INVESTMENT ADVISORY COUNCIL

MINUTES

May 20, 2009

Minutes
Investment Advisory Council
February 18, 2009

MEMBERS PRESENT: Frank Ahrens; Jeff Bailey; Dave Bergstrom; Laurie Hacking; Heather Johnston; Kathy Kardell (for Tom Hanson); Gary Martin; Malcolm McDonald; Gary Norstrom; and Mary Vanek.

MEMBERS ABSENT: John Bohan; Kerry Brick; Dennis Duerst; Doug Gorence; P. Jay Kiedrowski; Judy Mares; and Daralyn Peifer.

SBI STAFF: Howard Bicker; Teri Richardson; Jim Heidelberg; Tammy Brusehaver-Derby; Patricia Ammann; Stephanie Gleeson; John Griebenow; Michael McGirr; Mike Menssen; J.J. Kirby; Steve Schugel; Debbie Griebenow; Carol Nelson; and Charlene Olson.

OTHERS ATTENDING: Ann Posey, Richards & Tierney; Celeste Grant; Christie Eller; Carol Nieters, SEIU Local 284; David Smith, University of St. Thomas; Chuck Hellie and John Fisher, REAM

Mr. Bicker noted that the fixed income manager presentations by Goldman Sachs and Western Asset Management would take place first instead of last on the agenda for the meeting. He also introduced Teri Richardson as the new Assistant Executive Director and Gary Martin as a new Investment Advisory Council member.

A presentation by Bryan Tavares and Chris Sullivan from Goldman Sachs and Donald Plotsky and Joseph Carieri of Western Asset Management, two fixed income managers for the SBI, followed. They discussed the impact of the current economic environment on the fixed income market.

Mr. McDonald made a motion to nominate Jeff Bailey to be the new IAC Chair. Ms. Kardell seconded the motion and the motion passed. The minutes of the November 21, 2008 meeting were approved.

Executive Director's Report

Mr. Bicker, Executive Director, referred members to Tab A of the meeting materials and he reported that the Combined Funds had slightly trailed the Composite Index over the ten year period ending December 31, 2008 (Combined Funds 2.9% vs. Composite 3.0%), and had provided a real rate of return over the latest 20 year period (Combined Funds 8.3% vs. CPI 2.8%). He stated that the Basic Funds had slightly underperformed its

Composite Index (Basic Funds 3.0% vs. Composite 3.1%) over the last ten years and reported that the Post Fund had also slightly underperformed its composite index over the last ten-year period (Post Fund 2.7% vs. Composite 2.9%).

Mr. Bicker reported that the Basic Funds' assets decreased 14% for the quarter ending December 31, 2008 due to negative investment returns. He reported that the Basic Funds underperformed its Composite Index for the quarter (Basic Funds -14.5% vs. Composite -14.3%) and for the year (Basic Funds -26.1% vs. Composite -25.0%).

Mr. Bicker reported that the market value of the Post Fund's assets decreased 16% for the quarter ending December 31, 2008, due mostly to negative investment returns. He stated that the Post Fund underperformed its Composite Index for the quarter (Post Fund -14.1% vs. Composite -13.2%) and for the year (Post Fund -26.2% vs. Composite -24.1%).

Mr. Bicker reported that the domestic stock manager group underperformed its target for the quarter (Domestic Stock -23.2% vs. Domestic Equity Asset Class Target -22.8%) and for the year (Domestic Stocks -38.1% vs. Domestic Equity Asset Class Target -37.3%). He said the International Stock manager group outperformed its Composite Index for the quarter (International Stocks -21.9% vs. International Equity Asset Class Target -22.3%) and for the year (International Stocks -45.3% vs. International Equity Asset Class Target -45.5%). Mr. Bicker stated that the bond segment underperformed its target for the quarter (Bonds -0.7% vs. Fixed Income Asset Class Target 4.6%) and for the year (Bonds -4.2% vs. Fixed Income Asset Class Target 5.2%). He noted that bond performance suffered due to the managers' underweighting in government securities. He noted that the alternative investments had performed positively for the year (Alternatives 1.4%). He concluded his report with the comment that as of December 31, 2008, the SBI was responsible for over \$47 billion in assets.

Mr. Bicker referred members to Tab B of the meeting materials for an update on the budget and travel for the quarter. He stated that the SBI's financial audit had been completed and that members would each receive a copy of the audit opinion.

Legislative Update

Mr. Bicker updated members on legislative items of interest to the SBI. He reported that budget hearings are taking place and that the SBI had its hearing in the Senate and will have one in the House soon. He stated that legislation has been introduced related to Iran divestment. He noted that it affects about two-thirds of the SBI's international oil holdings. He said that the bill has passed out of committee in both the House and Senate and will be heard by the Pension Commission. He reported that staff is working on a potential amendment to the bill that would give the Board the ability to pursue shareholder resolutions as an alternative to divestment.

Mr. Bicker stated that legislation is expected relating to the establishment of a statewide fire relief association plan. He said that the Plan would be administered by the Public Employees Retirement Association (PERA) and that it would require a new investment option in the Supplemental Investment Fund.

Mr. Bicker reported that legislation is expected regarding the consolidation of the Minneapolis Employees Retirement Fund (MERF) with PERA. He also noted that the Department of Transportation (MnDOT) has legislation to establish an endowment fund for the Stillwater Lift Bridge. He said that staff is working with MnDOT regarding necessary wording changes.

Mr. Bicker also noted that staff is monitoring some federal legislation regarding the establishment of a fund of up to \$50 billion to invest in preferred stock of banks where public funds would get an 8.5% guaranteed rate of return and a guarantee of principal.

In response to a question from Ms. Vanek, Mr. Norstrom made a motion to endorse proposing an amendment to the Iran legislation that would allow the initiation of shareholder resolutions as an alternative to divestment. Ms. Vanek seconded the motion. The motion passed.

Mr. Bicker stated that staff had completed the quarterly update on SBI actions concerning companies with operations in Sudan.

Litigation Update

Ms. Eller reported that the State has filed a claim in the Lehman bankruptcy proceedings. She noted that the State has a \$56 million claim, which is significantly less than many other comparably sized pension plans. She said that the case is proceeding slowly.

State College Savings Plan

Mr. Bicker reported that the contract for the state's 529 Plan needs to be renewed. He said the Office of Higher Education (OHE) had sent out an RFP and received three responses. He stated that one respondent had expressed some concerns about the legal requirements in the RFP and that OHE has been very satisfied with the current vendor. Ms. Johnson moved approval of staff's recommendation to retain TFI, Inc. as stated in Tab B of the meeting materials. Mr. McDonald seconded the motion. The motion passed.

IAC Membership Review Committee Report

Ms. Kardell referred members to Tab C of the meeting materials and stated that the Committee is recommending the appointment of Dennis Duerst and Gary Martin to the IAC. Mr. Bergstrom moved approval of the Committee's recommendation, as stated in the Committee Report. Mr. McDonald seconded the motion. The motion passed.

Proxy Voting Committee Report

Ms. Kardell referred members to Tab D of the meeting materials and stated that staff is requesting the re-authorization of the Proxy Voting Committee. She noted that state statutes require this re-authorization every two years. Mr. McDonald moved approval of staff's recommendation, as stated in the Committee Report. Mr. Bergstrom seconded the motion. The motion passed.

Ms. Kardell reported that the Proxy Committee is recommending approval of the Proxy Voting Guidelines. Ms. Hacking moved approval of the Committee's recommendation, as stated in the Committee Report. Mr. Norstrom seconded the motion. The motion passed.

Review of Manager Performance

Mr. Bicker referred members to Tab E of the meeting materials. In response to a question from Ms. Hacking, Mr. Bicker stated that staff is monitoring three managers closely.

Alternative Investment Report

Mr. Bicker referred members to Tab F of the meeting materials and stated that staff is recommending two new investments with an existing yield-oriented manager, Prudential and an existing private equity manager, Hellman & Friedman. He said that each recommendation is for up to \$50 million and noted that staff has reduced the amount of both investments in order to avoid becoming overcommitted during these volatile market conditions. He noted that Ms. Mares, who could not be present at the meeting, had voiced concern to staff about investing in private equity at this time. A brief discussion followed. Mr. McDonald moved approval of staff's recommendation regarding the investment with Hellman & Friedman, as stated in the Alternative Investment Report. Mr. Bergstrom seconded the motion. In response to questions from Mr. Martin, Mr. Bicker clarified that there had not been any money committed to this fund yet. In response to a question from Mr. McDonald, Mr. Griebenow briefly reviewed the performance of earlier Hellman & Friedman funds in which the SBI has invested. The motion made earlier passed. Mr. McDonald moved approval of the staff recommendation regarding the investment with Prudential, as stated in the Alternative Investment Report. Ms. Vanek seconded the motion. The motion passed.

A general discussion followed on the current economic environment, and Mr. Bailey asked members to identify any specific areas they felt that staff should be reviewing. Several members shared their experiences regarding asset allocation, rebalancing, and alternative investment policies that they are currently reviewing at their own firms as a result of current market conditions.

The meeting adjourned at 2:55 P.M.

Respectfully submitted,

Howard Bicker
Executive Director

Tab A

LONG TERM OBJECTIVES
Period Ending 3/31/2009

COMBINED FUNDS: \$32.8 Billion	Result	Compared to Objective
<p>Match or Exceed Composite Index (10 Yr.)</p> <p>Outperform a composite market index weighted in a manner that reflects the long-term asset allocation of the Combined Funds over the latest 10 year period.</p>	1.8% (1)	0.1 percentage point below target
<p>Provide Real Return (20 yr.)</p> <p>Provide returns that are 3-5 percentage points greater than inflation over the latest 20 year period.</p>	7.6%	4.8 percentage points above CPI

BASIC RETIREMENT FUNDS: \$17.2 Billion	Result	Compared to Objective
<p>Match or Exceed Composite Index (10 Yr.)</p> <p>Outperform a composite market index weighted in a manner that reflects the long-term asset allocation of the Basic Funds over the latest 10 year period.</p>	1.9%	matched the target

POST RETIREMENT FUND: \$15.6 Billion	Result	Compared to Objective
<p>Match or Exceed Composite Index (10 Yr.)</p> <p>Outperform a composite market index weighted in a manner that reflects the long-term asset allocation of the Post Fund over the latest 10 year period.</p>	1.8%	matched the target

(1) Performance is calculated net of fees.

SUMMARY OF ACTUARIAL VALUATIONS

All Eight Plans of MSRS, PERA and TRA Including Post Fund July 1, 2008

	Active (Basics)	Retired (Post)	Total (Combined)
Liabilities			
Actuarially Accrued Liabilities	\$28.92 billion	\$28.89 billion	\$57.81 billion
Assets			
Current Actuarial Value	\$24.11 billion	\$22.96 billion	\$47.07 billion
Funding Ratio			
Current Actuarial Value divided by Accrued Liabilities	83.4%	79.5%	81.4%

Notes:

1. Liabilities calculated using entry age normal cost method.
2. Difference between actual returns and actuarially expected returns spread over five years for Basics.

Actuarial Assumptions:

Interest/Discount Rate:

8.5% Basics, 8.5% Post (6% on required reserves, 2.5% on inflation)

Full Funding Target Date:

2020 – MSRS General

2031 – PERA General

2037 – TRA

EXECUTIVE SUMMARY
Basic Retirement Funds (Net of Fees)

Asset Growth

The market value of the Basic Funds decreased 5.8% during the first quarter of 2009. Negative investment returns accounted for the decrease.

Asset Growth
During First Quarter 2009
(Millions)

Beginning Value	\$ 18,245
Net Contributions	371
Investment Return	-1,435
Ending Value	\$ 17,181

Asset Mix

The allocation to domestic stocks decreased due to a declining equity market. Bond allocation increased due to positive investment returns. The international equity allocation decreased slightly due to a declining market. Cash increased due the sale of bonds to raise cash during the quarter. Alternatives were mostly unchanged.

	Policy Targets	Actual Mix 3/31/2009	Actual Market Value (Millions)
Domestic Stocks	45.0%	41.7%	\$7,162
Int'l. Stocks	15.0	14.1	2,415
Bonds	19.0	20.5	3,531
Alternative Assets*	20.0	21.4	3,683
Unallocated Cash	1.0	2.3	389
	100.0%	100.0%	\$17,180

* Any uninvested allocation is held in domestic bonds.

Fund Performance (Net of Fees)

The Basic Funds outperformed its target for the quarter and was even for the year.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Basics	-7.9%	-27.7%	-6.5%	0.6%	1.9%
Composite	-8.4	-27.7	-6.1	0.8	1.9

EXECUTIVE SUMMARY
Post Retirement Fund (Net of Fees)

Asset Growth

The market value of the Post Fund decreased 11.3% during the first quarter of 2009. Negative investment returns were the main driver behind the decrease.

Asset Growth
During First Quarter 2009
(Millions)

Beginning Value	\$17,612
Net Contributions	-759
Investment Return	-1,234
Ending Value	\$15,619

Asset Mix

The asset allocation to domestic and foreign equities decreased due to declining equity markets in the first quarter. The bond allocation decreased slightly due to contradicting cash-raising and positive investment return factors.

	Policy Targets	Actual Mix 3/31/2009	Actual Market Value (Millions)
Domestic Stocks	45.0%	41.9%	\$6,546
Int'l. Stocks	15.0	14.1	2,207
Bonds	25.0	25.9	4,048
Alternative Assets*	12.0	13.0	2,020
Unallocated Cash	3.0	5.1	798
	100.0%	100.0%	\$15,619

* Any uninvested allocation is held in domestic equities.

Fund Performance (Net of Fees)

The Post Fund outperformed its target for the quarter and underperformed for the year.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Post	-7.1%	-27.1%	-6.4%	0.4%	1.8%
Composite	-7.5	-26.1	-5.6	0.8	1.8

EXECUTIVE SUMMARY

Stock and Bond Manager Performance (Net of Fees)

Domestic Stocks

The domestic stock manager group (active, semi-passive and passive combined) outperformed its target for the quarter and underperformed for the year.

Russell 3000: The Russell 3000 measures the performance of the 3,000 largest U.S. companies based on total market capitalization.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Dom. Stocks	-10.5%	-38.3%	-14.1%	-4.9%	-2.8%
Asset Class Target*	-10.8	-38.2	-13.6	-4.6	-2.6

* The Domestic Equity Asset Class Target is the Russell 3000 effective 10/1/03. From 7/1/99 to 9/30/03, it was the Wilshire 5000 Investable Index. From 11/1/93 to 6/30/99, the target was the Wilshire 5000 as reported with no adjustments.

International Stocks

The international stock manager group (active, semi-passive and passive combined) outperformed its target for the quarter and for the year.

MSCI ACWI Free ex U.S. (net): The Morgan Stanley Capital International All Country World Index is a free float-adjusted market capitalization Index that is designed to measure equity market performance in the global developed and emerging markets. There are 45 countries included in this index. It does not include the United States.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Int'l. Stocks	-10.5%	-46.0%	-12.9%	-0.6%	0.8%
Asset Class Target*	-10.7	-46.4	-13.1	-0.6	0.4

* Since 6/1/08 the International Equity Asset Class Target is the Standard MSCI ACWI ex U.S. (net). From 10/1/07 to 5/31/08 the benchmark was the Provisional Standard MSCI ACWI ex U.S. (net). From 10/1/03 to 9/30/07 the target was MSCI ACWI ex U.S. (net). From 1/1/01 to 9/30/03, the target was MSCI EAFE Free (net) + Emerging Markets Free (EMF) (net), and from 7/1/99 to 12/31/00 was MSCI EAFE Free (net) + EMF (gross). From 7/1/99 to 9/30/03, the weight of each index fluctuated with market cap. From 12/31/96 to 6/30/99 the target was fixed at 87% EAFE Free/13% EMF. On 5/1/96 the portfolio transitioned from 100% EAFE Free to the 12/31/96 fixed weights. 100% EAFE Free prior to 5/1/96.

Bonds

The bond manager group (active and semi-passive combined) outperformed its target for the quarter and underperformed for the year.

Barclays Capital Aggregate: The Barclays Capital Aggregate Bond Index reflects the performance of the broad bond market for investment grade (Baa or higher) bonds, U.S. treasury and agency securities, and mortgage obligations with maturities greater than one year.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Bonds	0.9%	-3.4%	2.6%	2.5%	5.0%
Asset Class Target*	0.1	3.1	5.8	4.1	5.7

* The Fixed Income Asset Class Target is the Barclays Capital Aggregate, effective 7/1/1994. Prior to 7/1/1994, the fixed income target was the Salomon BIG.

Alternative Investments

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Alternatives	-9.4%	-11.3%	10.7%	19.3%	14.0%

FINANCIAL MARKETS REVIEW

DOMESTIC STOCKS

The U.S. stock market, as measured by the Russell 3000 index, posted a -10.8% return during the first quarter of 2009 making this the sixth consecutive quarter of negative returns for the Russell 3000. This is the second worst bear market of all time, trailing only 1929-1932. During the quarter equities were battered by worries about the banking sector and a spreading global recession. Within the Russell 3000, Technology was the best performing sector up 3.8% (primarily due to Apple and IBM) and the Financial sector was the worst performing sector with a -24.8% return for the quarter. Growth companies outperformed value across all market capitalizations within the Russell 3000.

Performance of the Russell Style Indices for the quarter is shown below:

Large Growth	Russell 1000 Growth	-4.1%
Large Value	Russell 1000 Value	-16.8%
Small Growth	Russell 2000 Growth	-9.7%
Small Value	Russell 2000 Value	-19.6%

The Russell 3000 index returned -38.2% for the year ending March 31, 2009.

