| 8. Other items | |

**Minutes
State Board of Investment
September 27, 2010**

The State Board of Investment (SBI) met at 1:00 P.M. Monday, September 27, 2010 in Room 123, State Capitol, St. Paul, Minnesota. Governor Tim Pawlenty; State Auditor Rebecca Otto; Secretary of State Mark Ritchie and Attorney General Lori Swanson were present.

The minutes of the June 2, 2010 meeting were approved.

Executive Director's Report

Mr. Bicker, Executive Director, referred members to Tab A of the meeting materials and he reported that the Combined Funds had outperformed its Composite Index over the ten year period ending June 30, 2010 (Combined Funds 2.9% vs. Composite 2.8%.) and had provided a real rate of return over the latest 20 year period (Combined Funds 8.0% vs. CPI 2.6%.)

Mr. Bicker reported that the Combined Funds' assets decreased for the quarter ending June 30, 2010 due to weak market performance. He said that the asset mix is on target, and he reported that the Combined Funds outperformed its Composite Index for the quarter (Combined Funds -5.5% vs. Composite -5.7%) and for the year (Combined Funds 15.2% vs. Composite 13.5%.)

Mr. Bicker reported that the domestic stock manager group underperformed its target for the quarter (Domestic Stock -11.5% vs. Domestic Equity Asset Class Target -11.3%) but outperformed for the year (Domestic Stocks 15.8% vs. Domestic Equity Asset Class Target 15.7%.) He said the International Stock manager group outperformed its Composite Index for the quarter (International Stocks -11.5% vs. International Equity Asset Class Target -12.4%) and for the year (International Stocks 11.7% vs. International Equity Asset Class Target 10.4%.) Mr. Bicker stated that the bond segment outperformed its target for the quarter (Bonds 3.6% vs. Fixed Income Asset Class Target 3.5%) and for the year (Bonds 14.5% vs. Fixed Income Asset Class Target 9.5%.) He stated that the alternative investments returned 15.0% for the year. He concluded his report with the comment that, as of June 30, 2010, the SBI was responsible for over \$52 billion in assets.

Mr. Bicker referred members to Tab B of the meeting materials for an update on the budget and travel for the quarter.

Mr. Bicker stated that updated information on Sudan and Iran is included in Tab B, and he noted that staff is in the process of implementing the Iran legislation.

Mr. Bicker said that staff continues to work on updating existing repurchase (repo) agreements with current counterparties and resolving some contractual wording issues.

He stated that at this time staff believes the remaining repo counterparties offer sufficient capacity to meet the State's liquidity needs. He said that staff is setting up contingency plans with State Street Bank to manage a short-term pool to help meet the State's short term investments needs.

Ms. Eller stated that the Lehman bankruptcy case is proceeding. She said that the SBI is not a defendant in the pension lawsuit, and she noted that the judge had granted the plaintiff's motion to open discovery.

Mr. Bicker stated that staff is recommending that staff be granted the authority to renegotiate its contract with State Street Bank. He noted that there have been significant changes in the financial markets since the last contract was awarded and that staff has also required additional services from the bank. Ms. Otto moved approval of the recommendation as stated in Tab B of the meeting materials, which reads: "**Staff and the IAC recommend that staff be granted authority to renegotiate its contract with State Street Bank to ensure that the SBI continues to receive the high quality services the Board needs to operate effectively.**" The motion passed.

Investment Advisory Council Report

Mr. Bailey referred members to Tab C of the meeting materials and briefly reviewed the recent manager performance. He reported that staff is not recommending the use of customized MSCI market indices as the asset class target or as individual manager benchmarks for the international equity program at this time. In response to a comment from Ms. Otto, Mr. Bicker stated that staff anticipates subscribing to the customized index as an internal measure only of the impact of the various investment restrictions, beginning next fiscal year.

Mr. Bailey stated that staff has no recommendations for alternative investments this quarter.

The meeting adjourned at 1:20 P.M.

Respectfully submitted,

Howard Bicker
Executive Director

Tab A

LONG TERM OBJECTIVES
Period Ending 9/30/2010

COMBINED FUNDS: \$43.4 Billion	Result	Compared to Objective
<p>Match or Exceed Composite Index (10 Yr.)</p> <p>Outperform a composite market index weighted in a manner that reflects the long-term asset allocation of the Combined Funds over the latest 10 year period.</p>	3.8% (1)	0.2 percentage point above the target
<p>Provide Real Return (20 yr.)</p> <p>Provide returns that are 3-5 percentage points greater than inflation over the latest 20 year period.</p>	9.0%	6.5 percentage points above CPI

(1) Performance is calculated net of fees.

SUMMARY OF ACTUARIAL VALUATIONS**Eight Plans of MSRS, PERA and TRA
July 1, 2009****Liabilities**

Actuarially Accrued Liabilities	\$60.7 billion
---------------------------------	----------------

Assets

Current Actuarial Value	\$46.8 billion
-------------------------	----------------

Funding Ratio

Current Actuarial Value divided by Accrued Liabilities	77.1%
---	-------

Actuarial Assumptions:

1. Liabilities calculated using entry age normal cost method.
2. Difference between actual returns and actuarially expected returns spread over five years.
3. Interest/Discount Rate: 8.5%
4. Full Funding Target Date:
 - 2020 – MSRS General
 - 2031 – PERA General
 - 2037 – TRA

EXECUTIVE SUMMARY

Combined Funds (Net of Fees)

Asset Growth

The market value of the Combined Funds increased 7.2% during the third quarter of 2010. Positive investment returns caused the increase in market value.

Asset Growth During Third Quarter 2010 (Millions)

Beginning Value	\$ 40,466
Net Contributions	-536
Investment Return	3,449
Ending Value	\$ 43,379

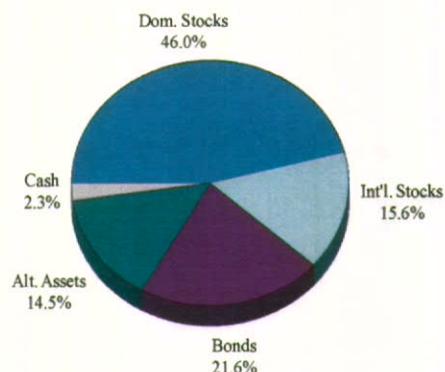

Note: The significant increase in market value and contributions in June 2009 was due to the merger of the Basics and Post Funds.

Asset Mix

Strong equity returns and rebalancing caused the allocation to domestic equities to increase. The fixed income allocation decreased due to the rebalancing.

	Policy Targets	Actual Mix 9/30/2010	Actual Market Value (Millions)
Domestic Stocks	45.0%	46.0%	\$19,943
Int'l. Stocks	15.0	15.6	6,789
Bonds	18.0	21.6	9,367
Alternative Assets*	20.0	14.5	6,297
Unallocated Cash	2.0	2.3	983
	100.0%	100.0%	\$43,379

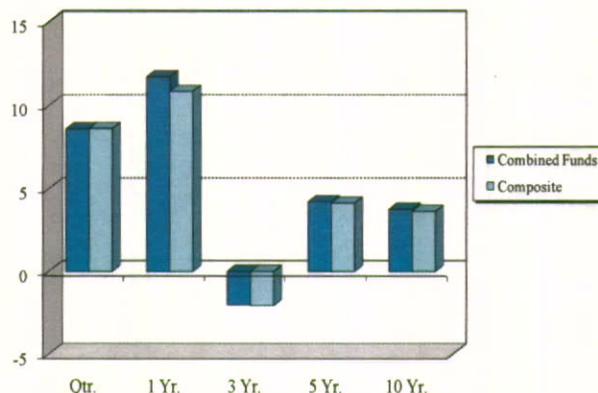

* Any uninvested allocation is held in domestic bonds.

Fund Performance (Net of Fees)

The Combined Funds was even with its target for the quarter and outperformed for the year.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Combined Funds	8.6%	11.7%	-2.0%	4.2%	3.8%
Composite	8.6	10.9	-2.0	4.1	3.6

EXECUTIVE SUMMARY

Stock and Bond Manager Performance (Net of Fees)

Domestic Stocks

The domestic stock manager group (active, semi-passive and passive combined) was even with its target for the quarter and underperformed for the year.

Russell 3000: The Russell 3000 measures the performance of the 3,000 largest U.S. companies based on total market capitalization.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Dom. Stocks	11.5%	10.9%	-6.8%	0.6%	-0.3%
Asset Class Target*	11.5	11.0	-6.6	0.9	-0.1

* The Domestic Equity Asset Class Target is the Russell 3000 effective 10/1/03. From 7/1/99 to 9/30/03, it was the Wilshire 5000 Investable Index.

International Stocks

The international stock manager group (active, semi-passive and passive combined) was even with its target for the quarter and outperformed for the year.

MSCI ACWI Free ex U.S. (net): The Morgan Stanley Capital International All Country World Index is a free float-adjusted market capitalization Index that is designed to measure equity market performance in the global developed and emerging markets. There are 45 countries included in this index. It does not include the United States.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Int'l. Stocks	16.6%	9.0%	-7.0%	4.6%	4.5%
Asset Class Target*	16.6	7.6	-7.3	4.3	4.3

* Since 6/1/08 the International Equity Asset Class Target is the Standard MSCI ACWI ex U.S. (net). From 10/1/07 to 5/31/08 the benchmark was the Provisional Standard MSCI ACWI ex U.S. (net). From 10/1/03 to 9/30/07 the target was MSCI ACWI ex U.S. (net). From 1/1/01 to 9/30/03, the target was MSCI EAFE Free (net) + Emerging Markets Free (EMF) (net), and from 7/1/99 to 12/31/00 was MSCI EAFE Free (net) + EMF (gross). From 7/1/99 to 9/30/03, the weight of each index fluctuated with market cap.

Bonds

The bond manager group (active and semi-passive combined) outperformed its target for the quarter and for the year.

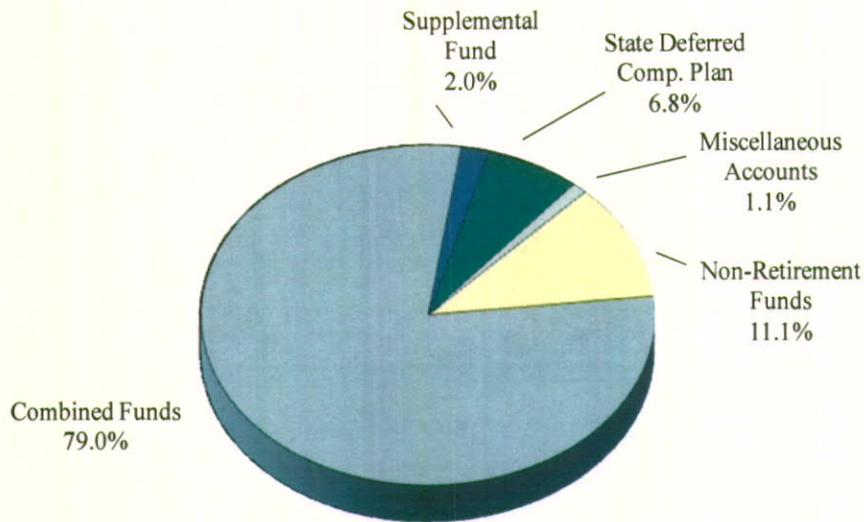

Barclays Capital Aggregate: The Barclays Capital Aggregate Bond Index reflects the performance of the broad bond market for investment grade (Baa or higher) bonds, U.S. treasury and agency securities, and mortgage obligations with maturities greater than one year.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Bonds	3.2%	11.2%	7.2%	6.1%	6.6%

(7) Consumer Price Index (CPI) for all wage earners, also known as CPI-W.

FINANCIAL MARKETS REVIEW

DOMESTIC STOCKS

The U.S. stock market, as measured by the Russell 3000 index, posted an 11.5% return during the third quarter of 2010. In September, the U.S. Bureau of Economic Research declared the recession officially ended in June 2009. Volatility remained during the summer in equities, but improving investor sentiment during September drove stocks higher for the third quarter. The markets experienced the strongest September returns on record for the Dow in 71 years. This strong performance is welcome because September is historically one of the poorest performing months for equities. The upbeat macroeconomic news contributed to strong sector performance in the index, and all sectors were positive over the quarter. Within the Russell 3000, the Autos & Transportation sector along with the Materials & Processing sector reported the highest sector returns, both up 17.0% for the quarter. The Financial sector was the worst performing sector with a 5.6% return for the quarter. Growth companies outperformed value companies within the Russell 3000.

Performance of the Russell Style Indices for the quarter is shown below:

Large Growth	Russell 1000 Growth	13.0%
Large Value	Russell 1000 Value	10.1%
Small Growth	Russell 2000 Growth	12.8%
Small Value	Russell 2000 Value	9.7%

The Russell 3000 index returned 11.0% for the year ending September 30, 2010.

DOMESTIC BONDS

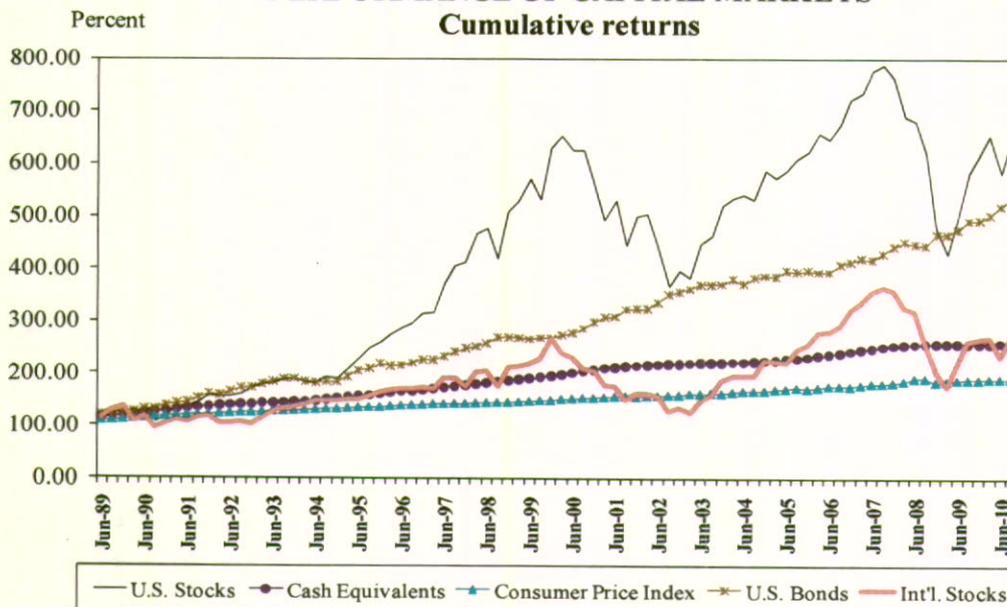

The U.S. bond market, as measured by the Barclays Capital Aggregate Index, returned 2.5% for the quarter. The spread sectors of the market performed well in 3Q10 after a pause in 2Q10. Increased uncertainty about the economic recovery drove Treasury yields lower.

The Treasury Yield Curve steepened marginally over the quarter, as 5 year yields dropped 51 bps and 10 year yields dropped 42 bps while the 30-year sector declined 20 bps. Corporate bonds outperformed Treasuries in 3Q as investors were encouraged by positive earnings and sought extra yield in lieu of low-yielding Treasuries. Commercial Mortgage-backed securities outperformed Treasuries as well, but Residential Mortgage-backed securities underperformed. Worries of a refinancing wave due to falling interest rates, weak home sales numbers, and foreclosure issues led investors away from the sector.

The major sector returns for the Barclays Capital Aggregate for the quarter were:

U.S. Treasury	2.7%
Agency	1.9
Corporates	4.7
Agency MBS	0.6
Commercial Mortgages	6.4
Asset-backed	2.5

PERFORMANCE OF CAPITAL MARKETS
Cumulative returns

FINANCIAL MARKETS REVIEW

INTERNATIONAL STOCKS

In aggregate, developed international stock markets (as measured by the MSCI World ex U.S. index net) provided a return of 16.1% for the quarter. The quarterly performance of the six largest stock markets is shown below:

United Kingdom	19.8%
Japan	5.8
Canada	13.2
France	20.8
Australia	23.6
Germany	16.7

The World ex U.S. index returned 4.1% during the last year.

The World ex U.S. index is compiled by Morgan Stanley Capital International (MSCI) and is a measure of 23 markets located in Europe, Australasia, Far East, and Canada. The major markets listed above comprise about 72% of the value of the international markets in the index.

EMERGING MARKETS

Emerging markets (as measured by MSCI Emerging Markets Free index gross) provided a return of 18.2% for the quarter. The quarterly performance of the six largest stock markets in the index is shown below:

China	10.7%
Brazil	21.8
Korea	17.2
Taiwan	19.9
India	15.4
South Africa	25.4

The Emerging Markets Free index returned 20.5% during the last year.

The Emerging Markets Free (EMF) index is compiled by MSCI and measures performance of 21 stock markets in Latin America, Asia, Africa and Eastern Europe. EMF includes only those securities foreign investors are allowed to hold. The markets listed above comprise about 74% of the value of the international markets in the index.

REAL ESTATE

During the third quarter of 2010, real estate posted its third consecutive quarter of positive returns with the NCREIF Property Index posting a return of 3.86%. Even with accommodative monetary and fiscal policies, the real estate outlook for the remainder of 2010 continues to be one of caution due to weakness in employment.

PRIVATE EQUITY

Many economists are forecasting a slower growth environment with U.S. GDP increases of 2%-3% as the economy deleverages and high unemployment continues. Third quarter U.S. IPO volume of \$3.9 billion decreased 27% from a year ago and 20% from second quarter this year. This year, 50 of the 75 U.S. IPOs have been backed by private equity sponsors, representing 60% of total IPO dollar volume. U.S. M&A activity increased significantly during the quarter with \$199 billion of combined deal value, representing a 76% increase above 2009 levels, the nadir of deal making amid the financial crisis. Corporations have been driving this higher level of activity as they begin to utilize their significant cash positions to make acquisitions. The renewed emphasis by corporations on strategic acquisitions could enhance the private equity exit environment.

RESOURCE FUNDS

During the third quarter of 2010, crude oil traded between a range of \$83/bbl and \$72/bbl. The average price for the third quarter of 2010 was \$76/bbl which is close to the average price for the entire calendar year. Producers continued to drill for natural gas during the third quarter despite declining gas prices and a stagnant economy. Third quarter natural gas prices averaged \$4.24/mmbtu. Many industry experts believe that improvements in drilling technologies and recent natural gas discoveries will continue to put downward pressure on natural gas prices for the foreseeable future.

COMBINED FUNDS

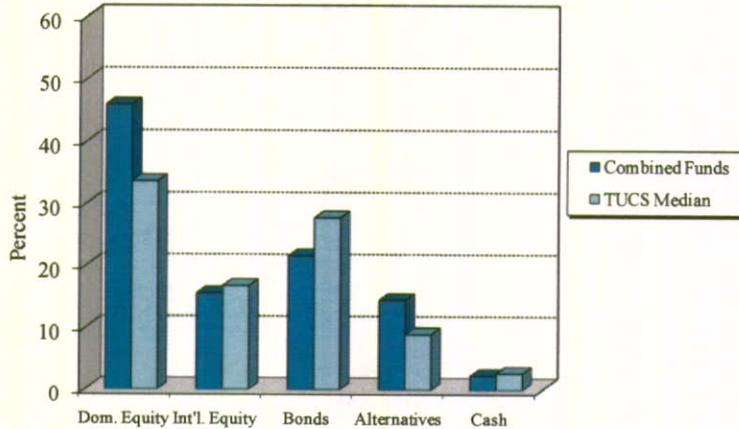

The comparison universe used by the SBI is the Trust Universe Comparison Service (TUCS). Only funds with assets over \$1 billion are included in the comparisons shown in this section.

Asset Mix Compared to Other Pension Funds

On September 30, 2010, the actual asset mix of the Combined Funds was:

Comparisons of the Combined Funds' asset mix to the median allocation to stocks, bonds and other assets of the public and corporate funds in TUCS over \$1 billion are shown below:

	\$ Millions	%
Domestic Stocks	\$19,943	46.0%
International Stocks	6,789	15.6
Bonds	9,367	21.6
Alternative Assets	6,297	14.5
Unallocated Cash	983	2.3
Total	\$43,379	100.0%

	Dom. Equity	Int'l Equity	Bonds	Alternatives	Cash
Combined Funds	46.0%	15.6%	21.6%	14.5%	2.3%
Median Allocation in TUCS*	33.7	16.8	27.8	9.0**	2.7

* Public and corporate plans over \$1 billion.

** May include assets other than alternatives.

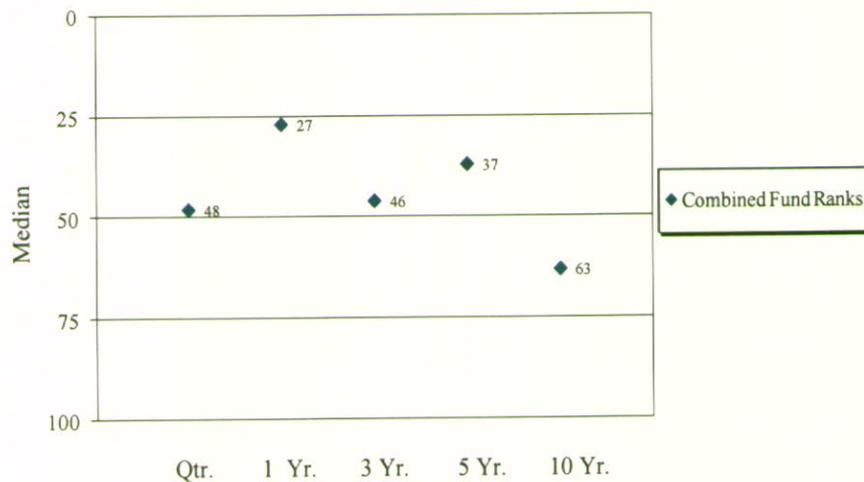

COMBINED FUNDS
Performance Compared to Other Pension Funds

While the SBI is concerned with how its returns compare to other pension investors, universe comparisons should be used with great care. There are several reasons why such comparisons will provide an “apples to oranges” look at performance:

- **Differing Allocations.** Asset allocation will have a dominant effect on return. The allocation to stocks among the funds in TUCS typically ranges from 20-90%, a very wide range for meaningful comparison. In addition, it appears that many funds do not include alternative asset holdings in their reports to TUCS. This further distorts comparisons among funds.
- **Differing Goals/Liabilities.** Each pension fund structures its portfolio to meet its own liabilities and risk tolerance. This will result in different choices on asset mix. Since asset mix will largely determine investment results, a universe ranking is not relevant to a discussion of how well a plan sponsor is meeting its long-term liabilities.

