of stable value instruments that is available to retirement plans of all sizes.

Staff Comments

The Internal Equity Pool is managed to closely track the S&P 500 Index. The strategy replicates the S&P 500 by owning all of the names in the index at weightings similar to those of the index. The optimization model's estimate of tracking error with this strategy is approximately 10 basis points per year.

INTERNAL BOND POOL - Income Share Account
Periods Ending June, 2009

Portfolio Manager: Mike Messen

Assets Under Management: \$79,391,816

Investment Philosophy
Income Share Account

The investment approach emphasizes sector and security selection. The approach utilizes sector trading and relative spread analysis of both sectors and individual issues. The portfolio weightings in mortgage and corporate securities are consistently equal to or greater than the market weightings. The portfolio duration remains close to the benchmark duration but may be shortened or lengthened depending on changes in the economic outlook.

LARGE CAP EQUITY – JANUS TWENTY
Periods Ending June, 2009**

Portfolio Manager: Ron Sachs

**State's Participation in Fund: \$355,927,165
Total Assets in Fund: \$8,296,103,197**

**Investment Philosophy
Janus Twenty**

The investment objective of this fund is long-term growth of capital from increases in the market value of the stocks it owns. The fund will concentrate its investments in a core position of between twenty to thirty common stocks. This non-diversified fund seeks to invest in companies that the portfolio manager believes have strong current financial positions and offer growth potential.

Periods Ending June, 2009**

Portfolio Manager: Scott Glasser

State's Participation in Fund: \$95,712,937
Total Assets in Fund: \$3,783,955,441

**Investment Philosophy
Legg Mason Partners Appreciation I**

The Fund invests in U.S. growth and value stocks, primarily blue-chip companies that are dominant in their industries. Investments are selected from among a core base of stocks with a strong financial history, recognized industry leadership, and effective management teams that strive to earn consistent returns for shareholders. The portfolio manager looks for companies that he believes are undervalued with the belief that a catalyst will occur to unlock these values.

**State's Participation in Fund: \$303,577,883
Total Assets in Fund: \$20,219,000,000**

**Investment Philosophy
Vanguard Institutional Index**

This fund attempts to provide investment results, before fund expenses, that parallel the performance of the Standard & Poor's 500 Index. The fund invests in all 500 stocks listed in the S&P 500 index in approximately the same proportions as they are represented in the index. The managers have tracked the S&P 500's performance with a high degree of accuracy. The fund may use futures and options for temporary purposes, but generally remains fully invested in common stock.

Portfolio Manager: Donald Butler

**State's Participation in Fund: \$105,077,092
Total Assets in Fund: \$4,492,000,000**

**Investment Philosophy
Vanguard Mid-Cap Index**

The fund employs a “passive management”- or indexing-investment approach designed to track the performance of the MSCI US Mid Cap 450 Index, a broadly diversified index of stocks of medium-size U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting within the index.

Periods Ending June, 2009**

Portfolio Manager: Gregory A. McCrickard	State's Participation in Fund: \$259,959,579
	Total Assets in Fund: 4,154,009,722

**Investment Philosophy
T. Rowe Price Small Cap Equity Fund**

Staff Comments

The strategy of this fund is to invest primarily in stocks of small to medium-sized companies that are believed to offer either superior earnings growth or appear undervalued. The fund normally invests at least 80% of assets in equities traded in the U.S over-the-counter market. The manager does not favor making big bets on any particular sector or any particular stock. The fund's combination of growth and value stocks offers investors relatively more stable performance compared to other small cap stock funds.

Periods Ending June, 2009**

Portfolio Manager: John Gunn

**State's Participation in Fund: \$203,013,977
Total Assets in Fund: \$14,115,439,718**

**Investment Philosophy
Dodge & Cox Balanced Fund**

The Fund seeks regular income, conservation of principal and an opportunity for long-term growth of principal and income. The Fund invests in a diversified portfolio of common stocks preferred stocks and fixed income securities.