DOMESTIC BONDS

Despite consistently weak economic data, the recovery in non-Treasury fixed income assets that began in December continued in the first quarter, albeit in an uneven fashion. The Barclay's Capital Aggregate Index returned 0.1% in the first quarter, driven primarily by the sell off in Treasuries. Relatively attractive yields and distressed valuations have captured investor attention, as capital has begun to flow into the non-Treasury sectors causing yield spreads to contract and generating positive excess returns. The passage of the Economic Stimulus package in February, along with the Federal Reserve's announcements in March to continue and expand quantitative easing, helped keep yields low during the quarter. The March announcement by the Treasury department to expand the TALF program to legacy assets—as well as the introduction of the PPIP—helped non-Agency MBS and CMBS rally at the end of the quarter. The Treasury curve steepened during the quarter due to the sell-off in the long-end of the curve.

The major sector returns for the Barclays Capital Aggregate for the quarter were:

U.S. Treasury	-1.3%
Agency	-0.1
Corporates	-1.9
Residential Mortgages	2.2
Commercial Mortgages	-1.9
Asset-backed	7.6

PERFORMANCE OF CAPITAL MARKETS
Cumulative returns

FINANCIAL MARKETS REVIEW

INTERNATIONAL STOCKS

In aggregate, developed international stock markets (as measured by the MSCI World ex U.S. index) provided a return of -13.1% for the quarter. The quarterly performance of the six largest stock markets is shown below:

United Kingdom	-10.7%
Japan	-16.6
France	-16.0
Canada	-3.6
Germany	-19.5
Switzerland	-15.4

The World ex U.S. index returned -46.3% during the last year.

The World ex U.S. index is compiled by Morgan Stanley Capital International (MSCI) and is a measure of 22 markets located in Europe, Australasia, Far East, and Canada. The major markets listed above comprise about 75% of the value of the international markets in the index.

EMERGING MARKETS

Emerging markets (as measured by MSCI Emerging Markets Free index) provided a return of 1.0% for the quarter. The quarterly performance of the five largest stock markets in the index is shown below:

Brazil	12.5%
China	1.3
Korea	-0.1
Russia	5.9
Taiwan	8.3
South Africa	-4.0

The Emerging Markets Free index returned -46.9% during the last year.

The Emerging Markets Free (EMF) index is compiled by MSCI and measures performance of 24 stock markets in Latin America, Asia, Africa and Eastern Europe. EMF includes only those securities foreign investors are allowed to hold. The markets listed above comprise about 64% of the value of the international markets in the index.

REAL ESTATE

The real estate investment environment continues to remain extremely challenging. Suffering from the sub-prime crisis of 2007, the real estate market continues to be restrained by a lack of newly available debt liquidity. As markets deleverage and correct, the length and severity of the repricing process will influence the pace and timing of new transactions. Transaction volumes were down and property prices continued to fall in the first quarter of 2009. Patient cash buyers will benefit from a further continuation of distressed sellers selling non-distressed assets.

PRIVATE EQUITY

In the first quarter of 2009, there were very few private equity transactions compared to the booms years of 2005-2007. Capital calls and distributions slowed considerably in the first quarter. Exiting private equity positions has proved difficult due to capital market restrictions and has proved undesirable due to market prices and comparable public company valuations.

RESOURCE FUNDS

During the first quarter of 2009, crude oil averaged \$43 per barrel, down from the average price of \$60 per barrel during the fourth quarter. Oil prices declined due to weak economic conditions.

COMBINED FUNDS

The "Combined Funds" represent the assets of both the Basic and Post Retirement Funds. While the Combined Funds do not exist under statute, the Board finds it instructive to review asset mix and performance of all defined benefit pension assets under its control. This more closely parallels the structure of other public and corporate pension plan assets and therefore allows for more meaningful comparison with other pension fund investors.

The comparison universe used by the SBI is the Trust Universe Comparison Service (TUCS). Only funds with assets over \$1 billion are included in the comparisons shown in this section.

Asset Mix Compared to Other Pension Funds

On March 31, 2009, the actual asset mix of the Combined Funds was:

	\$ Millions	%
Domestic Stocks	\$13,707	41.8%
International Stocks	4,623	14.1
Bonds	7,579	23.1
Alternative Assets	5,703	17.4
Unallocated Cash	1,187	3.6
Total	\$32,799	100.0%

Comparisons of the Combined Funds' asset mix to the median allocation to stocks, bonds and other assets of the public and corporate funds in TUCS over \$1 billion are shown below:

	Dom. Equity	Int'l Equity	Bonds	Alternatives	Cash
Combined Funds	41.8%	14.1%	23.1%	17.4%	3.6%
Median Allocation in TUCS*	33.3	12.6	31.5	12.0**	3.6

* Public and corporate plans over \$1 billion.

** May include assets other than alternatives.

**COMBINED FUNDS
Performance Compared to Other Pension Funds**

While the SBI is concerned with how its returns compare to other pension investors, universe comparisons should be used with great care. There are several reasons why such comparisons will provide an “apples to oranges” look at performance:

- **Differing Allocations.** Asset allocation will have a dominant effect on return. The allocation to stocks among the funds in TUCS typically ranges from 20-90%, a very wide range for meaningful comparison. In addition, it appears that many funds do not include alternative asset holdings in their reports to TUCS. This further distorts comparisons among funds.
- **Differing Goals/Liabilities.** Each pension fund structures its portfolio to meet its own liabilities and risk tolerance. This will result in different choices on asset mix. Since asset mix will largely determine investment results, a universe ranking is not relevant to a discussion of how well a plan sponsor is meeting its long-term liabilities.

With these considerations in mind, the performance of the Combined Funds compared to other public and corporate pension funds in Trust Universe Comparison Service (TUCS) are shown below.

The SBI’s returns are ranked against public and corporate plans with over \$1 billion in assets. All funds in TUCS report their returns gross of fees.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Combined Funds					
Percentile Rank in TUCS*	72nd	61st	56th	44th	71st

* Compared to public and corporate plans greater than \$1 billion, gross of fees.

**COMBINED FUNDS
Performance Compared to Composite Index**

The Combined Funds' performance is evaluated relative to a composite of market indices. The composite is weighted in a manner that reflects the asset allocation of the Combined Funds:

	Market Index	Combined Funds Composite* 1Q09
Domestic Stocks	Russell 3000	44.5%*
Int'l. Stocks	MSCI ACWI Free ex-U.S.	15.0
Bonds	Barclays Capital Aggregate	21.1
Alternative Investments	Alternative Investments	17.4*
Unallocated Cash	3 Month T-Bills	2.0
		100.0%

* Alternative asset and domestic equity weights are reset in the composite at the start of each month to reflect the amount of unfunded commitments in alternative asset classes. The above Combined Funds Composite weighting was as of the beginning of the quarter.

Period Ending 3/31/2009

	Qtr.	1 Yr.	3 Yr.	Annualized 5 Yr.	10 Yr.
Combined Funds**	-7.5%	-27.4%	-6.5%	0.5%	1.8%

BASIC RETIREMENT FUNDS

Investment Objectives

The Basic Retirement Funds are composed of the retirement assets for currently working participants in eight statewide retirement funds. The Funds serve as accumulation pools for the pension contributions of public employees and their employers during the employees' years of active service. Approximately 322,000 public employees participate in the Basic Funds.

Employee and employer contribution rates are specified in state law as a percentage of an employee's salary. The rates are set so that contributions plus expected investment earnings will cover the projected cost of promised pension benefits. In order to meet these

projected pension costs, the Basic Retirement Funds must generate investment returns of at least 8.5% on an annualized basis, over time.

Normally, pension assets will accumulate in the Basic Retirement Funds for thirty to forty years during an employee's years of active service. This provides the Basic Funds with a long investment time horizon and permits the Board to take an aggressive, high expected return investment policy which incorporates a sizeable equity component in order to meet or exceed its actuarial return target.

Asset Growth

The market value of the Basic Funds decreased 5.8% during the first quarter of 2009.

Negative investment returns accounted for the decrease.

BASIC RETIREMENT FUNDS

Asset Mix

The long-term asset allocation of the Basic Funds is based on the superior performance of common stocks over the history of the capital markets. The asset allocation policy is designed to add value to the Basic Funds over their long-term investment time horizon.

Domestic Stocks	45.0%
Int'l. Stocks	15.0
Bonds	19.0
Alternative Assets*	20.0
Unallocated Cash	1.0

* Alternative assets include equity-oriented real estate, venture capital, resource, and yield-oriented funds. Any uninvested allocation is held in bonds as of July 1, 2008.

In October 2003, the Board provisionally revised its long term asset allocation targets for the Basic Funds, increasing the allocation for alternative investments from 15% to 20% and decreasing fixed income from 24% to 19%. This change went into effect on July 1, 2008 after the Post Fund reached its 12% allocation to Alternatives.

Over the last year, the allocation to domestic and foreign equities declined due to negative investment returns. The bond allocation decreased due to the change in asset allocation effective July 1, 2008. The allocation to alternatives increased due to strong returns and an increase to the alternative asset allocation.

During the quarter, the allocation to domestic and foreign stocks decreased due to a declining equity market. Alternative investments were relatively unchanged. Bond allocation increased slightly due positive investment returns. Cash increased due to the sale of bonds to raise cash during the quarter.

Effective July 1, 1993, the Basic and Post Funds share the same domestic stock, international stock, and bond managers. See page 15 for the performance of these asset pools. Effective July 1, 2003, the Basic and Post Funds share the same alternative pool. Performance of the alternative assets is on page 16.

POST RETIREMENT FUND

The Post Retirement Investment Fund contains the pension assets of retired public employees covered by statewide retirement plans. Approximately 114,000 retirees receive monthly annuities from the assets of the Fund.

The post retirement benefit increase formula is based on the total return of the Fund. As a result, the Board maintains a long-term asset allocation strategy for the Post Fund which incorporates a substantial commitment to common stocks.

Upon an employee's retirement, a sum of money sufficient to finance the fixed monthly annuity is transferred from accumulation pools in the Basic Funds to the Post Fund. In order to support promised benefits, the Post Fund must "earn" at least 6% on its invested assets on an annualized basis. If the Post Fund exceeds this earnings rate, excess earnings are used to finance permanent benefit increases for eligible retirees.

Asset Growth

The market value of the Post Fund decreased 11.3% during the first quarter of 2009.

Negative investment returns were the main driver behind the decrease.

POST RETIREMENT FUND Asset Mix

The Board adopted an asset allocation strategy for the Post Fund in fiscal year 1993 which reflects the post retirement benefit increase formula enacted by the Legislature. Throughout fiscal year 1993, the actual asset mix of the Post Fund moved toward a 50% allocation to common stocks. In fiscal year 1994, the Board added allocations to international stocks and alternative investments.

The large allocation to common stocks allows the Fund to increase the long-term earning power of its assets and allow the Fund to focus on generating higher long-term total rates of return.

In October 2003, the Board revised its long term asset allocations for the Post Fund, increasing alternative investments from 5% to 12% and decreasing domestic equity from 50% to 45% and decreasing fixed income from 27% to 25%.

Domestic Stocks	45.0%
Int'l. Stocks	15.0
Bonds	25.0
Alternative Assets*	12.0
Unallocated Cash	3.0
100.0%	

Over the last year, equity allocations decreased due to a declining equity market in 2008. This drove up the allocation to bonds and alternative assets, as these assets outperformed equities. Cash increased due to cash-raising activities.

* Alternative assets include equity-oriented real estate, venture capital, resource, and yield-oriented funds. Any uninvested allocation is held in domestic stocks.

During the quarter, relative outperformance of bonds vs. equities caused the domestic equity allocation to decline amidst a difficult equity environment. Bond and alternative investment allocations increased slightly due to relative outperformance vs. equities. Cash increased due to cash-raising activities.

SUPPLEMENTAL INVESTMENT FUND

The Minnesota Supplemental Investment Fund is a multi-purpose investment program that offers a range of investment options to state and local public employees. The different participating groups use the Fund for a variety of purposes:

1. It functions as the investment manager for all assets of the Unclassified Employees Retirement Plan, Public Employees Defined Contribution Plan and Hennepin County Supplemental Retirement Plan.
2. It is one investment vehicle offered to employees as part of Minnesota State Colleges and University's Individual Retirement Account Plan and College Supplemental Retirement Plan.
3. It serves as an external money manager for a portion of some local police and firefighter retirement plans.

A wide diversity of investment goals exists among the Fund's participants. In order to meet those needs, the Fund has been structured much like a "family of mutual funds." Participants may allocate their investments among one or more accounts that are appropriate for their needs, within the statutory requirements and rules established by the participating organizations. Participation in the Fund is accomplished through the purchase or sale of shares in each account.

The investment returns shown in this report are calculated using a time-weighted rate of return formula. They are net of investment management fees.

On March 31, 2009 the market value of the entire Fund was \$0.8 billion.

Investment Options

	3/31/2009 Market Value (In Millions)
Income Share Account – a balanced portfolio utilizing both common stocks and bonds.	\$174
Growth Share Account – an actively managed, all common stock portfolio.	\$68
Common Stock Index Account – a passively managed, all common stock portfolio designed to track the performance of the entire U.S. stock market.	\$166
International Share Account – a portfolio of non U.S. stocks that incorporates both active and passive management.	\$70
Bond Market Account – an actively managed, all bond portfolio.	\$94
Money Market Account – a portfolio utilizing short-term, liquid debt securities.	\$172
Fixed Interest Account – a portfolio of guaranteed investment contracts (GIC's) and GIC type investments which offer a fixed rate of return for a specified period of time.	\$92

SUPPLEMENTAL INVESTMENT FUND ACCOUNTS

INCOME SHARE ACCOUNT

Investment Objective

The primary investment objective of the Income Share Account is similar to that of the Combined Funds. The Account seeks to maximize long-term real rates of return, while limiting short-run portfolio return volatility.

Asset Mix

The Income Share Account is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds act as a deflation hedge and provide portfolio diversification.

SUPPLEMENTAL INVESTMENT FUND ACCOUNTS

BOND MARKET ACCOUNT**Investment Objective**

The investment objective of the Bond Market Account is to exceed the return of the broad domestic bond market by investing in fixed income securities.

Asset Mix

The Bond Market Account invests primarily in high-quality, government and corporate bonds that have intermediate to long-term maturities, usually 3 to 20 years.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	0.8%	-3.4%	2.6%	2.5%	5.0%
Barclays Capital Aggregate	0.1	3.1	5.8	4.1	5.7

MONEY MARKET ACCOUNT**Investment Objective**

The investment objective of the Money Market Account is to purchase short-term, liquid debt securities that pay interest rates that are competitive with those available in the money market.

Asset Mix

The Money Market Account is invested entirely in high quality short-term investments such as U.S. Treasury Bills, bank certificates of deposit, repurchase agreements, and high grade commercial paper. The average maturity of these investments is 30 to 60 days.

	Period Ending 3/31/2009				
	Qtr.	1 Yr.	3 Yr.	5 Yr.	10 Yr.
Total Account	0.1%	2.1%	4.0%	3.5%	3.6%
3 month T-Bills	0.0	1.0	3.3	3.1	3.2

FIXED INTEREST ACCOUNT**Investment Objectives**

The investment objectives of the Fixed Interest Account are to protect investors from loss of their original investment and to provide competitive interest rates using somewhat longer term investments than typically found in a money market account.

Asset Mix

The assets in the Account are **invested primarily in stable value instruments** such as insurance company investment contracts, bank investment contracts, and security backed contracts. These instruments are issued by highly rated U.S. financial institutions, typically have maturities of 3-6 years and are rated "A" or better at the time of purchase. The interest rate credited will change, reflecting the blended interest rate available from all investments in the account including cash reserves which are maintained to provide liquidity. The Fixed Interest Benchmark in the 3 year Constant Maturity Treasury Bill +45 basis points.

DEFERRED COMPENSATION PLAN ACCOUNTS

The Deferred Compensation Plan provides public employees with a tax-sheltered retirement savings plan that is a supplement to their primary retirement plan. (In most cases, the primary plan is a defined benefit plan administered by TRA, PERA, or MSRS.)

Participants choose from 6 actively managed mutual funds and 5 passively managed mutual funds.

The SBI also offers a money market option, a fixed interest option, and a fixed fund option. All provide for daily pricing needs of the plan administrator. Participants may also choose from hundreds of funds in a mutual fund window. The current plan structure became effective March 1, 2004. The investment options and objectives are outlined below.

MINNEAPOLIS EMPLOYEES RETIREMENT FUND

Investment Objectives

The Minneapolis Employees Retirement Fund (MERF) seeks to produce investment returns that are commensurate with high levels of liquidity and quality. The fund invests the retirement assets of Minneapolis employees and pays monthly benefits to retirees. SBI began management of MERF assets on October 1, 2008.

Asset Mix

MERF is invested in a portfolio of stocks and bonds. The actual asset mix will fluctuate in response to changes in the market value of the assets and due to any rebalancing activity.

Asset Mix 3/31/09

	\$ Thousands	% Target Allocation	% Actual Allocation
U.S. Equities	328,055	49.0	43.1
Non-U.S. Equities	154,408	21.0	20.3
Bonds	257,778	29.0	33.8
Cash	21,239	1.0	2.8
Total	761,480	100.0	100.0

Investment Management

SBI staff began management of all MERF assets on October 1, 2008. The bond and equity segments are managed to add incremental value through sector and security selection.