With these considerations in mind, the performance of the Combined Funds compared to other public and corporate pension funds in Trust Universe Comparison Service (TUCS) are shown below.

The SBI’s returns are ranked against public and corporate plans with over \$1 billion in assets. All funds in TUCS report their returns gross of fees.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Combined Funds Percentile Rank in TUCS*	48th	27th	46th	37th	63rd

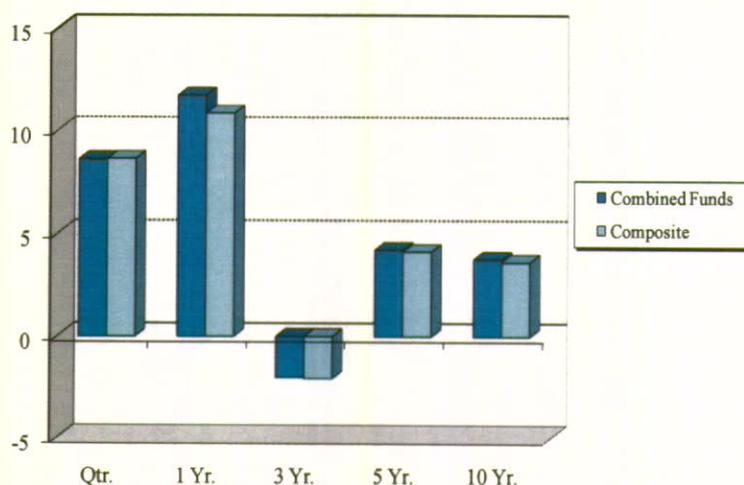

* Compared to public and corporate plans greater than \$1 billion, gross of fees.

COMBINED FUNDS
Performance Compared to Composite Index

The Combined Funds' performance is evaluated relative to a composite of market indices. The composite is weighted in a manner that reflects the asset allocation of the Combined Funds:

	Market Index	Combined Funds Composite* 3Q10
Domestic Stocks	Russell 3000	45.0%
Int'l. Stocks	MSCI ACWI Free ex-U.S.	15.0
Bonds	Barclays Capital Aggregate	23.7*
Alternative Investments	Alternative Investments	15.3*
Unallocated Cash	3 Month T-Bills	1.0
		100.0%

* Alternative asset and fixed income weights are reset in the composite at the start of each month to reflect the amount of unfunded commitments in alternative asset classes. The above Combined Funds Composite weighting was as of the beginning of the quarter.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Combined Funds**	8.6%	11.7%	-2.0%	4.2%	3.8%
Composite Index	8.6	10.9	-2.0	4.1	3.6

** Actual returns are reported net of fees.

STOCK AND BOND MANAGERS
Performance of Asset Pools (Net of Fees)

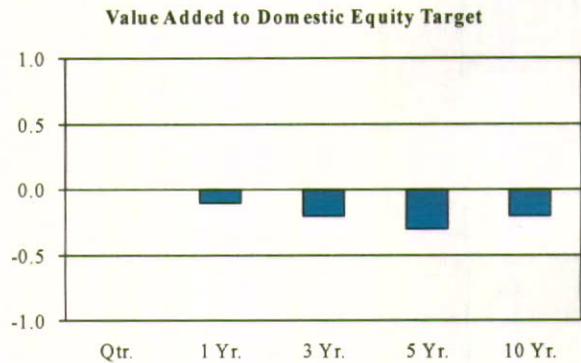

Domestic Stocks

Target: Russell 3000

Expectation: If one-third of the pool is actively managed, one-third is semi-passively managed, and one-third is passively managed, the entire pool is expected to exceed the target by .18% - .40% annualized, over time.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Domestic Stocks	11.5%	10.9%	-6.8%	0.6%	-0.3%
Asset Class Target*	11.5	11.0	-6.6	0.9	-0.1

* The Domestic Equity Asset Class Target is the Russell 3000 effective 10/1/03. From 7/1/99 to 9/30/03, it was the Wilshire 5000 Investable Index.

International Stocks

Target: MSCI ACWI Free ex U.S. (net)

Expectation: If at least one-third of the pool is managed actively, no more than one-third is semi-passively managed, and at least one-quarter is passively managed, the entire pool is expected to exceed the target by .25% - .75% annualized, over time.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Int'l. Stocks	16.6%	9.0%	-7.0%	4.6%	4.5%
Asset Class Target*	16.6	7.6	-7.3	4.3	4.3

* The Int'l Equity Asset Class Target is MSCI ACWI Free ex U.S. (net) effective 10/1/03. From 1/1/01 to 9/30/03, the target was MSCI EAFE Free (net) + Emerging Markets Free (EMF) (net), and from 7/1/99 to 12/31/00 was MSCI EAFE Free (net) + EMF (gross). From 7/1/99 to 9/30/03, the weight of each index fluctuated with market cap.

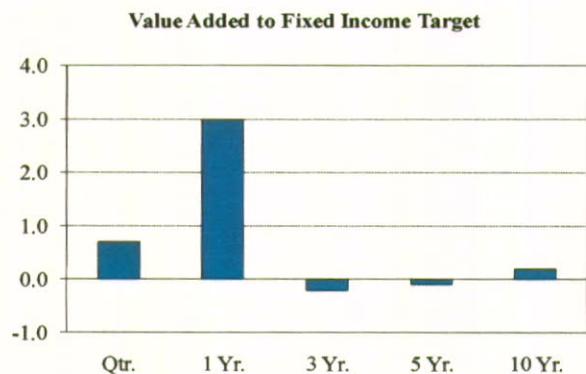

Bonds

Target: Barclays Capital Aggregate Bond Index

Expectation: If half of the pool is actively managed and half is managed semi-passively, the entire pool is expected to exceed the target by .20% - .35% annualized, over time.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Bonds	3.2%	11.2%	7.2%	6.1%	6.6%
Asset Class Target	2.5	8.2	7.4	6.2	6.4

ALTERNATIVE INVESTMENTS

Performance of Asset Categories (Net of Fees)

Alternative Investments

Expectation: The alternative investments are measured against themselves using actual portfolio returns.

	Period Ending 9/30/2010				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Alternatives	1.9%	15.9%	0.9%	12.2%	11.5%
Inflation	0.2%	1.1%	1.6%	1.9%	2.2%

Real Estate Investments (Equity emphasis)

Expectation: Real estate investments are expected to exceed the rate of inflation by 5% annualized, over the life of the investment.

The SBI began its real estate program in the mid-1980's and periodically makes new investments. Some of the existing investments are relatively immature and returns may not be indicative of future results.

	Period Ending 9/30/2010				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Real Estate	3.3%	-7.5%	-12.3%	0.6%	5.5%

Private Equity Investments (Equity emphasis)

Expectation: Private equity investments are expected to exceed the rate of inflation by 10% annualized, over the life of the investment.

The SBI began its private equity program in the mid-1980's and periodically makes new investments. Some of the existing investments are relatively immature and returns may not be indicative of future results.

	Period Ending 9/30/2010				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Private Equity	1.8%	21.0%	1.7%	13.1%	10.1%

Resource Investments (Equity emphasis)

Expectation: Resource investments are expected to exceed the rate of inflation by 5% annualized, over the life of the investment.

The SBI began its resource program in the mid-1980's and periodically makes new investments. Some of the existing investments are relatively immature and returns may not be indicative of future results.

	Period Ending 9/30/2010				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Resource	-1.6%	13.9%	3.9%	18.9%	23.2%

Yield Oriented Investments (Debt emphasis)

Expectation: Yield oriented investments are expected to exceed the rate of inflation by 5.5% annualized, over the life of the investment.

The SBI began its yield oriented program in 1994. Some of the existing investments are relatively immature and returns may not be indicative of future returns.

	Period Ending 9/30/2010				
	Qtr.	Yr.	3 Yr.	5 Yr.	10 Yr.
Yield Oriented	3.0%	21.5%	8.4%	17.3%	15.3%

SUPPLEMENTAL INVESTMENT FUND

The Minnesota Supplemental Investment Fund is a multi-purpose investment program that offers a range of investment options to state and local public employees. The different participating groups use the Fund for a variety of purposes:

1. It functions as the investment manager for all assets of the Unclassified Employees Retirement Plan, Public Employees Defined Contribution Plan, Hennepin County Supplemental Retirement Plan, and Health Care Savings Plan.
2. It is one investment vehicle offered to employees as part of Minnesota State Colleges and University's Individual Retirement Account Plan and College Supplemental Retirement Plan.
3. It serves as an external money manager for a portion of some local police and firefighter retirement plans.
4. It serves as the investment vehicle for the Voluntary Statewide Volunteer Firefighter Plan.

A wide diversity of investment goals exists among the Fund's participants. In order to meet those needs, the Fund has been structured much like a "family of mutual funds." Participants may allocate their investments among one or more accounts that are appropriate for their needs, within the statutory requirements and rules established by the participating organizations. Participation in the Fund is accomplished through the purchase or sale of shares in each account.

The investment returns shown in this report are calculated using a time-weighted rate of return formula. All returns are net of investment management fees.

On September 30, 2010 the market value of the entire Fund was \$1.1 billion.

Investment Options

	9/30/2010 Market Value (In Millions)
Income Share Account – a balanced portfolio utilizing both common stocks and bonds.	\$230
Growth Share Account – an actively managed, all common stock portfolio.	\$109
Common Stock Index Account – a passively managed, all common stock portfolio designed to track the performance of the entire U.S. stock market.	\$221
International Share Account – a portfolio of non U.S. stocks that incorporates both active and passive management.	\$121
Bond Market Account – an actively managed, all bond portfolio.	\$138
Money Market Account – a portfolio utilizing short-term, liquid debt securities.	\$172
Fixed Interest Account – a portfolio of guaranteed investment contracts (GIC's) and GIC type investments which offer a fixed rate of return for a specified period of time.	\$130
Volunteer Firefighter Account – a balanced portfolio only used by the Voluntary Statewide Volunteer Firefighter Plan.	\$1

SUPPLEMENTAL INVESTMENT FUND ACCOUNTS

INCOME SHARE ACCOUNT

Investment Objective

The primary investment objective of the Income Share Account is similar to that of the Combined Funds. The Account seeks to maximize long-term real rates of return, while limiting short-run portfolio return volatility.

Asset Mix

The Income Share Account is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds act as a deflation hedge and provide portfolio diversification.

	Target	Actual
Stocks	60.0%	60.9%
Bonds	35.0	37.6

GROWTH SHARE ACCOUNT

Investment Objective

The Growth Share Account's investment objective is to generate above-average returns from capital appreciation on common stocks.

Asset Mix

The Growth Share Account is invested primarily in the common stocks of US companies. The managers in the account also hold varying levels of cash.

Period Ending 9/30/2010

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.

COMMON STOCK INDEX ACCOUNT

Investment Objective and Asset Mix

The investment objective of the Common Stock Index Account is to generate returns that track those of the U.S. stock market as a whole. The Account is designed to track the performance of the Russell 3000, a broad-based equity market indicator.

The Account is invested 100% in common stock.

Period Ending 9/30/2010

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	11.5%	11.3%	-6.3%	1.1%	0.1%

INTERNATIONAL SHARE ACCOUNT

Investment Objective and Asset Mix

The investment objective of the International Share Account is to earn a high rate of return by investing in the stock of companies outside the U.S. At least twenty-five percent of the Account is "passively managed" and up to 10% of the Account is "semi-passively managed." These portions of the Account are designed to track and modestly outperform, respectively, the return of 22 developed markets included in the Morgan Stanley Capital International World ex U.S. Index. The remainder of the Account is "actively managed" by several international managers and emerging markets specialists who buy and sell stocks in an attempt to maximize market value.

Period Ending 9/30/2010

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	16.6%	9.0%	-6.8%	4.8%	4.7%

* The Int'l Equity Asset Class Target is MSCI ACWI Free ex U.S. (net) since 10/1/03. From 1/1/01 to 9/30/03, the target was MSCI EAFE Free (net) + Emerging Markets Free (EMF) (net), and from 7/1/99 to 12/31/00 was MSCI EAFE Free (net) + EMF (gross). From 7/1/99 to 9/30/03, the weight of each index fluctuated with market cap.

SUPPLEMENTAL INVESTMENT FUND ACCOUNTS

BOND MARKET ACCOUNT**Investment Objective**

The investment objective of the Bond Market Account is to exceed the return of the broad domestic bond market by investing in fixed income securities.

Asset Mix

The Bond Market Account invests primarily in high-quality, government and corporate bonds that have intermediate to long-term maturities, usually 3 to 20 years.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	3.2%	11.2%	7.2%	6.1%	6.6%
Barclays Capital Aggregate	2.5	8.2	7.4	6.2	6.4

MONEY MARKET ACCOUNT**Investment Objective**

The investment objective of the Money Market Account is to protect principal by investing in short-term, liquid U.S. Government securities.

Asset Mix

The Account is invested entirely in high quality, short-term U.S. Treasury and Agency securities. The average maturity of the portfolios is less than 90 days.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	0.1%	0.2%	1.6%	2.8%	2.7%
3 month T-Bills	0.0	0.1	0.9	2.4	2.4

FIXED INTEREST ACCOUNT**Investment Objectives**

The investment objectives of the Fixed Interest Account are to protect investors from loss of their original investment and to provide competitive interest rates using somewhat longer-term investments than typically found in a money market account.

Asset Mix

The Account is invested in a well-diversified portfolio of high-quality fixed income securities with strong credit ratings. The Account also invests in contracts issued by highly rated insurance companies and banks which are structured to provide principal protection for the Account's diversified bond portfolios, regardless of daily market changes.

	Period Ending 9/30/2010				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	1.0%	4.3%	4.6%	4.6%	4.9%
Benchmark*	0.3	1.7	2.2	3.4	3.5

* The Fixed Interest Benchmark is the 3 year Constant Maturity Treasury Bill +45 basis points.

VOLUNTEER FIREFIGHTER ACCOUNT

The investment objective of the Volunteer Firefighter Account is to maximize long-term returns while limiting short-term portfolio return volatility.

The Account is invested in a balanced portfolio:

	Target	Actual
Domestic Stocks	35.0	36.0%
International Stocks	15.0	15.6
Bonds	45.0	45.1
Cash	5.0	3.3
	100.0%	100.0%

	Period Ending 9/30/2010	
	Qtr.	1 Yr.
Total Account	7.8	N/A
Benchmark*	7.7	

* The benchmark for this account is 35% Russell 3000, 15% MSCI ACWI Free ex U.S. (net), 45% Barclays Capital Aggregate, 5% 3 month T-Bills.

DEFERRED COMPENSATION PLAN ACCOUNTS

The Deferred Compensation Plan provides public employees with a tax-sheltered retirement savings plan that is a supplement to their primary retirement plan. (In most cases, the primary plan is a defined benefit plan administered by TRA, PERA, or MSRS.)

Participants choose from 6 actively managed mutual funds and 5 passively managed mutual funds.

The SBI also offers a money market option, a fixed interest option, and a fixed fund option. All provide for daily pricing needs of the plan administrator. Participants may also choose from hundreds of funds in a mutual fund window. The current plan structure became effective March 1, 2004. The investment options and objectives are outlined below.

ASSIGNED RISK PLAN

Investment Objectives

The Assigned Risk Plan has two investment objectives: to minimize the mismatch between assets and liabilities and to provide sufficient liquidity for the payment of on-going claims and operating expenses.

Asset Mix

The Assigned Risk Plan is invested in a portfolio of common stocks and bonds. The actual asset mix will fluctuate in response to changes in the Plan's liability stream.

	9/30/2010 Target	9/30/2010 Actual
Stocks	20.0%	20.0%
Bonds	80.0	80.0
Total	100.0%	100.0%

Investment Management

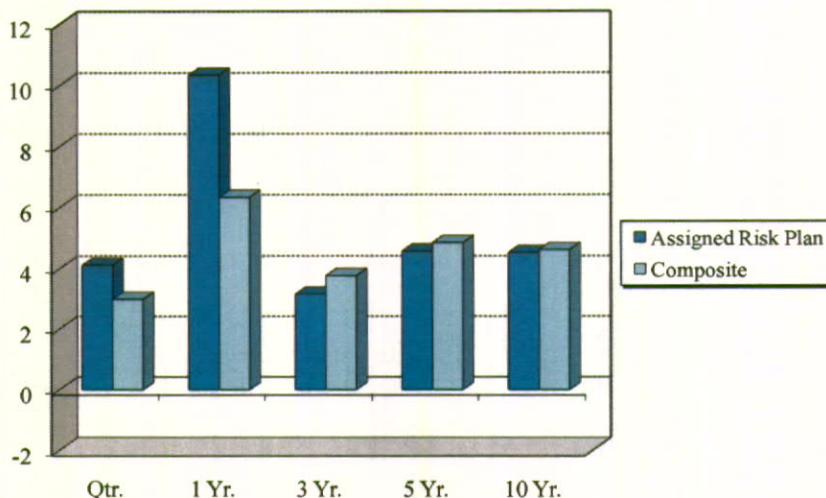

Voyageur Asset Management manages the bond segment of the Fund. GE Investment Management manages the equity segment.

Performance Benchmarks

A custom benchmark has been established for the fixed income portfolio. It reflects the duration of the liability stream and the long-term sector allocation of Voyageur Asset Management. Since July 1, 1994, the equity benchmark has been the S&P 500 index. The total fund benchmark is a combination of the fixed income and equity benchmarks, weighted according to the total fund asset allocation targets.

Market Value

On September 30, 2010 the market value of the Assigned Risk Plan was \$304 million.

Period Ending 9/30/2010

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.

Benchmark	0.9	5.0	6.3	5.7	5.6

* Actual returns are calculated net of fees.

PERMANENT SCHOOL FUND

Investment Objectives

The investment objective of the Permanent School Fund is to produce a growing level of spendable income, within the constraints of maintaining adequate portfolio quality and liquidity. The income from the portfolio is used to offset expenditures on school aid payments to local school districts.

Asset Mix

Effective with FY98, the Permanent School Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds provide portfolio diversification and a more stable stream of current income.

	9/30/2010 Target	9/30/2010 Actual
Stocks	50.0%	49.8%
Bond	48.0	48.6
Cash	2.0	1.6
Total	100.0%	100.0%

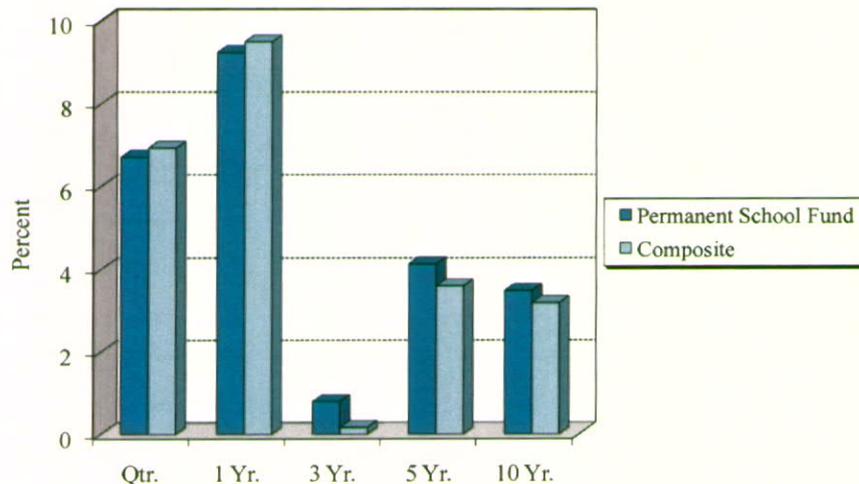

Prior to FY98, the Fund was invested entirely in fixed income securities in order to maximize current income. It is understood that the change in asset mix will reduce portfolio income in the short term, but will enhance the value of the fund, over time.

Investment Management

SBI staff manages all assets of the Permanent School Fund. The stock segment is passively managed to track the performance of the S&P 500. The bond segment is actively managed to add incremental value through sector, security and yield curve decisions.

Market Value

On September 30, 2010 the market value of the Permanent School Fund was \$713 million.

Period Ending 9/30/2010

Annualized

	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.

Barclays Capital Agg.	2.5	8.2	7.4	6.2	6.4

* Actual returns are calculated net of fees.

ENVIRONMENTAL TRUST FUND

Investment Objective

The objective of the Environmental Trust Fund is to increase the market value of the Fund over time in order to increase the annual amount made available for spending.

Asset Mix

The Environmental Trust Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds act as a deflation hedge and provide portfolio diversification. As of July 1, 1999, the asset

allocation changed from 50% stocks/50% fixed income to 70% stocks /30% fixed income.

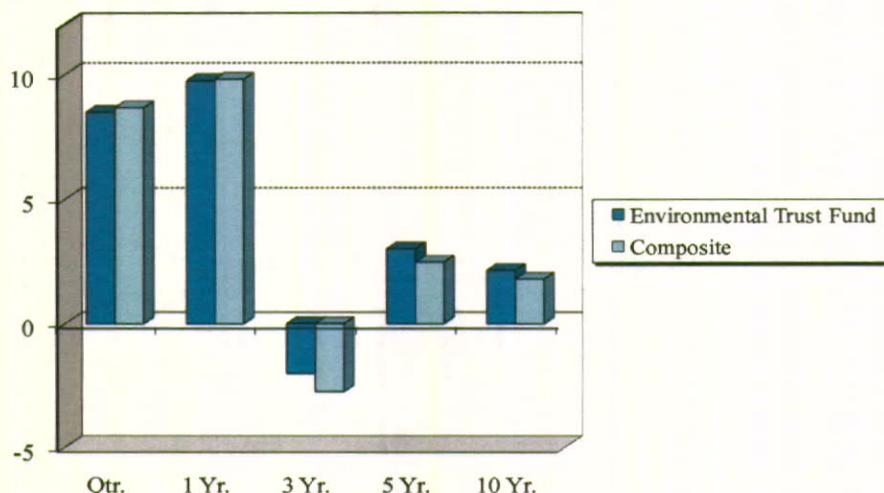

Investment Management

SBI staff manage all assets of the Environmental Trust Fund. The bond segment is actively managed to add incremental value through sector, security and yield curve decisions. The stock segment is passively managed to track the performance of the S&P 500.