Staff Comments

The fund outperformed its benchmark for the quarter but underperformed for the last 12 months. A higher relative weighting to equities drove outperformance as the equity market posted strong second quarter returns relative to fixed income. The fixed income portion of the fund was predominantly in corporate bonds, which enjoyed the best quarterly return relative to Treasuries ever recorded. However, over the last 12 months these same two factors that drove outperformance in 2Q09 contributed to underperformance for the year.

Total Assets in Fund: \$15,049,129,334

**Investment Philosophy
Dodge & Cox Income Fund**

Staff Comments

The objective of this fund is a high and stable rate of current income with capital appreciation being a secondary consideration. This portfolio is invested primarily in intermediate term, investment-grade quality corporate and mortgage bonds and, to a lesser extent, government issues. While the fund invests primarily in the U.S. bond market, it may invest a small portion of assets in dollar-denominated foreign securities. The duration of the portfolio is kept near that of the bond market as a whole.

Staff Comments

The fund attempts to track the performance of the Barclays Capital Aggregate Bond Index, which is a widely recognized measure of the entire taxable U.S. bond market. The index consists of more than 5,000 U.S. Treasury, federal agency, mortgage-backed, and investment-grade corporate securities. Because it is not practical or cost-effective to own every security in the index, the fund invests in a large sampling that matches key characteristics of the index (such as market-sector weightings, coupon interest rates, credit quality, and maturity). To boost returns, the fund holds a higher percentage than the index in short-term, investment-grade corporate bonds and a lower percentage in short-term Treasury securities.

**MN STATE 457 DEFERRED COMPENSATION PLAN
INTERNATIONAL – FIDELITY DIVERSIFIED INTERNATIONAL
Periods Ending June, 2009**

Portfolio Manager: William Bower

**State's Participation in Fund: \$188,011,684
Total Assets in Fund: \$27,105,380,000**

**Investment Philosophy
Fidelity Diversified International**

The goal of this fund is capital appreciation by investing in securities of companies located outside of the United States. While the fund invests primarily in stocks, it may also invest in bonds. Most investments are made in companies that have a market capitalization of \$100 million or more and which are located in developed countries. To select the securities, the fund utilizes a rigorous computer-aided quantitative analysis supplemented by relevant economic and regulatory factors. The manager rarely invests in currency to protect the account from exchange fluctuations.

Staff Comments

Fidelity underperformed its benchmark for both the quarter and the last 12 months. The underperformance for the quarter can be attributed to the fund being heavily weighted in financials and consumer discretionary stocks, which have underperformed the broader market. Over the last 12 months, underperformance can be attributed to the financial sector overweight, as that sector has been among the worst performing for the 12 month period.

Vanguard Institutional Developed Market
Index**

Staff Comments

The fund seeks to track the performance of the MSCI EAFE Index by passively investing in two other Vanguard funds—the European Stock Index Fund and the Pacific Stock Index Fund. The combination of the two underlying index funds, in turn, seeks to track the investment results of the Morgan Stanley Capital International (MSCI) Europe, Australasia, Far East (EAFE) Index. The MSCI EAFE Index includes approximately 1,000 common stocks of companies located in Europe, Australia, Asia, and the Far East.

INVESTMENT ADVISORY COUNCIL REPORT

DATE: September 22, 2009

TO: Members, State Board of Investment

FROM: Members, Investment Advisory Council

The Investment Advisory Council met on August 19, 2009 to review the following information and action items:

1. Review of current strategy.
2. Recommendations to increase investment with an existing yield-oriented manager, Merit Capital, and to increase investment with an existing private equity manager, Lexington Capital Partners. Initial investments in both funds were approved in the prior quarter.

Board action is required on the last item.

INFORMATION ITEMS:

1) Review of Current Strategy.

To increase overall portfolio diversification, 20% of the Combined Funds are allocated to alternative investments. Alternative investments include real estate, private equity, resource, and yield-oriented investments in which Minnesota State Board of Investment (SBI) participation is limited to commingled funds or other pooled vehicles. Charts summarizing the Board's current commitments are attached (see **Attachments A and B**).