Performance

Quarterly performance through March 31, 2009 for MERF was **-6.6%**.

Market Value

On March 31, 2009, the market value of MERF was \$761 million.

ASSIGNED RISK PLAN

Investment Objectives

The Assigned Risk Plan has two investment objectives: to minimize the mismatch between assets and liabilities and to provide sufficient liquidity for the payment of on-going claims and operating expenses.

Asset Mix

The Assigned Risk Plan is invested in a portfolio of common stocks and bonds. The actual asset mix will fluctuate in response to changes in the Plan's liability stream.

	3/31/2009 Target	3/31/2009 Actual
Stocks	20.0%	14.5%
Bonds	80.0	85.5
Total	100.0%	100.0%

Investment Management

Voyageur Asset Management manages the bond segment of the Fund. GE Investment Management manages the equity segment.

Performance Benchmarks

A custom benchmark has been established for the fixed income portfolio. It reflects the duration of the liability stream and the long-term sector allocation of Voyageur Asset Management. Since July 1, 1994, the equity benchmark has been the S&P 500 index. The total fund benchmark is a combination of the fixed income and equity benchmarks, weighted according to the total fund asset allocation targets.

Market Value

On March 31, 2009 the market value of the Assigned Risk Plan was \$294 million.

Period Ending 3/31/2009

PERMANENT SCHOOL FUND

Investment Objectives

The investment objective of the Permanent School Fund is to produce a growing level of spendable income, within the constraints of maintaining adequate portfolio quality and liquidity. The income from the portfolio is used to offset expenditures on school aid payments to local school districts.

Asset Mix

Effective with FY98, the Permanent School Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds provide portfolio diversification and a more stable stream of current income.

Prior to FY98, the Fund was invested entirely in fixed income securities in order to maximize current income. It is understood that the change in asset mix will reduce portfolio income in the short term, but will enhance the value of the fund, over time.

Investment Management

SBI staff manages all assets of the Permanent School Fund. The stock segment is passively managed to track the performance of the S&P 500. The bond segment is actively managed to add incremental value through sector, security and yield curve decisions.

Market Value

On March 31, 2009 the market value of the Permanent School Fund was \$561 million.

	3/31/2009 Target	3/31/2009 Actual

(1) Actual returns are calculated net of fees.
 (2) Equities were added to the asset mix for FY98. Prior to that date the fund was invested entirely in bonds. The composite Index has been weighted accordingly.

ENVIRONMENTAL TRUST FUND

Investment Objective

The objective of the Environmental Trust Fund is to increase the market value of the Fund over time in order to increase the annual amount made available for spending.

Asset Mix

The Environmental Trust Fund is invested in a balanced portfolio of common stocks and bonds. Common stocks provide the potential for significant capital appreciation, while bonds act as a deflation hedge and provide portfolio diversification. As of July 1, 1999, the asset

allocation changed from 50% stocks/50% fixed income to 70% stocks /30% fixed income.

Investment Management

SBI staff manage all assets of the Environmental Trust Fund. The bond segment is actively managed to add incremental value through sector, security and yield curve decisions. The stock segment is passively managed to track the performance of the S&P 500.

Market Value

On March 31, 2009 the market value of the Environmental Trust Fund was \$356 million.

	3/31/2009 Target	3/31/2009 Actual

CLOSED LANDFILL INVESTMENT FUND

Investment Objectives

The investment objective of the Closed Landfill Investment Fund is to generate high returns from capital appreciation. The Fund will be used by the Commissioner of the PCA (Pollution Control Agency) to pay for the long-term costs of maintaining the integrity of landfills in Minnesota once they are closed. However, by statute, the assets of the Fund are unavailable for expenditure until after fiscal year 2020.

Investment Management

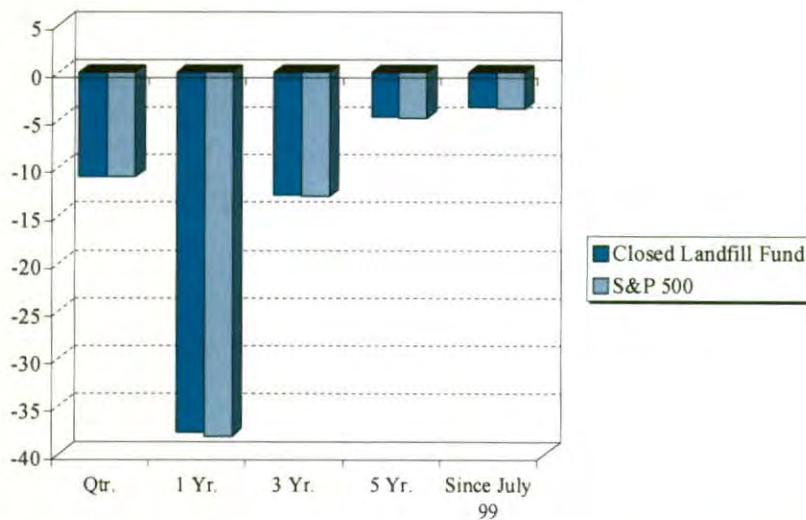

SBI staff manage all assets of the Closed Landfill Investment Fund. The assets are managed to passively track the performance of the S&P 500 index.

Market Value

On March 31, 2009, the market value of the Closed Landfill Investment Fund was \$32.5 million.

Asset Mix

Effective July 1999, the Closed Landfill Investment Fund is invested entirely in common stock. Given the long time horizon of this Fund and the lack of need for any short or mid-term withdrawals, this strategy will maximize the long-term gain of the Fund.

Period Ending 3/31/2009

	Qtr.	1 Yr.	Annualized 3 Yr.	5 Yr.	Since 7/1/1999
Total Fund (1)	-10.9%	-37.7%	-12.9%	-4.6%	-3.7%
S&P 500 (2)	-11.0	-38.1	-13.1	-4.8	-3.8

- (1) Actual returns are calculated net of fees.
- (2) The benchmark of the fund is the S&P 500. The portfolio was initially invested in mid July 1999. The benchmark was adjusted to reflect this mid month starting period.

STATE CASH ACCOUNTS

Description

State Cash Accounts represent the cash balances in more than 400 separate accounts that flow through the Minnesota State Treasury. These accounts range in size from \$5,000 to over \$400 million.

Most accounts are invested by SBI staff through two short-term pooled funds:

1. Trust Fund Pool contains the temporary cash balances of certain trusts and retirement-related accounts.
2. Treasurer's Cash Pool contains the cash balances of special or dedicated accounts necessary for the operation of certain State agencies and non dedicated cash in the State Treasury.

In addition, each State of Minnesota bond sale requires two additional pools; one for bond proceeds and one for the debt reserve transfer.

Because of special legal restrictions, a small number of cash accounts cannot be commingled. These accounts are invested separately.

Investment Objectives

Safety of Principal. To preserve capital.

Competitive Rate of Return. To provide a high level of current income.

Liquidity. To meet cash needs without the forced sale of securities at a loss.

Asset Mix

The SBI maximizes current income while preserving capital by investing all cash accounts in high quality, liquid short term investments. These include U.S. Treasury and Agency issues, repurchase agreements, bankers acceptances, commercial paper, and certificates of deposit.

Investment Management

All state cash accounts are managed by the SBI investment staff. As noted above, most of the assets of the cash accounts are invested through two large commingled investment pools.

* Actual returns are calculated net of fees.

** Beginning in January 2003, the Treasurer's Cash Pool is measured against the iMoneyNet, All Taxable Money Fund Report Average. From January 1997 to December 2002 the fund was measured against a blended benchmark consisting of the Barclays Capital 1-3 year Government Index and the iMoneyNet, All Taxable Money Fund Report Average. The proportion of each component of the blended benchmark is adjusted periodically as the asset allocation of the Cash Pool is modified. From April 1993 through December 1996, the benchmark was 75% State Street Short Term Investment Fund/25% Barclays Capital 1-3 Year Treasury Index.

*** Beginning in January 1997, the Trust Fund Pool is measured against the iMoneyNet, All Taxable Money Fund Report Average. From April 1993 through December 1996, the benchmark was 75% State Street Short Term Investment Fund/25% 1-3 year Treasuries.

EXECUTIVE DIRECTOR'S ADMINISTRATIVE REPORT

DATE: May 13, 2009

TO: Members, State Board of Investment

FROM: **Howard Bicker**

1. Reports on Budget and Travel

A report on the SBI's administrative budget for the period ending April 30, 2009 is included as **Attachment A**.

A report on travel for the period from February 5, 2009 – May 4, 2009 is included as **Attachment B**.

2. Legislative Update

A summary of legislative activity of interest to the SBI is in **Attachment C**.

3. Update on Sudan

Each quarter, staff provides a report to the Board on steps taken to implement Laws of Minnesota 2007, Chapter 117 that requires SBI actions concerning companies with operations in Sudan.

Staff receives periodic reports from the Sudan Divestment Task Force about the status of companies with operations in Sudan. The SBI is restricted from purchasing stock in the companies designated as highest offenders by the Task Force. Accordingly, staff updates the list of restricted stocks and notifies investment managers that they may not purchase shares in companies on the restricted list. Staff receives monthly reports from the SBI's custodian bank concerning SBI holdings of companies on the Task Force list and writes letters as required by law.

If after 90 days following the SBI's communication with a company and it continues to have active business operations, then the SBI must divest holdings of the company according to the following schedule:

- at least 50% shall be sold within nine months after the company appeared on the Task Force list; and
- 100% shall be sold within fifteen months after the company appeared on the list.

During 2008, SBI's managers divested all shares of companies required to be divested. As was reported last quarter, ABB, a Swiss company, was added to the divestment list for 2009. However, due to a change in its business activities, ABB has been removed from the divestment list.

Attachment D is a copy of the April 9, 2009 letter sent to each international equity manager and domestic equity manager containing the most recent restricted list and the list of stocks to be divested.

Attachment E is an updated list of companies with operations in Sudan.

4. Litigation Update

SBI legal counsel will give the Board a verbal update on the status of the litigation at the Board meeting on June 10, 2009.

ATTACHMENT D

Letter to SBI International Equity Managers

April 9, 2009

Regarding: Sudan Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Sudan. **This new communication applies to all SBI international equity portfolios managed by your organization and replaces all prior communications.**

Laws of Minnesota 2007, Chapter 117 requires the SBI to implement a Sudan restriction.

Attachment 1 is the List of Restricted Sudan Stocks. **These securities may not be purchased for the SBI portfolio that your organization manages.** Please note that the attached List makes a change to the List of Restricted Sudan Stocks that was attached to the March 25, 2009 letter you received. **This new list is effective April 13, 2009.**

- The following company has been deleted from the restricted list:
 - ABB

Attachment 2 is the List of Sudan Stocks Requiring Divestment. There were no additions to the list.

- The following company has been deleted from the divestment list:
 - ABB

If you own securities of companies on the List of Sudan Stocks Requiring Divestment in the SBI portfolio that your organization manages, then you must divest those holdings according to the schedules provided in the Attachment:

- **At least 50 percent of a company's holdings must be sold by the date indicated, and**
- **At least 100 percent of a company's holdings must be sold by the date indicated.**

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Sudan Stocks (**Attachment 1**) that your organization may use. Please note that the list of security identifiers was not updated and that ABB remains on the list.

If you have any questions about this matter, please contact Stephanie Gleeson, International Equities; or James E. Heidelberg, Manager, Public Programs.

Sincerely,

Teresa J. Richardson
Assistant Executive Director

Letter to SBI Domestic Equity Managers

April 9, 2009

Regarding: Sudan Companies

Dear Manager:

The Minnesota State Board of Investment (SBI) sent you prior communication concerning holdings in companies doing business in Sudan. **This new communication applies to all SBI domestic equity portfolios managed by your organization and replaces all prior communications. This communication applies to ADR's of any of the listed companies.**

Laws of Minnesota 2007, Chapter 117 requires the SBI to implement a Sudan restriction.

Attachment 1 is the List of Restricted Sudan Stocks. **These securities may not be purchased for the SBI portfolio that your organization manages.** Please note that the attached List makes a change to the List of Restricted Sudan Stocks that was attached to the March 25, 2009 letter you received. **This new list is effective April 13, 2009.**

- The following company has been deleted from the restricted list:
 - ABB

Attachment 2 is the List of Sudan Stocks Requiring Divestment. There were no additions to the list.

- The following company has been deleted from the divestment list:
 - ABB

If you own securities of companies on the List of Sudan Stocks Requiring Divestment in the SBI portfolio that your organization manages, then you must divest those holdings according to the schedules provided in the Attachment:

- **At least 50 percent of a company's holdings must be sold by the date indicated, and**
- **At least 100 percent of a company's holdings must be sold by the date indicated.**

Attachment 3 is a list of security identifiers for the companies on the List of Restricted Sudan Stocks (**Attachment 1**) that your organization may use. Please note that the list of security identifiers was not updated and that ABB remains on the list.

If you have any questions about this matter, please contact Tammy Brusehaver or Patricia Ammann, Domestic Equities; or James E. Heidelberg, Manager, Public Programs.

Sincerely,

Teresa J. Richardson
Assistant Executive Director

9-Apr-09

Tab C

DATE: May 13, 2009

TO: Members, State Board of Investment

FROM: SBI Administrative Committee

The Administrative Committee met on May 12, 2009 to consider the following agenda items:

- Review of Executive Director's Proposed Workplan for FY10
- Review of Budget Plan for FY10
- Review of Continuing Fiduciary Education Plan
- Review of Executive Director's Evaluation Process
- Update of Disaster Recovery Plan

Action is required by the SBI on the first four items.

1. Review of Executive Director's Proposed Workplan for FY10.

The Executive Director's Proposed Workplan for FY10 was presented. As in previous workplans, the FY10 plan follows the same category order found in the Executive Director's position description. The plan is a compilation of on-going responsibilities as well as the new initiatives the Executive Director will undertake during the next fiscal year.

A summary of the proposed plan is shown in **Attachment A** on **page 5** of this Tab. Supporting information was sent to each Board member in May 2008 as part of the FY10 Management and Budget Plan document.

RECOMMENDATION:

The Committee recommends that the SBI approve the FY10 Executive Director's Workplan. Further, the Committee recommends that the workplan serve as the basis for the Executive Director's performance evaluation for FY10.

2. FY10 Administrative Budget Plan.

The SBI's Administrative budget is set annually by the Board with direct charge back to entities that invest with the SBI. The general fund appropriation for the management of general fund assets is appropriated by the Legislature.

An overview of the budget is **Attachment B** on **page 7** of this tab. Supporting information was sent to each Board member in May 2009 as part of the FY10 Management and Budget Plan.

RECOMMENDATION:

The Committee recommends that the SBI approve the FY10 Administrative Budget Plan, as presented to the Committee, and that the Executive Director have the flexibility to reallocate funds between budget categories if the Executive Director deems necessary.

3. Review of Continuing Fiduciary Education Plan.

Minnesota Statutes Chapter, 356A requires each public pension plan to establish a continuing education plan for its fiduciaries. The plan approved by the Committee is in **Attachment C** on **page 9** of this Tab. Please note that the travel allocation policy for Board members and their designees is included in the plan.

RECOMMENDATION:

The Committee recommends that the SBI adopt the attached Continuing Fiduciary Education Plan.

4. Review of Executive Director's Evaluation Process.

The Committee discussed the process that will be used by the Board to evaluate the Executive Director for FY09. The Committee members agreed that the performance reviews should be completed prior to the September 2009 meeting of the SBI and should follow the process used in the past.

RECOMMENDATION:

The Committee recommends that the SBI adopt the following process for the Executive Director's FY09 performance evaluation:

- **The evaluation will be completed prior to the September 2009 meeting of the SBI and will be based on the results of the Executive Director's workplan for FY09.**

- **The SBI deputies/designees will develop an appropriate evaluation form for use by each member, which will reflect the categories in the Executive Director's position description and workplan.**
- **The Governor's representative (Department of Finance), will coordinate distribution and collection of the evaluation forms and will forward the completed forms to the Executive Director. Board members are encouraged to meet individually with the Executive Director to review their own evaluation.**

5. Update of Disaster Recovery Plan.

Staff updated the Committee regarding the SBI's Disaster Recovery Plan. The plan provides information and procedures required to respond to an emergency.