Market Value

On September 30, 2010 the market value of the Environmental Trust Fund was \$507 million.

	9/30/2010 Target	9/30/2010 Actual
Stocks	70.0%	70.4%
Bonds	28.0	27.7
Cash	2.0	1.9
Total	100.0%	100.0%

	Period Ending 9/30/2010

Barclays Capital Agg.	2.5	8.2	7.4	6.2	6.4

* Actual returns are calculated net of fees.

CLOSED LANDFILL INVESTMENT FUND

Investment Objectives

The investment objective of the Closed Landfill Investment Fund is to generate high returns from capital appreciation. The Fund will be used by the Commissioner of the PCA (Pollution Control Agency) to pay for the long-term costs of maintaining the integrity of landfills in Minnesota once they are closed. However, by statute, the assets of the Fund are unavailable for expenditure until after fiscal year 2020.

Asset Mix

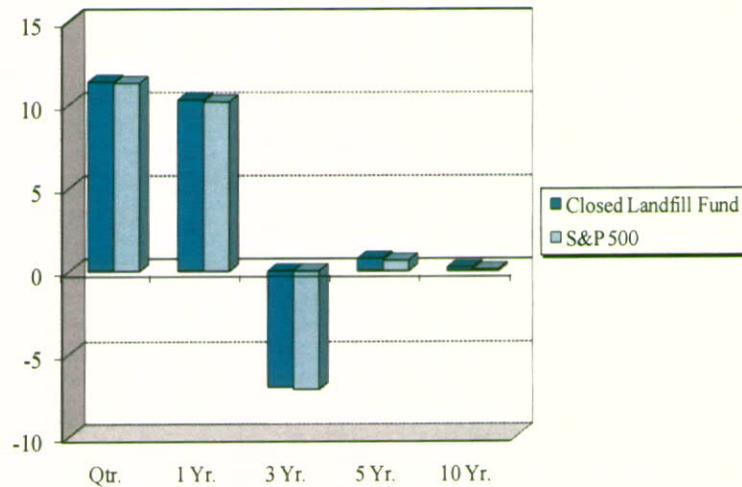

Effective July 1999, the Closed Landfill Investment Fund is invested entirely in common stock. Given the long time horizon of this Fund and the lack of need for any short or mid-term withdrawals, this strategy will maximize the long-term gain of the Fund.

Investment Management

SBI staff manage all assets of the Closed Landfill Investment Fund. The assets are managed to passively track the performance of the S&P 500 index.

Market Value

On September 30, 2010, the market value of the Closed Landfill Investment Fund was \$0.7 million. During the 2010 legislative session, \$48 million was withdrawn for budget purposes.

Period Ending 9/30/2010

	Annualized				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Fund (1)	11.4%	10.3%	-7.0%	0.8%	-0.3%

(1) Actual returns are calculated net of fees.

STATE CASH ACCOUNTS

Description

State Cash Accounts represent the cash balances in more than 400 separate accounts that flow through the Minnesota State Treasury. These accounts range in size from \$5,000 to over \$400 million.

Most accounts are invested by SBI staff through two short-term pooled funds:

1. Trust Fund Pool contains the temporary cash balances of certain trusts and retirement-related accounts.
2. Treasurer's Cash Pool contains the cash balances of special or dedicated accounts necessary for the operation of certain State agencies and non dedicated cash in the State Treasury.

In addition, each State of Minnesota bond sale requires two additional pools; one for bond proceeds and one for the debt reserve transfer.

Because of special legal restrictions, a small number of cash accounts cannot be commingled. These accounts are invested separately.

Investment Objectives

Safety of Principal. To preserve capital.

Competitive Rate of Return. To provide a high level of current income.

Liquidity. To meet cash needs without the forced sale of securities at a loss.

Asset Mix

The SBI maximizes current income while preserving capital by investing all cash accounts in high quality, liquid short term investments. These include U.S. Treasury and Agency issues, repurchase agreements, bankers acceptances, commercial paper, and certificates of deposit.

Investment Management

All state cash accounts are managed by the SBI investment staff. As noted above, most of the assets of the cash accounts are invested through two large commingled investment pools.

	Market Value (Millions)	Period Ending 9/30/2010

* Actual returns are calculated net of fees.

** Beginning in January 2003, the Treasurer's Cash Pool is measured against the iMoneyNet, All Taxable Money Fund Report Average. From January 1997 to December 2002 the fund was measured against a blended benchmark consisting of the Barclays Capital 1-3 year Government Index and the iMoneyNet, All Taxable Money Fund Report Average. The proportion of each component of the blended benchmark is adjusted periodically as the asset allocation of the Cash Pool is modified.

EXECUTIVE DIRECTOR'S ADMINISTRATIVE REPORT

DATE: November 24, 2010

TO: Members, State Board of Investment

FROM: **Howard Bicker**

1. Reports on Budget and Travel

A report on the SBI's administrative budget for the fiscal year to date through October 31, 2010 is included as **Attachment A**.

A report on travel for the period from August 5, 2010 – November 4, 2010 is included as **Attachment B**.

2. FY10 Audit Report

The Legislative Auditor is working on the financial audit of SBI operations for FY10. A final copy will be distributed as soon as it is available.

3. Draft of FY10 Annual Report

A draft of the SBI's annual report for FY10 will be distributed to the Board members/designees and IAC members in early December. The final report should be distributed by the end of the year.

4. Tentative Meeting Dates for Calendar 2011

The quarterly meetings of the SBI are normally held in March, June, September and December. The dates for the IAC and SBI meetings for calendar 2011 are:

IAC	SBI
Tuesday, February 22, 2011	Wednesday, March 9, 2011
Tuesday, May 24, 2011	Wednesday, June 8, 2011
Tuesday, August 23, 2011	Wednesday, September 7, 2011
Tuesday, November 22, 2011	Wednesday, December 7, 2011

SBI staff will confirm the availability of Board members for the above dates over the next few weeks.

5. Update on Sudan

Each quarter, staff provides a report to the Board on steps taken to implement *Minnesota Statutes*, section 11A.243 that requires SBI actions concerning companies with operations in Sudan. Staff receives periodic reports from the Conflict Risk Network (CRN) about the status of companies with operations in Sudan.

The SBI is restricted from purchasing stock in the companies designated as highest offenders by the CRN. Accordingly, staff updates the list of restricted stocks and notifies investment managers that they may not purchase shares in companies on the restricted list. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the CRN list and writes letters as required by law.

If after 90 days following the SBI's communication, a company continues to have active business operations in Sudan, the SBI must divest holdings of the company according to the following schedule:

- at least 50% shall be sold within nine months after the company appeared on the Task Force list; and
- 100% shall be sold within fifteen months after the company appeared on the list.

SBI managers divested 342,100 shares in the third quarter.

Attachment C is a copy of the September 9, 2010 letter sent to each international equity manager and domestic equity manager containing the most recent restricted list and the list of stocks to be divested.

Attachment D is an updated list of companies with operations in Sudan.

6. Update on Iran

Each quarter, staff provides a report to the Board on steps taken to implement *Minnesota Statutes*, section 11A.244 that requires SBI actions concerning companies with operations in Iran.

SBI subscribes to the Iran service provided by RiskMetrics and regularly receives a list of companies with operations in Iran. SBI received a new list of scrutinized companies for October 2010. See **Attachment E** for this list. Staff sent a letter dated October 8, 2010 (see **Attachment F**) to each domestic and international equity manager and fixed income manager with instructions that the managers may not purchase additional publicly traded securities of the companies. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the restricted list and writes letters as required by law.

The first divestment of Iran holdings was made by July 31, 2010. During the third quarter, nearly 2.8 million shares were divested. The August 4, 2010 letter contained an updated list of companies requiring divestment.

According to the law, if after 90 days from the SBI's communication with the company, the company continues to have scrutinized business operations, the SBI must divest all publicly traded securities of the company according to following schedule:

- at least 50 percent shall be sold within nine months after the company appeared on the scrutinized list.
- 100 percent, within fifteen months after the company appeared on the scrutinized list.

7. Update on 529 Plan

The manager of the state's College Savings Plan, TIAA-CREF, has requested approval of minor changes in allocation across several mutual funds in the Plan's options. Staff has reviewed and concurs with the proposed changes. This is an information item for the Board.

8. Litigation Update

SBI legal counsel will give the Board a verbal update on the status of litigation at the Board meeting on December 1, 2010.

ATTACHMENT C

Letter to SBI International Equity Managers and Domestic Equity Managers

September 9, 2010

Regarding: Sudan Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Sudan. **This new communication applies to all SBI equity portfolios managed by your organization and replaces all prior communications. This communication also applies to all depository receipts or ADR's of any of the listed companies.**

Minnesota Statutes, section 11A.243 requires the SBI to implement a Sudan restriction.

Attachment 1 is the List of Restricted Sudan Stocks. **These securities may not be purchased for the SBI portfolio that your organization manages.** Please note that the attached List makes changes to the List of Restricted Sudan Stocks that was attached to the June 8, 2010 letter you received. **This new list is effective September 15, 2010.**

- The following companies have been added to the restricted list:
 - AKM Industrial Company Limited (China)
 - China North Optical-Electrical Technology Co. Ltd. (China)
 - Jiangxi Hongdu Aviation (China)
 - Minara Resources Limited (Switzerland)
 - Scorpion Offshore Limited (Bermuda)
 - Sichuan Nitrocell Company Limited (China)

- The following companies have been removed from the restricted list:
 - Bongaigon Refinery & Petrochemical Limited (India)
 - China Avic Avionics Equipment Company Limited (China)
 - Jiangxi Changhe Automobile Company Limited (China)

Attachment 2 is the List of Sudan Stocks Requiring Divestment.

- The following companies were added to the divestment list.
 - Dongfeng Motor Group Company Limited
 - JX Holdings, Inc.
 - PTT Exploration & Production PCL

If you own securities of companies on the List of Sudan Stocks Requiring Divestment in the SBI portfolio that your organization manages, then you must divest those holdings according to the schedules provided in the Attachment:

- **At least 50 percent of a company's holdings must be sold by the date indicated, and**
- **At least 100 percent of a company's holdings must be sold by the date indicated.**

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Sudan Stocks (**Attachment 1**) that your organization may use. Please note that the list of security identifiers has information on companies not on the restricted list.

If you have any questions about this matter, please contact Tammy Brusehaver or Patricia Ammann, Domestic Equities; Stephanie Gleeson, International Equities or James E. Heidelberg, Public Programs.

Sincerely,

Teresa J. Richardson
Assistant Executive Director

ATTACHMENT D

Genocide Intervention Network List of "Highest Offenders" Companies in Sudan List Effective Through November 30, 2010

Company Name	Country of Origin
China National Petroleum Corporation AKA CNPC	China
Jinan Diesel Co. Ltd.	China
Daqing Huake Group Co. Ltd.	China
PetroChina	China
KunLun Energy Co. Ltd. (formerly CNPC Hong Kong)	Hong Kong
Petronas Gas Berhad	Malaysia
Petronas Dagangan	Malaysia
Malaysia International Shipping Company AKA MISC Berhad	Malaysia
Oil and Natural Gas Company, AKA ONGC	India
Mangalore Refinery and Petrochemicals Ltd.	India
Sinopec Group AKA China Petrochemical Corporation	China
Kingdream PLC	China
Sinopec Corporation AKA China Petroleum and Chemical Corporation	China
Sinopec Shanghai Petrochemical Co. Ltd.	China
Sinopec Kanton Holdings	China
Sinopec Yizheng Chemical Fibre Company, Ltd.	China
AREF Energy Holding Company	Kuwait
Egypt Kuwaiti Holding Company	Egypt
Ranhill Berhad	Malaysia
China North Industries Corporation AKA Norinco	China
Norinco International Cooperation Ltd.	China
Sichuan Nitrocell Company Limited	China
China North Optical-Electrical Technology Company Limited	China
AKM Industrial Company Limited	China
AviChina Industry & Technology Company, Ltd.	China
Hafei Aviation Industry	China
Jiangxi Hongdu Aviation AKA Hongdu Aviation	China
Harbin Dongan Auto Engine Co.	China
China Hydraulic and Hydroelectric Construction Group AKA Sinohydro	China
Mercator Lines	India
Mercator Lines Singapore	Singapore
Dongfeng Motor Group Company Limited	China
Indian Oil Corporation Ltd. AKA IOCL	India
Lanka IOC Limited	India
Chennai Petroleum Corporation Limited AKA CPCL	India
Oil India Limited	India
Scomi Group Berhad	Malaysia
Scomi Engineering Berhad	Malaysia
Alstom	France
Alstom Projects India Ltd	India
Wuhan Boiler Company	France
Electricity Generating Company Limited AKA EGCO	Thailand
ONA S.A.	Morocco
Managem	Morocco
PTT Public Company, Limited AKA PTT	Thailand
PTT Exploration & Production PCL	Thailand
Seadrill Limited	Bermuda
Scorpion Offshore Limited	Bermuda
JX Holdings, Inc.	Japan
Minara Resources Limited	Switzerland

Note: List contains parent companies and subsidiaries publicly traded
AKA means "also known as"

Genocide Intervention Network List of Companies in Sudan for "Ongoing Engagement"
List Effective Through November 30, 2010

<u>Company Name</u>	<u>Country of Origin</u>

Letter to SBI International Equity Managers and Domestic Equity Managers
October 8, 2010

Regarding: Iran Companies

Dear Manager:

Laws of Minnesota 2009, Chapter 90, codified as *Minnesota Statutes*, section 11A.244, required the Minnesota State Board of Investment (SBI) to implement an Iran restriction. **This communication applies to all SBI equity portfolios managed by your organization. This communication also applies to all depository receipts or ADR's of any of the listed companies.**

Attachment 1 is the List of Restricted Iran Companies. Securities of these companies **may not be purchased** for the SBI portfolio that your organization manages. Please note that the attached List makes changes to the List of Restricted Iran Companies that was attached to the August 4, 2010 letter you received. **This new list is effective October 12, 2010.**

- The following company has been removed from the restricted list:
 - JGC Corporation
- The following companies have been added to the restricted list:
 - INA-Industrija Nafta, d.d.
 - Mangalore Refinery & Petrochemicals Ltd.
 - Petrofac Limited
 - PetroVietnam Consultancy and Engineering Corp.
 - PetroVietnam Fertilizer and Chemicals Corp.
 - PetroVietnam Southern Gas Joint Stock Company

Attachment 2 is the List of Iran Companies Requiring Divestment.

- The following company has been removed from the divestment list:
 - JGC Corporation

If you own securities of companies on the List of Iran Companies Requiring Divestment in the SBI portfolio that your company manages, then you must divest those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

If you have any questions about this matter, please contact Tammy Brusehaver or Patricia Ammann, Domestic Equities; Stephanie Gleeson, Manager, International Equities or James E. Heidelberg, Manager, Public Programs.

Sincerely,

Teresa J. Richardson
Assistant Executive Director

Letter to Fixed Income Managers

October 8, 2010

Regarding Iran Companies

Dear Manager:

Laws of Minnesota 2009, Chapter 90, codified as *Minnesota Statutes*, section 11A.244, required the Minnesota State Board of Investment (SBI) to implement an Iran restriction. **This communication applies to the SBI fixed income portfolio managed by your organization.**

Attachment 1 is the List of Restricted Iran Companies. Securities of these companies **may not be purchased** for the SBI portfolio that your organization manages. Please note that the attached List makes changes to the List of Restricted Iran Companies that was attached to the August 4, 2010 letter you received. **This new list is effective October 12, 2010.**

- The following company has been removed from the restricted list:
 - JGC Corporation
- The following companies have been added to the restricted list:
 - INA-Industrija Nafta, d.d.
 - Mangalore Refinery & Petrochemicals Ltd.
 - Petrofac Limited
 - PetroVietnam Consultancy and Engineering Corp.
 - PetroVietnam Fertilizer and Chemicals Corp.
 - PetroVietnam Southern Gas Joint Stock Company

Attachment 2 is the List of Iran Companies Requiring Divestment.

- The following company has been removed from the divestment list:
 - JGC Corporation

If you own securities of companies on the List of Iran Companies Requiring Divestment in the SBI portfolio that your company manages, then you must divest those holdings according to the schedule provided in the Attachment:

- At least 50 percent of a company's holdings must be sold by the date indicated, and
- At least 100 percent of a company's holdings must be sold by the date indicated.

If you have any questions about this matter, please contact Michael J. Menssen, Manager, Long-Term Debt, J. J. Kirby, Portfolio Manager, Long-Term Debt; or James E. Heidelberg, Manager, Public Programs.

Sincerely,

Teresa J. Richardson
Assistant Executive Director

INVESTMENT ADVISORY COUNCIL REPORT

DATE: November 24, 2010

TO: Members, State Board Investment

FROM: **Members, Investment Advisory Council**

The Investment Advisory Council met on Tuesday, November 16, 2010 to consider the following agenda items:

- Review the manager performance for the period ending September 30, 2010.
- Investment Manager Review, Domestic Equity.

Action is required by the SBI on the last item.

INFORMATION ITEMS:

1. Review the manager performance for the period ending September 30, 2010.

- *Domestic Equity Program*

For the period ending September 30, 2010, the **Domestic Equity Program** matched the benchmark for the quarter and slightly trailed the one, three and five-year time periods.

Time period	Total Program	Russell 3000
Quarter	11.5%	11.5%
1 Year	10.9%	11.0%
3 Years	-6.8%	-6.6%
5 Years	0.6%	0.9%

The performance evaluation reports for the domestic equity managers start on the **blue page A-1** of this Tab.

- ***Fixed Income Program***

For the period ending September 30, 2010, the **Fixed Income Program** outperformed for the quarter and one-year time periods and underperformed the three and five-year time periods.

Time period	Total Program	Barclays Capital Aggregate
Quarter	3.2%	2.5%
1 Year	11.2%	8.2%
3 Years	7.2%	7.4%
5 Years	6.1%	6.2%

The performance evaluation reports for the fixed income managers start on the **blue page A-57** of this Tab.

- ***International Equity Program***

For the period ending September 30, 2010, the **International Equity Program** matched the benchmark for the quarter and outperformed the one, three and five-year time periods.

Time Period	Total Program	Int'l Equity Asset Class Target*
Quarter	16.6%	16.6%
1 Year	9.0%	7.6%
3 Year	-7.0%	-7.3%
5 Year	4.6%	4.3%

* Since 6/1/08 the International Equity asset class target is the Standard MSCI ACWI ex U.S. (net). From 10/1/07 to 5/31/08, the International Equity asset class target was the Provisional Standard MSCI ACWI ex U.S. (net). From 10/1/03 to 9/30/07, the target was the MSCI ACWI Free ex. U.S. (net).

The performance evaluation reports for the international equity managers start on the **blue page A-71** of this Tab.

ACTION ITEM:

2. Investment Manager Review, Domestic Equity.

Organization

The SBI hired Lord Abbett & Co. LLC in March 2004 to manage a large cap portfolio. There were two portfolio managers assigned to our account, Ken Fuller and Eli Salzmann. In 2008, Lord Abbett changed to a central research focus, managed by the CIO and research director, rather than having a team of analysts and portfolio managers for each product. This approach has limited the portfolio manager's access to analysts. At the end of 2009, Ken Fuller resigned as a result of the research changes which he felt impacted his ability to manage the portfolio. Lord Abbett did not replace Ken Fuller and Eli Salzmann continued to manage the portfolio. Lord Abbett notified SBI staff on November 8th that the portfolio manager, Eli Salzmann, had resigned. Eli resigned due to the changes to the research management structure which limited his access to resources.

From 1997 to 2008, no investment professional left Lord Abbett. Since the changes were made in 2008, several investment professionals have left (SBI was only impacted by Ken Fuller's departure) and now Eli Salzmann has resigned.

Assets

As of September 2010, the firm had \$102 billion in assets under management, of which \$19.9 billion was invested in their large cap value strategy. The SBI's large cap value portfolio was valued at \$280.7 million as of September 30, 2010.

Performance

Period Ending 9/30/10	Lord Abbett	Russell 1000 Value
One quarter	9.8%	10.1%
1 Year	6.4	8.9
3 Years	-8.4	-9.4
5 Years	0.3	-0.5
Since Inception (4/2004)	2.0	2.4
Calendar Years		
2009	20.5%	19.7%
2008	-36.3	-36.8
2007	4.4	-0.2
2006	18.6	22.2
2005	3.5	7.1

RECOMMENDATION:

Due to the departure of the SBI's portfolio manager, loss of investment professionals firm wide and concerns with the potential changes with the new portfolio managers, the SBI staff and the IAC recommend that the SBI terminate the relationship with Lord Abbett & Co. LLC investment management services.

NEW AMSTERDAM PARTNERS
Periods Ending September, 2010

Portfolio Manager: Michelle Clayman

Assets Under Management: \$334,065,613

Investment Philosophy

New Amsterdam Partners believes that investment results are evaluated by actual return, and therefore, investment opportunities should be evaluated by expected return. They believe that all valid techniques depend on forecasts of the amounts and timing of future cash flows. Thus, the firm focuses on forecasted earnings growth, yield, price-to-book ratio, and forecasted return on equity. They believe that the disciplined application of their valuation techniques, in conjunction with sound financial analysis of companies, is the key to understanding and maximizing investment returns.

UBS GLOBAL ASSET MANAGEMENT, INC.
Periods Ending September, 2010

Portfolio Manager: John Leonard

Assets Under Management: \$323,404,794

Investment Philosophy

UBS uses a relative value approach to equity investing. They believe that the market price will ultimately reflect the present value of the cash flows the security will generate for the investor. They focus on a bottom-up stock selection process to provide insight into finding opportunistic investments. UBS uses a proprietary discounted free cash flow model as the primary analytical tool for estimating the intrinsic value of a company.

Staff Comments

UBS underperformed the benchmark for the quarter and for the year. Stock selection was negative for both periods. The quarterly performance was hurt by several sectors, with Technology having the biggest impact. Stock selection for the year was negative across most sectors, especially Utilities where an overweight to Dynegy was a significant drag on performance.

ALLIANCE CAPITAL MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Stephanie Simon

Assets Under Management: \$253,358,611

Investment Philosophy

Alliance searches for companies likely to experience high rates of earnings growth, on either a cyclical or secular basis. Alliance invests in a range of medium to large growth and cyclically sensitive companies. There is no clear distinction on the part of the firm as to an emphasis on one particular type of growth company over another. However, the firm's decision-making process appears to be much more oriented toward macroeconomic considerations than is the case with most other growth managers. Accordingly, cyclical earnings prospects, rather than secular, appear to play a larger role in terms of stock selection. Alliance is not an active market timer, rarely raising cash above minimal levels.