1. The real estate investment strategy calls for the establishment and maintenance of a broadly diversified real estate portfolio comprised of investments diversified by property type and location. The main component of this portfolio consists of investments in diversified Real Estate Investment Trusts (REITs), open-end commingled funds, and closed-end commingled funds. The remaining portion of the portfolio can include investments in less diversified; more focused (specialty) commingled funds and REITs.

2. The private equity investment strategy, which includes leveraged buyouts and venture capital, is to establish and maintain a broadly diversified private equity portfolio comprised of investments that provide diversification by industry type, stage of corporate development, and location.
3. The strategy for resource investments is to establish and maintain a portfolio of resource investment vehicles that provide an inflation hedge and additional diversification. Resource investments will include oil and gas investments, energy service industry investments, and other investments that are diversified both by geographic region and by type.
4. The strategy for yield-oriented investments will target funds that typically provide a current return and may have an equity component. Structures, such as subordinated debt investments and mezzanine investments are typical yield-oriented investments. Yield-oriented investments will provide diversification by including investments in the private equity, resource, and real estate categories.

ACTION ITEMS:

1) Increased investment with an existing yield-oriented manager, Merit Capital, in Merit Mezzanine Fund V, L.P.

At its June 10, 2009 meeting, the State Board of Investment approved a \$50 million commitment to Merit Mezzanine V, L.P. Fund V is a successor to four prior yield-oriented funds managed by Merit. The SBI has invested in funds III and IV. Like the prior funds, this fund will seek to earn attractive returns through a diversified portfolio of yield-oriented investments.

Merit is continuing fundraising for Fund V with a target of raising a \$600 million yield-oriented fund. The strength in the overall market during the past quarter has provided additional flexibility in the Board's allocation to alternative investments. The Investment Advisory Council is therefore recommending an additional investment of \$25 million to Merit Mezzanine V, L.P. for a total of \$75 million (which is the same dollar amount the SBI invested in Fund IV.)

RECOMMENDATION:

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute an additional commitment of up to \$25 million in Merit Mezzanine V, L.P. This would increase the SBI's total commitment from \$50 million to \$75 million or 20% of the total fund, whichever is less, in Merit Mezzanine V, L.P. Approval by the SBI of this potential additional commitment is not intended to be, and does not constitute in any way, a binding or legal

agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Merit upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Merit or reduction or termination of the commitment.

2) Increased investment with an existing private equity manager, Lexington Capital Partners, in Lexington Capital Partners VII, L.P.

At the June 10, 2009 meeting, the State Board of Investment approved a \$50 million commitment to Lexington Capital Partners VII, L.P. This fund is a successor to six other prior private equity funds managed by Lexington Capital Partners. The SBI has invested \$100 million in the prior fund, Fund VI. Like the prior funds, this fund will seek to earn attractive returns through a diversified portfolio of private equity, mezzanine, and venture capital investments through secondary transactions.

Lexington is continuing fundraising for this potential \$5 billion private equity fund. The strength in the overall market during the past quarter has provided additional flexibility in the Board's allocation to alternative investments. The Investment Advisory Council is therefore recommending an additional investment of \$50 million to Lexington Capital Partners VII, L.P. for a total of \$100 million (which is the same dollar amount the SBI invested in the prior Fund VI.)

RECOMMENDATION:

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute an additional commitment of up to \$50 million in Lexington Capital Partners VII, L.P. This would increase the SBI's total commitment from \$50 million to \$100 million or 20% of the total fund, whichever is less, in Lexington Capital Partners VII, L.P. Approval by the SBI of this potential additional commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Lexington Capital Partners upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Lexington Capital Partners or reduction or termination of the commitment.

* None of the data presented herein has been reviewed or approved by either the general partner or investment manager. The performance and valuation data presented herein is not a guarantee or prediction of future results. Ultimately, the actual performance and value of any investment is not known until final liquidation. Because there is no industry-standardized method for valuation or reporting, comparisons of performance and valuation data among different investments is difficult.