ATTACHMENT A

STATE BOARD OF INVESTMENT
Executive Director's Proposed Workplan

FY10

(Categories A, B, C, D, E correspond to the position description)

	Projected Time Frame
A. DEVELOPMENT OF INVESTMENT POLICIES	
1. New Alternative Investment Asset Classes	Ongoing
2. Review the application of Enhanced Performance Measurement and Reporting Systems available through our current custodial bank	Jul – Dec
3. Review asset management fee structures for the Domestic Equity external managers	Sep – Mar
4. Asset Allocation for new Volunteer Firefighter Plan SIF Option, If Passed	Jul – Sep
B. IMPLEMENTATION OF INVESTMENT POLICIES APPROVED BY THE SBI	
1. Meet or exceed the performance objectives	Ongoing
2. Conduct Investment Manager Compliance Review of Guidelines and Contracts	Ongoing
3. Investments with New/Existing Alternative Asset Managers	Ongoing
4. Repurchase Agreement Review	Jul – Dec
5. Review Investment Options Structure in DCP	Sep – Jan
6. Manager Search Process	Ongoing
7. Implement State Law Concerning Sudan	Ongoing
8. Implement State Law Concerning Iran, If Passed	_____
9. Establish New Stillwater Lift Bridge Endowment Fund, If Passed	_____
C. REVIEW AND CONTROL OF INVESTMENT POLICIES	
1. Review the International Equity Semi-Passive Program	Oct – Dec

- | | |
|--|-----------|
| 2. Review of the Semi-Passive Bond Manager Program | Jul – Jun |
| 3. Review Investment Guidelines related to Securities Lending Collateral and Cash Pools | Jul – Aug |
| 4. Manager Guidelines | Ongoing |
| 5. Provide Staff Support to Proxy Committee for Proxy Voting and Shareholder Initiatives | Jul – Jun |
| 6. Monitor Implementation of Northern Ireland Mandate | Oct – Mar |

D. ADMINISTRATION AND MANAGEMENT OF STAFF OPERATIONS

- | | |

| 1. Coordinate Financial Audit by Legislative Auditor | Jul - Dec |
| 2. Prepare 2010 Legislative package | Jul - May |
| 3. Prepare FY11 Management and Budget Plan | Jan - Jun |
| 4. Annual Update of Disaster Recovery Plan | Apr |

E. COMMUNICATION AND REPORTING

- | | |
|--|--------------|
| 1. Prepare reports on investment results | Qtly |
| 2. Prepare status reports | As requested |
| 3. Meet with SBI and IAC | Qtly |
| 4. Meet with Board's designees | Qtly |
| 5. Prepare FY 2009 Annual Report | Jul - Jan |
| 6. Prepare Annual SIF Investment Options Prospectus | May - Aug |
| 7. Fire Relief Association Reporting and Communication | Jul – Jan |
| 8. Coordinate Public Pension Plan Performance Reporting Disclosure | Jul – Jun |
| 9. Conduct Manager Round Tables | Periodic |

ATTACHMENT B

**Administrative Budget
FY 10 – 11 Budget Plan
Overview**

The FY 10 – 11 budget request is based on budget procedures instituted by Department of Minnesota Management and Budget.

New statutory authority was passed during the 2006 legislative session to establish a fixed amount from the General Fund and to have the balance of the MSBI's budget billed to organizations that use the MSBI's services. This authority was used to generate the fiscal year 2009 budget and also is the basis for the 2010 – 2011 budget projections.

	FY09 Budget	FY09 Projected	FY10 Request	FY11 Request
Personnel Services	\$2,772,000	\$2,741,604	\$3,023,000	\$3,055,000
Operating Expense	405,000	359,000	433,000	433,000
	\$3,177,000	\$3,100,604	\$3,456,000	\$3,488,000

Personnel Services: **85% of the budget**
Salaries, retirement, insurance, FICA, severance

Operating Expenses: **15% of the budget**
Rents, leases, printing, data processing
Professional/technical contracts
Communications, travel, employee development, misc. fees
Office equipment, furnishings, supplies

CONTINUING FIDUCIARY EDUCATION PLAN

REQUIRED BY MS 356A.13

The State Board of Investment (SBI) undertakes the following activities related to fiduciary education. Taken as a group, these activities shall constitute the plan for continuing fiduciary education required by Minnesota Statutes 356A.13 (copy attached). In addition, pursuant to statutory requirements of qualification, the SBI executive director and many members of the Board's Investment Advisory Council (IAC) can be reasonably considered to be experts with respect to their duties as fiduciaries.

1. Briefing for New Board/IAC Members

Shortly after election to the Board or appointment to the IAC, each new member is briefed on SBI operations and policies. As part of the briefing, SBI's legal counsel will review the member's fiduciary obligations and responsibilities as specified in Minnesota Statutes Chapters 11A and 356A.

2. Development and Review of Investment Policies

The SBI adopts comprehensive investment policies for each fund under its control. The policies cover investment objectives, asset allocation, management structure and performance evaluation. Policy papers or reports on these topics are developed and written by SBI staff in conjunction with the IAC and consultants. Relevant research and analyses from the academic and professional investment fields are used to formulate these policy guidelines.

After the Board formally adopts them, these written policies guide the management of all assets under the SBI's control. The SBI intends to review its stated investment policies periodically. This review may occur within the framework of the SBI's regular quarterly meetings or may take place at special meetings or seminars specifically designated for this purpose.

3. Input from Board's Consultants

The SBI retains outside investment consultants to advise the Board members on a wide variety of investment management issues. As part of their contracts with the SBI, the consultants offer to meet with the Board members or their designees to discuss investment-related issues. These individual consultations occur throughout the year. In addition, the general consultant is available at each meeting of the Board and IAC. These meetings are supplemented by quarterly reports on investment performance prepared by the general consultant.

4. Manager Round Tables

The SBI intends to convene small groups of its external money managers to discuss issues related to investment management and the financial markets. These round table discussions will be held periodically throughout the year and will be open to Board members and their designees, IAC members and other interested parties. It is anticipated that 1-2 round tables will be held each year.

5. Travel Allocation

The SBI allocates \$4,000 annually to each Board member (or their designee) for costs associated with attendance at investment-related seminars and conferences. This allocation is used at the discretion of each Board member.

Date: May, 2009

2008 Minnesota Statutes

356A.13. CONTINUING FIDUCIARY EDUCATION.

Subdivision 1. **Obligation of fiduciaries.** A fiduciary of a covered pension plan shall make reasonable effort to obtain knowledge and skills sufficient to enable the fiduciary to perform fiduciary activities adequately. At a minimum, a fiduciary of a covered pension plan shall comply with the program established in accordance with subdivision 2.

Subd. 2. **Continuing fiduciary education program.** The governing boards covered pension plans shall each develop and periodically revise a program for the continuing education of any of their board members and any of their chief administrative officers who are not reasonably considered to be experts with respect to their activities as fiduciaries. The program must be designed to provide those persons with knowledge and skills sufficient to enable them to perform their fiduciary activities adequately.

(1) Semi-Passive managers' benchmark is the Russell 1000 index beginning 1/1/04 and was the Completeness Fund benchmark prior to 1/1/04.

(2) Includes the performance of terminated managers.

(3) The Domestic Equity Asset Class Target is the Russell 3000 Index effective 10/1/03. From 7/1/99 to 9/30/03, it was the Wilshire 5000 Investable Index. From 11/1/93 to 6/30/99, the target was the Wilshire 5000 as reported with no adjustments. Prior to 11/1/93, the Wilshire 5000 was adjusted to reflect SBI mandated restrictions, which included liquor and tobacco, American Home Products and South Africa.

Note: Includes full-year returns only. Performance of managers hired during a calendar year are reported beginning with the following calendar year.

MELLON CAPITAL MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Tony Garvin

Assets Under Management: \$266,745,432

Investment Philosophy – Active Style

Mellon believes that rigorous and consistent application of fundamentally based valuation criteria will produce value added investment returns. Mellon builds a portfolio by using a series of more than 30 integrated computer models that value a universe of 3500 stocks. Their models rank each security based on fundamental momentum, relative value, future cash flow, and supplementary models. A composite ranking then provides one ranked list of securities reflecting relative attractiveness. Stocks that fall below the median ranking are sold and proceeds are reinvested in stocks from the top deciles in the ranking system. Mellon uses the BARRA E3 risk model to monitor the portfolio's systematic risk and industry weightings, relative to the selected benchmark, to achieve a residual risk of 4.0 to 4.5 percent for the active portfolio.

Staff Comments

The portfolio trailed its benchmark for the quarter and the year due to weak stock selection. For both periods, names held in the Technology, Integrated Oils and Producer Durables sectors detracted from performance. For the year, stock selection in the Health Care sector had the most negative impact on return.

The Franklin legacy investment team and process have not changed since the merger with Mellon Capital on January 1, 2009. They have announced one staff departure: Paul Healey, COO and President, is expected to leave Mellon Capital by June 30, 2009. An integration group has been created within the two investment teams (Franklin and Mellon Capital) to establish a shared investment infrastructure during 2009.

NEW AMSTERDAM PARTNERS
Periods Ending March, 2009

Portfolio Manager: Michelle Clayman

Assets Under Management: \$331,195,847

Investment Philosophy

New Amsterdam Partners believes that investment results are evaluated by actual return, and therefore, investment opportunities should be evaluated by expected return. They believe that all valid techniques depend on forecasts of the amounts and timing of future cash flows. Thus, the firm focuses on forecasted earnings growth, yield, price-to-book ratio, and forecasted return on equity. They believe that the disciplined application of their valuation techniques, in conjunction with sound financial analysis of companies, is the key to understanding and maximizing investment returns.

Staff Comments

The portfolio outperformed its benchmark for the quarter and the year from both strong stock selection and sector allocation. An underweight position in Financial Services and an overweight in Consumer Discretionary along with strong stock selection in both sectors helped performance for the quarter. For the year, an underweight position in Financial Services and strong stock selection in Consumer Discretionary added value to the portfolio.

UBS GLOBAL ASSET MANAGEMENT, INC.
Periods Ending March, 2009

Portfolio Manager: John Leonard

Assets Under Management: \$275,331,315

Investment Philosophy

UBS uses a relative value approach to equity investing. They believe that the market price will ultimately reflect the present value of the cash flows the security will generate for the investor. They focus on a bottom-up stock selection process to provide insight into finding opportunistic investments. UBS uses a proprietary discounted free cash flow model as the primary analytical tool for estimating the intrinsic value of a company.

ALLIANCE CAPITAL MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Stephanie Simon

Assets Under Management: \$182,877,000

Investment Philosophy

Alliance searches for companies likely to experience high rates of earnings growth, on either a cyclical or secular basis. Alliance invests in a range of medium to large growth and cyclically sensitive companies. There is no clear distinction on the part of the firm as to an emphasis on one particular type of growth company over another. However, the firm's decision-making process appears to be much more oriented toward macroeconomic considerations than is the case with most other growth managers. Accordingly, cyclical earnings prospects, rather than secular, appear to play a larger role in terms of stock selection. Alliance is not an active market timer, rarely raising cash above minimal levels.

INTECH INVESTMENT MANAGEMENT LLC
Periods Ending March, 2009

Portfolio Manager: Robert Fernholz

Assets Under Management: \$ 196,060,236

Investment Philosophy

Through the application of a proprietary mathematical process, the investment strategy is designed to determine more efficient weightings of the securities within the Russell 1000 Growth benchmark. No specific sector or security selection decisions based on fundamentals are required. Risk parameters include: 1) minimize absolute standard deviation or maximize information ratio, 2) security positions limited to lesser of 2.5% or 10 times maximum index security weight, and 3) beta equal to or less than benchmark beta. Target security positions are established using an optimization routine designed to build a portfolio that will outperform a passive benchmark over the long term. Rebalancing to target proportions occurs every six (6) business days, and partial re-optimization occurs weekly.

JACOBS LEVY EQUITY MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Bruce Jacobs and Ken Levy

Assets Under Management: \$166,942,932

Investment Philosophy

The strategy combines human insight and intuition, finance and behavioral theory, and state-of-the-art quantitative and statistical methods. Security expected returns generated from numerous models become inputs for the firm's proprietary portfolio optimizer. The optimizer is run daily with the objective of maximizing the information ratio, while ensuring proper diversification across market inefficiencies, securities, industries, and sectors. Extensive data scrubbing is conducted on a daily basis using both human and technology resources. Liquidity, trading costs, and investor guidelines are incorporated within the optimizing process.

Staff Comments

The portfolio underperformed its benchmark for the quarter and the year. For both periods, performance was hurt by an underweight position in the Technology and Materials & Processing sectors in addition to weak stock selection in Health Care, Other Energy and Materials & Processing sectors. Weak stock selection in Consumer Discretionary also detracted from performance for the year.

KNELMAN ASSET MANAGEMENT, LLC
Periods Ending March, 2009

Portfolio Manager: Kip Knelman

Assets Under Management: \$38,843,557

Investment Philosophy

The strategy invests in companies exhibiting substantial growth opportunities, strong business models, solid management teams, and the probability for positive earnings surprises. The approach emphasizes earnings growth as the fundamental driver of stock prices over time. The process combines quantitative, qualitative and valuation criteria. The quantitative component addresses fundamentals and is focused on operating trends. Qualitative analysis involves confirmation of company fundamentals through discussions with company contacts and related parties. Valuation models focus on relative rankings of the fundamentals within the industry, the market overall and the company itself.

SANDS CAPITAL MANAGEMENT LLC
Periods Ending March, 2009

Portfolio Manager: Frank Sands, Jr.

Assets Under Management: \$134,433,905

Investment Philosophy

The manager invests in high-quality, seasoned and growing businesses. Bottom-up, company-focused, long-term oriented research is the cornerstone of the investment process. The strategy focuses on six (6) key investment criteria: 1) sustainable above average earnings growth; 2) leadership position in a promising business space; 3) significant competitive advantages or unique business franchise; 4) management with a clear mission and value added focus; 5) financial strength; and 6) rational valuation relative to the overall market and the company's business prospects.

Staff Comments

Sands outperformed its benchmark for the quarter but trailed for the year. Strong stock selection in Technology, Other Energy, Consumer discretionary and Financial Services sectors contributed to the portfolio's positive absolute return for the quarter. The one year performance was negatively impacted by poor stock selection in Health Care and Consumer Discretionary in addition to an overweight position in the Other Energy sector.

VOYAGEUR ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Gordon Telfer and Nancy Scinto Assets Under Management: \$31,935,447

Investment Philosophy

Voyageur's Large Cap Growth Equity strategy is focused on achieving consistent, superior performance with near-benchmark risk. They seek high quality growth companies with exceptional financial strength and proven growth characteristics. They believe that sound fundamental analysis reveals those companies with superior earnings achievement and potential. Their screening process identifies companies that over the past five years have had higher growth in sales, earnings, return on equity, earnings stability and have lower debt ratios relative to their benchmark. Because they focus on diversification and sector limitations, they believe they can continue to outperform as different investment styles move in and out of favor.

WINSLOW CAPITAL MANAGEMENT, INC.
Periods Ending March, 2009

Portfolio Manager: Bart Wear and Justin Kelly

Assets Under Management: \$82,805,357

Investment Philosophy

The strategy identifies companies that can grow earnings above consensus expectations to build portfolios with forward weighted earnings growth in the range of 15-20% annually. A quantitative screen is employed for factors such as revenue and earnings growth, return on invested capital, earnings consistency, earnings revisions, low financial leverage and high free cash flow rates relative to net income. Resulting companies are subjected to a qualitative assessment within the context of industry sectors. Detailed examination of income statements, cash flow and balance sheet projections is conducted, along with a judgment on the quality of management. Attractively valued stocks are chosen based on P/E relative to the benchmark, sector peers, the company's sustainable future growth rate and return on invested capital. Final portfolio construction includes diversification by economic sectors, earnings growth rates, price/earnings ratios and market capitalizations.

Staff Comments

Winslow Capital employs a team approach to manage the large cap growth portfolio. As part of the succession plan, Clark Winslow has gradually reduced his day to day portfolio investment responsibilities as they transitioned to the current co-portfolio managers for the large cap growth strategy, Bart Wear and Justin Kelly. Clark Winslow will continue in his role as CEO and CIO of the firm.

ZEVENBERGEN CAPITAL INC.
Periods Ending March, 2009

Portfolio Manager: Nancy Zevenbergen

Assets Under Management: \$167,940,422

Investment Philosophy

Zevenbergen is an equity growth manager. The investment philosophy is based on the belief that earnings drive stock prices while quality provides capital protection. Hence, portfolios are constructed with companies showing above-average earnings growth prospects and strong financial characteristics. They consider diversification for company size, expected growth rates and industry weightings to be important risk control factors. Zevenbergen uses a bottom-up fundamental approach to security analysis. Research efforts focus on finding companies with superior products or services showing consistent profitability. Attractive buy candidates are reviewed for sufficient liquidity and potential diversification. The firm emphasizes that they are not market timers.

BARROW, HANLEY, MEWHINNEY & STRAUSS, INC.
Periods Ending March, 2009

Portfolio Manager: Tim Culler

Assets Under Management: \$266,881,440

Investment Philosophy

The manager's approach is based on the underlying philosophy that markets are inefficient. Inefficiencies can best be exploited through adherence to a value-oriented investment process dedicated to the selection of securities on a bottom-up basis. The team does not attempt to time the market or rotate in and out of broad market sectors.

The manager remains fully invested with a defensive, conservative orientation based on the belief that superior returns can be achieved while taking below average risks. This strategy is implemented by constructing portfolios of individual stocks that exhibit price/earnings and price/book ratios significantly *below* the market and dividend yields significantly *above* the market. Risk control is achieved by limiting sector weights to 35% and industry weights to 15%. In periods of economic recovery and rising equity markets, profitability and earnings growth are rewarded by the expansion of price/earnings ratios and the generation of excess returns.

EARNEST PARTNERS, LLC
Periods Ending March, 2009

Portfolio Manager: Paul Viera

Assets Under Management: \$109,126,409

Investment Philosophy

Earnest Partners utilizes its proprietary Return Pattern Recognition model and rigorous fundamental review to identify stocks with the most attractive relative returns. They have identified six performance drivers – valuation measures, operating trends, market trends, growth measures, profitability measures and macroeconomic measures. Extensive research is conducted to determine which combination of performance drivers, or return patterns, precede out-performance for stocks in each sector. They select stocks whose return patterns suggest favorable performance and control risk using a statistical program designed to measure and control the prospects of substantially under-performing the benchmark. The portfolio is diversified across industry groups.