Staff Comments

Alliance trailed the benchmark for the quarter and the year due to stock selection. For the quarter, stock selection across cyclically exposed sectors – Financials, Consumer Discretionary and Technology – were the primary sources of underperformance. For the year, stock selection and an overweight to the Financial sector along with stock selection in the Healthcare sector were the biggest drivers of the underperformance.

Rolling Five Year VAM vs. Russell 1000 Growth

INTECH INVESTMENT MANAGEMENT LLC
Periods Ending September, 2010

Portfolio Manager: Adrian Banner

Assets Under Management: \$292,345,084

Investment Philosophy

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 Growth benchmark. No specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 2.5% or 10 times maximum index security weight, and 3) beta equal to or less than benchmark beta. Target security positions are established using an optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days, and partial re-optimization occurs weekly.

JACOBS LEVY EQUITY MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Bruce Jacobs and Ken Levy

Assets Under Management: \$259,869,731

Investment Philosophy

The strategy combines human insight and intuition, finance and behavioral theory, and state-of-the-art quantitative and statistical methods. Security expected returns generated from numerous models become inputs for the firm's proprietary portfolio optimizer. The optimizer is run daily with the objective of maximizing the information ratio, while ensuring proper diversification across market inefficiencies, securities, industries, and sectors. Extensive data scrubbing is conducted on a daily basis using both human and technology resources. Liquidity, trading costs, and investor guidelines are incorporated within the optimizing process.

KNELMAN ASSET MANAGEMENT, LLC
Periods Ending September, 2010

Portfolio Manager: Kip Knelman

Assets Under Management: \$55,167,544

Investment Philosophy

The strategy invests in companies exhibiting substantial growth opportunities, strong business models, solid management teams, and the probability for positive earnings surprises. The approach emphasizes earnings growth as the fundamental driver of stock prices over time. The process combines quantitative, qualitative and valuation criteria. The quantitative component addresses fundamentals and is focused on operating trends. Qualitative analysis involves confirmation of company fundamentals through discussions with company contacts and related parties. Valuation models focus on relative rankings of the fundamentals within the industry, the market overall and the company itself.

SANDS CAPITAL MANAGEMENT LLC
Periods Ending September, 2010

Portfolio Manager: Frank Sands, Jr.

Assets Under Management: \$241,063,914

Investment Philosophy

The manager invests in high-quality, seasoned and growing businesses. Bottom-up, company-focused, long-term oriented research is the cornerstone of the investment process. The strategy focuses on six (6) key investment criteria: 1) sustainable above average earnings growth; 2) leadership position in a promising business space; 3) significant competitive advantages or unique business franchise; 4) management with a clear mission and value added focus; 5) financial strength; and 6) rational valuation relative to the overall market and the company's business prospects.

Staff Comments

Sands outperformed the benchmark for the quarter and for the year due to overall stock selection. Both periods were helped by strong stock selection in the Technology and Consumer Discretionary sectors.

SANDS CAPITAL MANAGEMENT, LLC
Rolling Five Year VAM vs. Russell 1000 Growth

WINSLOW CAPITAL MANAGEMENT, INC.
Periods Ending September, 2010

Portfolio Manager: Bart Wear and Justin Kelly

Assets Under Management: \$122,730,273

Investment Philosophy

The strategy identifies companies that can grow earnings above consensus expectations to build portfolios with forward weighted earnings growth in the range of 15-20% annually. A quantitative screen is employed for factors such as revenue and earnings growth, return on invested capital, earnings consistency, earnings revisions, low financial leverage and high free cash flow rates relative to net income. Resulting companies are subjected to a qualitative assessment within the context of industry sectors. Detailed examination of income statements, cash flow and balance sheet projections is conducted, along with a judgment on the quality of management. Attractively valued stocks are chosen based on P/E relative to the benchmark, sector peers, the company's sustainable future growth rate and return on invested capital. Final portfolio construction includes diversification by economic sectors, earnings growth rates, price/earnings ratios and market capitalizations.

ZEVENBERGEN CAPITAL INC.
Periods Ending September, 2010

Portfolio Manager: Nancy Zevenbergen

Assets Under Management: \$294,460,025

Investment Philosophy

Zevenbergen is an equity growth manager. The investment philosophy is based on the belief that earnings drive stock prices while quality provides capital protection. Hence, portfolios are constructed with companies showing above-average earnings growth prospects and strong financial characteristics. They consider diversification for company size, expected growth rates and industry weightings to be important risk control factors. Zevenbergen uses a bottom-up fundamental approach to security analysis. Research efforts focus on finding companies with superior products or services showing consistent profitability. Attractive buy candidates are reviewed for sufficient liquidity and potential diversification. The firm emphasizes that they are not market timers.

Staff Comments

Zevenbergen outperformed the benchmark for the quarter and for the year due to overall stock selection. For the quarter, six of the portfolio's top ten contributors were technology issues. Both periods were helped by strong stock selection primarily in the Technology sector and closely followed by the Consumer Discretionary sector.

BARROW, HANLEY, MEWHINNEY & STRAUSS, INC.
Periods Ending September 2010

Portfolio Manager: Tim Culler

Assets Under Management: \$390,189,744

Investment Philosophy

The manager's approach is based on the underlying philosophy that markets are inefficient. Inefficiencies can best be exploited through adherence to a value-oriented investment process dedicated to the selection of securities on a bottom-up basis. The team does not attempt to time the market or rotate in and out of broad market sectors.

The manager remains fully invested with a defensive, conservative orientation based on the belief that superior returns can be achieved while taking below average risks. This strategy is implemented by constructing portfolios of individual stocks that exhibit price/earnings and price/book ratios significantly *below* the market and dividend yields significantly *above* the market. Risk control is achieved by limiting sector weights to 35% and industry weights to 15%. In periods of economic recovery and rising equity markets, profitability and earnings growth are rewarded by the expansion of price/earnings ratios and the generation of excess returns.

EARNEST PARTNERS, LLC
Periods Ending September, 2010

Portfolio Manager: Paul Viera

Assets Under Management: \$166,023,099

Investment Philosophy

Earnest Partners utilizes its proprietary Return Pattern Recognition model and rigorous fundamental review to identify stocks with the most attractive relative returns. They have identified six performance drivers – valuation measures, operating trends, market trends, growth measures, profitability measures and macroeconomic measures. Extensive research is conducted to determine which combination of performance drivers, or return patterns, precede out-performance for stocks in each sector. They select stocks whose return patterns suggest favorable performance and control risk using a statistical program designed to measure and control the prospects of substantially under-performing the benchmark. The portfolio is diversified across industry groups.

LORD ABBETT & CO. LLC
Periods Ending September, 2010

Portfolio Manager: Eli Salzmann

Assets Under Management: \$280,723,447

Investment Philosophy

Utilizing a value-based, disciplined investment process that employs both informed judgment and quantitative analysis, Lord Abbett seeks to invest in companies with improving business fundamentals that are attractively valued. This process is implemented via a traditional fundamental active stock selection approach.

As a value manager, Lord Abbett believes that the market systematically misprices stocks. By coupling valuation criteria with thorough research of corporate and industry fundamentals, informed judgments can be made about where the market would price these stocks at fair value. The portfolio is constructed to exploit pricing discrepancies where it is perceived that: 1) these price differences will be closed over a reasonable period of time, or 2) there may be a catalyst for price appreciation. This process is implemented while maintaining sensitivity to both benchmark and macro-economic risk exposures.

Staff Comments

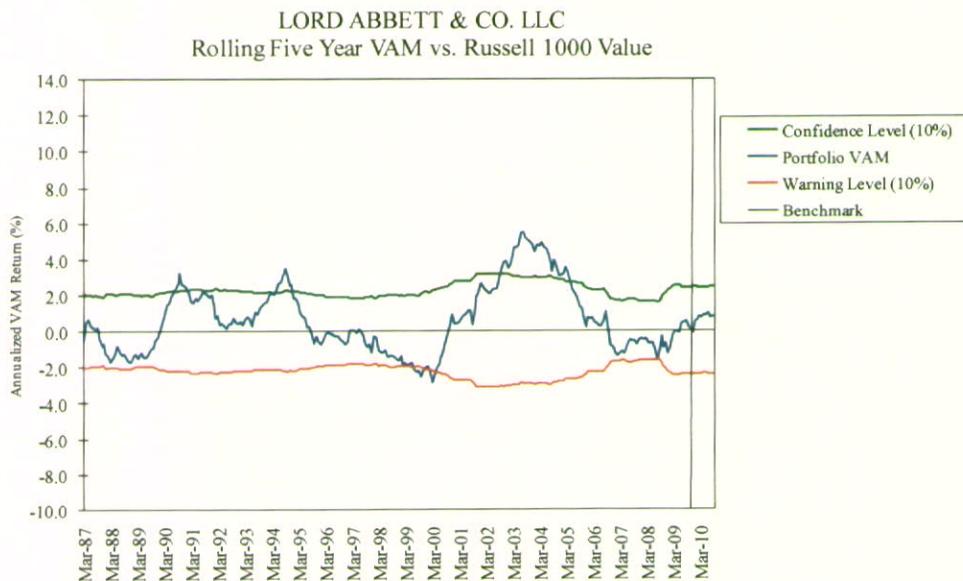

Lord Abbett trailed the benchmark for the quarter and the year. Unfavorable stock selection within the Financials sector and an overweight to the sector were the largest detractors from relative performance for both periods.

LSV ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Josef Lakonishok

Assets Under Management: \$367,231,837

Investment Philosophy

The fundamental premise on which LSV's investment philosophy is based is that superior long-term results can be achieved by systematically exploiting the judgmental biases and behavioral weaknesses that influence the decisions of many investors. These include: the tendency to extrapolate the past too far into the future, wrongly equating a good company with a good investment irrespective of price, ignoring statistical evidence and developing a "mindset" about a company.

The strategy's primary emphasis is the use of quantitative techniques to select individual securities in what would be considered a bottom-up approach. Value factors and security selection dominate sector/industry factors as explanatory variables of performance. The competitive strength of this strategy is that it avoids introducing to the process any judgmental biases and behavioral weaknesses that often influence investment decisions.

SYSTEMATIC FINANCIAL MANAGEMENT, L.P.
Periods Ending September, 2010

Portfolio Manager: Kevin McCreesh

Assets Under Management: \$270,007,559

Investment Philosophy

Systematic’s investment strategy favors companies with low forward P/E multiples and a positive earnings catalyst. Cash flow is analyzed to confirm earnings and to avoid companies that may have employed accounting gimmicks to report earnings in excess of Wall Street expectations. The investment strategy attempts to avoid stocks in the “value trap” by focusing only on companies with confirmed fundamental improvement as evidenced by a genuine positive earnings surprise.

The investment process begins with quantitative screening that ranks the universe based on: 1) low forward P/E, and 2) a positive earnings catalyst, which is determined by a proprietary 16-factor model that is designed to be predictive of future positive earnings surprises. The screening process generates a research focus list of 150 companies, sorted by sector, upon which rigorous fundamental analysis is conducted to confirm each stock’s value and catalysts for appreciation.

MCKINLEY CAPITAL MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Robert A. Gillam

Assets Under Management: \$186,571,726

Investment Philosophy

The team believes that excess market returns can be achieved through the construction and management of a diversified, fundamentally sound portfolio of inefficiently priced securities whose earnings growth rates are accelerating above market expectations. Using proprietary quantitative models, the team systematically searches for and identifies early signs of accelerating growth. The initial universe consists of growth and value stocks from all capitalization categories.

The primary model includes a linear regression model to identify common stocks that are inefficiently priced relative to the market while adjusting each security for standard deviation. The ratio of alpha to standard deviation is the primary screening value and is used to filter out all but the top 10% of stocks in our initial universe. The remaining candidates are tested for liquidity and strength of earnings. In the final portfolio construction process, qualitative aspects are examined, including economic factors, Wall Street research, and specific industry themes.

NEXT CENTURY GROWTH INVESTORS, LLC
Periods Ending September, 2010

Portfolio Manager: Thomas Press and Don Longlet

Assets Under Management: \$221,397,880

Investment Philosophy

Next Century Growth's (NCG) goal is to invest in the highest quality and fastest growing companies in America. They believe that growth opportunities exist regardless of the economic cycle. NCG uses fundamental analysis to identify companies that will surpass consensus earnings estimates, which they believe to be the number one predictor of future out-performance. Their investment process focuses on growth companies that have superior top line revenue growth (15% or greater), high profitability, and strong balance sheets, and are well poised to outperform the market. NCG believes in broad industry diversification; sector exposures are limited to twice the benchmark weighting and individual positions to five percent.

Staff Comments

Next Century trailed the quarterly benchmark. Stock selection was negative with the biggest impact from the Consumer Discretionary sector.

TURNER INVESTMENT PARTNERS
Periods Ending September, 2010

Portfolio Manager: William McVail

Assets Under Management: \$235,426,741

Investment Philosophy

The team's investment philosophy is based on the belief that earnings expectations drive stock prices. The team adds value primarily through stock selection and pursues a bottom-up strategy. Ideal candidates for investment are growth companies that have above average earnings prospects, reasonable valuations, favorable trading volume, and price patterns. Each security is subjected to three separate evaluation criteria: fundamental analysis (80%), quantitative screening (10%), and technical analysis (10%).

Proprietary computer models enable the team to assess the universe based on multiple earnings growth and valuation factors. The factors are specific to each economic sector. Fundamental analysis is the heart of the stock selection process and helps the team determine if a company will exceed, meet or fall short of consensus earnings expectations. Technical analysis is used to evaluate trends in trading volume and price patterns for individual stocks as the team searches for attractive entry and exit points.

GOLDMAN SACHS ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Chip Otness

Assets Under Management: \$134,771,639

Investment Philosophy

The firm's value equity philosophy is based on the belief that all successful investing begins with fundamental stock selection that should thoughtfully weigh a stock's price and prospects. A company's prospective ability to generate high cash flow returns on capital will strongly influence investment success. The team follows a strong valuation discipline to purchase well-positioned, cash generating businesses run by shareholder-oriented management teams.

Through extensive proprietary research, the team confirms that a candidate company's long-term competitive advantage and earnings power are intact. The team seeks to purchase a stock at a price that encompasses a healthy margin of safety. The investment process involves three steps: 1) prioritizing research, 2) analyzing fundamentals, and 3) portfolio construction. The independent Risk and Performance Analytics Group (RPAG) monitors daily portfolio management risk, adherence to client guidelines and general portfolio strategy.

HOTCHKIS & WILEY CAPITAL MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Jim Miles and David Green

Assets Under Management: \$116,284,119

Investment Philosophy

The firm seeks to exploit mis-priced securities in the small cap market by investing in “undiscovered” or “out of favor” companies. The team invests in stocks where the present value of the company’s future cash flows exceeds the current market price. This approach exploits equity market inefficiencies created by irrational investor behavior and lack of Wall Street research coverage of smaller capitalization stocks. The team employs a disciplined, bottom-up investment process that emphasizes internally generated fundamental research.

The investment process begins with a quantitative screen based on market capitalization, trading liquidity and enterprise value/normalized EBIT, supplemented with ideas generated from the investment team. Internal research is then utilized to identify the most attractive valuation opportunities within this value universe. The primary focus of the research analyst is to determine a company’s “normal” earnings power, which is the basis for security valuation.

Staff Comments

Hotchkis & Wiley exceeded the benchmark for the quarter and for the year due to overall stock selection. The overweight and strong stock selection in the Consumer Discretionary sector, primarily media and retail companies, was the largest contributor to the return for the year.

Quantitative Evaluation

	Actual	R2000 Value

MARTINGALE ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: William Jacques

Assets Under Management: \$107,506,062

Investment Philosophy

Martingale's investment process seeks to exploit the long-term link between undervalued company fundamentals and current market prices to achieve superior investment returns. Martingale has a long history of employing sound quantitative methods.

The valuation process is comprised of well-researched valuation indicators that have stood the test of time, with improvements made only after careful evaluation, testing and analysis. Multiple characteristics of quality, value and momentum are examined. The quality of company management is assessed by reviewing commitment to R&D, accounting practices with regard to earnings and cash flow from operations, and the ability to manage inventory.

The average holding period of a stock is typically one year. Every holding is approached as an investment in the business, with the intention of holding it until either objectives are reached, or it becomes apparent that there are better opportunities in other stocks.

Staff Comments

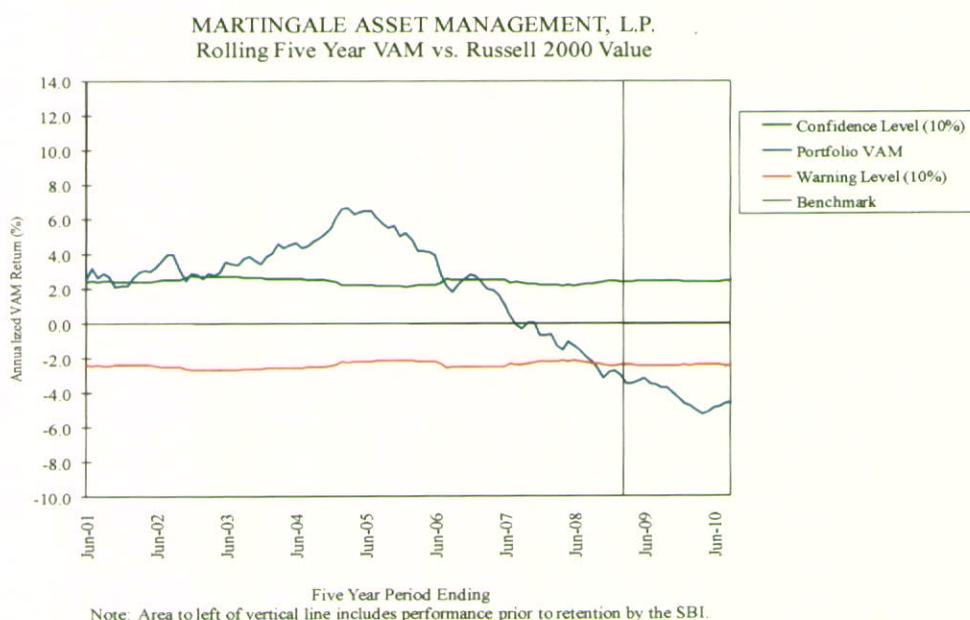

Martingale outperformed the benchmark for the quarter and for the year. Both periods benefited by overall stock selection, especially Consumer Discretionary.

PEREGRINE CAPITAL MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Doug Pugh and Tasso Coin

Assets Under Management: \$187,955,881

Investment Philosophy

Peregrine's Small Cap Value investment process begins with the style's proprietary valuation analysis, which is designed to identify the small cap value stocks most likely to outperform. The valuation analysis identifies the most under-priced securities on a sector-by-sector basis. Drawing on thirty years of data, the analysis looks at different combinations of sixty fundamental factors most relevant in each independent sector to identify stocks that offer significant value relative to the companies' underlying fundamentals. The focus of the team's fundamental research is to determine if one or more of the style's "Value Buy Criteria" are present. These include short-term problems, unrecognized assets, take-over potential, and catalysts for change. The portfolio is diversified and sector weights are aligned closely with the benchmark. This allows stock selection to drive performance.

Staff Comments

The Core Alpha Model segregates individual equity returns for each of the 3500 stocks in their universe into fundamental, expectational, and technical components. The fundamental factors look at measures of underlying company value including earnings, book value, cash flow, and sales. These factors help identify securities that trade at prices below their true economic value. The expectational factors incorporate future earnings and growth rate forecasts made by over 2500 security analysts. The technical factors provide a measure of recent changes in company fundamentals, consensus expectations, and performance. Estimated alphas are then calculated and are used in a portfolio optimization algorithm to identify the optimal portfolio.

Investment Philosophy – Semi-Passive Style

Staff Comments

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 benchmark. No specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 1.0% or 8 times maximum index security weight, 3) beta equal to or less than benchmark beta, and 4) constraining the weighted average capital distribution to be roughly equal to the capital distribution of the benchmark. Target security positions are established using a weekly optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days.

J.P. MORGAN INVESTMENT MANAGEMENT, INC.
Periods Ending September, 2010

Portfolio Manager: Ralph Zingone and Scott Blasdell Assets Under Management: \$2,623,057,506

Investment Philosophy – Semi-Passive Style

Staff Comments

J.P. Morgan believes that superior stock selection is necessary to achieve excellent investment results. To accomplish this objective, they use fundamental research and a systematic valuation model. Analysts forecast the earnings and dividends for the 650 stock universe and enter them into a stock valuation model that calculates an expected return for each security. The stocks are ranked according to their expected return within their economic sectors. The most undervalued stocks are placed in the first quintile. The portfolio includes stocks from the first four quintiles, always favoring the highest ranked stocks whenever possible. Stocks in the fifth quintile are sold. In addition, the portfolio closely approximates the sector, style, and security weightings of the index chosen by the plan sponsor. The firm remains fully invested at all times.

MELLON CAPITAL MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Tony Garvin

Assets Under Management: \$1,209,528,382

Investment Philosophy – Semi-Passive Style

Mellon believes that rigorous and consistent application of fundamentally based valuation criteria will produce value added investment returns. Mellon builds a portfolio by using a series of more than 30 integrated computer models that value a universe of 3500 stocks. Their models rank each security based on fundamental momentum, relative value, future cash flow, and supplementary models. A composite ranking then provides one ranked list of securities reflecting their relative attractiveness. Stocks that fall below the median ranking are sold, and proceeds are reinvested in stocks from the top deciles in the ranking system. They use the BARRA risk model to monitor the portfolio's systematic risk and industry weightings relative to the selected benchmark. For this semi-passive mandate, they seek to achieve a residual risk of 1.5% or less. The firm remains fully invested at all times.

Staff Comments

Mellon trailed the benchmark for the quarter and for the year due to stock selection. For both periods, stock selection in the Technology sector was the largest detractor.

Mellon announced in October that Oliver Buckley, Executive Vice President, CIO of Active Equity, will be retiring at the end of the year. Warren Chiang, Head of Active Equity Strategies, will assume Mr. Buckley's responsibilities.