Staff Comments

The portfolio outperformed its benchmark for the quarter and the year primarily due to strong stock selection. For both the quarter and the year holdings in the Consumer Discretionary and Technology sectors benefited performance. An overweight position in the Technology sector was also a big contributor to the portfolios positive relative return for the quarter.

LORD ABBETT & CO. LLC
Periods Ending March, 2009

Portfolio Manager: Eli Salzmann

Assets Under Management: \$188,788,634

Investment Philosophy

Utilizing a value-based, disciplined investment process that employs both informed judgment and quantitative analysis, Lord Abbett seeks to invest in companies with improving business fundamentals that are attractively valued. This process is implemented via a traditional fundamental active stock selection approach.

As a value manager, Lord Abbett believes that the market systematically misprices stocks. By coupling valuation criteria with thorough research of corporate and industry fundamentals, informed judgments can be made about where the market would price these stocks at fair value. The portfolio is constructed to exploit pricing discrepancies where it is perceived that: 1) these price differences will be closed over a reasonable period of time, or 2) there may be a catalyst for price appreciation. This process is implemented while maintaining sensitivity to both benchmark and macro-economic risk exposures.

LSV ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Josef Lakonishok

Assets Under Management: \$238,068,396

Investment Philosophy

The fundamental premise on which LSV's investment philosophy is based is that superior long-term results can be achieved by systematically exploiting the judgmental biases and behavioral weaknesses that influence the decisions of many investors. These include: the tendency to extrapolate the past too far into the future, wrongly equating a good company with a good investment irrespective of price, ignoring statistical evidence and developing a "mindset" about a company.

The strategy's primary emphasis is the use of quantitative techniques to select individual securities in what would be considered a bottom-up approach. Value factors and security selection dominate sector/industry factors as explanatory variables of performance. The competitive strength of this strategy is that it avoids introducing to the process any judgmental biases and behavioral weaknesses that often influence investment decisions.

Staff Comments

The portfolio outperformed its benchmark for the quarter and trailed for the year. For the quarter, an underweight to General Electric and the Financial Services sector in addition to an overweight to Technology added value. For the year, weak stock selection primarily in the Autos & Transportation, Consumer Discretionary and Financial Services sectors detracted from performance.

SYSTEMATIC FINANCIAL MANAGEMENT, L.P.
Periods Ending March, 2009

Portfolio Manager: Kevin McCreesh

Assets Under Management: \$182,325,091

Investment Philosophy

Systematic's investment strategy favors companies with low forward P/E multiples and a positive earnings catalyst. Cash flow is analyzed to confirm earnings and to avoid companies that may have employed accounting gimmicks to report earnings in excess of Wall Street expectations. The investment strategy attempts to avoid stocks in the "value trap" by focusing only on companies with confirmed fundamental improvement as evidenced by a genuine positive earnings surprise.

The investment process begins with quantitative screening that ranks the universe based on: 1) low forward P/E, and 2) a positive earnings catalyst, which is determined by a proprietary 16-factor model that is designed to be predictive of future positive earnings surprises. The screening process generates a research focus list of 150 companies, sorted by sector, upon which rigorous fundamental analysis is conducted to confirm each stock's value and catalysts for appreciation.

MCKINLEY CAPITAL MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Robert A. Gillam

Assets Under Management: \$125,678,331

Investment Philosophy

The team believes that excess market returns can be achieved through the construction and management of a diversified, fundamentally sound portfolio of inefficiently priced securities whose earnings growth rates are accelerating above market expectations. Using proprietary quantitative models, the team systematically searches for and identifies early signs of accelerating growth. The initial universe consists of growth and value stocks from all capitalization categories.

The primary model includes a linear regression model to identify common stocks that are inefficiently priced relative to the market while adjusting each security for standard deviation. The ratio of alpha to standard deviation is the primary screening value and is used to filter out all but the top 10% of stocks in our initial universe. The remaining candidates are tested for liquidity and strength of earnings. In the final portfolio construction process, qualitative aspects are examined, including economic factors, Wall Street research, and specific industry themes.

NEXT CENTURY GROWTH INVESTORS, LLC
Periods Ending March, 2009

Portfolio Manager: Thomas Press and Don Longlet

Assets Under Management: \$142,031,525

Investment Philosophy

Next Century Growth's (NCG) goal is to invest in the highest quality and fastest growing companies in America. They believe that growth opportunities exist regardless of the economic cycle. NCG uses fundamental analysis to identify companies that will surpass consensus earnings estimates, which they believe to be the number one predictor of future out-performance. Their investment process focuses on growth companies that have superior top line revenue growth (15% or greater), high profitability, and strong balance sheets, and are well poised to outperform the market. NCG believes in broad industry diversification; sector exposures are limited to twice the benchmark weighting and individual positions to five percent.

TURNER INVESTMENT PARTNERS
Periods Ending March, 2009

Portfolio Manager: William McVail

Assets Under Management: \$141,547,096

Investment Philosophy

The team's investment philosophy is based on the belief that earnings expectations drive stock prices. The team adds value primarily through stock selection and pursues a bottom-up strategy. Ideal candidates for investment are growth companies that have above average earnings prospects, reasonable valuations, favorable trading volume, and price patterns. Each security is subjected to three separate evaluation criteria: fundamental analysis (80%), quantitative screening (10%), and technical analysis (10%).

Proprietary computer models enable the team to assess the universe based on multiple earnings growth and valuation factors. The factors are specific to each economic sector. Fundamental analysis is the heart of the stock selection process and helps the team determine if a company will exceed, meet or fall short of consensus earnings expectations. Technical analysis is used to evaluate trends in trading volume and price patterns for individual stocks as the team searches for attractive entry and exit points.

GOLDMAN SACHS ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Chip Otness

Assets Under Management: \$83,335,574

Investment Philosophy

The firm's value equity philosophy is based on the belief that all successful investing begins with fundamental stock selection that should thoughtfully weigh a stock's price and prospects. A company's prospective ability to generate high cash flow returns on capital will strongly influence investment success. The team follows a strong valuation discipline to purchase well-positioned, cash generating businesses run by shareholder-oriented management teams.

Through extensive proprietary research, the team confirms that a candidate company's long-term competitive advantage and earnings power are intact. The team seeks to purchase a stock at a price that encompasses a healthy margin of safety. The investment process involves three steps: 1) prioritizing research, 2) analyzing fundamentals, and 3) portfolio construction. The independent Risk and Performance Analytics Group (RPAG) monitors daily portfolio management risk, adherence to client guidelines and general portfolio strategy.

Staff Comments

Goldman outperformed the benchmark for the quarter and the year. The portfolio was helped by strong stock selection in the Financial Services sector for both periods.

Goldman announced some leadership changes in April. There were no changes to the small cap value team. Eileen Rominger, global head of Fundamental Equity, has assumed a newly created role of global chief investment officer of Goldman's portfolio management business.

HOTCHKIS & WILEY CAPITAL MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Jim Miles and David Green

Assets Under Management: \$52,522,780

Investment Philosophy

The firm seeks to exploit mis-priced securities in the small cap market by investing in "undiscovered" or "out of favor" companies. The team invests in stocks where the present value of the company's future cash flows exceeds the current market price. This approach exploits equity market inefficiencies created by irrational investor behavior and lack of Wall Street research coverage of smaller capitalization stocks. The team employs a disciplined, bottom-up investment process that emphasizes internally generated fundamental research.

The investment process begins with a quantitative screen based on market capitalization, trading liquidity and enterprise value/normalized EBIT, supplemented with ideas generated from the investment team. Internal research is then utilized to identify the most attractive valuation opportunities within this value universe. The primary focus of the research analyst is to determine a company's "normal" earnings power, which is the basis for security valuation.

Staff Comments

The portfolio exceeded its benchmark for the quarter and trailed for the year. The quarterly return was helped by stock selection in the Consumer Discretionary sector. For the year, the majority of the underperformance came from negative stock selection in the Consumer Discretionary and Financial Services sectors. The portfolio has an underweight to the Financial Services sector, but several securities with overweight positions had significant double digit losses.

Staff continues to monitor the portfolio closely.

MARTINGALE ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: William Jacques

Assets Under Management: \$65,866,579

Investment Philosophy

Martingale's investment process seeks to exploit the long-term link between undervalued company fundamentals and current market prices to achieve superior investment returns. Martingale has a long history of employing sound quantitative methods.

The valuation process is comprised of well-researched valuation indicators that have stood the test of time, with improvements made only after careful evaluation, testing and analysis. Multiple characteristics of quality, value and momentum are examined. The quality of company management is assessed by reviewing commitment to R&D, accounting practices with regard to earnings and cash flow from operations, and the ability to manage inventory.

The average holding period of a stock is typically one year. Every holding is approached as an investment in the business, with the intention of holding it until either objectives are reached, or it becomes apparent that there are better opportunities in other stocks.

PEREGRINE CAPITAL MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Doug Pugh and Tasso Coin

Assets Under Management: \$95,699,606

Investment Philosophy

Peregrine's Small Cap Value investment process begins with the style's proprietary valuation analysis, which is designed to identify the small cap value stocks most likely to outperform. The valuation analysis identifies the most under-priced securities on a sector-by-sector basis. Drawing on thirty years of data, the analysis looks at different combinations of sixty fundamental factors most relevant in each independent sector to identify stocks that offer significant value relative to the companies' underlying fundamentals. The focus of the team's fundamental research is to determine if one or more of the style's "Value Buy Criteria" are present. These include short-term problems, unrecognized assets, take-over potential, and catalysts for change. The portfolio is diversified and sector weights are aligned closely with the benchmark. This allows stock selection to drive performance.

Staff Comments

Peregrine exceeded the benchmark for the quarter and trailed for the year. For the quarter, stock selection and an overweight to the Consumer Discretionary sector helped performance. Stock selection in the Financial Services sector detracted from both periods. The one-year return was overwhelmingly due to the negative performance in the fourth quarter 2008.

RIVERSOURCE INVESTMENTS/KENWOOD CAPITAL MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Jacob Hurwitz and Kent Kelley

Assets Under Management: \$29,984,728

Investment Philosophy

The portfolio management team relies primarily on quantitative appraisal; fundamental analysis supplements the model-based stock selection discipline. The goal is to systematically tilt client portfolios toward stocks that offer a superior return-to-risk tradeoff. In order to achieve consistency of performance, risk management is integrated into all aspects of the investment process. Risk is monitored at the security, sector, and portfolio level.

The centerpiece of the stock selection process is a quantitative model that ranks stocks based upon potential excess return. Key elements of the model include assessments of valuation, earnings, and market reaction. Models are created for twelve sectors using sector-specific criteria. Qualitative analysis assesses liquidity, litigation/regulatory risk, and event risk. The team focuses on bottom up stock selection within a sector neutral framework.

Staff Comments

Riversource/Kenwood underperformed the benchmark for the quarter and the year. Negative stock selection across several sectors hurt performance in both periods. The majority of the one-year underperformance occurred in the third quarter of 2008.

During the quarter there were some staff promotions. Kent Kelley now serves as Chief Executive Officer. Ken Heinecke is a Principal and Senior Portfolio Manager. Joshua Howard and Jason Schmidt were promoted to Portfolio Managers and were granted ownership interests in the firm.

Investment Philosophy – Semi-Passive Style

The Core Alpha Model desegregates individual equity returns for each of the 3500 stocks in their universe into fundamental, expectational, and technical components. The fundamental factors look at measures of underlying company value including earnings, book value, cash flow, and sales. These factors help identify securities that trade at prices below their true economic value. The expectational factors incorporate future earnings and growth rate forecasts made by over 2500 security analysts. The technical factors provide a measure of recent changes in company fundamentals, consensus expectations, and performance. Estimated alphas are then calculated and are used in a portfolio optimization algorithm to identify the optimal portfolio.

J.P. MORGAN INVESTMENT MANAGEMENT, INC.
Periods Ending March, 2009

Portfolio Manager: Ralph Zingone and Terance Chen Assets Under Management: \$1,705,877,724

Investment Philosophy – Semi-Passive Style

J.P. Morgan believes that superior stock selection is necessary to achieve excellent investment results. To accomplish this objective, they use fundamental research and a systematic valuation model. Analysts forecast the earnings and dividends for the 650 stock universe and enter them into a stock valuation model that calculates an expected return for each security. The stocks are ranked according to their expected return within their economic sectors. The most undervalued stocks are placed in the first quintile. The portfolio includes stocks from the first four quintiles, always favoring the highest ranked stocks whenever possible. Stocks in the fifth quintile are sold. In addition, the portfolio closely approximates the sector, style, and security weightings of the index chosen by the plan sponsor. The firm remains fully invested at all times.

Investment Philosophy – Semi-Passive Style

Mellon believes that rigorous and consistent application of fundamentally based valuation criteria will produce value added investment returns. Mellon builds a portfolio by using a series of more than 30 integrated computer models that value a universe of 3500 stocks. Their models rank each security based on fundamental momentum, relative value, future cash flow, and supplementary models. A composite ranking then provides one ranked list of securities reflecting their relative attractiveness. Stocks that fall below the median ranking are sold, and proceeds are reinvested in stocks from the top deciles in the ranking system. They use the BARRA risk model to monitor the portfolio's systematic risk and industry weightings relative to the selected benchmark. For this semi-passive mandate, they seek to achieve a residual risk of 1.5% or less. The firm remains fully invested at all times.

Staff Comments

The Franklin legacy investment team and process have not changed since the merger with Mellon Capital on January 1, 2009. They have announced one staff departure: Paul Healey, COO and President, is expected to leave Mellon Capital by June 30, 2009. An integration group has been created within the two investment teams (Franklin and Mellon Capital) to establish a shared investment infrastructure during 2009.

BARCLAYS GLOBAL INVESTORS
Periods Ending March, 2009

Portfolio Manager: Amy Schioldager

Assets Under Management: \$5,659,012,014

Investment Philosophy – Passive Style

Barclays Global Investors seeks to minimize 1) tracking error, 2) transaction costs, and 3) investment and operational risks. The portfolio is passively managed against the asset class target using a proprietary optimization process that integrates a transaction cost model. The resulting portfolio closely matches the characteristics of the benchmark with less exposure to illiquid stocks.

ABERDEEN ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Neil Moriarty

Assets Under Management: \$760,943,775

Investment Philosophy

Aberdeen (formerly Deutsche) believes there are significant pricing inefficiencies inherent in bond markets and that diligent credit analysis, security structure evaluation, and relative value assessment can be used to exploit these inefficiencies. The firm avoids interest rate forecasting and sector rotation because they believe these strategies will not deliver consistent out performance versus the benchmark over time. The firm's valued added is derived primarily from individual security selection. Portfolio managers and analysts research bonds within their sector of expertise and construct portfolios from the bottom-up, bond by bond. Sector weightings are a byproduct of the bottom-up security selection. Aberdeen was retained by the SBI in February 2000.

Staff Comments

Aberdeen outperformed the benchmark by 90 bps in the first quarter but underperformed by 1600 bps over the last 12 months. A significant overweight to the utilities and industrials corporate bond sectors with good security selection within those sectors added to 1Q09 performance. An increased exposure to Agency MBS also added to performance. Non-Agency MBS continue to be a drag on performance. For the year, overweights to non-Agency MBS and CMBS were drivers of underperformance as well as financial sector corporates.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	1.0%	0.1%
Last 1 year	-12.9	3.1
Last 2 years	-5.4	5.4

DODGE & COX INVESTMENT MANAGERS
Periods Ending March, 2009

Portfolio Manager: Dana Emery

Assets Under Management: \$799,417,329

Investment Philosophy

Dodge & Cox manages a high quality, diversified portfolio of securities that are selected through fundamental analysis. The firm believes that by combining fundamental research with a long-term investment horizon it is possible to uncover inefficiencies in market sectors and individual securities. The firm combines this fundamental research with a disciplined program of risk analysis. To seek superior returns over the long-term, Dodge & Cox emphasizes sector and security selection, strives to build portfolios that have a higher yield than the broad bond market, and analyzes portfolio and individual security risk. Dodge & Cox was retained by the SBI in February 2000.

Staff Comments

Dodge & Cox underperformed the benchmark by 40 bps in the first quarter, and by 400 bps over the last 12 months. The primary source of underperformance for the quarter and year was the portfolio's corporate bond sector overweight—particularly the financial sector. The portfolio's GSE-guaranteed MBS holdings added to performance, but a short-duration stance detracted from performance over the last 12 months.

PACIFIC INVESTMENT MANAGEMENT CO. LLC (PIMCO)
Periods Ending March, 2009

Portfolio Manager: Bill Gross

Assets Under Management: \$704,230,483

Investment Philosophy

PIMCO's investment approach seeks to outperform a client's benchmark on a consistent basis, while maintaining overall risk similar to the index. PIMCO's approach to investing has three key principles: the utilization of multiple strategies, a long-term orientation and bond selection from a broad universe. PIMCO's investment process starts with an annual Secular Forum. The goal of this Forum is to look beyond the current business cycle and determine how secular forces will play out over the next 3 to 5 years. Quarterly, PIMCO holds Economic Forums to evaluate growth and inflation over the next 6 to 9 months. Following PIMCO's Secular and Economic Forums, the PIMCO Investment Committee (IC) develops key portfolio strategies. They consider both the "top-down" conclusions emanating from PIMCO's Forum, as well as the "bottom-up" market intelligence provided by PIMCO's teams of sector specialist portfolio managers. Through an interactive series of meetings, the IC defines a set of consistent strategies that are then implemented.

Staff Comments

PIMCO outperformed the benchmark by 40 bps in the first quarter and has underperformed by 400 bps since inception in October 2008. An overweight to Agency MBS added to 1Q09 performance. However, an overweight to corporate bonds, non-Agency MBS, and CMBS has contributed to underperformance since the portfolio was transferred from Morgan Stanley to PIMCO. PIMCO has been trimming the non-Agency MBS exposure and has been adding select corporate bonds as well as TIPS and U.S. Agency and Treasury debt.

RIVERSOURCE INVESTMENTS
Periods Ending March, 2009

Portfolio Manager: Colin Lundgren

Assets Under Management: \$693,503,759

Investment Philosophy

RiverSource (formerly American Express) manages portfolios using a top-down approach culminating with in-depth fundamental research and credit analysis. Five portfolio components are actively managed: duration, maturity structure, sector selection, industry emphasis, and security selection. Duration and maturity structure are determined by the firm's economic analysis and interest rate outlook. This analysis also identifies sectors and industries expected to produce the best risk adjusted return. In-depth fundamental research and credit analysis combined with proprietary valuation disciplines is used to identify attractive individual securities. RiverSource was retained by the SBI in July 1993.

Staff Comments

Riversource outperformed the benchmark by 230 bps for the quarter and underperformed by 590 bps over the last 12 months. Security selection in investment-grade corporate bonds and MBS contributed to outperformance in 1Q09. An overweight to the High Yield corporate bond sectors also positively impacted performance. Over the last year, underperformance was driven by sector allocation and security selection in CMBS and non-Agency MBS. An overall portfolio duration underweight during the last 12 months also detracted from performance as interest rates have fallen significantly.

Quantitative Evaluation

	Actual	Benchmark

RIVERSOURCE INVESTMENTS - FIXED INCOME
Rolling Five Year VAM

Note: Area to the left of the vertical line includes performance prior to retention by the SBI.

WESTERN ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Steve Walsh

Assets Under Management: \$1,041,062,140

Investment Philosophy

Western emphasizes the use of multiple strategies and active sector and issue selection, while constraining interest rate risk. Multiple strategies are proportioned so that results do not depend on one or two opportunities. This approach adds consistent value over time and can reduce volatility. Long term value investing is Western's fundamental approach. In making their sector decision, the firm seeks out the greatest long-term value by analyzing all fixed income market sectors and their economic expectations. Individual issues are identified based on relative credit strength, liquidity, issue structure, event risk, and market valuation. Western believes that successful interest rate forecasting is extremely difficult and consequently keeps portfolio duration within a narrow band around the benchmark. Western was retained by the SBI in July 1984.

Staff Comments

Western outperformed the benchmark by 160 bps in the first quarter but underperformed by 840 bps over the last 12 months. Western held a modest TIPS exposure in 1Q09 as well as an overweight to the U.S. Agency sector. These factors as well as an overweight to Agency MBS and security selection within the corporate bond sector boosted 1Q09 performance. A corporate bond sector overweight detracted from first quarter and 12 month performance. Non-Agency MBS holdings were the main driver of underperformance over the last 12 months as that sector suffered from deteriorating fundamentals and a lack of liquidity.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	1.7%	0.1%
Last 1 year	-5.3	3.1

WESTERN ASSET MANAGEMENT
Rolling Five Year VAM

BLACKROCK, INC.
Periods Ending March, 2009

Portfolio Manager: Keith Anderson

Assets Under Management: \$1,312,035,963

Investment Philosophy

BlackRock manages an enhanced index portfolio closely tracking the Lehman Aggregate. The firm's enhanced index strategy is a controlled-duration, sector rotation style, which can be described as active management with tighter duration, sector, and quality constraints. BlackRock seeks to add value through: (i) controlling portfolio duration within a narrow band relative to the benchmark, (ii) relative value sector/sub-sector rotation and security selection, (iii) rigorous quantitative analysis to the valuation of each security and of the portfolio as a whole, (iv) intense credit analysis and review, and (v) the judgment of experienced portfolio managers. Advanced risk analytics measure the potential impact of various sector and security strategies to ensure consistent value added and controlled volatility. BlackRock was retained by the SBI in April 1996.

Staff Comments

Blackrock outperformed the benchmark by 30 bps in the first quarter but underperformed by 480 bps over the last 12 months. Security selection within the CMBS sector as well as an overweight to the ABS sectors were drivers of outperformance in 1Q09. However security selection within the corporate bond sector as well as an overall CMBS sector overweight detracted from 1Q09 returns. Over the last year, a CMBS sector overweight detracted from returns as that sector posted historic negative performance.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	0.4%	0.1%
Last 1 year	-1.7	3.1

BLACKROCK, INC.
 Rolling Five Year VAM

GOLDMAN SACHS ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Jonathon Beinner

Assets Under Management: \$1,309,506,066

Investment Philosophy

Goldman manages an enhanced index portfolio closely tracking the Lehman Aggregate. Goldman's process can be viewed as active management within a very risk-controlled framework. The firm relies primarily on sector allocation and security selection strategies to generate incremental return. To a lesser degree, term structure strategies are also implemented. Goldman combines long-term strategic investment tilts with short-term tactical trading opportunities. Strategic tilts are based on fundamental and quantitative sector research and seek to optimize the long-term risk/return profile of portfolios. Tactical trades between sectors and securities within sectors are implemented to take advantage of short-term market anomalies. Goldman was retained by the SBI in July 1993.

Staff Comments

Goldman Sachs outperformed the benchmark by 90 bps for the quarter and underperformed by 360 bps over the last 12 months. Outperformance for the quarter was driven by security selection within the ABS, CMBS, and Government (TIPS) sectors. Credit-sensitive MBS continued to suffer from a lack of liquidity in the quarter, and those securities detracted from performance. Over the last year, these same credit-sensitive MBS were the main detractor of performance. An overweight to the CMBS sector also contributed to the underperformance in the 12 month period as that sector performed poorly.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	1.0%	0.1%
Last 1 year	-0.5	3.1

GOLDMAN SACHS ASSET MANAGEMENT
Rolling Five Year VAM

NEUBERGER INVESTMENT MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Andrew Johnson

Assets Under Management: \$1,310,170,673

Investment Philosophy

Neuberger (formerly Lincoln) manages an enhanced index portfolio closely tracking the Barclay's Capital Aggregate. Neuberger's process relies on a combination of quantitative tools and active management judgment. Explicit quantification and control of risks are at the heart of their process. Neuberger uses proprietary risk exposure measures to analyze 25 interest rate factors, and over 30 spread-related factors. For each interest rate factor, the portfolio is very closely matched to the index to ensure that the portfolio earns the same return as the index for any change in interest rates. For each spread factor, the portfolio can deviate slightly from the index as a means of seeking value-added. Setting target active risk exposures that must fall within pre-established maximums controls risk. To control credit risk, corporate holdings are diversified across a large number of issues. Neuberger was retained by the SBI in July 1988.

Staff Comments

Neuberger was flat to the benchmark for the quarter and underperformed by 510 bps over the last 12 months. 1Q09 performance suffered from an overweight to the CMBS sector, but benefited from security selection in the RMBS and corporate bond sectors. Over the last 12 months, performance was negatively impacted by overweights in the CMBS and RMBS sectors, as those sectors performed poorly. A corporate bond sector overweight added to performance.

Quantitative Evaluation

ACADIAN ASSET MANAGEMENT LLC
Periods Ending March, 2009

Portfolio Manager: John Chisholm

Assets Under Management: \$147,324,297

Investment Philosophy

Acadian believes there are inefficiencies in the global equity markets that can be exploited by a disciplined quantitative investment process. In evaluating markets and stocks, Acadian believes it is most effective to use a range of measures, including valuation, price trends, financial quality and earnings information. Risk control is a critical part of the Acadian approach. Acadian's process seeks to capture value-added at both the stock and the sector/country level. The process is active and bottom-up, but each stock forecast also contains a sector/country forecast. Selection is made from a very broad investment universe using disciplined, factor-driven quantitative models. Portfolios are constructed with an optimizer and are focused on targeting a desired level of active risk relative to a client's chosen benchmark index.

Staff Comments

During the quarter, the portfolio's underweight position in the energy and materials sectors detracted from performance as did stock selection in those sectors.

For the year, stock selection in Japan, as well as in the industrials and materials sectors, detracted.

INVESCO GLOBAL ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Erik Granade

Assets Under Management: \$173,471,281

Investment Philosophy

INVESCO believes they can add value by identifying and investing in companies whose share price does not reflect the proven and sustainable growth of the company's earnings and assets. They also believe that a systematic process that identifies mis-valued companies, combined with a consistently applied portfolio design process, can control the predictability and consistency of returns. Portfolios are constructed on a bottom-up basis; they select individual companies rather than countries, themes, or industry groups. This is the first of four cornerstones of their investment approach. Secondly, they conduct financial analysis on a broad universe of non-U.S. companies whose key financial data is adjusted to be comparable across borders and currencies. Third, Invesco believes that using local investment professionals enhances fundamental company research. Finally, they manage risk and assure broad diversification relative to clients' benchmarks through a statistics-based portfolio construction approach rather than resorting to country or industry constraints.

Staff Comments

Stock selection in Japan and in the information technology and industrials sectors contributed positively to the portfolio's relative returns over both the quarter and the year.

J.P. MORGAN INVESTMENT MANAGEMENT INC.
Periods Ending March, 2009

Portfolio Manager: James Fisher

Assets Under Management: \$143,388,167

Investment Philosophy

JP Morgan's international equity strategy seeks to add value through active stock selection, while remaining diversified by both sector and region. The portfolio displays a large capitalization size bias and a slight growth orientation. Stock selection decisions reflect the insights of approximately 150 locally based investors, ranking companies within their respective local markets. The most attractive names in each region are then further validated by a team of Global Sector Specialists who seek to take the regional team rankings and put these into a global context. The team of six senior portfolio managers draws together the insights of both the regional and global specialists, constructing a portfolio of the most attractive names.

Staff Comments

Relative to the benchmark, the portfolio outperformed during the quarter and the year. Stock selection in the consumer discretionary and consumer staples sectors added significantly to returns over both periods.

Quantitative Evaluation

MARATHON ASSET MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: William Arah

Assets Under Management: \$321,134,310

Investment Philosophy

Marathon uses a blend of flexible, qualitative disciplines to construct portfolios which exhibit a value bias. Style and emphasis will vary over time and by market, depending on Marathon's perception of lowest risk opportunity. Since they believe that competition determines profitability, Marathon is attracted to industries where the level of competition is declining and they will hold a sector position as long as the level of competition does not increase. At the stock level, Marathon tracks a company's competitive position versus the attractiveness of their products or services and attempts to determine whether the company is following an appropriate reinvestment strategy for their current competitive position.

Staff Comments

The portfolio's underweight position in financials, one of the worst performing sectors, as well as stock selection in that sector contributed significantly to performance over the quarter and the year.

Quantitative Evaluation

MCKINLEY CAPITAL MANAGEMENT, INC.
Periods Ending March, 2009

Portfolio Manager: Robert Gillam, Jr.

Assets Under Management: \$152,671,448

Investment Philosophy

At McKinley Capital, investment decisions are based on the philosophy that excess market returns can be achieved through the construction and active management of a diversified, fundamentally sound portfolio of inefficiently priced common stocks whose earnings growth rates are accelerating above market expectations. A disciplined quantitative investment process drives all product strategies. The firm can be described as a bottom-up growth manager. They employ both a systematic screening process and a qualitative overview to construct and manage portfolios. Investment ideas are initially generated by the quantitative investment process. The balance of the qualitative overlay seeks to identify securities with earnings estimates that are reasonable and sustainable. All portfolios managed by McKinley Capital use the same investment process and construction methodology to manage portfolios.

Staff Comments

During the quarter, stock selection in the energy and materials sectors, which rebounded, contributed to positive relative performance. For the year, selection and weighting decisions in these two sectors detracted. Over both time periods, the portfolio's underweight to financials added value.

Quantitative Evaluation

PYRAMIS GLOBAL ADVISORS TRUST COMPANY
(Formerly Fidelity Management Trust Company)
Periods Ending March, 2009

Portfolio Manager: Michael Strong

Assets Under Management: \$158,702,791

Investment Philosophy

International Growth is a core, growth-oriented strategy that provides diversified exposure to the developed international markets. The investment process combines active stock selection and regional asset allocation. Four portfolio managers in London, Tokyo, Hong Kong, and Boston construct regional sub-portfolios, selecting stocks based on Fidelity analysts' bottom-up research and their own judgment and expertise. Portfolio guidelines seek to ensure risk is commensurate with the performance target and to focus active risk on stock selection. Resulting portfolios typically contain between 200-250 holdings.

Staff Comments

During the quarter and the year, stock selection in the materials, consumer staples and financials sectors, contributed positively to the portfolio's performance.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	-11.5%	-13.1%

RIVERSOURCE INVESTMENTS
Periods Ending March, 2009

Portfolio Manager: Esther Perkins

Assets Under Management: \$165,301,459

Investment Philosophy

RiverSource's philosophy focuses on key forces of change in markets and the companies that will benefit. The firm believes that in a global marketplace, where sustainable competitive advantage is rare, their research should focus on the dynamics of change. A good understanding of the likely impact of these changes at a company level, complemented with an appreciation of the ability of management to exploit these changes, creates significant opportunities to pick winners and avoid losers.

Staff Comments

Stock selection decisions overall, particularly in the materials, energy and healthcare sectors, added value over both the quarter and the year.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	-10.7%	-13.1%
Last 1 year	-41.8	-46.3
Last 2 years	-24.3	-27.1

Note: Area to the left of vertical line includes performance prior to retention by the SBI.

UBS GLOBAL ASSET MANAGEMENT, INC.
Periods Ending March, 2009

Portfolio Manager: Nick Irish

Assets Under Management: \$162,584,042

Investment Philosophy

UBS's investment research process focuses on identifying discrepancies between a security's fundamental or intrinsic value and its observed market price both across and within international equity markets. UBS exploits these discrepancies using a disciplined fundamental approach. The research analysts evaluate companies in their markets around the world and assign relative price/intrinsic value rankings based on the present value of the future cash flows. The portfolio management team draws upon the analysts' stock and industry-level research and synthesizes it with the firm's macro analysis of the global economy, country specific views and various market-driven issues to systematically develop portfolio strategy. UBS develops currency strategies separately and in coordination with country allocations. They utilize currency equilibrium bands to determine which currencies are over or under valued.

Staff Comments

The portfolio added value over the quarter and the year, in large part due to UBS' currency strategy, which is managed separately from the stock selection strategy. During the year, Japanese stock selection was again the single largest negative contributor to the portfolio's performance.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	-10.0%	-13.1%
Last 1 year	-44.1	-46.3
Last 2 years	-27.0	-27.1

ALLIANCEBERNSTEIN L.P.
Periods Ending March, 2009

Portfolio Manager: Steve Beinhacker

Assets Under Management: \$218,249,198

Investment Philosophy

Alliance employs a growth style of investment management. They believe that fundamental research-driven stock selection, structured by industries within regions, will produce superior investment performance. Their strategy emphasizes bottom-up, large capitalization stock selection. Country and industry exposures are a by-product of stock selection. Alliance looks for companies with the best combination of forward-looking growth and valuation attractiveness.

Staff Comments

The portfolio underperformed during the quarter and the year. Over both periods, stock selection in the telecommunications and materials sectors detracted from returns.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	0.5%	0.9%
Last 1 year	-50.2	-46.9
Last 2 years	-22.8	-19.6
Last 3 years	-10.8	-8.0
Last 4 years	1.2	3.5

CAPITAL INTERNATIONAL, INC.
Periods Ending March, 2009

Portfolio Manager: Victor Kohn

Assets Under Management: \$374,627,207

Investment Philosophy

Capital International's philosophy is value-oriented, as they focus on identifying the difference between the underlying value of a company and the price of its securities in its home market. Capital International's basic, fundamental, bottom-up approach is blended with macroeconomic and political judgments on the outlook for economies, industries, currencies and markets. The team of portfolio managers and analysts each select stocks for the portfolio based on extensive field research and direct company contact.

Staff Comments

Over the quarter and the year, the portfolio outperformed. An underweight position in financials contributed positively over both time periods. During the quarter, stock selection in China and South Africa contributed positively, as did stock selection in Korea and Taiwan over the year.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	3.2%	0.9%

MORGAN STANLEY INVESTMENT MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Ruchir Sharma

Assets Under Management: \$347,911,209

Investment Philosophy

Morgan Stanley's style is core with a growth bias. They follow a top-down approach to country allocation and a bottom-up approach to stock selection. Morgan Stanley's macro-economic and stock selection analyses are qualitative as well as quantitative, concentrating on fundamentals. Their top-down analysis highlights countries with improving fundamentals and attractive valuations. Their bottom-up approach to stock selection focuses on purchasing companies with strong operating earnings potential at attractive valuations.

Staff Comments

The portfolio underperformed over both the quarter and the year. Stock selection and weighting decisions in Poland, Brazil, and in the financials and materials sectors detracted from returns over both time periods.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	-3.1%	0.9%
Last 1 year	-48.0	-46.9
Last 2 years	-21.6	-19.6
Last 3 years	-8.6	-8.0

MORGAN STANLEY INVESTMENT MANAGEMENT
Rolling Five Year VAM

AQR CAPITAL MANAGEMENT, LLC
Periods Ending March, 2009

Portfolio Manager: Cliff Asness

Assets Under Management: \$152,738,203

Investment Philosophy

AQR employs a disciplined quantitative approach emphasizing both top-down country/currency allocation and bottom-up security selection decisions to generate excess returns. AQR's investment philosophy is based on the fundamental concepts of value and momentum. AQR's international equity product incorporates stock selection, country selection, and currency selection models as the primary alpha sources. Dynamic strategy allocation (between the three primary alpha sources) and style weighting are employed as secondary alpha sources.