ABERDEEN ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Neil Moriarty

Assets Under Management: \$889,194,829

Investment Philosophy

Aberdeen (formerly Deutsche) believes there are significant pricing inefficiencies inherent in bond markets and that diligent credit analysis, security structure evaluation, and relative value assessment can be used to exploit these inefficiencies. The firm avoids interest rate forecasting and sector rotation because they believe these strategies will not deliver consistent out performance versus the benchmark over time. The firm's valued added is derived primarily from individual security selection. Portfolio managers and analysts research bonds within their sector of expertise and construct portfolios from the bottom-up, bond by bond. Sector weightings are a byproduct of the bottom-up security selection. Aberdeen was retained by the SBI in February 2000.

Staff Comments

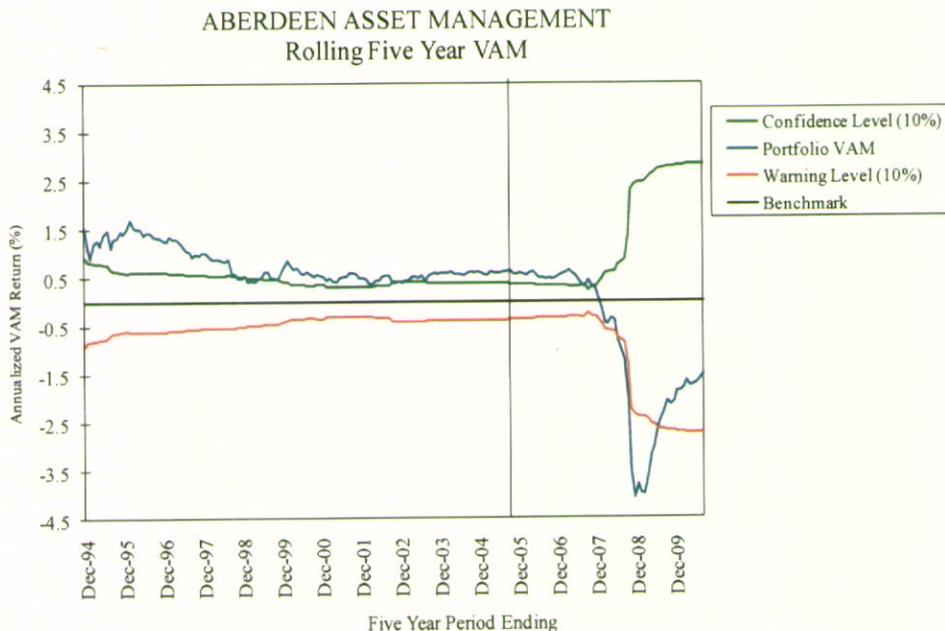

Aberdeen outperformed the benchmark by 110bps in 3Q10 and by 490 bps over the last 12 months. Non-Agency MBS added the most value to the portfolio during the quarter and the last year. Overweights to the Corporate and CMBS sectors also added value during the quarter and over the last year.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	3.6%	2.5%
Last 1 year	13.1	8.2
Last 2 years	9.3	9.4
Last 3 years	4.7	7.4

COLUMBIA MANAGEMENT INVESTMENT ADVISERS, LLC
(Formerly RiverSource Investments)
Periods Ending September, 2010

Portfolio Manager: Colin Lundgren

Assets Under Management: \$945,931,742

Investment Philosophy

RiverSource (formerly American Express) manages portfolios using a top-down approach culminating with in-depth fundamental research and credit analysis. Five portfolio components are actively managed: duration, maturity structure, sector selection, industry emphasis, and security selection. Duration and maturity structure are determined by the firm's economic analysis and interest rate outlook. This analysis also identifies sectors and industries expected to produce the best risk adjusted return. In-depth fundamental research and credit analysis combined with proprietary valuation disciplines is used to identify attractive individual securities. RiverSource was retained by the SBI in July 1993.

Staff Comments

Columbia outperformed the benchmark by 60 bps in 3Q10 and outperformed the benchmark by 160 bps over the last 12 months. Performance for the quarter and the year was hurt by a short duration interest rate position as yields fell. An overweight to both Investment Grade and High Yield corporate bonds added to performance during the quarter and year. Performance during the quarter and the year was also aided by overweights to non-agency RMBS and CMBS.

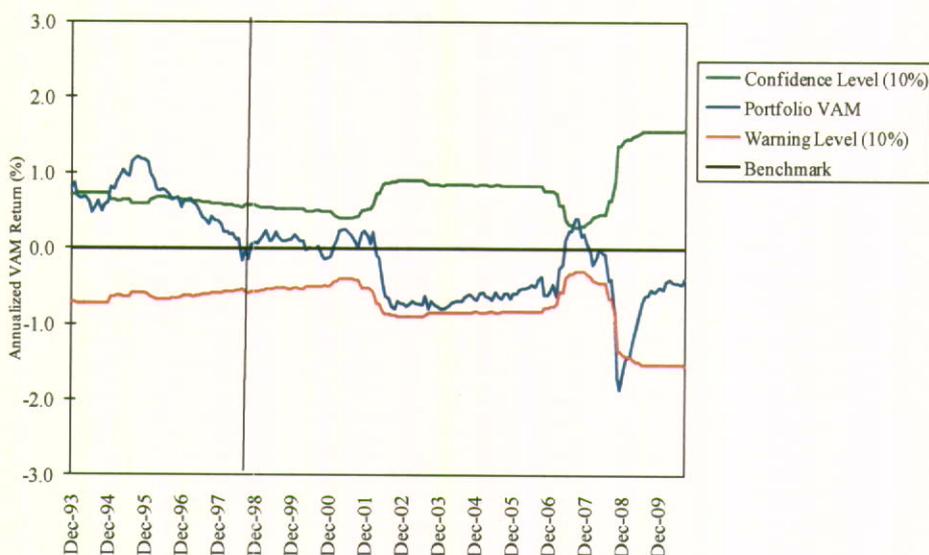

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	3.1%	2.5%
Last 1 year	9.8	8.2
Last 2 years	9.9	9.4

DODGE & COX INVESTMENT MANAGERS
Periods Ending September, 2010

Portfolio Manager: Dana Emery

Assets Under Management: \$955,748,507

Investment Philosophy

Dodge & Cox manages a high quality, diversified portfolio of securities that are selected through fundamental analysis. The firm believes that by combining fundamental research with a long-term investment horizon it is possible to uncover inefficiencies in market sectors and individual securities. The firm combines this fundamental research with a disciplined program of risk analysis. To seek superior returns over the long-term, Dodge & Cox emphasizes sector and security selection, strives to build portfolios that have a higher yield than the broad bond market, and analyzes portfolio and individual security risk. Dodge & Cox was retained by the SBI in February 2000.

Staff Comments

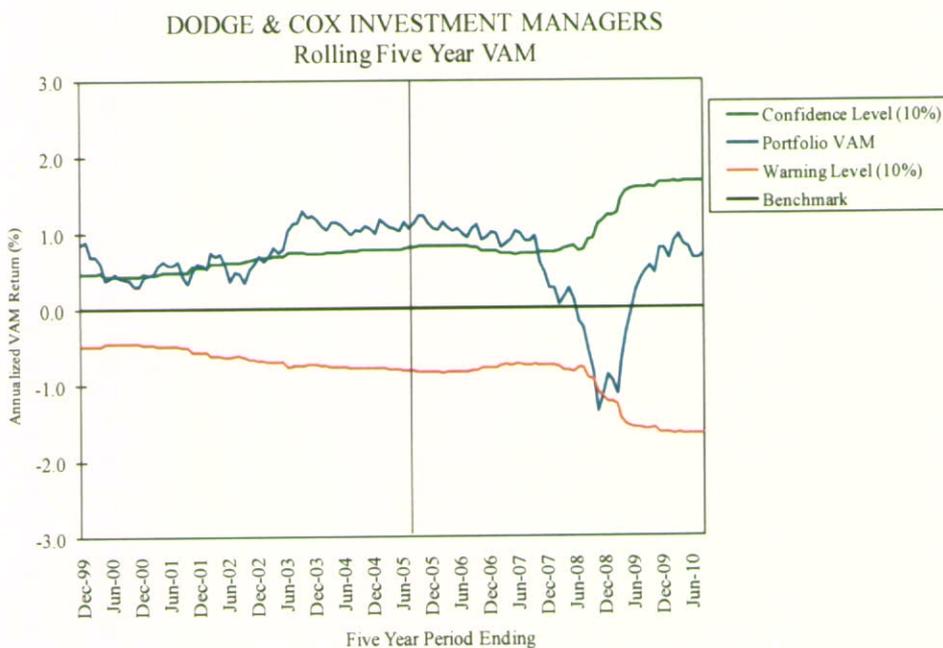

Dodge & Cox outperformed the benchmark by 20 bps in 3Q10 and outperformed by 170 bps over the last 12 months. A short duration stance relative to the benchmark hindered the quarter and one year performance as rates rallied. An overweight to the corporate bond sector produced positive excess returns, but performance was offset by an Agency MBS overweight. One year performance was largely driven by the corporate sector overweight.

Quantitative Evaluation

	Actual	Benchmark

PACIFIC INVESTMENT MANAGEMENT CO. LLC (PIMCO)
Periods Ending September, 2010

Portfolio Manager: Bill Gross

Assets Under Management: \$968,887,303

Investment Philosophy

PIMCO's investment approach seeks to outperform a client's benchmark on a consistent basis, while maintaining overall risk similar to the index. PIMCO's approach to investing has three key principles: the utilization of multiple strategies, a long-term orientation and bond selection from a broad universe. PIMCO's investment process starts with an annual Secular Forum. The goal of this Forum is to look beyond the current business cycle and determine how secular forces will play out over the next 3 to 5 years. Quarterly, PIMCO holds Economic Forums to evaluate growth and inflation over the next 6 to 9 months. Following PIMCO's Secular and Economic Forums, the PIMCO Investment Committee (IC) develops key portfolio strategies. They consider both the "top-down" conclusions emanating from PIMCO's Forum, as well as the "bottom-up" market intelligence provided by PIMCO's teams of sector specialist portfolio managers. Through an interactive series of meetings, the IC defines a set of consistent strategies that are then implemented.

Staff Comments

PIMCO outperformed the benchmark by 190 bps in 3Q10 and by 570 bps over the last 12 months. Outperformance for the quarter was driven by a long duration interest rate positioning as well as an underweight to the Agency MBS sector. A corporate sector overweight (both Investment Grade and High Yield) also added to performance for the quarter and year. Non-Agency MBS holdings also added value to the portfolio during the quarter and year.

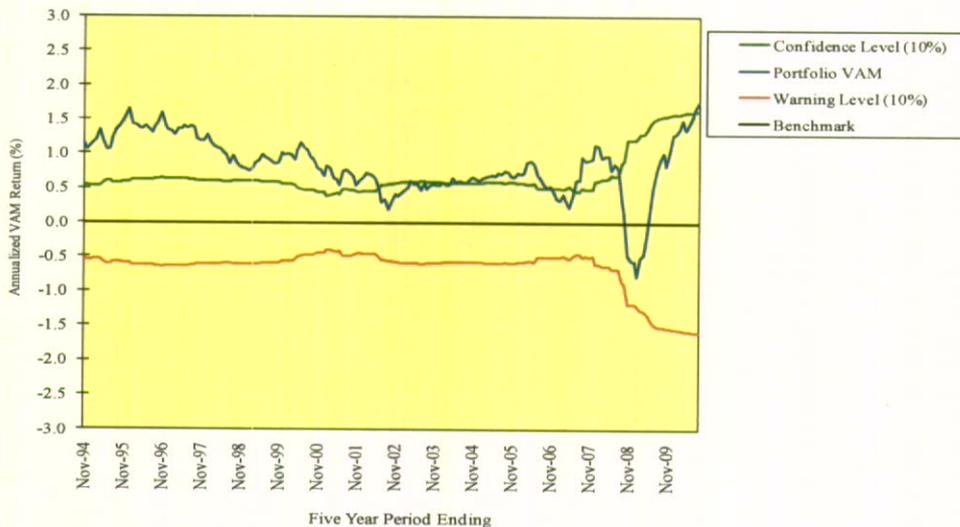

Quantitative Evaluation

WESTERN ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Steve Walsh

Assets Under Management: \$1,040,367,890

Investment Philosophy

Western emphasizes the use of multiple strategies and active sector and issue selection, while constraining interest rate risk. Multiple strategies are proportioned so that results do not depend on one or two opportunities. This approach adds consistent value over time and can reduce volatility. Long term value investing is Western's fundamental approach. In making their sector decision, the firm seeks out the greatest long-term value by analyzing all fixed income market sectors and their economic expectations. Individual issues are identified based on relative credit strength, liquidity, issue structure, event risk, and market valuation. Western believes that successful interest rate forecasting is extremely difficult and consequently keeps portfolio duration within a narrow band around the benchmark. Western was retained by the SBI in July 1984.

Staff Comments

Western outperformed the benchmark by 170 bps in 3Q10 and by 520 bps over the last 12 months. Outperformance for the quarter was driven by a long duration interest rate positioning, an underweight to the Agency MBS sector and select holdings in Non-Agency MBS and High Yield corporates. Over the last 12 months, outperformance was driven by Non-Agency MBS holdings and an overweight to Investment-Grade and High Yield corporate bonds.

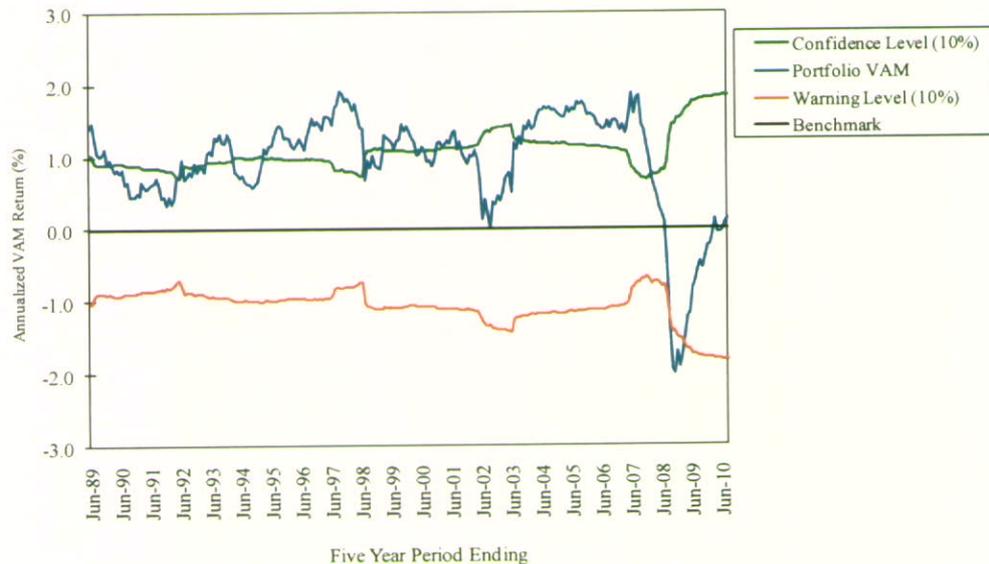

Quantitative Evaluation

WESTERN ASSET MANAGEMENT
Rolling Five Year VAM

BLACKROCK, INC.
Periods Ending September, 2010

Portfolio Manager: Keith Anderson

Assets Under Management: \$1,558,136,640

Investment Philosophy

BlackRock manages an enhanced index portfolio closely tracking the Lehman Aggregate. The firm's enhanced index strategy is a controlled-duration, sector rotation style, which can be described as active management with tighter duration, sector, and quality constraints. BlackRock seeks to add value through: (i) controlling portfolio duration within a narrow band relative to the benchmark, (ii) relative value sector/sub-sector rotation and security selection, (iii) rigorous quantitative analysis to the valuation of each security and of the portfolio as a whole, (iv) intense credit analysis and review, and (v) the judgment of experienced portfolio managers. Advanced risk analytics measure the potential impact of various sector and security strategies to ensure consistent value added and controlled volatility. BlackRock was retained by the SBI in April 1996.

Staff Comments

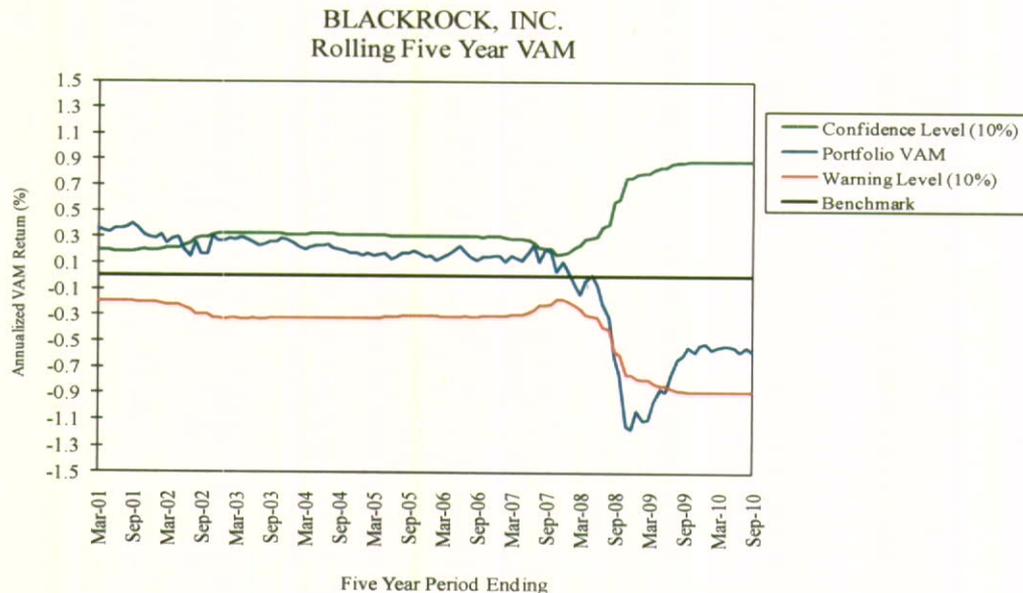

Blackrock was even with the benchmark in 3Q10 and outperformed by 40 bps over the last 12 months. Performance for the quarter was driven by overweights to the CMBS and corporate bond sector, although duration and yield curve positioning offset some of this performance. Over the last 12 months, non-agency MBS holdings added to performance, as did an overweight to the CMBS sector.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	2.5%	2.5%
Last 1 year	8.6	8.2
Last 2 years	9.8	9.4
Last 3 years	6.4	7.4

GOLDMAN SACHS ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Jonathon Beinner

Assets Under Management: \$1,601,583,921

Investment Philosophy

Goldman manages an enhanced index portfolio closely tracking the Lehman Aggregate. Goldman's process can be viewed as active management within a very risk-controlled framework. The firm relies primarily on sector allocation and security selection strategies to generate incremental return. To a lesser degree, term structure strategies are also implemented. Goldman combines long-term strategic investment tilts with short-term tactical trading opportunities. Strategic tilts are based on fundamental and quantitative sector research and seek to optimize the long-term risk/return profile of portfolios. Tactical trades between sectors and securities within sectors are implemented to take advantage of short-term market anomalies. Goldman was retained by the SBI in July 1993.

Staff Comments

Goldman Sachs outperformed the benchmark by 30 bps in 3Q10 and by 200 bps over the last 12 months. The quarter and one year performance were driven by security selection in the non-agency MBS and corporate bond sectors. Security selection within the Agency MBS market also added to performance for the quarter.

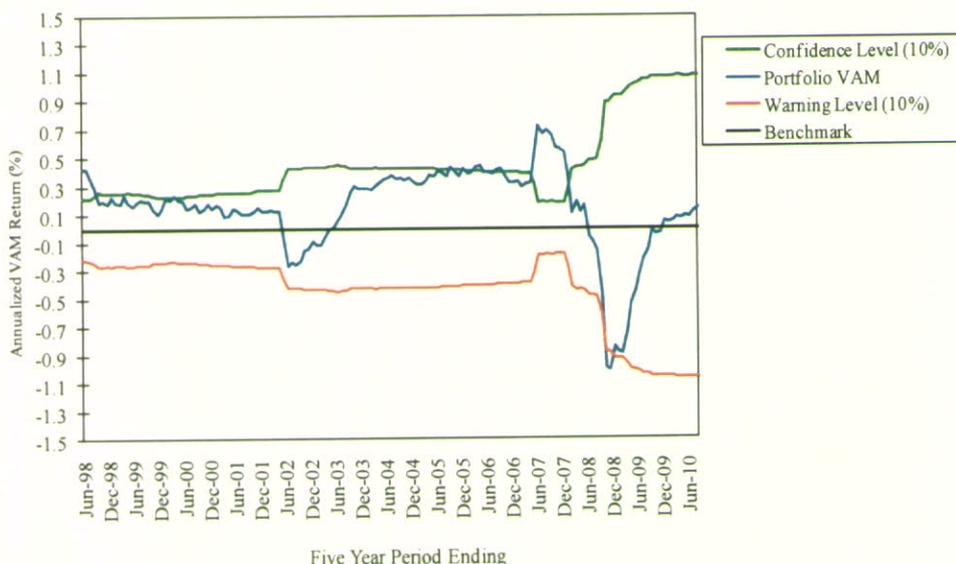

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	2.8%	2.5%
Last 1 year	10.2	8.2
Last 2 years	10.9	9.4
Last 3 years	7.5	7.4

GOLDMAN SACHS ASSET MANAGEMENT
Rolling Five Year VAM

NEUBERGER INVESTMENT MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Andrew Johnson

Assets Under Management: \$1,545,040,641

Investment Philosophy

Neuberger (formerly Lincoln) manages an enhanced index portfolio closely tracking the Barclay's Capital Aggregate. Neuberger's process relies on a combination of quantitative tools and active management judgment. Explicit quantification and control of risks are at the heart of their process. Neuberger uses proprietary risk exposure measures to analyze 25 interest rate factors, and over 30 spread-related factors. For each interest rate factor, the portfolio is very closely matched to the index to ensure that the portfolio earns the same return as the index for any change in interest rates. For each spread factor, the portfolio can deviate slightly from the index as a means of seeking value-added. Setting target active risk exposures that must fall within pre-established maximums controls risk. To control credit risk, corporate holdings are diversified across a large number of issues. Neuberger was retained by the SBI in July 1988.