Staff Comments

The portfolio matched the index over the quarter and narrowly added value over the year. The portfolio's underweight position in the financials sector, which was one of the worst performers, contributed significantly over both time periods.

Quantitative Evaluation

	Actual	Benchmark
Last Quarter	-13.1%	-13.1%
Last 1 year	-46.1	-46.3

PYRAMIS GLOBAL ADVISORS TRUST COMPANY
(Formerly Fidelity Management Trust Company)
Periods Ending March, 2009

Portfolio Manager: Cesar Hernandez

Assets Under Management: \$168,701,983

Investment Philosophy

Select International combines active stock selection with quantitative risk control to provide consistent excess returns above the benchmark while minimizing relative volatility and risk. By combining five regional sub-portfolios in the U.K., Canada, Continental Europe, Japan, and the Pacific Basin ex Japan, the portfolio manager produces a portfolio made up of the best ideas of the firm's research analysts. Each regional portfolio is created so that stock selection is the largest contributor to active return while systematic, sector, and factor risks are minimized. The portfolio manager uses a combination of proprietary and third-party optimization models to monitor and control risk within each regional module. Resulting portfolios typically contain between 275-325 holdings.

Staff Comments

The portfolio narrowly outperformed over the quarter and underperformed during the year. Negative stock selection in Japan contributed significantly over both periods, but was offset during the quarter by the positive effects of stock selection in the United Kingdom and in the information technology and materials sectors.

Quantitative Evaluation

Rolling Five Rolling VAM

Note: Shaded area includes performance prior to retention by the SBI.

STATE STREET GLOBAL ADVISORS
Periods Ending March, 2009

Portfolio Manager: Didier Rosenfeld

Assets Under Management: \$152,141,589

Investment Philosophy

SSgA's Alpha strategy is managed using a quantitative process. Stock selection provides the best opportunity to add consistent value. Industry factors have come to dominate country factors and an approach that uses industry weights to add incremental value complements stock selection. Unwanted biases are controlled for through disciplined risk-control techniques. Country and regional allocations are a result of the security selection process but are managed to remain with +/- 5% of the benchmarks allocation. Sector and industry allocations are managed to be within +/- 3% of the benchmarks allocation. The portfolio managers on this team have extensive experience and insight, which is used in conjunction with the models to create core portfolios.

Staff Comments

The portfolio matched the index over the quarter and underperformed for the year. Stock selection in the financials sector detracted significantly from returns over both periods. During the quarter, this was offset by positive contributions from selection in the consumer staples and energy sectors.

Quantitative Evaluation

	Actual	Benchmark

STATE STREET GLOBAL ADVISORS - ALPHA
Rolling Five Rolling VAM

Note: Shaded area includes performance prior to retention by the SBI.

STATE STREET GLOBAL ADVISORS
Periods Ending March, 2009

Portfolio Manager: Lynn Blake

Assets Under Management: \$2,008,262,310

Investment Philosophy

State Street Global Advisors passively manages the portfolio against the Morgan Stanley Capital International (MSCI) World ex U.S. index of 22 markets located in the developed markets outside of the United States (including Canada). SSgA fully replicates the index whenever possible because it results in lower turnover, higher tracking accuracy and lower market impact costs. The MSCI World ex U.S. (net) index reinvests dividends assuming a withholding tax on dividends, according to the Luxembourg tax rate. Whereas the portfolio reinvests dividends using all available reclaims and tax credits available to a U.S. pension fund, which should result in modest positive tracking error, over time.

Staff Comments

The tracking error of the portfolio is within expectation over all time periods.

GE ASSET MANAGEMENT - Assigned Risk Plan
Periods Ending March, 2009

Portfolio Manager: Dave Carlson

Assets Under Management: \$42,687,211

Investment Philosophy
Assigned Risk Plan

GE's Multi-Style Equity program attempts to outperform the S&P 500 consistently while controlling overall portfolio risk through a multiple manager approach. A value portfolio, a growth portfolio and a research portfolio are combined to create a well diversified equity portfolio while maintaining low relative volatility and a style-neutral position between growth and value. All GE managers focus on stock selection from a bottom-up perspective.

VOYAGEUR ASSET MANAGEMENT - Assigned Risk Plan
Periods Ending March, 2009

Portfolio Manager: John Huber

Assets Under Management: \$251,462,430

Investment Philosophy
Assigned Risk Plan

Voyageur uses a top-down approach to fixed income investing. Their objective is to obtain superior long-term investment returns over a pre-determined benchmark that reflects the quality constraints and risk tolerance of the Assigned Risk Plan. Due to the specific liability requirement of the plan, return enhancement will focus on sector analysis and security selection. Yield curve and duration analysis are secondary considerations.

GALLIARD CAPITAL MANAGEMENT
Periods Ending March, 2009

Portfolio Manager: Karl Tourville

Assets Under Management: \$1,150,947,169

Investment Philosophy

Galliard Capital Management manages the Fixed Interest Account in the Supplemental Investment Fund. The stable value fund is managed to protect principal and provide competitive interest rates using instruments somewhat longer than typically found in money market-type accounts. The manager invests cash flows to optimize yields. The manager invests in high quality instruments diversified among traditional investment contracts and alternative investment contracts with U.S. and non-U.S. financial institutions. To maintain necessary liquidity, the manager invests a portion of the portfolio in its Stable Return Fund and in cash equivalents. The Stable Return Fund is a large, daily priced fund consisting of a wide range of stable value instruments that is available to retirement plans of all sizes.

INTERNAL STOCK POOL - Trust/Non-Retirement Assets
Periods Ending March, 2009

Portfolio Manager: Mike Menssen

Assets Under Management: \$622,768,880

Investment Philosophy
Environmental Trust Fund
Permanent School Fund

Staff Comments

The Internal Equity Pool is managed to closely track the S&P 500 Index. The strategy replicates the S&P 500 by owning all of the names in the index at weightings similar to those of the index. The optimization model's estimate of tracking error with this strategy is approximately 10 basis points per year.

INTERNAL BOND POOL - Income Share Account
Periods Ending March, 2009

Portfolio Manager: Mike Messen

Assets Under Management: \$77,882,364

Investment Philosophy
Income Share Account

The investment approach emphasizes sector and security selection. The approach utilizes sector trading and relative spread analysis of both sectors and individual issues. The portfolio weightings in mortgage and corporate securities are consistently equal to or greater than the market weightings. The portfolio duration remains close to the benchmark duration but may be shortened or lengthened depending on changes in the economic outlook.

**Investment Philosophy
Janus Twenty**

The investment objective of this fund is long-term growth of capital from increases in the market value of the stocks it owns. The fund will concentrate its investments in a core position of between twenty to thirty common stocks. This non-diversified fund seeks to invest in companies that the portfolio manager believes have strong current financial positions and offer growth potential.

**Investment Philosophy
Legg Mason Partners Appreciation I**

The Fund invests in U.S. growth and value stocks, primarily blue-chip companies that are dominant in their industries. Investments are selected from among a core base of stocks with a strong financial history, recognized industry leadership, and effective management teams that strive to earn consistent returns for shareholders. The portfolio manager looks for companies that he believes are undervalued with the belief that a catalyst will occur to unlock these values.

**State's Participation in Fund: \$258,956,748
Total Assets in Fund: \$17,144,000,000**

**Investment Philosophy
Vanguard Institutional Index**

This fund attempts to provide investment results, before fund expenses, that parallel the performance of the Standard & Poor's 500 Index. The fund invests in all 500 stocks listed in the S&P 500 index in approximately the same proportions as they are represented in the index. The managers have tracked the S&P 500's performance with a high degree of accuracy. The fund may use futures and options for temporary purposes, but generally remains fully invested in common stock.

**MN STATE 457 DEFERRED COMPENSATION PLAN
MID CAP EQUITY – VANGUARD MID-CAP INDEX
Periods Ending March, 2009**

Portfolio Manager: Donald Butler

**State's Participation in Fund: \$84,496,005
Total Assets in Fund: \$3,648,000,000**

**Investment Philosophy
Vanguard Mid-Cap Index**

The fund employs a “passive management”- or indexing-investment approach designed to track the performance of the MSCI US Mid Cap 450 Index, a broadly diversified index of stocks of medium-size U.S. companies. The fund attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting within the index.

**State's Participation in Fund: 211,298,753
Total Assets in Fund: 3,359,584,824**

**Investment Philosophy
T. Rowe Price Small Cap Equity Fund**

Staff Comments

The strategy of this fund is to invest primarily in stocks of small to medium-sized companies that are believed to offer either superior earnings growth or appear undervalued. The fund normally invests at least 80% of assets in equities traded in the U.S. over-the-counter market. The manager does not favor making big bets on any particular sector or any particular stock. The fund's combination of growth and value stocks offers investors relatively more stable performance compared to other small cap stock funds.

**STATE 457 DEFERRED COMPENSATION PLAN
BALANCED – DODGE & COX BALANCED FUND
Periods Ending March, 2009**

Portfolio Manager: John Gunn

**State's Participation in Fund: \$169,459,390
Total Assets in Fund: \$12,453,668,481**

**Investment Philosophy
Dodge & Cox Balanced Fund**

The Fund seeks regular income, conservation of principal and an opportunity for long-term growth of principal and income. The Fund invests in a diversified portfolio of common stocks preferred stocks and fixed income securities.

Staff Comments

The manager underperformed in the quarter and for the year, primarily due to a higher relative allocation to equities and to stock selection in financials and information technology. While the last several quarters have been quite disappointing, the manager remains committed to maintaining its bottom-up, fundamental research-driven approach to investing.

Periods Ending March, 2009**

Portfolio Manager: Michael Perre

**State's Participation in Fund: \$125,422,783
Total Assets in Fund: \$2,218,000,000**

**Investment Philosophy
Vanguard Balanced Index Fund**

The fund's assets are divided between stocks and bonds, with an average of 60% of its assets in stocks and 40% in bonds. The fund's stock segment attempts to track the performance of the MSCI US Broad Market Index, an unmanaged index representing the overall U.S. equity market. The fund's bond segment attempts to track the performance of the Lehman Brothers Aggregate Bond Index, an unmanaged index that covers virtually all taxable fixed-income securities.

**Investment Philosophy
Dodge & Cox Income Fund**

Staff Comments

The objective of this fund is a high and stable rate of current income with capital appreciation being a secondary consideration. This portfolio is invested primarily in intermediate term, investment-grade quality corporate and mortgage bonds and, to a lesser extent, government issues. While the fund invests primarily in the U.S. bond market, it may invest a small portion of assets in dollar-denominated foreign securities. The duration of the portfolio is kept near that of the bond market as a whole.

Staff Comments

The fund attempts to track the performance of the Lehman Brothers Aggregate Bond Index, which is a widely recognized measure of the entire taxable U.S. bond market. The index consists of more than 5,000 U.S. Treasury, federal agency, mortgage-backed, and investment-grade corporate securities. Because it is not practical or cost-effective to own every security in the index, the fund invests in a large sampling that matches key characteristics of the index (such as market-sector weightings, coupon interest rates, credit quality, and maturity). To boost returns, the fund holds a higher percentage than the index in short-term, investment-grade corporate bonds and a lower percentage in short-term Treasury securities.

**Investment Philosophy
Fidelity Diversified International**

Staff Comments

The goal of this fund is capital appreciation by investing in securities of companies located outside of the United States. While the fund invests primarily in stocks, it may also invest in bonds. Most investments are made in companies that have a market capitalization of \$100 million or more and which are located in developed countries. To select the securities, the fund utilizes a rigorous computer-aided quantitative analysis supplemented by relevant economic and regulatory factors. The manager rarely invests in currency to protect the account from exchange fluctuations.

Staff Comments

The fund seeks to track the performance of the MSCI EAFE Index by passively investing in two other Vanguard funds—the European Stock Index Fund and the Pacific Stock Index Fund. The combination of the two underlying index funds, in turn, seeks to track the investment results of the Morgan Stanley Capital International (MSCI) Europe, Australasia, Far East (EAFE) Index. The MSCI EAFE Index includes approximately 1,000 common stocks of companies located in Europe, Australia, Asia, and the Far East.

TO: Members, Investment Advisory Council

FROM: Stephanie Gleeson

SUBJECT: Recommendation to terminate UBS Global Asset Management, an international equity manager.

Staff reviewed and UBS appeared before the February 13, 2008 Stock & Bond Manager Committee meeting. At that time, Staff outlined the significant amount of issues UBS was experiencing in this product, including an extremely high level of investment staff turnover, asset loss and performance issues. UBS also acknowledged that there had been a breakdown in communication between analysts and the portfolio management team, ill-defined roles and inexperienced asset managers on the portfolio management team which had grown too much over time, and a decline in the quality of research, particularly in Japan. These issues have led to underperformance in each of the last six calendar years, and asset loss of \$2.2B in 2006, \$2.9B in 2007 and \$3.1B in 2008. UBS discussed these issues at the Committee meeting, said they had put key new people in place and were addressing the problems. However, since the February 2008 meeting, there has been continued turnover of investment staff, asset loss, and underperformance of the stock selection strategy (the currency selection strategy, which is managed separately and by a different team, has added value).

Investment Team

By way of background, as of 2007 UBS' Global Equity team had grown from ten to fifteen people, all of whom have since left the team. At the Stock & Bond Manager Committee meeting in 2008, UBS introduced the new head of the Global Equity team, Nick Melhuish who joined UBS from Nicholas Applegate in October 2007. UBS also stated that another new team member, Nick Irish, would be joining from HSBC in March 2008 to manage the SBI's account and all other Global ex-US accounts. The newly configured Global Equity team also included four other UBS members: Bruno Bertocci, Niraj Bahwat, Shari Gilfillan and Nicola Hinton-Jones. Since the February 2008 meeting, the four UBS members are no longer on the portfolio management team, and Nick Melhuish and Nick Irish remain the sole Global Equity team members.

Research

Over the two years prior to when Nick Melhuish joined in October 2007, UBS had changed 80% of their European analysts, and a number of key analysts in Japan had left the firm. Japan research was a significant weakness and stock selection in that market was the single largest negative contributor by far to underperformance in four out of five calendar years through 2007. In addition, as previously mentioned, communication between portfolio managers and analysts in all regions was poor and they were

effectively operating in separate “camps”, per UBS. Nick Melhuish was tasked with “helping to integrate research and portfolio management” and with “getting research to where it needs to be in different locations”. Whether or not this has occurred is not clear to SBI staff. In 2008, there was additional turnover. In the 3Q08, Marcus Eichacher, Research Director for Asia ex-Japan, left the firm and in the 4Q08, Jill Dodds, Research Director for European Equities left UBS.

In the 2Q08, UBS terminated all but one of the firm’s global equity Japan analysts. The remaining analyst, who covers consumer sectors, was relocated to Singapore, where UBS has a well-established investment team. UBS has hired two other Japan analysts who sit with the Singapore team and cover Japanese financials, and Japanese machinery/materials/industrials respectively. UBS has stated that the Japanese technology, healthcare, and auto sectors have been picked up by sector analysts in London. For the year ending March 31, 2009, stock selection in Japan was again the single largest negative contributor by far to performance.

In Europe during 2008, UBS rebuilt their financials coverage (which SBI staff recently learned had been another area of weakness) by adding a senior insurance analyst, and a senior banks analyst. In addition, in the 1Q09 Nick Melhuish announced that he will add a new group of six Global Sector analysts to the Global Equity team. Two global sector analysts were hired in March 2009, and the remainder will be added over time and will all sit in London. Currently, regional analysts sit in several locations worldwide and conduct detailed fundamental research on stocks in sectors within those regions (i.e. European banks, Japan banks, Asia ex-Japan banks etc). The global sector analysts will compare stocks across regions. However, when SBI staff discussed this change with Nick Melhuish, he did not specify the roles and functions of this new layer of global sector analysts. It is not clear if they will conduct primary research, if they will calculate a separate alpha rating for stocks (or will otherwise rank/grade stocks), and how the communication will flow between the regional analysts, the global sector analysts, and the portfolio management team. This apparent lack of clarity is of considerable concern to SBI staff given both the research issues and the communication issues between analysts and investment managers that the UBS has previously acknowledged.

Assets Under Management

Over the last three years, there has been a significant loss of assets in the product in which the SBI is invested. Other institutional investors have clearly lost confidence in this strategy.

CY	Accounts Lost	Accounts Gained	Product Assets Under Management (4Q)	SBI Account (4Q)
2006	\$2.2 billion	\$0.4 billion	\$11.6 billion	\$546 million
2007	\$2.9 billion	\$0	\$5.5 billion	\$322 million
2008	\$3.1 billion	\$0	\$1.5 billion	\$180 million

Performance & Attribution

The portfolio has underperformed consistently in recent time periods. It has underperformed in each of the last six calendar years, in ten out of sixteen calendar years since inception (the portfolio was funded in 2Q of 1993.) In the rolling five-year vtm chart, the portfolio vtm has plotted below the benchmark line since approximately March 2006. Quarterly performance and vtm charts are included at the end of this report.

As previously stated, in five out of the last six calendar years, stock selection in Japan has been the primary negative contributor to the portfolio's underperformance. Recently, the portfolio has added value in large part due to the currency selection strategy which is managed separately and by a different team of people from those selecting stocks.