Staff Comments

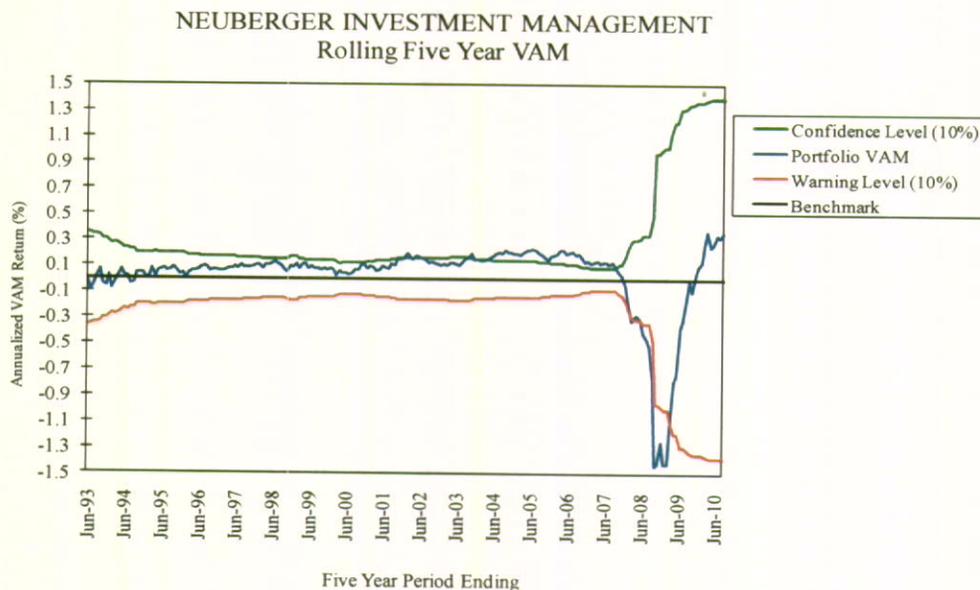

Neuberger outperformed the benchmark by 40 bps in 3Q10 and by 310 bps over the last 12 months. The quarter and one year performance were driven by overweights to the commercial and non-agency residential MBS sectors as well as to the corporate bond sector.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	2.9%	2.5%
Last 1 year	11.3	8.2
Last 2 years	12.0	9.4

ACADIAN ASSET MANAGEMENT LLC
Periods Ending September, 2010

Portfolio Manager: John Chisholm

Assets Under Management: \$262,831,512

Investment Philosophy

Acadian believes there are inefficiencies in the global equity markets that can be exploited by a disciplined quantitative investment process. In evaluating markets and stocks, Acadian believes it is most effective to use a range of measures, including valuation, price trends, financial quality and earnings information. Risk control is a critical part of the Acadian approach. Acadian's process seeks to capture value-added at both the stock and the sector/country level. The process is active and bottom-up, but each stock forecast also contains a sector/country forecast. Selection is made from a very broad investment universe using disciplined, factor-driven quantitative models. Portfolios are constructed with an optimizer and are focused on targeting a desired level of active risk relative to a client's chosen benchmark index.

COLUMBIA MANAGEMENT INVESTMENT ADVISERS, LLC
(Formerly RiverSource Investments)
Periods Ending September, 2010

Portfolio Manager: Esther Perkins

Assets Under Management: \$253,206,741

Investment Philosophy

RiverSource's philosophy focuses on key forces of change in markets and the companies that will benefit. The firm believes that in a global marketplace, where sustainable competitive advantage is rare, their research should focus on the dynamics of change. A good understanding of the likely impact of these changes at a company level, complemented with an appreciation of the ability of management to exploit these changes, creates significant opportunities to pick winners and avoid losers.

INVESCO GLOBAL ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Erik Granade

Assets Under Management: \$219,991,106

Investment Philosophy

INVESCO believes they can add value by identifying and investing in companies whose share price does not reflect the proven and sustainable growth of the company's earnings and assets. They also believe that a systematic process that identifies mis-valued companies, combined with a consistently applied portfolio design process, can control the predictability and consistency of returns. Portfolios are constructed on a bottom-up basis; they select individual companies rather than countries, themes, or industry groups. This is the first of four cornerstones of their investment approach. Secondly, they conduct financial analysis on a broad universe of non-U.S. companies whose key financial data is adjusted to be comparable across borders and currencies. Third, Invesco believes that using local investment professionals enhances fundamental company research. Finally, they manage risk and assure broad diversification relative to clients' benchmarks through a statistics-based portfolio construction approach rather than resorting to country or industry constraints.

J.P. MORGAN INVESTMENT MANAGEMENT INC.
Periods Ending September, 2010

Portfolio Manager: James Fisher

Assets Under Management: \$225,792,007

Investment Philosophy

JP Morgan's international equity strategy seeks to add value through active stock selection, while remaining diversified by both sector and region. The portfolio displays a large capitalization size bias and a slight growth orientation. Stock selection decisions reflect the insights of approximately 150 locally based investors, ranking companies within their respective local markets. The most attractive names in each region are then further validated by a team of Global Sector Specialists who seek to take the regional team rankings and put these into a global context. The team of six senior portfolio managers draws together the insights of both the regional and global specialists, constructing a portfolio of the most attractive names.

MARATHON ASSET MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: William Arah

Assets Under Management: \$513,854,882

Investment Philosophy

Marathon uses a blend of flexible, qualitative disciplines to construct portfolios which exhibit a value bias. Style and emphasis will vary over time and by market, depending on Marathon's perception of lowest risk opportunity. Since they believe that competition determines profitability, Marathon is attracted to industries where the level of competition is declining and they will hold a sector position as long as the level of competition does not increase. At the stock level, Marathon tracks a company's competitive position versus the attractiveness of their products or services and attempts to determine whether the company is following an appropriate reinvestment strategy for their current competitive position.

MCKINLEY CAPITAL MANAGEMENT, INC.
Periods Ending September, 2010

Portfolio Manager: Robert A. Gillam

Assets Under Management: \$220,158,678

Investment Philosophy

At McKinley Capital, investment decisions are based on the philosophy that excess market returns can be achieved through the construction and active management of a diversified, fundamentally sound portfolio of inefficiently priced common stocks whose earnings growth rates are accelerating above market expectations. A disciplined quantitative investment process drives all product strategies. The firm can be described as a bottom-up growth manager. They employ both a systematic screening process and a qualitative overview to construct and manage portfolios. Investment ideas are initially generated by the quantitative investment process. The balance of the qualitative overlay seeks to identify securities with earnings estimates that are reasonable and sustainable. All portfolios managed by McKinley Capital use the same investment process and construction methodology to manage portfolios.

PYRAMIS GLOBAL ADVISORS TRUST COMPANY
(Formerly Fidelity Management Trust Company)
Periods Ending September, 2010

Portfolio Manager: Michael Strong

Assets Under Management: \$248,922,323

Investment Philosophy

International Growth is a core, growth-oriented strategy that provides diversified exposure to the developed international markets. The investment process combines active stock selection and regional asset allocation. Four portfolio managers in London, Tokyo, Hong Kong, and Boston construct regional sub-portfolios, selecting stocks based on Fidelity analysts' bottom-up research and their own judgment and expertise. Portfolio guidelines seek to ensure risk is commensurate with the performance target and to focus active risk on stock selection. Resulting portfolios typically contain between 200-250 holdings.

ALLIANCEBERNSTEIN L.P.
Periods Ending September, 2010

Portfolio Manager: Steve Beinhacker

Assets Under Management: \$176,001,230

Investment Philosophy

Alliance employs a growth style of investment management. They believe that fundamental research-driven stock selection, structured by industries within regions, will produce superior investment performance. Their strategy emphasizes bottom-up, large capitalization stock selection. Country and industry exposures are a by-product of stock selection. Alliance looks for companies with the best combination of forward-looking growth and valuation attractiveness.

MORGAN STANLEY INVESTMENT MANAGEMENT
Periods Ending September, 2010

Portfolio Manager: Ruchir Sharma

Assets Under Management: \$704,160,610

Investment Philosophy

Morgan Stanley's style is core with a growth bias. They follow a top-down approach to country allocation and a bottom-up approach to stock selection. Morgan Stanley's macro-economic and stock selection analyses are qualitative as well as quantitative, concentrating on fundamentals. Their top-down analysis highlights countries with improving fundamentals and attractive valuations. Their bottom-up approach to stock selection focuses on purchasing companies with strong operating earnings potential at attractive valuations.

AQR CAPITAL MANAGEMENT, LLC
Periods Ending September, 2010

Portfolio Manager: Cliff Asnes

Assets Under Management: \$251,835,102

Investment Philosophy

AQR employs a disciplined quantitative approach emphasizing both top-down country/currency allocation and bottom-up security selection decisions to generate excess returns. AQR's investment philosophy is based on the fundamental concepts of value and momentum. AQR's international equity product incorporates stock selection, country selection, and currency selection models as the primary alpha sources. Dynamic strategy allocation (between the three primary alpha sources) and style weighting are employed as secondary alpha sources.

PYRAMIS GLOBAL ADVISORS TRUST COMPANY
(Formerly Fidelity Management Trust Company)
Periods Ending September, 2010

Portfolio Manager: Cesar Hernandez

Assets Under Management: \$374,466,258

Investment Philosophy

Select International combines active stock selection with quantitative risk control to provide consistent excess returns above the benchmark while minimizing relative volatility and risk. By combining five regional sub-portfolios in the U.K., Canada, Continental Europe, Japan, and the Pacific Basin ex Japan, the portfolio manager produces a portfolio made up of the best ideas of the firm's research analysts. Each regional portfolio is created so that stock selection is the largest contributor to active return while systematic, sector, and factor risks are minimized. The portfolio manager uses a combination of proprietary and third-party optimization models to monitor and control risk within each regional module. Resulting portfolios typically contain between 275-325 holdings.

STATE STREET GLOBAL ADVISORS
Periods Ending September, 2010

Portfolio Manager: Didier Rosenfeld

Assets Under Management: \$239,862,687

Investment Philosophy

SSgA's Alpha strategy is managed using a quantitative process. Stock selection provides the best opportunity to add consistent value. Industry factors have come to dominate country factors and an approach that uses industry weights to add incremental value complements stock selection. Unwanted biases are controlled for through disciplined risk-control techniques. Country and regional allocations are a result of the security selection process but are managed to remain with +/- 5% of the benchmarks allocation. Sector and industry allocations are managed to be within +/- 3% of the benchmarks allocation. The portfolio managers on this team have extensive experience and insight, which is used in conjunction with the models to create core portfolios.

 Note: Area to the left of vertical line includes performance prior to retention by the SBI

STATE STREET GLOBAL ADVISORS
Periods Ending September, 2010

Portfolio Manager: Lynn Blake

Assets Under Management: \$2,461,742,787

Investment Philosophy

State Street Global Advisors passively manages the portfolio against the Morgan Stanley Capital International (MSCI) World ex U.S. index of 22 markets located in the developed markets outside of the United States (including Canada). SSgA fully replicates the index whenever possible because it results in lower turnover, higher tracking accuracy and lower market impact costs. The MSCI World ex U.S. (net) index reinvests dividends assuming a withholding tax on dividends, according to the Luxembourg tax rate. Whereas the portfolio reinvests dividends using all available reclaims and tax credits available to a U.S. pension fund, which should result in modest positive tracking error, over time.

GE ASSET MANAGEMENT - Assigned Risk Plan
Periods Ending September, 2010

Portfolio Manager: Dave Carlson

Assets Under Management: \$60,783,072

Investment Philosophy
Assigned Risk Plan

GE's Multi-Style Equity program attempts to outperform the S&P 500 consistently while controlling overall portfolio risk through a multiple manager approach. A value portfolio, a growth portfolio and a research portfolio are combined to create a well diversified equity portfolio while maintaining low relative volatility and a style-neutral position between growth and value. All GE managers focus on stock selection from a bottom-up perspective.

RBC GLOBAL ASSET MANAGEMENT (U.S.) - Assigned Risk Plan
Periods Ending September, 2010

Portfolio Manager: John Huber

Assets Under Management: \$243,646,065

Investment Philosophy
Assigned Risk Plan

RBC uses a top-down approach to fixed income investing. Their objective is to obtain superior long-term investment returns over a pre-determined benchmark that reflects the quality constraints and risk tolerance of the Assigned Risk Plan. Due to the specific liability requirement of the plan, return enhancement will focus on sector analysis and security selection. Yield curve and duration analysis are secondary considerations.

GALLIARD CAPITAL MANAGEMENT
Periods Ending June, 2010

Portfolio Manager: Karl Tourville

Assets Under Management: \$1,283,154,152

Investment Philosophy

Galliard Capital Management manages the Fixed Interest Account in the Supplemental Investment Fund. The stable value fund is managed to protect principal and provide competitive interest rates using instruments somewhat longer than typically found in money market-type accounts. The manager invests cash flows to optimize yields. The manager invests in high quality instruments diversified among traditional investment contracts and alternative investment contracts with U.S. and non-U.S. financial institutions. To maintain necessary liquidity, the manager invests a portion of the portfolio in its Stable Return Fund and in cash equivalents. The Stable Return Fund is a large, daily priced fund consisting of a wide range of stable value instruments that is available to retirement plans of all sizes.

Periods Ending September, 2010

Portfolio Manager: Mike Messen

Assets Under Management: \$898,219,399

Investment Philosophy
Environmental Trust Fund
Permanent School Fund

Staff Comments

The Internal Equity Pool is managed to closely track the S&P 500 Index. The strategy replicates the S&P 500 by owning all of the names in the index at weightings similar to those of the index. The optimization model's estimate of tracking error with this strategy is approximately 10 basis points per year.

INTERNAL BOND POOL - Income Share Account
Periods Ending September, 2010

Portfolio Manager: Mike Messen

Assets Under Management: \$86,450,615

Investment Philosophy
Income Share Account

Staff Comments

The investment approach emphasizes sector and security selection. The approach utilizes sector trading and relative spread analysis of both sectors and individual issues. The portfolio weightings in mortgage and corporate securities are consistently equal to or greater than the market weightings. The portfolio duration remains close to the benchmark duration but may be shortened or lengthened depending on changes in the economic outlook.

Periods Ending September, 2010**

Portfolio Manager: Ron Sachs

**State's Participation in Fund: \$400,921,372
Total Assets in Fund: \$8,800,000,000**

**Investment Philosophy
Janus Twenty**

The investment objective of this fund is long-term growth of capital from increases in the market value of the stocks it owns. The fund will concentrate its investments in a core position of between twenty to thirty common stocks. This non-diversified fund seeks to invest in companies that the portfolio manager believes have strong current financial positions and offer growth potential.

**Investment Philosophy
Legg Mason Partners Appreciation I**

The Fund invests in U.S. growth and value stocks, primarily blue-chip companies that are dominant in their industries. Investments are selected from among a core base of stocks with a strong financial history, recognized industry leadership, and effective management teams that strive to earn consistent returns for shareholders. The portfolio manager looks for companies that he believes are undervalued with the belief that a catalyst will occur to unlock these values.

Portfolio Manager: Donald Butler

**State's Participation in Fund: \$389,076,863
Total Assets in Fund: \$27,516,000,000**

**Investment Philosophy
Vanguard Institutional Index**

This fund attempts to provide investment results, before fund expenses, that parallel the performance of the Standard & Poor's 500 Index. The fund invests in all 500 stocks listed in the S&P 500 index in approximately the same proportions as they are represented in the index. The managers have tracked the S&P 500's performance with a high degree of accuracy. The fund may use futures and options for temporary purposes, but generally remains fully invested in common stock.

Portfolio Manager: Donald Butler

**State's Participation in Fund: \$174,876,573
Total Assets in Fund: \$7,128,000,000**

**Investment Philosophy
Vanguard Mid-Cap Index**

The fund employs a “passive management”- or indexing-investment approach designed to track the performance of the MSCI US Mid Cap 450 Index, a broadly diversified index of stocks of medium-size U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting within the index.

	Total Assets in Fund: \$5,719,698,621

**Investment Philosophy
T. Rowe Price Small Cap Equity Fund**

Staff Comments

The strategy of this fund is to invest primarily in stocks of small to medium-sized companies that are believed to offer either superior earnings growth or appear undervalued. The fund normally invests at least 80% of assets in equities traded in the U.S over-the-counter market. The manager does not favor making big bets on any particular sector or any particular stock. The fund's combination of growth and value stocks offers investors relatively more stable performance compared to other small cap stock funds.

**Investment Philosophy
Dodge & Cox Income Fund**

Staff Comments

The objective of this fund is a high and stable rate of current income with capital appreciation being a secondary consideration. This portfolio is invested primarily in intermediate term, investment-grade quality corporate and mortgage bonds and, to a lesser extent, government issues. While the fund invests primarily in the U.S. bond market, it may invest a small portion of assets in dollar-denominated foreign securities. The duration of the portfolio is kept near that of the bond market as a whole.

Staff Comments

The fund attempts to track the performance of the Barclays Capital Aggregate Bond Index, which is a widely recognized measure of the entire taxable U.S. bond market. The index consists of more than 5,000 U.S. Treasury, federal agency, mortgage-backed, and investment-grade corporate securities. Because it is not practical or cost-effective to own every security in the index, the fund invests in a large sampling that matches key characteristics of the index (such as market-sector weightings, coupon interest rates, credit quality, and maturity). To boost returns, the fund holds a higher percentage than the index in short-term, investment-grade corporate bonds and a lower percentage in short-term Treasury securities.

Portfolio Manager: William Bower

**State's Participation in Fund: \$228,626,535
Total Assets in Fund: \$26,259,130,000**

**Investment Philosophy
Fidelity Diversified International**

The goal of this fund is capital appreciation by investing in securities of companies located outside of the United States. While the fund invests primarily in stocks, it may also invest in bonds. Most investments are made in companies that have a market capitalization of \$100 million or more and which are located in developed countries. To select the securities, the fund utilizes a rigorous computer-aided quantitative analysis supplemented by relevant economic and regulatory factors. The manager rarely invests in currency to protect the account from exchange fluctuations.

Staff Comments

The fund seeks to track the performance of the MSCI EAFE Index by passively investing in two other Vanguard funds—the European Stock Index Fund and the Pacific Stock Index Fund. The combination of the two underlying index funds, in turn, seeks to track the investment results of the Morgan Stanley Capital International (MSCI) Europe, Australasia, Far East (EAFE) Index. The MSCI EAFE Index includes approximately 1,000 common stocks of companies located in Europe, Australia, Asia, and the Far East.

Tab D

INVESTMENT ADVISORY COUNCIL REPORT

DATE: November 24, 2010

TO: Members, State Board of Investment

FROM: Investment Advisory Council

SUBJECT: Review of the State Deferred Compensation Plan

The IAC met November 16, 2010 and reviewed a recommendation by the Deferred Compensation Review Committee to add target date funds to the State Deferred Compensation Plan (Plan) and to make certain changes to the array of Plan investment options.

The Deferred Compensation Plan is a tax-sheltered IRC 457(b) retirement savings plan available to all public employees in the state. It is a supplement to the primary defined benefit retirement plans of TRA, PERA and MSRS. The Plan administrator is the Minnesota State Retirement System (MSRS). The SBI is responsible for selecting Plan investment options and investment managers.

MSRS has requested that the SBI consider the addition of target date funds to the Plan. A target date fund (TDF) is a balanced investment option in which the asset allocation is changed gradually by the investment manager to reduce risk as the target retirement date approaches. A TDF offers the participant a balanced option in which the asset allocation is changed automatically to become less aggressive as he or she approaches retirement.

The Deferred Compensation Review Committee met September 20 to discuss background information provided by staff concerning target date product offerings and the existing Plan investment options.

The IAC approved the recommendation of the Deferred Compensation Review Committee to add target date funds to the Plan and SSgA as product provider and to make changes to the array of Plan investment options.

With these recommended changes the Plan's investment options would be changed from the current array shown to the proposed array shown below.

Current Options

Asset Class	Active	Passive
Large Cap Equity	1) Janus Twenty 2) Legg Mason Appreciation I	Vanguard Inst'l Index (S&P 500)
Mid Cap Equity		Vanguard Mid-Cap Index
Small Cap Equity	T. Rowe Price Small Cap Stock	
Balanced	Dodge & Cox Balanced	Vanguard Balanced Index
Bond	Dodge & Cox Income	Vanguard Total Bond Market Index
International	Fidelity Diversified International	Vanguard Inst'l Developed Markets Index
Money Market	SIF Money Market	
Stable Value	SIF Fixed Interest	

Proposed Options

Asset Class	Option
Large Cap Equity	1) Janus Twenty 2) Vanguard Institutional Index (S&P 500)
Mid Cap Equity	Vanguard Mid-Cap Index
Small Cap Equity	T. Rowe Price Small Cap Stock
Balanced	Vanguard Balanced Index
Bond	1) Dodge & Cox Income 2) Vanguard Total Bond Index
International	1) Vanguard Total International Stock Index 2) Fidelity Diversified International
Money Market	SIF Money Market
Stable Value	SIF Fixed Interest
Target Date Funds	SSgA

MSRS will undertake necessary communication and recordkeeping activities in order to make the recommended changes in the Plan effective July 1, 2011.

RECOMMENDATION:

The IAC approves the recommendation of the Deferred Compensation Review Committee and recommends the Board approve the addition of target date funds as an option to the State Deferred Compensation Plan and the retention of State Street Global Advisors as the product provider, the elimination of Legg Mason Partners Appreciation I Fund and Dodge and Cox Balanced Fund as investment options and the replacement of Vanguard Institutional Developed Markets Index Fund with the Vanguard Total International Stock Index Fund which has an emerging markets component.

INVESTMENT ADVISORY COUNCIL REPORT

DATE: November 24, 2010

TO: Members, State Board of Investment

FROM: Jim Heidelberg

SUBJECT: Review of the Assigned Risk Plan Asset Allocation

The IAC met November 16, 2010 to review the asset allocation of the Workers' Compensation Assigned Risk Plan.

Plan Administration

The Minnesota Workers' Compensation Assigned Risk Plan (Plan) is a non-profit, tax-exempt entity administered by the Department of Commerce. The Plan provides disability income, medical expenses, retraining expenses and death benefits to high risk entities, with payments being made either periodically or in lump sum.

By statute, the SBI invests the assets of the Plan. The SBI reviews the annual actuarial liability study which displays the payments that are estimated to be made from Plan assets over time. The SBI seeks to match Plan investment strategy with the estimated stream of liabilities. The SBI maintains an asset allocation for the Plan and periodically updates that allocation.

Investment Objectives and Asset Allocation

The SBI recognizes that the Assigned Risk Plan has limited tolerance for risk due to erratic cash flows, no allowance for surplus, and generally, short duration liabilities.

The SBI believes that due to the uncertainty of premium and liability cash flows, the Plan should be invested very conservatively.

The *fixed income* segment is invested to fund the shorter-term liabilities, and the common stock segment is invested to fund the longer-term liabilities. This structure creates a high fixed income allocation which minimizes the possibility of a future fund deficit. The smaller *equity* exposure provides higher expected returns and hedges some of the inflation risk associated with the liability stream.

The current long term asset allocation targets for the Plan are as follows:

Domestic Equities	20%
Domestic Fixed Income	80

The Plan liability payments continue to be heavily weighted in the first several years with a modest portion of estimated claims to be paid in later years. Due to changes in the workers compensation marketplace, the Plan administrator was forced to adopt a higher retention rate for considering liabilities which stretches out the time over which claim dollars are paid. While there was a business change in the functioning of the Plan, there was no change in the investment constraints the Plan faces. Therefore, there is no compelling reason to change the investment objectives of the Plan. Further, the portion of liabilities in the first fifteen years has remained at about 80 percent. Given these considerations, staff and the IAC conclude that the current allocation of 20 percent equities and 80 percent bonds be continued.

RECOMMENDATION:

The IAC recommends that the Board make no changes to the current Assigned Risk Plan allocation of 20% equities and 80% fixed income.

INVESTMENT ADVISORY COUNCIL REPORT

DATE: November 24, 2010

TO: Members, State Board of Investment

FROM: Members, Investment Advisory Council

The Investment Advisory Council met on November 16, 2010 and reviewed the following information and action agenda items:

1. Review of current strategy.
2. New investments with four existing private equity managers, GTCR, CS Strategic Partners, Summit Partners, Vestar and one existing resource manager, Merit Energy Company.

Board action is required on the last item.

INFORMATION ITEMS:

1) Review of Current Strategy.

To increase overall portfolio diversification, 20% of the Combined Funds are allocated to alternative investments. Alternative investments include real estate, private equity, resource, and yield-oriented investments in which Minnesota State Board of Investment (SBI) participation is limited to commingled funds or other pooled vehicles. Charts summarizing the Board's current commitments are attached (see **Attachments A and B**).

- a. The real estate investment strategy is to establish and maintain a broadly diversified real estate portfolio comprised of investments that provide overall diversification by property type and location. The main component of this portfolio consists of investments in diversified Real Estate Investment Trusts (REITs), open-end commingled funds and closed-end commingled funds. The remaining portion of the portfolio can include investments in less diversified, more focused (specialty) commingled funds and REITs.
- b. The private equity investment strategy, which includes leveraged buyouts and venture capital, is to establish and maintain a broadly diversified private equity portfolio comprised of investments that provide diversification by industry type, stage of corporate development and location.

- c. The strategy for resource investments is to establish and maintain a portfolio of resource investment vehicles that provide an inflation hedge and additional diversification. Resource investments will include oil and gas investments, energy service industry investments and other investments that are diversified geographically and by type.
- d. The strategy for yield-oriented investments will target funds that typically provide a current return and may have an equity component such as subordinated debt or mezzanine investments. Yield-oriented investments will provide diversification by including investments in the private equity, resource and real estate categories.

ACTION ITEMS:

1) Investment with an existing private equity manager, GTCR, in GTCR Fund X.

GTCR is seeking investors for a new \$3.0 billion private equity fund, GTCR Fund X. This fund is a successor to nine other private equity funds managed by GTCR. The SBI has invested in six other private equity funds with GTCR. Like the other private equity funds, this fund will seek to earn attractive returns through a portfolio of private equity investments.

In addition to reviewing the attractiveness of the GTCR Fund X investment offering, staff has conducted reference checks, a literature database search and reviewed the potential investor base for the fund.

More information on GTCR Fund X is included as **Attachment C**.

RECOMMENDATION:

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$100 million, or 20% of GTCR Fund X, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by GTCR upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on GTCR or reduction or termination of the commitment.

2) Investment with an existing private equity manager, CS Strategic Partners, in CS Strategic Partners V.

CS Strategic Partners is seeking investors for a new \$2.5 billion private equity fund. This fund is a successor to four other prior private equity funds managed by CS Strategic Partners. The SBI has invested in all of the prior four funds. Like the prior funds, the new fund will seek to earn attractive returns by focusing on investing in existing limited partnership interests purchased from limited partners desiring liquidity prior to the termination of those funds.

In addition to reviewing the attractiveness of the CS Strategic Partners V investment offering, staff has conducted reference checks, a literature database search and reviewed the potential investor base for fund V.

More information on CS Strategic Partners V is included as **Attachment D**.

RECOMMENDATION:

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$100 million, or 20% of CS Strategic Partners V, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by CS Strategic Partners upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on CS Strategic Partners or reduction or termination of the commitment.

3) Investment with an existing private equity manager, Summit Partners, in Summit Partners Growth Equity Fund VIII.

Summit Partners is seeking investors for a new \$3 billion private equity fund. This fund is a successor to seven other private equity funds managed by Summit Partners. The SBI has invested in three of the seven other private equity funds. Like the prior funds, this fund will seek to earn attractive returns through a diversified portfolio of private equity investments.

In addition to reviewing the attractiveness of the Summit Partners Growth Equity Fund VIII investment offering, staff has conducted reference checks, a literature database search and reviewed the potential investor base for fund VIII.

More information on Summit Partners Growth Equity Fund VIII is included as **Attachment E**.

RECOMMENDATION:

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$100 million, or 20% of Summit Partners Growth Equity Fund VIII, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Summit Partners upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Summit Partners or reduction or termination of the commitment.

4) Investment with an existing private equity manager, Vestar Capital Partners, in Vestar Capital Partners VI, LP.

Vestar Capital Partners is seeking investors for a new \$3.5 billion private equity fund. This fund is a successor to five other private equity funds managed by Vestar Capital Partners. The SBI is invested in the two latest prior funds. Like the prior funds, this fund will seek to earn attractive returns through a diversified portfolio of private equity investments.

In addition to reviewing the attractiveness of the Vestar Capital Partners VI, L.P. investment offering, staff has conducted reference checks, a literature database search and reviewed the potential investor base for fund VI.

More information on Vestar Capital Partners VI, L.P is included as **Attachment F**.

RECOMMENDATION:

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$100 million, or 20% of Vestar Capital Partners VI, L.P, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Vestar Capital Partners upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Vestar Capital Partners or reduction or termination of the commitment.

5) Investment with an existing resource manager, Merit Energy Company, in Merit Energy Partners H.

Merit Energy Company is seeking investors for a new \$750 million resource fund, Merit Energy Partners H. This fund is a successor to nineteen other resource funds managed by Merit. The SBI has invested in the five latest prior resource funds with Merit Energy Company. Like the other resource funds, this fund will seek to earn attractive returns through a portfolio of resource oil and gas investments.

In addition to reviewing the attractiveness of the Merit Energy Partners H investment offering, staff has conducted reference checks, a literature database search and reviewed the potential investor base for the fund.

More information on Merit Energy Partners H is included as **Attachment G**.

RECOMMENDATION:

The Investment Advisory Council recommends that the SBI authorize the Executive Director, with assistance from the SBI's legal counsel, to negotiate and execute a commitment of up to \$100 million, or 20% of Merit Energy Partners H, whichever is less. Approval by the SBI of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Merit Energy Company upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Merit Energy Company or reduction or termination of the commitment.

* None of the data presented herein has been reviewed or approved by either the general partner or investment manager. The performance and valuation data presented herein is not a guarantee or prediction of future results. Ultimately, the actual performance and value of any investment is not known until final liquidation. Because there is no industry-standardized method for valuation or reporting, comparisons of performance and valuation data among different investments is difficult.

PRIVATE EQUITY MANAGER SUMMARY PROFILE

I. Background Data

Name of Fund:	GTCR Fund X
Type of Fund:	Private Equity Limited Partnership
Total Fund Size:	\$3 billion
Fund Manager:	GTCR LLC
Manager Contact:	David Donnini GTCR 300 N. LaSalle Street, Suite 5600 Chicago Ill. 60654 P: 312-382-2200

II. Organization and Staff

Founded in 1980, GTCR LLC (together with its affiliated management entities, collectively, "GTCR" or the "Firm") is a leading growth-oriented private equity firm. Since its inception, GTCR has managed nine private equity funds (the "Funds") through which it has invested approximately \$7.7 billion of equity capital. GTCR operates out of a single office in Chicago.

GTCR has a staff of approximately 80 employees, roughly half of whom are investment professionals and the remainder of whom are administrative professionals and support staff. All significant Firm governance, policy, and economic issues are determined by a subset of GTCR's Principals (i.e., the "Governing Principals"), while investment decisions require the approval of a majority of the 8 Principals on the Investment Committee (the "Investment Committee"), who have 129 years of collective private equity experience, 116 of them at GTCR.

III. Investment Strategy

During its 30-year history, GTCR has developed what it considers to be a differentiated private equity strategy through which the Firm seeks to utilize significant resources to create unique acquisition opportunities and to improve the revenue growth, profitability, and strategic value of its investments. GTCR's differentiated, value-added approach to private equity investing has several core tenets: 1. Focus on specific growth sectors of the North American economy; 2. Partnering with world-class management leaders; and 3. Emphasis on opportunities to transform businesses.

The Firm generally executes this strategy as the only participating private equity investor in its leveraged acquisitions of control positions in mature, cash-flowing companies. GTCR believes its strategy mitigates the extent to which the Firm competes directly with other private equity

firms. GTCR's execution of this strategy has historically created top quartile returns driven primarily by EBITDA growth and multiple expansion in its investments.

Sector Focus

The first core tenet of GTCR's investment strategy is to focus primarily on specific growth sectors of the North American economy. In these sectors, GTCR believes it has developed proprietary advantages through the creation of both deep knowledge and extensive networks of relationships. The Firm generally invests in four core sectors: 1. Healthcare; 2. Information Services and Technology; 3. Financial Services and Technology; and 4. Growth Business Services. The Firm organizes its teams around the first three of these sectors. Its Growth Business Services opportunities usually share attributes with one or both of the technology-related sectors and are staffed accordingly.

Partnering With World-Class Management Leaders

GTCR considers itself the pioneer of identifying, recruiting, and partnering with exceptional management leaders to acquire attractive companies in their specific areas of experience. The Firm devotes considerable time to the process of identifying, establishing relationships, and ultimately partnering with such leaders.

Since the start of 2000, 62% of GTCR's invested capital has funded companies where GTCR added a new CEO at the closing of the initial acquisition. More than a third of the remaining capital has been invested in companies where GTCR added senior leaders to other critical functions such as CFO, COO, or a lead sales position. GTCR management leaders are recruited and selected for their extensive experience in the same industry as the company in which GTCR and they are investing.

Emphasis on Opportunities to Transform Businesses

The third and final core tenet of GTCR's investment strategy is its pursuit and execution of substantially transformational investments. GTCR seeks investments with material opportunity for: 1. Strategic transformation through multiple acquisitions within an investment platform; 2. Strategic transformation through corporate carve-outs; and 3. Operational transformation through substantial performance improvement.

Because GTCR seeks, and is many times successful in driving, operational and strategic transformations in its investments, it very rarely sells the same company that it purchases. Instead, the Firm seeks to create companies with fundamentally different—and enhanced—strategic positioning and operating performance.

GTCR has been an industry outperformer though out its thirty year history, as illustrated by returns that exceed the top quartile benchmark in five of its last six fully invested funds. During these thirty years the firm has consistently executed a differentiated and value-added private equity strategy well suited to the current economic and market environment. GTCR's "leaders strategy" enables the firm to identify, recruit and partner with top executive talent. With these management partners GTCR acquires growth businesses and transforms them through operational improvements and strategic repositioning. This value-added approach leads to value

creation independent of the economy and broader market. GTCR believes its unique approach to private equity investing will continue to generate top-quartile returns for its investors throughout Fund X.

IV. Investment Performance

The historical investment performance of GTCR as of March 31, 2010 is presented below:

Fund	Inception Date	Total Commitments	SBI Investment	Net IRR from Inception*	Net MOIC from Inception *
Equity Fund I	1980	\$60 million	0	31%	11.7x
Equity Fund II	1984	\$100 million	0	18%	3.7x
Equity Fund III	1987	\$235 million	\$14 million	31%	5.6x
Equity Fund IV	1994	\$312 million	\$20 million	26%	2.1x
Equity Fund V	1996	\$521 million	\$30 million	11%	1.8x
Equity Fund VI	1998	\$870 million	\$90 million	-3%	0.9x
Equity Fund VII	2000	\$2,000 million	\$175 million	26%	2.4x
Equity Fund VIII	2003	\$1,837 million	0	29%	1.8x
Equity Fund IX	2006	\$2,750 million	\$75 million	-10%	0.9x
Mezzanine fund	1999	\$450 million	\$80 million	11%	1.5x

* Previous Fund investments may be relatively immature and, therefore, returns may not be indicative of future results. Net IRR and Multiple of Invested Capital (MOIC) were provided by GTCR.

V. General Partner's Investment

The General Partner, together with its partners and affiliates, in aggregate will commit to the Partnership an amount equal to at least 2% of the aggregate unaffiliated limited partner Commitments.

VI. Takedown Schedule

Commitments are expected to be drawn as needed, with not less than 10 days' prior written notice.

VII. Management Fee

The Partnership will, commencing on the Effective Date, pay the Management Company (or if it so designates, the General Partner) an annual management fee (the "Management Fee"), payable quarterly in advance, equal to 1.5% of aggregate Commitments during the first through the sixth years after the Effective Date; during the seventh year after the Effective Date, decreasing to 90% of the amount in effect during the sixth year after the Effective Date; during the eighth year after the Effective Date, decreasing to 85% of the amount in effect during the seventh year after the Effective Date; during the ninth year after the Effective Date, decreasing to 80% of the

amount in effect during the eighth year after the Effective Date; and during the tenth year after the Effective Date, decreasing to 75% of the amount in effect during the ninth year after the Effective Date. During the eleventh year after the Effective Date (if any) and each succeeding year thereafter until the Partnership is terminated, the Management Fee will equal an amount based on 0.75% of the aggregate amount of the Partnership's capital invested in portfolio companies, but not to exceed the amount payable in the tenth year.

The Management Fee will be reduced by 100% of any (i) director's fees, financial consulting fees or advisory fees received by the General Partner from portfolio companies and (ii) transaction fees and break-up fees from transactions not completed which are paid to the General Partner.

VIII. Distributions

Net proceeds attributable to the disposition of investments in portfolio companies, as well as distributions of securities in kind, together with any dividends or interest income received with respect to investments in portfolio companies that are not re-invested in portfolio companies, will be distributed in the following order of priority:

(a) first, 100% to all Partners in proportion to Commitments until the cumulative amount distributed in respect of investments then and previously disposed of equals the aggregate of the funded Commitments attributable to all realized investments plus the amount of permanent write-down, if any, with respect to each unrealized investment permanently written down as of that time; and the funded Commitments attributable to all organizational expenses, Management Fees and other expenses paid to date and allocated to realized investments and unrealized investments permanently written down as of that time; and

(b) thereafter, 80% to all Partners in proportion to Commitments and 20% to the General Partner.

IX. Investment Period and Term

Generally, the investment period will be six years.

Unless dissolved earlier pursuant to the terms of the Partnership Agreements, the Partnership will be dissolved on the tenth anniversary of the Effective Date, but may be extended for up to a maximum of three consecutive one-year periods at the discretion of the General Partner if the Partnership holds non-marketable securities, so long as Limited Partners holding a majority of the Limited Partner interests do not oppose any such extension.

ATTACHMENT D

PRIVATE EQUITY MANAGER SUMMARY PROFILE

I. Background Data

Name of Fund:	CS Strategic Partners V (SP V or “The Fund”)
Type of Fund:	Private Equity Limited Partnership
Total Fund Size:	\$2.5 billion
Fund Manager:	CS Strategic Partners V
Manager Contact:	Stephen H. Can Eleven Madison Ave. New York, NY 10010 212-538-7680

II. Organization and Staff

SP V will be managed by the dedicated team of 24 investment professionals which comprises Strategic Partners. Strategic Partners is led by Stephen H. Can, who has significant expertise in secondary investing. As Head of Strategic Partners, Mr. Can has been responsible for establishing four other secondary private equity funds.

From its inception in 2000 through June 30, 2010, Strategic Partners has executed 543 transactions aggregating over \$6.7 billion in secondary interests, having analyzed 2,400 transactions involving over \$70 billion in secondary interests. Strategic Partners has called down \$5.8 billion to fund its acquisitions and has returned \$4.0 billion, which represents 69% of capital called, and holds interests in 1,100 underlying funds.

SP V will capitalize on the unique, global resources of Credit Suisse (“CS”), a leading global financial services company with a public market capitalization of \$44 billion and total assets of \$1.2 trillion as of June 30, 2010. CS, which operates through three divisions: Investment Banking, Private Banking and Asset Management, has a worldwide network of offices in 50 countries and employs approximately 48,000 people. CS has strong relationships with companies and private equity managers, with 2,500 investment bankers covering 30 industries and most top financial sponsors. Consequently, in assessing potential transactions, Strategic Partners has access to a deep global base of investment bankers and research analysts. In addition, Strategic Partners expects to benefit from the investment experience and industry insights of CS’s private equity franchise, which has more than \$36 billion of assets under management.

III. Investment Strategy

Similar to predecessor funds, SP V will primarily pursue secondary opportunities to acquire leveraged buyout funds, with mezzanine, real estate, venture capital, distressed securities and fund of funds also considered. The Fund may also, to a lesser extent, make primary investments in underlying funds and direct equity, equity-like and debt investments.

The Strategic Partners team's vast experience and private equity market knowledge will facilitate SP V's opportunistic focus on a wide range of transactions. Specifically, Strategic Partners will invest (and has historically invested) in cases where a prospective seller's original commitment ranges in size from \$100,000 for a single fund holding to \$100 million or more for a portfolio of funds. Moreover, while SP V has a global investment mandate, it is anticipated that its portfolio will mainly be comprised of funds managed by U.S. and Western European sponsors.

Strategic Partners believes that the secondary private equity market will continue to grow, providing experienced, top-performing secondary managers, such as Strategic Partners, with a compelling opportunity to generate attractive risk adjusted rates of return for investors. As highlighted in the exhibits below, primary private equity commitments have grown dramatically over the past twenty years, driving secondary market transactions to record volumes, particularly in times of economic turmoil and market distress. The secondary market remains extremely small, however, when compared to the aggregate size of the primary market. From 1999 through 2009, commitments to private equity funds steadily increased, with nearly \$3 trillion of new capital committed to private equity funds globally, with only 2.6% of this amount raised for secondary private equity funds.

Strategic Partners is a dollar cost average investor and does not time the top or bottom of the investment cycle. Overall, the last few years have seen the public markets through an extremely turbulent period, and investments made from distressed sellers were at unprecedented pricing levels through the beginning of 2009. Although the number of highly distressed sellers in the market has decreased significantly, today's market is largely driven by portfolio management, liquidity and allocation issues. Given lower pricing in the market and higher expected returns by purchasers, many sellers are either capital constrained, having overcommitted to funds with the expectation that the commitments would be funded from distributions, or hindered by the "denominator effect," whereby declines in the public stock market have left limited partners over-allocated to private equity and needing to rebalance their portfolios. Strategic Partners continues to see significant opportunity for secondary investors in the future, as turnover resulting from active portfolio management and portfolio volatility, in addition to anticipated increases in primary fund drawdowns, positions SP as a buyer of attractive, high quality assets.

IV. Investment Performance

The historical investment performance of each of the SP Funds through June 30, 2010 is presented below:

Fund	Inception Date	Total Commitments	SBI Investment	Net IRR from Inception*	Net MOIC from Inception *
SP Fund I	2001	\$832 million	\$100 million	18.4%	1.64x
SP Fund II	2003	\$1,625 million	\$100 million	32.9%	1.69x
SP Fund III	2005	\$1,900 million	\$100 million	3.3%	1.07x
SP Fund IV	2008	\$2,073 million	\$100 million	17.0%	1.21x

* Previous Fund investments may be relatively immature and, therefore, returns may not be indicative of future results. Net IRR and Multiple of Invested Capital (MOIC) were provided by SP.

V. General Partner's Investment

The General Partner, together with its partners and affiliates, in aggregate will commit to the Partnership an amount equal to at least 3% of the Fund's total capital commitments.

VI. Takedown Schedule

Commitments are expected to be drawn as needed, with not less than 10 days' prior written notice.

VII. Management Fee

Each Limited Partner will be charged an annual management fee, payable semi-annually to the Investment Manager during the term of the Fund and shall be calculated as follows:

- During the Investment Period, the management fee will be equal to 1.0% per annum of such Limited Partner's Commitment, effective upon the Initial Closing. After the Investment Period, the management fee will be equal to 1.0% per annum of the reported value of the Fund's investments.
- Any Limited Partner committing at least \$75 million will have its management fee reduced to 0.875% per annum, with the base upon which such fee is charged remaining unchanged.
- Any Limited Partner committing at least \$150 million will have its management fee reduced to 0.75% per annum, with the base upon which such fee is charged remaining unchanged. To the extent that the Investment Manager or General Partner delegates

certain responsibilities to their affiliates, a portion of the management fee may be payable to such affiliates.

Any transaction fees, break-up fees, advisory fees, directors' fees, monitoring fees or other similar fees received by the General Partner, the Investment Manager or their respective employees attributable to investments of the Fund will first be applied to offset any unreimbursed broken deal expenses and the remainder will reduce subsequent management fees.

VIII. Distributions

All Partnership distributions will initially be apportioned between the General Partner and the Limited Partners pro rata to capital contributed. The amount so apportioned to each Limited Partner will be distributed as follows:

- Return of All Capital Contributions. First, to the Limited Partner, until the cumulative amount distributed to the Limited Partner is equal to the Limited Partner's total capital contributions (whether applied to investments, management fees or expenses);
- 8% Preferred Return on Invested Capital. Second, to the Limited Partner, to provide an 8% simple, annual return on the unreturned capital contributions of the Limited Partner applied to investments;
- Catch-up to General Partner. Third, to the General Partner until the General Partner has received 12.5% of the total amount distributed to the Limited Partner pursuant to clause (ii) and to the General Partner pursuant to this clause (iii); and
- 87.5% / 12.5% Split. Thereafter, 87.5% to the Limited Partner and 12.5% to the General Partner (the amounts distributed to the General Partner pursuant to clause (iii) and this clause (iv), the "Carried Interest").