RECOMMENDATION:

Staff is concerned by the continued amount of turnover on UBS' global equity investment team, the lack of clearly defined roles for the new global sector analysts, the continued asset loss in the product, and the persistent underperformance of the stock selection strategy particularly in Japan. Staff recommends terminating the SBI's relationship with UBS for the international equity mandate.

DATE: May 13, 2009

TO: Members, Investment Advisory Council

FROM: **John Griebenow**
Michael McGirr

Staff has reviewed the following information and action agenda items:

1. Review of current strategy.
2. New investment with an existing yield-oriented manager, Merit Capital and a new investment with an existing private equity manager, Lexington Capital Partners.

IAC action is required on the last item.

INFORMATION ITEMS:

1) Review of Current Strategy.

To increase overall portfolio diversification, 20% of the Basic and Post Retirement Funds are allocated to alternative investments. Alternative investments include real estate, private equity, resource, and yield-oriented investments in which Minnesota State Board of Investment (SBI) participation is limited to commingled funds or other pooled vehicles. Charts summarizing the Board's current commitments are attached (see **Attachments A and B**).

1. The real estate investment strategy calls for the establishment and maintenance of a broadly diversified real estate portfolio comprised of investments that provide overall diversification by property type and location. The main component of this portfolio consists of investments in diversified Real Estate Investment Trusts (REITs), open-end commingled funds and closed-end commingled funds. The remaining portion of the portfolio can include investments in less diversified; more focused (specialty) commingled funds and REITs.
2. The private equity investment strategy, which includes leveraged buyouts and venture capital, is to establish and maintain a broadly diversified private equity portfolio comprised of investments that provide diversification by industry type, stage of corporate development and location.

3. The strategy for resource investments is to establish and maintain a portfolio of resource investment vehicles that provide an inflation hedge and additional diversification. Resource investments will include oil and gas investments, energy service industry investments and other investments that are diversified geographically and by type.
4. The strategy for yield-oriented investments will target funds that typically provide a current return and may have an equity component such as subordinated debt or mezzanine investments. Yield-oriented investments will provide diversification by including investments in the private equity, resource and real estate categories.

ACTION ITEM:

1) Investment with an existing yield-oriented manager, Merit Capital, in Merit Mezzanine Fund V, L.P.

Merit is seeking investors for a new \$600 million yield-oriented fund. This fund is a successor to four prior yield-oriented funds managed by Merit. The SBI has invested in funds III and IV. Like the prior funds, this fund will seek to earn attractive returns through a diversified portfolio of yield-oriented investments.

In addition to reviewing the attractiveness of the Merit Mezzanine V, L.P. investment offering, staff has conducted reference checks, a literature database search and reviewed the potential investor base for fund V.

More information on Merit Mezzanine V, L.P. is included as **Attachment C**.

RECOMMENDATION:

Staff is recommending a commitment of up to \$50 million or 20%, whichever is less, in Merit Mezzanine V, L.P. Approval by the Investment Advisory Council of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Merit upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Merit or reduction or termination of the commitment.

2) Investment with an existing private equity manager, Lexington Capital Partners, in Lexington Capital Partners VII, L.P.

Lexington Capital Partners is seeking investors for a new \$5 billion private equity fund. This fund is a successor to six other prior private equity funds managed by Lexington Capital Partners. The SBI has invested in fund VI. Like the prior funds, this fund will seek to earn attractive returns through a diversified portfolio of private equity, mezzanine, and venture capital investments through secondary transactions.

In addition to reviewing the attractiveness of the Lexington Capital Partners VII, L.P. investment offering, staff has conducted reference checks, a literature database search and reviewed the potential investor base for fund VII.

More information on Lexington Capital Partners VII, L.P. is included as **Attachment D**.

RECOMMENDATION:

Staff is recommending a commitment of up to \$50 million or 20%, whichever is less, in Lexington Capital Partners VII, L.P. Approval by the Investment Advisory Council of this potential commitment is not intended to be, and does not constitute in any way, a binding or legal agreement or impose any legal obligations on the State Board of Investment and neither the State of Minnesota, the Investment Advisory Council, the State Board of Investment nor its Executive Director have any liability for reliance by Lexington Capital Partners upon this approval. Until the Executive Director on behalf of the SBI executes a formal agreement, further due diligence and negotiations may result in the imposition of additional terms and conditions on Lexington Capital Partners or reduction or termination of the commitment.

Because there is no industry-standardized method for valuation or reporting, comparisons of performance and valuation data among different investments is difficult.

YIELD-ORIENTED MANAGER SUMMARY PROFILE

I. Background Data

Name of Fund:	Merit Mezzanine Fund V, L.P. ("The Fund")
Type of Fund:	Yield-Oriented
Total Fund Size:	\$600 million
Fund Manager:	Merit Capital Partners V, L.P.
Manager Contact:	Marc Walfish 303 West Madison St., Ste. 2100 Chicago, IL 60606 312-592-6150

II. Organization and Staff

Based in Chicago, the six senior managers of the General Partner will be Thomas F. Campion, David M. Jones, Timothy J. MacKenzie, Daniel E. Pansing, Terrance M. Shipp and Marc J. Walfish, who managed the four prior mezzanine funds. Funds I, II and III were named William Blair Mezzanine as it reflected the investment bank's involvement in the General Partner. Beginning with Fund IV, William Blair was no longer involved as a general partner, necessitating a name change to Merit. These individuals have an average experience in the mezzanine industry of over twenty years.

III. Investment Strategy

Fund V's investment objective is to provide investors with a superior risk-adjusted return by constructing a diversified portfolio of mezzanine investments providing significant current income and equity-oriented capital appreciation. It is anticipated that the current income component will average approximately 10% to 11% annually, with the balance of the return derived from equity-related gains. To achieve the targeted returns, the principals will continue to pursue a strategy of proactive, value-added investing based on the following fundamental principles:

Disciplined Investing Approach and Diversification: The General Partner will adhere to the same disciplined investing philosophy its principals have employed in the past. The focus will remain on investing in stable, established, well-managed, middle-market companies demonstrating strong and consistent earnings and cash flow. The General Partner will focus on companies with defensible market positions in industries with significant barriers to entry. The target portfolio will be diversified by making approximately 20 separate investments, avoiding industry concentration while financing recapitalizations and growth situations as well as management buyouts.

Unique Investment Origination Capabilities and Transaction Control: The General Partner expects the performance of Fund V to be enhanced by its direct origination capabilities, combined with Fund V's objective to be the lead mezzanine investor in substantially all of its investments. These two factors minimize competitive bidding situations, increasing Fund V's ability to structure investments, set terms and obtain favorable pricing.

Proactive Mezzanine Investing: From both a personnel and strategic standpoint, the General Partner is very comfortable taking a much more active role in the sourcing, structuring and monitoring of its investments than a traditional mezzanine investor. The General Partner's principals have successfully participated in this proactive market segment for many years. They find it to be a highly attractive segment for two primary reasons. First, since private equity sponsors normally are not involved in these transactions, the market is not dependent upon leveraged buyout activity which ebbs and flows with the availability of senior debt, the prevailing cost of capital, and the level of investment banker generated deal flow. Many of the opportunities in the proactive market instead take the form of recapitalizations and growth situations, quite often at more conservative valuations than in the leveraged buyout market. The General Partner's principals have successfully sourced transactions in both the recapitalization and leveraged buyout markets and will continue to invest in each depending on relative market conditions.

The second, and even more compelling reason to concentrate on this proactive market segment, relates to simple economics. By adding significant value to the process, both upfront and over time, competition and pricing pressure are greatly reduced. In each of the prior funds, the General Partner was able to source numerous transactions in which there were few, if any, direct competitors. The General Partner was thus able to consistently structure investments in the prior funds with minimum targeted gross returns in excess of 20%. The General Partner believes the attractive risk-adjusted expected returns of the prior funds are a direct result of its demonstrated ability to successfully operate in this less efficient market segment.

Current Market Opportunity: The General Partner is confident that, despite the current economic difficulties, this is an opportune time to invest in quality mezzanine transactions. The General Partner believes that the current recessionary climate shares certain similarities with the 2001 through 2003 economic cycle, including a reduction in the number of competitive sources of capital, lower valuation multiples and a conservative credit environment. Transactions consummated by the General Partner during this 2001 to 2003 period resulted in gross returns that were significantly higher than its overall historical average return of slightly more than 20%. The General Partner anticipates that the supply of mezzanine capital, particularly in the proactive segment, will be insufficient to adequately fund the available opportunities over the next few years. As a result, pricing is expected to increase from levels recently observed and provide for gross projected returns meaningfully in excess of 20%. From the standpoint of deal flow, the General Partner's ability to finance recapitalizations, which does not require an outright sale, will allow it to invest throughout all cycles, even when M&A activity has diminished.

IV. Investment Performance

Previous fund performance as of December 31, 2008 for Merit Capital Partners and the SBI's investments with previous funds, where applicable, is shown below:

Fund	Inception Date	Total Equity Commitments	SBI Investment	Net IRR from Inception
Merit Mezz. Fund IV	2005	\$455 million	\$75 million	4%
William Blair Mezz. Fund III	2000	\$311 million	\$60 million	16%
William Blair Mezz. Fund II	1997	\$190 million	--	11%
William Blair Mezz Fund I	1993	\$115 million	--	14%

Previous Fund investments may be relatively immature and therefore, returns may not be indicative of future results.

V. General Partner's Investment

The General Partner will commit at least \$12 million to Fund V.

VI. Takedown Schedule

Commitments are expected to be drawn down as needed with not less than 10 days' prior written notice.

VII. Management Fee

Commencing on the Effective Date and during the six-year investment period ("Commitment Period"), Fund V will pay the General Partner an annual management fee (the "Management Fee") equal to 1.75% of aggregate Commitments, payable quarterly in advance. The Management Fee will be reduced each year by all transaction fee income received by the General Partner. In the year immediately following the expiration of the Commitment Period, the Management Fee will be equal to 1.75% of Invested Capital (as defined in the PPM). Upon the occurrence of a "Triggering Event" (defined as the earlier of (i) the seventh anniversary of the Effective Date and (ii) the effective date of a new mezzanine fund of the type described under "Other Mezzanine Funds" in the PPM), the Management Fee will be reduced in accordance with the schedule described in the PPM.

VIII. Distributions

Income from short-term investments (e.g., Treasury bills, certificates of deposit, etc.) will be allocated to the Capital Accounts of the Partners in proportion to their Commitments.

Portfolio interest income, dividends and gains and losses will be allocated 80% to all Partners in proportion to their Commitments and 20% to the General Partner. Organizational expenses payable by Fund V will be allocated to all Partners in proportion to their Commitments, while the Management Fee and other Fund V expenses generally will be allocated 80% to the Capital Accounts of all Partners in proportion to their Commitments, and 20% to the Capital Account of the General Partner.

Notwithstanding the above, income, gains, losses and expenses will be allocated as follows:

First, 100% to the accounts of all Partners in proportion to their Commitments, until such time as they have been allocated a compounded annual rate of 8% on their investment (the "Preferred Return");

Second, 100% to the General Partner until such time as the General Partner has been allocated (excluding allocations to the General Partner with respect to its Commitment) its 20% profit participation; and

Thereafter, in the manner described in the section above (See "Allocation of Income, Gains, Losses & Expenses"); that is, generally 80% to all Partners in proportion to their Commitments and 20% to the General Partner.

IX. Investment Period and Term

The Fund will have a six-year investment period and a term of ten years, with discretion of the General Partner to extend the term for not more than three one-year periods to allow for the orderly termination and liquidation of Fund V's investments.

PRIVATE EQUITY MANAGER SUMMARY PROFILE

I. Background Data

<i>Name of Fund:</i>	Lexington Capital Partners VII, L.P.
<i>Type of Fund:</i>	Private Equity Limited Partnership
<i>Total Fund Size:</i>	\$5.0 billion
<i>Fund Manager:</i>	Lexington Advisors Inc.
<i>Manager Contact:</i>	Nick Harris 3000 Sand Hill Rd. Building 1, Ste 220 Menlo Park, CA 94025 650-561-9600

II. Organization and Staff

During the period 1990 to 1995, several principals of what is now Lexington Advisors Inc. helped organize secondary interest funds (Co-Managed Funds) as part of another secondary firm, Landmark Partners Inc. In early 1996, Lexington Advisors Inc. spun-out from Landmark Partners Inc. to form a separate and independent secondary interest investment entity. Collectively, since 1990, through the Lexington and Co-Managed Funds, Lexington has committed to invest approximately \$9.7 billion, acquiring a total of 1,390 interests in 943 partnerships.

Lexington currently employs 58 people and has offices in New York, Boston, London and Menlo Park.

III. Investment Strategy

Historically, between 4% - 5% of commitments to private equity funds have been sold on the secondary market by original investors. Original investors have sold their commitments in response to various factors including pruning of managers, excess commitments, regulatory changes, and general liquidity needs. The secondary investment strategy is benefiting in the current environment from an increase in investors seeking liquidity, including distressed and cash constrained investors, such as banks and financial institutions, endowments and foundations, and family offices. The supply of private equity commitments on the secondary market is estimated to be \$100 billion or more over the next five years. Meanwhile, the available capital in the hands of secondary managers is anticipated to be approximately \$35 billion, assuming funds that are currently being raised achieve their targeted capitalizations. Therefore, the combination of greater supply of interests and more modest available capital has resulted in attractive prices in the secondary market with discounts to most recent GP reported values approaching 50% or more.

Lexington Capital Partners VII, L.P. is being formed to seek to generate superior returns for its investors primarily by acquiring a diversified portfolio of interests in established global buyout, mezzanine and venture capital funds (“private equity funds”) through secondary transactions. Lexington expects the Partnership to provide investors an opportunity to achieve higher returns at lower levels of risk as compared to investments in newly formed private equity funds. Lexington’s investment strategy targets the entire spectrum of secondary transactions, from complex, multi-billion dollar portfolio transactions to individual private equity fund interests. While LCP VII is expected to concentrate on acquiring portfolios of global buyout, mezzanine and venture capital fund interests, the Partnership will also consider opportunities to acquire direct company investments and other private equity fund interests through secondary transactions. Lexington’s broad, opportunistic investment strategy will allow LCP VII to deploy capital to the segments of the secondary market offering the most attractive risk-adjusted returns. LCP VII may also invest up to 10% of its capital in newly formed private equity funds. Over the past 10 years, Lexington has committed approximately \$1 billion to 170 global buyout, mezzanine and venture capital partnerships. The ability to invest in newly formed private equity funds has been beneficial in generating returns as well as establishing or strengthening relationships between the Lexington principals and leading private equity sponsors. Investment relationships with these private equity sponsors have helped Lexington source and analyze potential secondary transactions.

IV. Investment Performance

Previous fund performance as of September 30, 2008 for the Lexington Secondary Funds is shown below:

Fund	Inception Date/s	Total Equity Commitments	SBI Investment	Net IRR from Inception
Lexington Capital Partners VI	2006	\$3,774 million	\$100 million	2%
Lexington Middle Market Investors	2004	\$556 million		16%
Lexington Capital Partners V	2002	\$2,004 million		25%
Lexington Capital Partners IV	2000	\$606 million		21%
Lexington Capital Partners III	1999	\$657 million		10%
Lexington Capital Partners II	1998	\$1,111 million		9%
Lexington Capital Partners I	1996	\$240 million		13%
3 Co-Managed Buyout and Mezzanine Funds	1993-1995	\$565 million		31%
3 Co-Managed Venture Capital Funds	1990-1995	\$440 million		25%

Previous fund investments may be relatively immature and therefore, returns may not be indicative of future results.

V. General Partner's Investment

The general partner will commit to invest at least 1% of aggregate capital commitments to the Partnership.

VI. Takedown Schedule

Capital will be called from the limited partners, as needed, with ten business days notice.

VII. Management Fee

During the investment period: 1.0% per annum of commitments; provided that the fee with respect to amounts invested in Primary Entities (interests in new private equity funds) shall be 0.5% per annum. Thereafter: The sum of (a) 0.85% per annum of the sum of (i) the "reported value" of interests in all portfolio investments, other than interests in Primary Entities and (ii) unfunded commitments that are committed to or reserved for investment in Secondary Entities; plus (b) 0.5% per annum of the sum of (i) the reported value of interests in Primary Entities and (ii) unfunded commitments committed for investment in Primary Entities.

VIII. Distributions

Proceeds from Secondary Entities (interests in established private equity funds and direct or indirect interests in operating companies acquired through secondary market purchases) otherwise allocable to limited partners will be distributed as follows: First, 100% to the limited partner until it has received distributions of such proceeds equal to the aggregate amount of capital contributions made by such limited partner in respect of investments in Secondary Entities; and Second, 90% to such limited partner and 10% to the general partner. Proceeds from investments in Primary Entities will be made pro rata based on each partner's percentage interest in such investments.

Upon liquidation of the Partnership, the general partner will be required to contribute to the Partnership the amount, if any, by which cumulative carried interest distributions received by the general partner with respect to any limited partner exceed 10% of the cumulative net profits earned with respect to such limited partner from Secondary Entities after all fees and expenses allocable thereto and in no event more than the cumulative carried interest distributions received by the general partner with respect of such limited partner (calculated on an after-tax basis).

IX. Investment Period and Term

The Partnership will have an investment period of five years from the final closing date. The Partnership's term will be ten years from the initial closing date, subject to extension by the general partner (unless a majority of limited partners disapprove) for up to three years to permit orderly dissolution.