IX. Investment Period and Term

Generally, the Fund will have an investment period of four years from the date of the final closing of the Fund (the "Investment Period").

The Fund will terminate ten years from the final closing, but may be extended (i) for up to two successive one-year periods at the discretion of the General Partner and (ii) for up to two additional one-year periods at the discretion of the General Partner with the consent of the Advisory Committee or Limited Partners representing at least a majority of aggregate Capital Commitments.

PRIVATE EQUITY MANAGER SUMMARY PROFILE

I. Background Data

Name of Fund:	Summit Partners Growth Equity Fund VIII
Type of Fund:	Private Equity Limited Partnership
Total Fund Size:	\$3 billion
Fund Manager:	Summit Partners
Manager Contact:	Joe Trustey Summit Partner 222 Berkeley St. Boston MA 02116 P: 617-824-1000

II. Organization and Staff

Founded in 1984, Summit Partners (“Summit” or the “Firm”) is a global investment firm that invests principally in growth equity, venture capital, subordinated debt and credit opportunities. Summit has managed or is managing 11 growth equity and venture capital funds with combined committed capital of approximately \$9.3 billion and four subordinated debt funds with combined committed capital of approximately \$1.8 billion. Summit’s offices in Boston, Massachusetts, Palo Alto, California and London, England, provide broad international coverage.

With more than 200 collective years of experience investing in growth equity, venture capital and debt instruments, Summit’s managing directors are among the most seasoned in the growth equity and venture capital industry. The managing directors have been with Summit for an average of 15 years. Additionally, Summit successfully completed a succession plan in 2001 to provide for continuity of management and continued growth of the Firm. Summit currently has a staff of approximately 90 investment professionals and 70 support professionals.

III. Investment Strategy

Since the Firm’s inception, Summit’s overall strategy has been to invest principally in privately-held companies with a proven business model, a record of revenue and earnings growth, and the leadership capable of sustaining that growth. Summit uses proactive investment origination techniques to find and create investment opportunities, principally in profitable growth companies, often before the companies seek capital. Summit attempts to maximize investment returns by frequently pursuing companies with no previous professional investors, thereby reducing valuations. This strategy has allowed the Summit funds to achieve attractive financial returns while seeking to minimize risk to investors. Summit will seek to apply this same approach with the Partnership.

To generate these returns and to minimize risk, Summit's principal strategy is to invest primarily in private companies that are profitable at the time of investment; to invest in senior or preferred equity and equity-related securities and debt; to be the first professional investor; to be the lead or co-lead investor; and to obtain board seats or board attendance rights.

Approximately 92% of the companies in Summit's portfolio were profitable at the time of investment. Summit believes that disciplined entrepreneurs who have achieved and maintained profitability have demonstrated an ability to manage growth under the constraint of limited resources and to recognize and respond to the external forces that influence a company's success. However, Summit will invest in unprofitable companies from time to time so long as Summit believes that they are experiencing a substantial rate of growth, they have a clear path to profitability in the 12 to 18 months following the investment, there is a potential near-term path to liquidity or future funding, and/or the entrepreneur is well known to Summit.

Additionally, Summit has an industry-wide reputation as a lead or co-lead investor and has acted in that capacity with approximately 94% of its portfolio companies. Summit believes that by leading investments, it can negotiate valuations, terms and deal structures that will minimize risk exposure and maximize returns. As a lead investor, Summit is represented on the boards of directors of approximately 97% of its companies and has significant management influence over its portfolio companies.

Summit believes the success it has experienced in implementing its investment strategy is principally due to the following factors.

Experienced Management: With more than 200 collective years of experience investing in growth equity, venture capital and debt instruments, Summit's managing directors are among the most seasoned in the growth equity and venture capital industry. The managing directors have been with Summit for an average of 15 years. Additionally, Summit successfully completed a succession plan in 2001 to provide for continuity of management and continued growth of the Firm. Summit currently has a staff of approximately 90 investment professionals and 70 support professionals.

Investment Origination: Summit generates investment opportunities internally by researching industries, attending industry trade shows, and cold-calling the chief executives of the leading companies in these industries. This disciplined fundamental research process has become the primary source of deals and has been instrumental in generating a proprietary database of more than 194,000 companies worldwide. This database has grown by approximately 18,000 companies worldwide per year. Summit expects this database to be the source of a substantial number of investments for the Partnership. In addition, Summit has developed relationships with several thousand industry contacts who provide many other investment opportunities.

Diversification and Early Liquidity: Summit believes that it can minimize risk by diversifying the Partnership's portfolio of investments. By investing primarily in later-stage growth companies, Summit believes liquidity can be achieved much earlier than in more traditional early-stage venture capital investments.

IV. Investment Performance

The historical investment performance of Summit Equity Funds as of June 30, 2010 is presented below:

Fund	Inception Date	Total Commitments	SBI Investment	Net IRR from Inception*	Net MOIC from Inception *
Summit Ventures Fund I	1984	\$96 million	\$10 million	13%	2.0x
Summit Ventures Fund II	1988	\$231 million	\$30 million	30%	2.6x
Summit Ventures Fund III	1992	\$279 million	0	63%	3.6x
Summit Ventures Fund IV	1995	\$610 million	0	101%	7.5x
Summit Ventures Fund V	1998	\$1.1 billion	\$25 million	8%	1.4x
Summit Ventures Fund VI	2001	\$2.1 billion	0	13%	1.6x
Summit Ventures Fund VII	2006	\$3.1 billion	0	-1%	1.0x

* Previous Fund investments may be relatively immature and, therefore, returns may not be indicative of future results. Net IRR and Multiple of Invested Capital (MOIC) were provided by Summit.

V. General Partner's Investment

The General Partner, together with its partners and affiliates, in aggregate will commit to the Partnership the lesser amount of \$100 million or 4% of the aggregate unaffiliated limited partner Commitments.

VI. Takedown Schedule

Commitments are expected to be drawn as needed, with not less than 10 days' prior written notice.

VII. Management Fee

The Partnership will pay the General Partner an annual management fee equal to 1.125% of committed capital ("Commitments") to the Partnership in year one, 2% of the Commitments in year two and 2.25% of the Commitments in years three through six, declining 10% in each year after year six. These fees will be reduced by 100% of directors' fees, consulting fees or any transaction fees paid by Partnership portfolio companies to the General Partner and attributable to the Partnership. The General Partner reserves the right to waive all or a portion of any

installment of the management fee. Any waived portion of a management fee installment may be treated as a deemed capital contribution by the General Partner in respect of the General Partner's Commitment.

VIII. Distributions

Distributions of cash or liquid securities will be made at the discretion of the General Partner. It is anticipated, however, that short-term investment income, dividends and interest income from portfolio companies will be distributed at least annually; net investment gains realized in cash will be distributed regularly; and appreciated liquid securities will be distributed at the discretion of the General Partner. Distributions to cover tax liabilities of the Partners may be made annually if all other distributions in such year are not sufficient to cover such liability. In general, before Payout (the time that the Limited Partners have received distributions equal to their capital contributions), securities and net proceeds realized on the sale of securities will be distributed 20% to the General Partner as carried interest and 80% to the Partners in proportion to capital contributions. However, no such 20% carried interest distributions (except to pay anticipated tax liabilities) will be made to the General Partner if the fair value capital accounts (capital accounts adjusted to reflect unrealized gains and losses) of the Limited Partners plus amounts previously distributed to the Limited Partners do not equal at least 115% of the Limited Partners' aggregate capital contributions. If the fair value test is satisfied at such time, distributions will be made first to the General Partner until the General Partner receives, in respect of its carried interest, 20% of all distributions made to the Partners as of such time. After Payout, all such distributions will be made to the Partners in proportion to their capital accounts. All distributions of short-term investment income and dividends and interest income from portfolio companies will be made in the same proportion as such income was credited to the Partners' capital accounts.

IX. Investment Period and Term

Generally, the investment period will be seven years.

The term of the Partnership is ten years commencing with the First Draw-Down Date, with options to extend for two additional periods each consisting of two years, each with the consent of the General Partner and two-thirds in interest of the Limited Partners. The Partnership's term is subject to early termination upon certain circumstances as set forth in the Partnership Agreements, including for any reason upon the approval of the General Partner together with the required vote of the Limited Partners.

** This document is a summary of more detailed information provided in the Confidential Private Placement Memorandum (the "PPM"). It is qualified in its entirety by the more detailed information provided in the PPM.*

ATTACHMENT F

PRIVATE EQUITY MANAGER SUMMARY PROFILE

I. Background Data

Name of Fund:	Vestar Capital Partners VI, LP
Type of Fund:	Private Equity Limited Partnership
Total Fund Size:	\$3.5 billion
Fund Manager:	Vestar Capital Partners
Manager Contact:	Dan O'Connell Vestar 345 Park Ave. New York, NY 10167 P: 212-351-1601

II. Organization and Staff

Vestar Capital Partners was formed in April 1988 by former principals of First Boston's Management Buyout Group, including the Group's co-heads and founders. These principals have worked together for over 25 years and, together with the other members of the Vestar team, have built Vestar into a leading international middle-market private equity investment firm with 49 professionals (including 25 Managing Directors) and offices (including those of advisory affiliates) in New York (1988), Denver (1990), Paris (2001), Milan (2001), Boston (2004) and Munich (2007).

Vestar received its initial funding from partners of the former Wesray Capital Corporation ("Wesray") who, together with the Vestar principals, provided the capital for the firm's first 11 transactions ("Vestar I"), which were completed between 1988 and 1993. Vestar subsequently raised a \$260 million fund ("Vestar II") in 1993, an \$803 million fund ("Vestar III") in 1996, a \$2.5 billion fund ("Vestar IV") in 1999 and a \$3.7 billion fund ("Vestar V") in 2005. Beginning with Vestar II and continuing through Vestar V, Vestar has invested capital on behalf of a diversified group of international institutional investors, including endowments, foundations, pension funds, financial institutions and funds of funds. Since forming Vestar over 22 years ago, the firm's principals have organized 66 investments in the U.S. and Europe with an aggregate transaction value of over \$30 billion.

III. Investment Strategy

The objective of the Partnership is to provide investors with superior, risk-adjusted, long-term capital appreciation by investing in a diversified portfolio of equity and equity-related securities in control private equity investments in partnership with management. The Partnership intends to

make these investments over a five- to six-year period, with a typical investment (including follow-on investments) in the range of \$50 million to \$500 million. The investment approach that Vestar will bring to the Partnership is consistent with that used in prior funds and the Partnership will be invested using the same investment strategy successfully employed by the Vestar principals in the past. The Vestar principals target middle-market companies in the \$250 million to \$3 billion valuation range, primarily focusing on corporate divisions or subsidiaries and public or privately-held companies being sold or recapitalized. Vestar pursues transactions in which it believes it has developed or can develop a meaningful competitive edge, such as by working exclusively with the company's management or the controlling stockholder, and in which it can add value through its domain knowledge, past investment experience and broad network of industry experts. Unless it believes it has a distinct edge in the process, Vestar seeks to avoid participating as a buyer in the auction markets for corporate or sponsor-to-sponsor sales, focusing instead on privately-negotiated transactions sourced through its broad and long-established network of business relationships.

Vestar Capital Partners is a leading private equity firm well positioned to succeed in today's highly competitive private equity middle market. Vestar believes that few firms have a more cohesive and experienced team of investment and operating professionals in the U.S. and Europe who have invested through multiple economic and capital market cycles and have maintained a consistency of both strategy and approach. Since its founding in 1988, the Firm has invested \$5.6 billion of private equity capital across 66 investments, 50 of which are realized or publicly traded and have generated an investment multiple of 2.4x and a gross IRR of 25%. Vestar's principals are investment-focused rather than transaction-driven, pursuing investments where they can identify potential value levers through the application of the firm's industry expertise, operating and strategic capabilities, and international reach. In the current market environment, Vestar believes there are attractive investment opportunities available for private equity firms with a focus on long-term value creation and a trusted reputation for partnering with proven management teams. Having built a reputation for integrity and superior investment performance, the Vestar principals are well positioned to experience a continuous flow of investment opportunities through their broad network of contacts and relationships in the business and financial communities

IV. Investment Performance

The historical investment performance of Vestar as of March 31, 2010 is presented below:

Fund	Inception Date	Total Commitments	SBI Investment	Net IRR from Inception*	Net MOIC from Inception *
Vestar Fund I	1988	\$35 million	0	54%	8.3x
Vestar Fund II	1993	\$260 million	0	58%	3.5x
Vestar Fund III	1997	\$803 million	0	5%	1.3x
Vestar Fund IV	1999	\$2,480 million	\$55 million	17%	1.8x
Vestar Fund V	2005	\$3,700 million	\$75 million	9%	1.2x

* Previous Fund investments may be relatively immature and, therefore, returns may not be indicative of future results. Net IRR and Multiple of Invested Capital (MOIC) were provided by Vestar.

V. General Partner's Investment

The Principals will commit through the General Partner and other entities to invest in the Partnership and alongside the Partnership a minimum amount equal to 5% of Limited Partner commitments (e.g., \$175 million at the target fund size)..

VI. Takedown Schedule

Commitments are expected to be drawn as needed, with not less than 10 days' prior written notice.

VII. Management Fee

The Partnership will pay the General Partner an annual management fee (the "Management Fee"), payable semi-annually in advance, equal to 1.5% of aggregate Commitments. After the expiration of the Commitment Period or earlier upon the occurrence of certain other events as set forth in the Partnership Agreement, the Management Fee will equal 1.25% of (i) the aggregate amount of capital contributions to the Partnership and waived Management Fees, less (ii) the aggregate amount of distributions to Partners pursuant to clauses (a)(i) and (a)(ii) of "Distributions" above.

Management Fees also will be reduced by: (i) 100% of any break-up fees received by the General Partner and/or the Management Agent and (ii) 100% of any monitoring or transaction fees paid by Partnership portfolio companies to the General Partner and/or the Management Agent.

VIII. Distributions

Generally, distributions will be distributed as follows:

(a) first, 100% to such Limited Partner until the cumulative amount distributed to such Limited Partner in respect of investments then and previously disposed of equals the aggregate of the following:

(i) such Limited Partner's funded Commitment attributable to all realized investments, plus the amount of permanent write-down, if any, with respect to each unrealized investment written down as of that time;

(ii) such Limited Partner's funded Commitment attributable to all organizational expenses, Management Fees (as defined below) and other expenses paid to date, in each case allocated to realized investments and unrealized investments to the extent they are permanently written down as of that time; and

(iii) a preferred return on amounts included in (i) and (ii) above at the rate of 8% per annum (not compounded) from the first day of the calendar month immediately succeeding the month in which such capital contribution was required to be paid to the Partnership (the "Preferred Return");

(b) second, 100% to the General Partner until such time as the General Partner has received, as its carried interest, 20% of the sum of the distributed Preferred Return and distributions made pursuant to this paragraph (b); and

(c) thereafter, 80% to such Limited Partner and 20% to the General Partner as carried interest.

IX. Investment Period and Term

Generally, the investment period will be six years.

The term of the Partnership will terminate on the tenth anniversary of the Effective Date, but may be extended for up to three consecutive one-year periods at the discretion of the General Partner with the consent of the Advisory Board to allow for an orderly dissolution and liquidation of the Partnership's investments.

RESOURCE MANAGER SUMMARY PROFILE

I. Background Data

<i>Name of Fund:</i>	Merit Energy Partners H
<i>Type of Fund:</i>	Resource Limited Partnership
<i>Total Fund Size:</i>	\$750 million
<i>Fund Manager:</i>	Merit Energy Company
<i>Manager Contact:</i>	Bill Gayden Merit Energy 13727 Noel Rd. Dallas Texas, 75240 P: 972-701-8377

II. Organization and Staff

Merit Energy Company was formed in 1989 with a strategy that has been successful for over 20 years: to acquire, operate and develop high quality, mature producing oil and gas properties. Merit has raised over \$4.3 billion in equity commitments throughout 19 fundraisings, encompassing 27 partnerships. That strategy has allowed us to purchase over \$4.7 billion in assets while investing an additional \$2.0 billion in exploitation programs from generated cash flow. Merit has called \$3 billion in capital from its partners, distributed over \$5 billion to its partners, and currently has total assets with a book value of over \$4.4 billion. The partnerships have benefited from diverse portfolios of assets, with operations across North America. The large geographical footprint, along with a reserve mix of 61% oil and natural gas liquids (NGLs) and 39% natural gas, has given Merit valuable experience operating all types of assets in various environments.

Merit has a field staff of over 400 employees located in 14 field offices. In just over 20 years, we have produced 325 million BOE and have a current proved reserve base of 453 million BOE. In 2009, Merit's production averaged 85,443 BOE per day.

III. Investment Strategy

Merit Energy Company's investment strategy has remained consistent throughout its 20 year history. Merit looks to "buy right" by acquiring diverse, high quality, mature producing oil and gas properties, operate those assets efficiently, and develop them appropriately. Merit believes focusing on details is the key to their success, as they search for opportunities to increase production while being a lower cost operator. Merit maintains a low risk approach to capital development, spending approximately \$150 million annually. Drilling for proven reserves, wellbore recompletions, stimulations, and facility upgrades all play an integral part in their

capital programs. Merit focuses on implementing capital projects that are appropriate for the current operating environment and add the most value over the long-term to the portfolio. This focus has allowed Merit to increase the average reserve to production ratio to 14.8 at yearend 2009. Merit strives to become a more efficient operator of the assets it acquires. Thorough evaluation of detailed operating expenses enables them to identify areas of cost reduction. Examination of well history identifies specific projects for improving runtime, resulting in increased production. Field studies generate appropriate development programs to add reserves and further increase production.

Merit employs hedging strategies designed to mitigate some of the natural volatility in commodity prices, as well as to aid in the acquisition of new properties. In addition, Merit may form a Preferred Limited Partner facility to hold and provide leverage to limited partner interests, thereby potentially enhancing returns.

Merit's partnerships are long-term in nature and emphasize preservation of capital. Cash flow generated from the assets is reinvested for additional acquisitions over the course of nine years, minimizing the exposure to commodity price risk at any one point in time. Merit anticipates MEP H will make many acquisitions of net profit interests in both oil and gas assets located in multiple fields and thousands of wellbores. Merit's strategy is designed to provide direct commodity exposure, potential for an inflation hedge investment, and exposure to an experienced and successful management team.

While the current acquisition market is more active today than it has been in the past 18 months, Merit believes that this business is one that is incredibly difficult to time. Merit's strategy is to consistently acquire assets over a long investment horizon in order to diversify its acquisition and disposition activity by time. Merit's history as an all cash buyer and its reputation as a reliable and credible purchaser, has continued to be a competitive advantage in this current market environment.

Today, the energy market continues to see shale operators divesting producing assets to fund their significant unconventional resources plays. With the sheer magnitude of the cost of unconventional plays, these companies will continue to have a need for capital to fund these unconventional developments. This issue is magnified because without continued, significant drilling, many companies will lose their leases in these plays. Merit Energy was the direct beneficiary of these types of activities in the fourth quarter of 2009, with its acquisition from Petrohawk.

As larger companies continue to merge (Exxon/XTO, Conoco/Burlington; Denbury/Encore), Merit has seen and expects to continue to see assets on the market as a result of these transactions. As these companies focus on higher risk/higher reward projects, they continue to divest of their mature assets. In addition, British Petroleum has been actively selling assets to fund their recent liabilities in the Gulf. These divestitures tend to provide meaningful opportunities for operational improvements and significant cost reduction opportunities for Merit.

IV. Investment Performance

The historical investment performance of Merit Energy Funds with SBI participation as of June 30, 2010 is presented below:

Fund	Inception Date	Total Commitments	SBI Investment	Net IRR from Inception*	Net MOIC from Inception*
Merit Fund B	1996	\$130 million	\$24 million	26%	6.7x
Merit Fund C	1998	\$300 million	\$50 million	34%	7.8x
Merit Fund D	2000	\$465 million	\$88 million	30%	3.6x
Merit Fund E	2004	\$825 million	\$100 million	19%	1.9x
Merit Fund F	2005	\$1,300 million	\$100 million	-0.6%	.95x

* Previous Fund investments may be relatively immature and, therefore, returns may not be indicative of future results. Net IRR and Multiple of Invested Capital (MOIC) were provided by Merit.

V. General Partner's Investment

The General Partner will commit 3% of total committed capital in the Partnership.

VI. Takedown Schedule

Commitments are expected to be drawn as needed, with capital call notice of not less than 16 days.

VII. Management Fee

The General Partner will receive an annual management fee of 1.25% on the greater of invested capital or book value up to the committed capital amount, and 1.00% on additional amounts (which may exceed the committed capital amount due to retained earnings).

VIII. Distributions

Cash distributions are made annually for each fiscal year during the investment period. After any distributions to the Preferred Limited Partner, cash will be distributed (i) first, to the capital contributing partners in an amount not less than 6% of the lesser of called non-preferred capital commitments or actual capital account, (ii) second, to the General Partner in an amount equal to the General Partner's carried interest (13% of annual profits), and (iii) third, any cash not held for reinvestment in the discretion of the General Partner will be distributed to the capital contributing partners. After the expiration of the investment period, beginning no later than year ten, 100% of discretionary cash flow will be distributed to the partners quarterly in the priority described above but with no hold back for reinvestment.

Allocations of profit, after allocations to the Preferred Limited Partner equal to its preferred dividend and any other allocations called for by the PLP Interest terms, will be made annually, generally as follows: (i) 100% to the capital contributing partners until they receive a cumulative 8% return (preferred return since inception) (the "8% Return Allocation"), then (ii) 100% to the General Partner as a carried interest until it has received 13% of cumulative profits (after depletion) as a carried interest, then (iii) 87% to the capital contributing partners and 13% to the General Partner as a carried interest. In addition to the 13% carried interest at the Partnership level, and Investment Structure the General Partner (or affiliate) will be allocated a 2% carry at the working interest ownership level, which will bring the total carried interests to 15%.

IX. Investment Period and Term

Generally, capital may be called for approximately six years.

The term of the Partnership is approximately 15 years, with termination of the Partnership on December 31, 2025 (unless terminated early as provided in the Partnership Agreement); provided, however, that the term can be extended for five years upon the approval of the General Partner and a Majority Interest.
